

Setting up your Canvas Parent Observer Account

Parents can sign up as an observer in Canvas. Observers can link their Canvas account to their student's account so they can see assignment due dates, announcements, and other course content. Observers can view the course content but cannot participate in the course.

2 Step Process

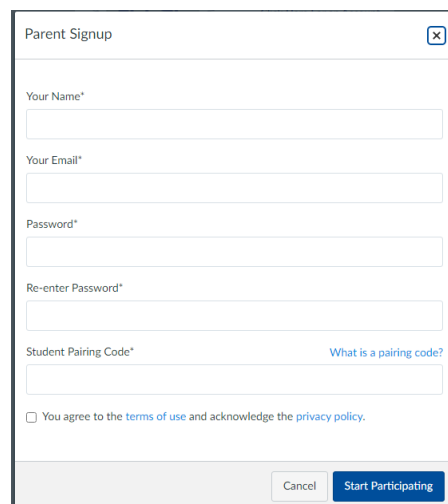

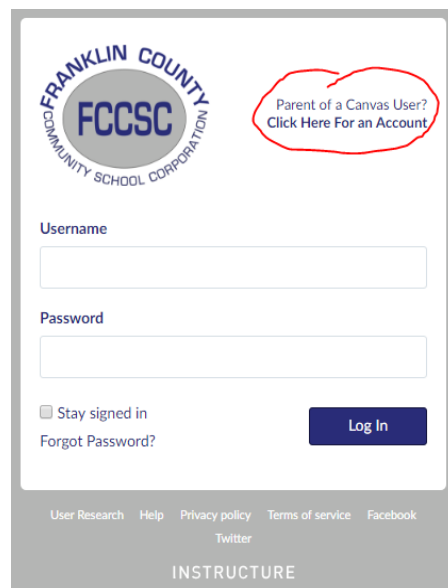

Step #1: Find your student's Pairing Code

- Have your student log into their Canvas page.
- Once logged in, have students click on their Account icon (located in the upper left hand side).
- In Accounts, select the Settings link.
- In Settings, look to the right hand side to find a button called: Pair With Observer.
- Click on this button and copy down the Pairing Code. You will use it in the next step.

Step #2 Setting up your Parent Account & Pairing with your student.

- In a web browser, navigate to <https://fccsc.instructure.com>
- Click on the link that says "Click Here for an Account"
- Enter your details.
 - Enter your name in the **Your Name** field.
 - Enter your email in the **Your Email** field.
 - Set a **Password**.
 - Verify your Password by **re-entering** it.
 - Enter in the **Pairing Code** from Step #1 above.
 - Agree to the terms of use by clicking the **You agree to the terms of use** checkbox.
 - Click the **Start Participating** button
- An email will be sent to the email address you provided. Click the link in that email to activate your account.
- You can add multiple students to your Canvas Parent/Observer account by following the directions found here: <https://goo.gl/q7G8AW>

Observer Limitations
● Observers can view the same content as the student they are observing unless the content is unpublished or restricted by locked dates. ● Observers can view module content locked by prerequisites or requirements, as module progression is not measured for observers. ● Observers can view assignments even if the student they are observing has not completed them unless the assignments are locked. ● Each instructor can customize the links in the Course Navigation and limit the number of features that students and observers can see. Observers may or may not see links to certain features.
