

7th Grade Newsletter

Week of August 24th

Math Ms. Jarrett mjarrett@rappahannockschoools.us We have started our units on Number Sense and Rational Numbers. The students will reason and use multiple strategies to compare and order rational numbers, including negative exponents with powers of ten, scientific notation, and perfect squares. We will have our first unit test next week. Please do not hesitate to reach out with any questions, comments or concerns.	English Miss Rowell mrowell@rappahannockschoools.us We are beginning the year by reviewing elements of fiction. This week, students worked on characterization and letter writing. They will continue working on their writing through "Person in Action" paragraphs. Students will complete their first vocabulary quiz this Friday and have been sent home with a vocabulary practice to help them prepare.
Civics Mr. Hummill mhummill@rappahannockschoools.us We are starting off the year by studying the foundations of government; specifically, founding principles and documents. Plan for our first quiz on Thursday August 27th.	Science Mrs. McCabe emccabe@rappahannockschoools.us We are kicking off the year by thinking like scientists! Students are beginning scientific investigations by learning how to ask questions, make observations, collect data, and use evidence to draw conclusions. We are excited to put our curiosity to work! Questions or concerns? Please feel free to reach out with an email!

Important Notes and Reminders

All students will participate in DEAR (Drop Everything And Read) time at the end of the day. Please make sure your child has a book. Students can check books out in classroom libraries or our school library as well. Thank you for your help at home!
