

## Cranford Burns ACIP Plan

**The mission** of Cranford Burns Middle School is to provide a quality education in a safe, positive, environment, and to foster a sense of self-worth that will enable all students to become skilled and productive members of society.

**The Vision** of Cranford Burns Middle School is to become a premier educational institution where students engage in multiple pathways leading to success in a global society.

The initiative of Cranford Burns ACIP Plan is to provide a quality environment that will enable all students to be successful. Burns has implemented communication through the school's website, Facebook and callout system. In an effort to promote learning and increase test scores, our school has implemented programs including Math 180, intervention for small groups, after school tutoring and collaborative teaching. Burns Middle has made a joint effort to collaborate within the academic departments to boost learning. Counselors have administered an advisor/advisee program during homeroom once a month. The school's attendance plan includes executing reports, letters, early truancy warnings, and parent contacts in an attempt to improve attendance. Monthly meetings are held to ensure communication on data and PST. Data is taken from growth assessments and grades to ensure the best environment conducive to learning for all students.

Quarterly activities such as Parenting Day, report card pickup, honor roll assemblies and band concerts are hosted throughout the year for parents. The school's goal is to build collaborative partnerships with all stakeholders to promote student success. Adequate resources and supplies are given to the students to reduce academic failure. Burns teachers host student teachers, and implement a mentor and mentee program. Burns makes every effort to create environments where every student can learn efficiently.
