

## **COVID-19 Student Prevention Protocols**

#### Conduct a daily self-health assessment at home. Student will be checked before entering any school building

- Temperature check If above 100° <u>Student will not be allowed at school and/or will need to be picked up</u> promptly.
  - If student experienced any of the following symptoms that are unusual for student, in the last 14 days, student will not be allowed at school and/or will need to be picked up promptly:
    - Cough
    - Difficulty breathing or shortness of breath
    - Sore throat
    - Chills and body aches
      - -If student has any of the above symptoms:
        - Student is requested to stay home from school
        - Student may contact their personal Health Care Provider for assessment
- If COVID-19 positive, it requires 10 days of isolation with 24 hours of no fever to return to school
- In the past 14 days, if student has: been in close contact with anyone who displays the known symptoms above or of COVID-19; have travelled outside the United States or to any high-risk locations; or been in close contact with anyone who travelled to high-risk locations, student is requested to stay home from school.

### **Physical Distancing**

- Maximize space, stay at least 3-6 feet from other people, as practicable
- Do not gather in large groups, please observe social distancing
- Stay out of crowded places and avoid mass gatherings

### **Protecting Self and Others**

- Masks/face shields are required to be worn at all times for 3<sup>rd</sup> grade students through adults and requested for TK through 2<sup>nd</sup> grade students. Exemption while eating and/or drinking.
  - Avoid touching your eyes, nose, and mouth with unwashed hands.
- Wash your hands frequently with water and soap for at least 20 seconds; especially:
  - after going to the bathroom
  - before eating
  - after blowing your nose, coughing, or sneezing
  - after touching surfaces in commonly used areas and/or touching shared items
- If soap and water are not readily available, use a hand sanitizer that contains at least 60% alcohol. Cover all surfaces of your hands and rub them together until they feel dry
- Cover coughs and sneezes with a tissue, then throw the tissue in the trash. If tissues are not available, cough or sneeze into the inside of your elbow

#### <u>Sanitation</u>

• Using RUSD provided sanitizer, all work surfaces to be cleaned and disinfected.

### **Return to School After Symptoms:**

Written certification from a medical practitioner that the student is:

- Fever-free and has been completely symptom free (no coughs, chills, COVID-19 symptoms, for at least three (3) days, and/or;
- At least ten (10) days have passed since the onset of symptoms and/or;
- At least ten (10) days of isolation with 24 hours of no fever since positive COVID-19 test and clearance from physician to return to school is provided and/or;

- HeadacheNew loss of taste or smell
- Diarrhea
- Nausea or vomiting

• Confirming that the student can return to school, that the student had a negative test for COVID-19, and that any lingering symptoms, if applicable, are not the result of a contagious illness.
