

GMAS TEST PREP TIPS

Spotlight on GA DOE

This week's test prep tip is straight from the GA DOE for those of you who would like to become more familiar with our GMAS assessments. I encourage you to check out this [resource repository](#) which contains anything and everything you and your student may want to know about the test, from how it looks to sample questions to grading rubrics.

GMAS TEST PREP TIPS

Spotlight on GA DOE

This week's test prep tip is again coming from the GA DOE for those of you who would like to become more familiar with our GMAS assessments. You can use the [practice test on the Georgia Experience Online platform](#) to see exactly what the GMAS will look like regarding question types and available tools. Take a few moments to sit down with your student and work through the platform, and feel free to send any questions you encounter to their teachers for clarity.

GMAS TEST PREP TIPS

Spotlight on IXL

This week's test prep tip is a program that most of you have probably already heard of: IXL. Teachers use IXL for practice in class, but students can also practice skills at home. Many of our teachers have starred specific tasks that students can practice, or you can [practice skills specific to our GMAS linked here](#).
