# ARISTOTLEK12
A PRODUCT OF SERGEANT LABORATORIES

Made to Make Life Easier

AristotleK12 is the modern, all-in-one EdTech solution built to take the complexity out of managing student technology.

Student-Centric Filtering

// *The unique design integrates with your Google Admin Console, Active Directory, or SIS and allows the filter to be deployed on-campus or off.*

// *Granular controls allow for truly customizable YouTube filtering*

// *Provide an extra layer of defense against proxies and gaming websites with automated unknown website blocking.*

Asset Utilization & Reporting

// *Geolocate student devices without placing the device in lost or stolen mode.*

// *Track downloads, identify active privacy agreements, and approve or block apps with Student Data Privacy reporting.*

Student Behavior Analytics

// *Quickly inventory software, hardware, and web application assets, as well as student activity and self-harm reports.*

Classroom Management

// *Seamless integration with your Student Information System allows educators to focus on teaching, not adjusting rosters.*

// *Intuitive classroom technology supports educators in keeping a watchful eye on student devices and maximizing classroom engagement.*

Device Compatibility

☑ **Chromebooks** ☑ **Windows** ☑ **Mac** ☑ **IOS** ☑ **Virtual Desktop** ☑ **Printers**

AristotleK12 stands out from the crowd with our five key pillars. These pillars are the foundation of our business, and ultimately, are designed to make your life easier.

1. Ultimate Flexibility

Educator needs change fast and technology changes even faster. AristotleK12 takes the headache out of managing those ever-changing needs and provides the technology needed to quickly adjust system settings to meet any student, educator, or district needs.

2. Privacy & Retention Policy

Since 1999, Sergeant Laboratories has never and will never see, sell, store, or share student information, and that is a promise. We extend this promise by signing even the most restrictive Data Privacy Agreements from school districts and states across the nation.

3. Functionality Across Device Types

AristotleK12 is built to provide high-end features, through a user-friendly interface, compatible with a variety of device types.

4. The All-in-One Value

As an all-in-one package; there are no added fees for new updates. AristotleK12 is everything you need to keep students protected and productive, under one pane of glass, at one affordable price.

5. Unmatched Support and Training

When we say an all-in-one package, we truly mean all-in-one. Comprehensive training and support are included. Our proven, U.S based support teams are well equipped to handle all your training and support needs.
