Livingston County Schools Certified Personnel Evaluation

Certified Evaluation Plan

All certified staff will be trained on the evaluation criteria and process within 30 calendar days of reporting for employment for each school year. This shall occur prior to the implementation of the plan.

The immediate supervisor or primary evaluator is responsible for evaluating teachers.

Non-tenured teachers and non-tenured other professionals (e.g. media specialist, guidance counselor, instructional coaches, etc.) will be evaluated yearly and tenured teachers and tenured other professionals will receive a full evaluation at a minimum of once every three years.

Administrators will be evaluated annually by the superintendent or by the superintendent's designee(s).

The Livingston County Board of Education evaluates the performance of the Superintendent. Opportunities for the professional growth of the Superintendent will be provided pursuant to **KRS 156.111**.

For a Year-at-a-Glance timeline for Certified Evaluation Plan, see page 17.

Roles and Definitions

- 1. **Artifact:** A product of a certified school personnel's work that demonstrates knowledge and skills.
- 2. **Assistant Principal:** A certified school personnel who devotes a portion of employed time in the role of assistant principal, for which administrative certification is required by EPSB.
- 3. **Certified Administrator:** A certified school personnel who devotes a portion of time in a position for which administrative certification is required by EPSB or KDE.
- 4. **Certified School Personnel:** A certified employee, below the level of superintendent, who devotes time in a position in a district for which certification is required by EPSB.
- 5. **Conference**: means collaborative meeting or dialogue involving the evaluator and the evaluatee for the purposes of: providing feedback from the evaluator; analyzing the results of observations; analyzing other information to determine accomplishments and areas for growth leading to establishment or revision of a professional growth plan.
- 6. **Corrective Action Plan**: means a plan whereby an evaluatee establishes specific goals to improve an identified area concerning job performance or areas that need immediate attention.
- 7. **Evaluatee:** district/school personnel that is being evaluated
- 8. **Evaluation**: means the process of assessing or determining the effectiveness of the performance of the certified employee in a teaching-and-learning or leadership-and-management situation, based on predetermined criteria through periodic observation and other documentation. Evaluation shall also include the establishment and monitoring of a professional growth plan.
- 9. **Evaluator:** the immediate supervisor or primary evaluator (or designee) who has satisfactorily completed all required evaluation training. See KRS 156.557(5)(c)2.

- 10. **Evidence**: documents or demonstrations that indicate proof of a performance.
- 11. **Formative evaluation**: means a continuous cycle of collecting information and interacting and providing feedback with suggestions regarding the certified employee's professional growth and performance. defined by KRS 156.557(1)(a)
- 12. **Framework for Teaching (Danielson):** the document indicating the domain, components, and descriptors for which certified classroom teachers will be evaluated.
- 13. **Full Observation:** an observation, conducted by the immediate supervisor that includes ratings in all four domains.
- 14. **Immediate Supervisor:** the person who provides, or is assigned, primary supervision or primary evaluation of personnel.
- 15. **Improvement Plan:** a plan for improvement.
- 16. **Job Category:** means a group or class of certified school personnel positions with closely related functions.
- 17. **Mini Observation:** an observation, conducted by the immediate supervisor or peer. Feedback may be given in any of the domains. Ratings may be provided by any supervisor or designee. Peers will not give ratings. Formal mini-observations should be at least a total of 20 minutes in duration.
- 18. **Observation**: a data collection process conducted by a certified observer, in person or through video, for evaluation or for self-reflection, including notes, professional judgments, and examination of artifacts made during one (1) or more classroom or worksite visits of any duration. Full observations will include pre and post conferencing.
- 19. **Observer Certification:** a process of training and ensuring that certified school personnel who serve as observers of evaluatees have demonstrated proficiency in rating teachers for the purposes of evaluation and feedback.
- **20. Observer:** certified school personnel who have maintained proficiency and accuracy in observing teachers for the purposes of evaluation and providing feedback.
- 21. **Other Professional**: Certified school personnel, except for teachers, administrators, assistant principals, or principals.
- 22. **Observee:** the teacher or certified professional being observed during an observation.
- 23. **Peer Observation:** Observation and documentation by trained certified school personnel below the level of principal or assistant principal who observes and documents another teacher's professional practice and provides supportive and constructive feedback that can be used to improve professional practice.
- 24. **Performance Criteria:** the areas, skills, or outcomes on which certified school personnel are evaluated.
- 25. **Performance Rating:** the summative description of a teacher, other professional, principal, or assistant principal evaluatee's performance, including the ratings listed in administrative regulation.
- 26. **Primary Evaluator:** the person who provides, or is assigned, primary supervision or evaluation of personnel.
- 27. **Principal:** a certified school personnel who devotes the majority of employed time in the role of principal, for which administrative certification is required by the Education Professional Standards Board pursuant to 16 KAR 3:050.
- 28. **Professional Growth**: increased effectiveness resulting from experiences that develop an educator's skills, knowledge, expertise and other characteristics.

- 29. **Professional Growth Goal**: measurable goal written by certified employee using established guiding questions and meets the established criteria checklist.
- 30. **Professional Growth Plan:** an individualized plan for certified personnel that is focused on improving professional practice and leadership skills and is aligned with performance standards and the specific goals and objectives of the school improvement plan and the district improvement plan, built using a variety of sources and types of data that reflect student needs and strengths, evaluatee data, and school/district data, produced in consultation with the evaluator.
- 31. **Professional Practice:** the demonstration, in the school environment, of the evaluatee's professional knowledge and skill.
- 32. **Professional Practice Rating:** the rating that is calculated for a teacher or other professional evaluate.
- 33. **Self-Reflection:** means the process by which certified personnel assess the effectiveness and adequacy of their knowledge and performance for the purpose of identifying areas for professional learning and growth
- 34. **SMART Goal Criteria:** acronym/criteria for developing student growth goals (Specific, Measureable, Attainable, Realistic, Time-bound).
- 35. **Sources of Evidence:** the multiple measures listed in KRS 156.557(4) and others.
- 36. **Student Growth:** the change in student achievement for an individual student between two (2) or more points in time including achievement on school, district, and/or state assessments.
- 37. **Student Growth Goal:** a goal focused on learning, that is specific, appropriate, realistic, and time-bound, that is developed collaboratively and agreed upon by the evaluatee and evaluator, and that uses local formative growth measures.
- 38. **Student Growth Percentile:** each student's rate of change compared to other students with a similar test score history.
- 39. **Student Voice Survey:** the student perception survey provided by the department that is administered annually to a minimum of one (1) district-designated group of students per teacher evaluatee or a district designated selection of students and provides data on specific aspects of the [classroom] instructional environment [experience] and professional practice of the teacher or other professional evaluatee.
- 40. **Summative evaluation**: means the summary of, and conclusions from, all evaluative data, including, but not limited to the formal observation data. The summative evaluation occurs at the end of the evaluation cycle. Summative evaluation includes a conference or dialogue involving the evaluator and the evaluated certified employee, and a written evaluation report.
- 41. **Teacher**: a certified school personnel who has been assigned the lead responsibility for student learning in a classroom, grade level, subject, or course and holds a teaching certificate under 16 KAR 2:010 or 16 KAR 2:020.
- 42. **Working Condition's Survey Goal:** a school improvement goal set by a principal or assistant principal every two (2) years with the use of data from a working conditions survey or surveys.

Other Definitions and Roles may be applicable.

The Certified Evaluation Plan-(CEP)

The evaluation of certified personnel is an important tool that our district utilizes to help assure the public, community, parents, and students that providing a quality education is the priority of our school system. The evaluation process is used to determine the effectiveness of an employee's performance, while providing encouragement and support for continuous professional growth and improved instruction.

The vision for the Certified Evaluation Plan (CEP) is to have every student taught by an effective teacher. The goal is to create a fair and equitable system to measure teacher effectiveness and act as a catalyst for professional growth.

The Danielson Framework for Teaching

The Framework for Teaching is designed to support student achievement and professional practice through the domains of Planning and Preparation, Classroom Environment, Instruction, and Professional Responsibilities. The Framework has been adapted for specialists to include, Guidance Counselors, Instructional Specialists, Library Media Specialists, School Psychologists, and Speech Language Pathologists and is divided into the domains of Planning and Preparation, Environment, Instruction/Delivery of Services, and Professional Responsibilities.

The Framework also includes themes such as equity, cultural competence, high expectations, developmental appropriateness, accommodating individual needs, effective technology integration, and student assumption of responsibility. It provides structure for feedback for continuous improvement through individual goals that target student and professional growth, thus supporting overall school improvement. Evidence supporting a teacher's professional practice will be situated within one or more of the four domains of the framework. Performance will be rated for each component according to four performance levels: Ineffective, Developing, Accomplished, and Exemplary. The summative rating will be a holistic representation of performance, combining data from multiple sources of evidence across each domain.

The use of professional judgment based on multiple sources of evidence promotes a more holistic and comprehensive analysis of practice, rather than over-reliance on one individual data point or rote calculation of practice based on predetermined formulas. However, one individual data point may significantly impact the overall evaluation. Evaluators will also consider how educators respond to or apply additional supports and resources designed to promote student learning, as well as their own professional growth and development. Finally, professional judgment gives evaluators the flexibility to account for a wide variety of factors related to individual educator performance, such as: school-specific priorities that may drive practice in one domain, an educator's number of goals, experience level and/or leadership opportunities, and contextual variables that may impact the learning environment, such as unanticipated outside events or traumas.

Evaluators must use the following categories (at a minimum) of evidence in determining overall ratings:

- Professional Growth Planning and Self-Reflection
- Observation

Products of Practice/Other Sources of Evidence

Teachers and Other Professionals may provide additional evidences to support assessment of their own professional practice. These evidences should yield information related to the teacher's practice within the domains. Other sources of evidence that can be used to support educator practice may include, but not limited to:

ш	Program Review evidence
	team-developed curriculum units
	lesson plans
	communication logs
	Parent/community communications
	timely, targeted feedback from mini or informal observations
	student data records
	student work
	Student voice data
	student formative and/or summative course evaluations/feedback
	minutes from PLCs
	teacher reflections and/or self-reflections
	teacher interviews
	teacher committee or team contributions
	parent engagement surveys
	records of student and/or teacher attendance
	video lessons
	engagement in professional organizations
	action research
	walkthrough data

All components and sources of evidence supporting an educator's professional practice will be completed and documented to inform the Overall Performance Category.

All Summative Ratings will be recorded in the approved platform.

Self-Reflection and Professional Growth Planning

Reflective practices and professional growth planning are iterative processes.

The teacher and other professional shall:

- (1) reflect on his/her current growth needs based on sources of data and identify an area of focus;
- (2) collaborate with his or her administrator to develop a professional growth plan and action steps;
- (3) implement the plan;
- (4) regularly reflect on the progress and impact of the plan on his or her professional practice;
- (5) modify the plan as appropriate;
- (6) continue implementation and ongoing reflection;
- (7) conduct a summative reflection on the degree of goal attainment and the implications for next steps.

The Professional Growth Plan will address realistic, focused, and measurable professional goals. The plan will connect data from multiple sources including classroom observation feedback, data

on student growth and achievement, and professional growth needs identified through self-assessment and reflection. In collaboration with the administrators, teachers/professionals will identify explicit goals which will drive the focus of professional growth activities, support, and on-going reflection. All teachers and other professionals will participate in self-reflection and professional growth planning annually, and they will document their self-reflection and professional growth planning. (See Table 1.)

Observation

The observation process is one source of evidence to determine teacher effectiveness that includes the supervisor for each certified employee. The supervisor observation will provide *documentation and feedback* to measure the effectiveness of a teacher's professional practice. The peer observation (if utilized) will not be used to inform a summative rating. Peer observation will only be used for formative feedback on teaching practice in a collegial atmosphere of trust and common purpose. The peer observer will not provide ratings. The rationale for each observation is to encourage continued professional learning through critical reflection. For some categories of Other Professionals, observations may be adapted to meet the needs of their duties.

There will be a minimum of three (3) observations in the summative cycle (two mini and one full) conducted by the immediate supervisor. Unannounced observations and/or walkthrough observations are expected. Non-Tenured Teachers, Other Professionals, and Teachers/Other Professionals on a Corrective Action Plan will be on a one year summative cycle. Tenured Teachers/Other Professionals will be on a three year summative cycle. (See Tables 2 and 3 for One Year and Three Year Summative Cycles).

Observation Conferencing

Observers/Evaluators will adhere to the following conferencing requirements for teachers and other professionals:

- Pre-conferences for mini observations may be scheduled at the request of either the evaluator or evaluatee but are not required.
- Pre-conferences for full observations may be held in person or via written exchange.
- Pre-conferences for unannounced observations do not exist.
- Post-conference, formal or informal, written or in person, shall be held by the end of the fifth (5th) working day after the observation. Conferences for formal observations must be documented.
- It is understood that mini observations may not include all elements or all domains.
- The summative evaluation conference shall be held at the end of the summative evaluation cycle.

Evaluator/Observer Certification

All administrators serving as a primary evaluator must complete the Initial Certified Evaluation Training prior to conducting a summative evaluation. Evaluator training shall include:

- (a) Initial certified evaluation training and testing provided by the Kentucky Department of Education or a provider approved by the department;
- (b) Training on KRS 156.557 and the requirements of this administrative regulation;

- (c) Training in effective observation and conferencing techniques, in providing clear and timely feedback, in establishing and assisting with a professional growth plan, and in summative decision techniques; and
- (d) A minimum of six (6) hours annually of personnel evaluation system training approved by the Effective Instructional Leadership Act established in 704 KAR 3:325.

Third Party Observer Process

If requested by the teacher, observations may be conducted by another administrator certified in current approved state platform. The selection process of the third-party observer shall, if possible, be determined through mutual agreement by evaluator and evaluatee. A teacher who exercises this option shall do so in writing to the evaluator; no later than February 15th of the academic year in which the summative evaluation occurs. If the evaluator and evaluatee have not agreed upon the selection of the third-party observer within five (5) working days of the teacher's written request, the evaluator shall select the third-party observer.

Student Voice (used with administrative discretion)

The Student Voice Survey is a confidential that collects student feedback on specific aspects of the classroom experience and teaching practice. (See Table 4).

Table 4: Student Voice Survey (SVS)

Student Voice Survey				
District Point of Contact	SIS Contact or Superintendent/Designee			
Student Groups	The SIS or Superintendent/Designee, in consultation with school administration, shall designate a uniform number of participating student groups across the district. (minimum of 1 group of students per teacher)			
SVS Administration	 The Principal will designate a School Student Voice Survey PoC. The Principal, in consultation with staff/SBDM, will determine the section to participate in the SVS. The SVS PoC will create the SVS schedule. The teacher/other professional may not administer the SVS to students on their roster for the SVS. Students should have been in the class for at least 15 classroom days prior to the SVS. 			
Teachers Student Roster	• Each teacher with a roster of ten (10) or more students shall have at least one (1) student group complete SVS, annually. More than one class/section may be combined to reach a minimum of ten (10) students.			
K-12 Students Location	 Participate in SVS at the school Implementation through Infinite Campus (IC) Student Portal or other district approved process. 			
Equal Access	 The Principal /Designee shall implement a schedule to provide equal access to technology for all students. All students, 3rd-12th, will be given the opportunity to complete at least one survey. Accommodations will be provided for students as documented by their IEP/504 Plan. 			
Timeline	• District shall select at least one (1) window for implementation at all schools between 7:00 A.M5:00 P.M.			

SVS Results	• Survey data may be available when teachers have ten (10) or more students respond.	
	Results from formative years' data may be used to inform Professional Practice in the summative year with all prior years given consideration.	
SVS Ethic Statement	District & school level staff implementing SVS or with administrative IC rights are required to understand and comply with the SVS Ethic Statement.	

Rating Professional Practice

The Kentucky Framework for Teaching stands as the critical rubric for providing educators and evaluators with concrete descriptions of practices associated with specific domains. Each element describes a discrete behavior or related set of behaviors that educators and evaluators can prioritize for evidence-gathering, feedback, and eventually, evaluation. Supervisors/evaluators will organize and analyze evidence for each individual educator based on these concrete descriptions of practice. Evaluators and educators will be engaged in ongoing dialogue throughout the evaluation cycle. The process concludes with the evaluator's analysis of evidence and the final assessment of practice in relation to performance described under each Measure at the culmination of an educator's observation cycle. The evaluator will determine, based on evidence, a summative rating for each performance measure (Planning, Environment, Instruction, Professionalism) as reflected in the *The Kentucky Framework for Personnel Evaluation (see Table 5)*. **Table 5:**

Principal and Assistant Principal Evaluations

The vision is to have every school led by an effective principal. The goal is to create a fair and equitable system to measure principal effectiveness and act as a catalyst for professional growth.

Evaluators will look for trends and patterns in practice across multiple types of evidence and apply their professional judgment based on this evidence when evaluating a principal. The role of evidence and professional judgment in the determination of ratings on standards and an overall rating is paramount in this process. However, professional judgment is grounded in a common framework; the Professional Standards for Educational Leaders.

The use of professional judgment based on multiple sources of evidence promotes a more holistic and comprehensive analysis of practice, rather than over-reliance on one individual data point or rote calculation of practice based on predetermined formulas. However, one individual data point could carry significant weight and reliance in the overall evaluation, which may include, but not limited to, a violation of the Kentucky Teacher Standards and Code of Ethics, and/or violation of KRS 161.790. Evaluators will also take into account how principals respond to or apply additional supports and resources designed to promote student learning, as well as their own professional growth and development. Finally, professional judgment gives evaluators the flexibility to account for a wide variety of factors related to individual principal performance. These factors may include school-specific priorities that may drive practice in one standard, an educator's number of goals, experience level and/or leadership opportunities, and contextual variables that may impact the learning environment, such as unanticipated outside events or traumas.

Evaluators must use the following sources of evidence in determining overall ratings:

- Professional Growth Planning and Self-Reflection
- Site-Visits

Evaluators may use the following sources of evidence in determining overall ratings:

- → Measures of Student Learning
- → Products of Practice
- → Other Sources of Evidence (e.g. surveys, stakeholder input, etc.)

Professional Practice

The following sections provide an overview of various sources of evidences that may be used to inform Professional Practice Ratings.

Professional Growth Planning and Self-Reflection

The Professional Growth Plan will address realistic, focused, and measurable professional goals. The plan will connect data from multiple sources including site-visit conferences, data on student growth and achievement, and professional growth needs identified through self-assessment and reflection. Self-reflection improves principal practice through ongoing, careful consideration of the impact of leadership practice on student growth and achievement. (See Table 8)

Site-Visits -

Completed by supervisor of principal – formal site visits are not required for assistant principals.

Site visits are a method by which the superintendent, or designee, may gain insight into the principal's practice in relation to the standards. Any scheduled visit to the school of one hour duration, or more, may be considered a Site-Visit. During a site visit, and/or during a post-conference, the superintendent or designee will discuss various aspects of the job with the principal and the findings of the site visit. (See Table 9)

Determining the Overall Performance Category

Evaluators are responsible for determining an Overall Performance Category for each principal/assistant principal for the conclusion of the summative evaluation. The evaluator determines the Overall Performance Category based on professional judgment informed by evidence that demonstrates the educator's performance against the Professional Standards for Educational Leadership.

Principal's Professional Performance Rating

A principal's Overall Performance Category is determined by the evaluator based on the principal's ratings on each Measure. Using the sources of evidence for principals/assistant principals, evaluators will use professional judgment to determine a rating for each measure (Table 10).

Summative Evaluation

The summative evaluation conference shall occur after sufficient sources of evidence have been considered according to the Overall Professional Practice Rating system (see Table 11). The summative evaluation will be documented. A copy of the evaluation will be given to the evaluatee.

All personnel evaluated will be provided an opportunity for review of their summative evaluations. All written evaluations shall be communicated with the evaluatee, and he/she will be given the

opportunity to attach a written statement to the summative evaluation. Both the evaluator and evaluatee shall be provided the opportunity to sign and date the evaluation instrument. All summative evaluations will become a part of the official personnel record and shall be filed in the central office. Summative ratings will be completed by May 1st and will be used to help determine the type of professional growth plan to be developed for the next year.

Determining the Professional Growth Plan and Summative Cycle

Based on the overall Professional Practice rating, the Superintendent, in consultation with the Principal, will determine the type of Professional Growth Plan required of the principal.

District Certified Staff- Professional Growth and Effectiveness System- (DCPGES)

The DCPGES is to be used by all certified district level personnel unless otherwise noted. District certified staff are personnel who oversee district-wide programs and whose work may not impact students directly while providing critical support to school and Board office administrators. Performance criteria is based on the crosswalk of the Superintendent Standards and Principal Performance Standards included in appendix A of this document as applicable to the job description of the individual staff member.

Self-Reflection & Professional Growth Goals

Self-Reflection is a process by which educators assess the effectiveness of their instructional planning, implementation, content knowledge, beliefs, and dispositions for the purpose of self-improvement. When educators use data to reflect on what worked, what did not work, and what types of changes they might make to be more successful, the likelihood of knowing how to improve increases dramatically. Evidence suggests that self-reflection is a critical component of the evaluation process (Airason & Gullickson, 2006; Tucker, Stronge, & Gareis, 2002).

The Professional Growth Plan should address realistic, focused and measurable professional goals. Professional growth needs are identified through self-assessment and reflection. As district staff collaborate to identify explicit goals, these goals should become the focus of professional growth activities.

Reflective practices and professional growth planning are cyclical in design. The educator (1) reflects on his/her current growth needs based on the Self-Reflection tool and identifies an area or areas for focus; (2) collaborates with the supervisor to develop a Professional Growth Plan and action steps; (3) implements the plan; (4) regularly reflects on the progress and impact of the plan on professional practice; (5) modifies the plan as appropriate; (6) and continues implementation and reflection. The district employee should meet with the superintendent or designee to develop and receive feedback on the PGP.

Professional Growth Goals

Professional Growth Goals and action plans should address the following questions:

- 1. What do I want to improve about my practice that will effectively impact student learning?
- 2. How can I develop a plan of action to address my professional learning?
- 3. How will I know if I accomplished my objective?

Observation/Site Visit:

OBSERVATION RATIONALE

The observation process is one source of evidence that includes supervisor observation. The supervisor observation/visit will provide *documentation and feedback* to measure the effective practices of the district employee whereas the peer observation will focus on the *collaborative process* in order to provide *supportive and constructive feedback*. The underlying rationale of each type of observation is to encourage continuous professional growth through critical reflection.

Observations may look more like a site visit. The observer visits the District Certified Professional when they are with teachers, during 'office' or 'planning' hours, or leading team meetings.

The observation process is designed to create dialogue between the employee and supervisor around the roles and responsibilities that relate to the employee's field to improve student learning.

All personnel will be provided an opportunity for review of their summative evaluations. All documented evaluations shall be communicated with the evaluatee, and he/she will be given the opportunity to attach a written statement to the summative evaluation. Both the evaluator and

evaluatee shall be provided the opportunity to sign and date the evaluation instrument. All summative evaluations will become a part of the official personnel record and shall be filed in the central office. Summative ratings will be completed by May 1st and may be used to determine the type of professional growth plan to be developed for the next year.

LIVINGSTON COUNTY SCHOOLS APPEALS PROCESS

APPEALS PANEL

An Appeals Panel shall be established in accordance with KRS Chapter 156 and 704 KAR 003.370. Based on issues identified in an employee's appeal documentation, the Panel shall determine whether the employee has demonstrated that a procedural violation has occurred under the District's evaluation plan and whether the summative evaluation is supported by the evidence.

The Board of Education shall appoint one certified employee and one alternate certified employee to the panel. The chairperson of the panel shall be the certified employee appointed by the Board.

Two members of the panel shall be elected by and from the certified employees of the district. Two alternates shall also be elected by and from the certified employees, to serve in the event an elected member cannot serve. Each certified employee has the right to be nominated and to vote in the process.

Of those certified employees on the ballot, the two (2) people receiving the highest number of votes from all certified staff will be the elected members of the Appeals Panel with the persons being third (3) and fourth (4) serving as alternates. If it is not possible to establish a panel, due to conflicts of interest, a special election for elected positions will be held in a timely manner.

All terms of panel members and alternates shall be for one (1) year and run from July1 to June 30. Members may be reappointed or reelected.

No Panel member shall serve on any Appeal Panel considering an appeal for which she/he was the evaluator. A Panel Member shall not hear an appeal filed by his/her immediate supervisor. Panel Members with friendship ties to either appealing party shall request to be replaced by an alternate Panel Member.

Whenever a Panel Member or a Panel Member's immediate family appeals to the Panel, the member shall not serve for that appeal. Immediate family shall include father, mother, brother, sister, spouse, son, daughter, uncle, aunt, nephew, niece, grandparent and corresponding in-laws.

APPEALS PROCESS

Pursuant to Board Policy 03.18, any certified employee who believes that s/he was not fairly evaluated on the summative evaluation may appeal to the panel within five (5) working days of the receipt of the summative evaluation. Both the evaluator and the evaluatee shall be given the opportunity, at least five (5) days in advance of the hearing to review documents that are to be presented to the District evaluation appeals panel, and may have representation of their choosing. The appeal shall be signed and in writing on a form prescribed by the District evaluation committee. The form shall state that evaluation records may be presented to and reviewed by the panel.

The burden of proof that an employee was not fairly and/or correctly evaluated on the summative evaluation rests with the employee who appeals to the Panel. The Appeal must be in accordance with the following procedures:

1. Both the evaluatee and evaluator shall submit three (3) copies of any appropriate documentation to be reviewed by members of the Appeals Panel in the presence of all three (3) members. The parties will exchange copies of documentation by or before the day it is submitted to the Panel. The members of the Appeals Panel will be the only persons to review the documentation. All documentation will be located in a secure place in the Central Office except during Appeals

Panel meetings. Confidentiality will be maintained. Copies of the documentation, once submitted to the Panel, shall not be carried away from the established meeting by either parties involved or the Panel members.

- 2. The Panel will meet, review all documents, discuss, and prepare questions to be asked of each party by the Chairperson. Additional questions may be posed by Panel members during the hearing.
- 3. The Panel will set the time and place for the hearing, and the Chairperson will provide written notification to the appealing employee and his/her evaluator of the date, time, and place to appear before the Panel to answer questions.
- 4. Legal counsel and/or chosen representative may be present during the hearing to represent either or both parties.
- 5. The hearing will be audio-taped and a copy provided to both parties if requested in writing. The original will be maintained by the District.
- 6. Only Panel members, the evaluatee and evaluator, legal counsel, witnesses, and the employee's chosen representative, will be present at the hearing.
- 7. Witnesses may be presented, but will be called one at a time and will not be allowed to observe the proceedings.

APPEALS HEARING

- 1. The Chairperson of the Appeals Panel will convene the hearing, review procedures, and clarify the Panel's responsibilities.
- 2. Each party will be allowed to make a statement of claim. The evaluatee will begin.
- 3. The evaluatee may present relevant evidence in support of the appeal.
- 4. The evaluator may present evidence in support of the summative evaluation.
- 5. The Panel may question the evaluatee and evaluator.
- 6. The Chairperson may disallow materials and/or information to be presented or used in the hearing when s/he determines that such materials and/or information is not relevant to the appeal or when the materials were not exchanged between the parties as provided in this procedure.
- 7. Each party (evaluator and evaluatee) will be asked to make closing remarks.
- 8. The chairperson of the Panel will make closing remarks.
- 9. The decision of the Panel, after sufficiently reviewing all evidence, may include, but not be limited to, the following:
 - a. Upholding all parts of the original evaluation.
 - b. Voiding the original evaluation or parts of it.
 - c. Ordering a new evaluation by a second certified employee who shall be a trained evaluator.
- 10. The chairperson of the Panel shall present the Panel's decision to the evaluatee, evaluator, and the Superintendent within fifteen (15) working days from the date the appeal is filed.
- 11. The Superintendent may take appropriate action consistent with the Panel's decision.
- 12. The Panel's decision and the original summative evaluation form shall be placed in the employee's evaluation file. In the case of a new evaluation, both evaluations shall be included in the employee's personnel file.

13. The Panel's decision may be appealed to the Kentucky Board of Education based on grounds and procedures contained in statute and regulation.

According to 704 KAR 3:370 Section 12,

Section 12. State Evaluation Appeals Panel. (1) A certified school personnel who believes that the local district is not properly implementing the district certified evaluation plan as approved by the department shall have the opportunity to appeal to the Kentucky Board of Education.

- (2) The appeal procedures shall be as established in this subsection.
- (a) The Kentucky Board of Education shall appoint a committee of three (3) state board members to serve on the State Evaluation Appeals Panel (SEAP). The SEAP's jurisdiction shall be limited to procedural matters already addressed by the local appeals panel related to the district's alleged failure to implement an evaluation plan as approved by the department. The SEAP shall not have jurisdiction of a complaint involving the professional judgmental conclusion of an evaluation, and the SEAP's review shall be limited to the record of proceedings and documents therein, or lack thereof, at the local district level.
- (b) No later than thirty (30) days after the final action or decision at the local district level, a certified school personnel may submit a written request to the chief state school officer for a review before the SEAP. If a certified school personnel does not appeal within the time frame listed in this paragraph, the request shall not be considered. A specific description of the complaint and grounds for appeal shall be submitted with this request.
- (c) A brief, written statement, and other document that a party wished to submit for consideration by the SEAP shall be filed with the panel and served on the opposing party at least twenty (20) days prior to the scheduled review.
 - (d) A decision of the SEAP shall be rendered within fifteen (15) working days after the review.
- (e) A determination of district noncompliance with the district evaluation plan or absence of a district local evaluation plan shall render the evaluation void.

Directions: After completing the Self- reflection tool, developing Student Growth Goal(s), and identifying your professional area(s) of growth, write your Professional Growth Goal (PGG) and the Domain and Component with which it aligns.

Consider these questions when developing your PGG:

- What do I want to change about my practices that will effectively impact student learning?
- How can I develop a plan of action to address my professional learning?
- How will I know if I accomplished my objective?
