To: Carroll County AFJROTC Cadets and Parents

1 August 2024

Subject: Welcome Letter

Dear Parents and Cadets,

On behalf of the Director, Headquarters Air Force Junior Reserve Officer Training Corps (AFJROTC), the Superintendent, Carroll County Schools, and the Principal, Central High School, we welcome you to the Carroll County AFJROTC, Unit GA-20062...The Mighty 62! You will experience a unique course of instruction that will be educational, motivating and rewarding. Many of you will get to do things that others will only imagine. Your experiences in AFJROTC are the foundation for life-long memories and close friendships. We are truly confident that you will benefit from the teamwork, self-discipline, and leadership experiences that you will encounter.

As most students and parents have some questions about AFJROTC, First, let us assure you that it is neither boot camp nor combat training. There is *absolutely no military service obligation* after completing AFJROTC. This is a citizenship program that will help you develop decision-making and communication skills while building self-confidence as a leader. If you have never been in charge or responsible for anything, get ready for new opportunities! While our program will be challenging and demanding, we believe you will experience a sense of accomplishment, pride, and family.

The Cadet Guide is one of your guiding lights here in AFJROTC. All cadets must have a complete and clear understanding of the requirements, standards, and policies prescribed for them. While the cadet guide is directive in nature, the final word on any issue rests with the principal and instructors. We also urge parents/guardians to read this guide in order to gain valuable insight into AFJROTC here in Carroll County. The cadet guide can be found on the GA-20062 website at <https://chs.carrollcountyschools.com/afjrotc> and will be available via Google Classroom.

Again, welcome to Carroll County AFJROTC. We look forward to working with each of you as members of our team and family. From this day on, you will have the opportunity to improve your interpersonal skills through a challenging leadership education program, and increase your awareness of aviation history, the science of flight, and space operations. We are excited to have you enrolled and look forward to assisting you in expanding your knowledge and horizons.
