A Power 88 listener writes

I've listened to you since the end of May last year when we moved back to Mobile from living in Louisiana. My husband's job took us away for awhile. We do not have cable or even a TV set. We listen to your music everyday and night. I like the segments on the radio, like the news and weather reports. Thanks so much for being there!

Getting to know the staff at Goforth Media

Brad Arnold, Chief Engineer lives in Spanish Fort, AL has six years' service at Goforth Media providing engineering for all three stations at three transmitter locations operating on 7 frequencies. Keeps the stations on the air and monitors them daily maintaining the highest broadcast quality possible with Power 88 being 100,000 watts ERP.

Brad said, "I believe radio is an effective tool in reaching others with the gospel because radio requires no effort except to tune in. Positive reinforcement of God's message to us is instantly heard and felt by what we hear through the speaker and can be carried with us throughout the day."
