GLOSSARY	104

THE HISTORY OF ACCREDITATION IN MISSISSIPPI

Since the early 1900s, accreditation has sought to improve schools through the requirements of the accrediting agency. In Mississippi, the roots of school accreditation are found in the institutions of higher learning and state teachers' associations. It began in 1896 when the University of Mississippi published a program of studies for an approved high school. The schools that met the University's prescribed program of studies were officially listed as affiliated high schools, and the graduates of those schools were admitted to the University on the basis of their records (certificates), without examination. The list included white high schools in Arkansas, Mississippi, and Tennessee, and it was soon recognized as the approved list by the other colleges in the state.

In 1918, the effort to regulate the program of studies in secondary schools was strengthened in 1918 when the University requested the Mississippi Education Association to appoint a committee to classify the affiliated high schools. The Association appointed five (5) members to a High School Classifying Committee and required this group to establish standards of classification, to devise a system for grouping high schools, and to assign each high school to its appropriate group. The responsibilities and workload of this subsidiary committee of the Mississippi Education Association continued to grow, and the need for full-time statewide supervision of high schools soon became apparent. This need was met in 1919 when the position of state supervisor of secondary schools was created in the Mississippi Department of Education (MDE). In May of 1920, the High School Classifying Committee became the State High School Accrediting Commission, a standing committee of the Mississippi Education Association. The State Supervisor of Secondary Schools chaired the first Commission, whose membership consisted of representatives from two (2) high schools, the A and M College, Millsaps College, Mississippi College, the Mississippi State College for Women, and the University of Mississippi. This Commission required high schools to meet eleven (11) minimum standards before being accredited and defined an accredited high school as one that meets all requirements and, after inspection, has been approved by the Commission.

Accreditation of elementary schools was not addressed until 1926. During that year, the Mississippi Education Association created the Elementary School Accrediting Commission to perform the same duties in regulating programs for elementary schools that the High School Accrediting Commission did for secondary schools. The Elementary Commission consisted of ten (10) members, with the newly appointed State Elementary School Supervisor serving as executive secretary of the group.

Operating as separate entities, these two (2) Commissions regulated the elementary and secondary programs in white schools until 1949 when they were discontinued by the Mississippi Education Association, and the Mississippi Accrediting Commission was formed.

The first efforts to accredit colored schools began in 1935 when the Mississippi Association for Teachers in Colored Schools organized the Negro Accrediting Commission. In 1947, the Mississippi Association for Teachers in Colored Schools became the Mississippi Teachers Association, and the Commission continued to operate under the renamed Teachers' association until 1959. During that year, the name was changed to the State Accrediting Commission, and one (1) of the first official actions of this group was to adopt the existing rules and regulations of the Mississippi Accrediting Commission.

1960-1980

The sixties found these two (2) Commissions sharing responsibilities for accrediting black and white schools; and, in carrying out their duties, both groups made extensive use of officials in the SBE. The director of the Division of Instruction and his staff served as liaison personnel in distributing, collecting, and processing accreditation information. This practice of “separate but equal” accreditation terminated in the Summer of 1970 when the State Board of Education (SBE) assumed the responsibility, thus adding a legal dimension to a voluntary process designed to improve schools.

The accreditation law of 1970 gave the SBE the power and authority to prescribe the standards and procedures for the accreditation of schools and placed the responsibility for enforcement in the MDE. The law further mandated the SBE to appoint a Commission on School Accreditation (CSA), whose membership would consist of three (3) representatives from each of the five (5) Congressional districts and whose primary purpose would be to continually review the accreditation system. Contrary to the general perception of the public, the law did not make accreditation compulsory for any school. The process continued to be voluntary and open to any elementary, secondary, or special school in the state.

In the decade following the passage of the accreditation law of 1970, the accreditation system continued to emphasize quantitative factors (specific resources and personnel) to accomplish as school improvement. The provision of adequate resources and personnel was assumed to be a sufficient indicator of the quality of the school program, but, as accreditation information was evaluated, it was found that the quality of the school program was not a direct correlate of the required quantitative factors. However, the system was successful in assuring the presence of adequate resources and in standardizing the organization and operation of school programs. These assurances were not enough to soothe a growing disgruntled public, which was constantly evaluating the products of accredited schools – its students.

1980-PRESENT

As the eighties approached, the state was set for reform in education and in school accreditation. The public wanted the emphasis in accrediting schools shifted from measures of quantity to those of quality. A series of significant legislative mandates passed during the past 20 years have been instrumental in not only creating the current public school accreditation model and accountability system, but also establishing Mississippi as a nationally recognized leader in the school improvement and accountability movement.

Governor William Winter recognized the need for education reform and initiated the accountability movement in Mississippi beginning with the Education Reform Act of 1982. This landmark legislation established a task force to study and propose a plan to establish guidelines and criteria for a permanent performance-based system of school accreditation for all public elementary and secondary schools. The legislation created and authorized the CSA to establish a system for assuring the quality of school programs in Mississippi. This new system, appropriately deemed performance-based school accreditation, was based upon measures that focus on the extent to which schools help students master defined content and objectives. The law shifted the emphasis in school accreditation to the outcomes of education, specifically those related to student achievement, and changed the accreditation process from voluntary to compulsory for all public elementary and secondary schools.

Legislation enacted in 1994 maintained the emphasis on student achievement and mandated that the SBE strengthen and expand the performance-based accreditation system. The 1994 legislation required the system to include: rigorous minimum standards levels above the minimum that demand High Performing performance and strict accountability measures for districts that fail to meet minimum standards.

During the 1999 Legislative Session, the legislature passed the Mississippi Student Achievement Improvement Act of 1999 requiring the SBE to create a state-of-the-art school evaluation and improvement system. The act required the SBE to implement a performance-based accreditation system for both individual schools and school districts. This legislation also required the SBE to set annual performance standards for each of the schools in the state and to measure the performance of each school against itself, using student growth and performance measures. Before new standards and tests were developed, hundreds of teachers helped to re-write the curriculum for mathematics and language arts.

Legislation passed in 2000 clarified requirements for establishing new accountability standards, making accreditation levels reflective of student performance at the school level rather than the district level. This 2000 legislation required individual school performance accreditation levels to be based on two (2) criteria: (1) meeting an annual growth expectation in student achievement and (2) the percentage of students scoring at the basic and proficient level. These were identified as the Achievement Model and the Growth Model. This legislation also established an intensive assistance program for schools not meeting the accreditation standards. Support and training for teachers, administrators, and school board members have been and will continue to be offered to local school districts.

In this accountability system, public school accreditation was two-fold: Each school district was awarded an accreditation status based on compliance with process standards, and individual schools were assigned a school performance classification based on student achievement. District accreditation statuses were awarded under the new accreditation model in October 2001, and individual school performance classifications were assigned in September 2003. For the first time, all components of a school - students, teachers, principals, superintendents, and school board members – were held accountable for student learning.

In 2007, an Accountability Task Force began working on what a new accountability system should look like considering the new curriculum framework in Language Arts, Mathematics and corresponding assessments that were being implemented. Furthermore, the SBE had established three (3) Bold Goals; (1) Reduce the dropout rate to 13% by 2013, (2) Reach the national average on national assessments by 2013, and (3) Ensure that all students exit 3rd grade reading on grade level by 2020. Based on this commitment, the Accountability Task Force and the CSA shaped an accountability system aimed at moving Mississippi schools toward national performance standards.

In the Fall of 2008, the Accountability Task Force began developing recommendations to present to the CSA for the revised accountability system. The CSA finished these recommendations and submitted for approval to the SBE. This accountability system received SBE approval on March 20, 2009.

This accountability system focused on several key issues. First, a performance classification designation would be issued to both schools and districts. In addition to an achievement component and a growth component, a graduation/dropout component was included for high schools and school districts. Another key point for consideration in this accountability system was that the performance classification issued to schools and districts should differ from the previous labeling system so there could be no comparisons

between the two (2) models. A final consideration was that the district performance classification should be based on the performance of all students in the district, treating the district as one (1) K-12 school.

The SBE set a very bold goal of reaching the national average on national assessments by 2013. When the SBE passed this accountability rating system on March 20, 2009, they took an important step toward reaching that goal and made a tremendous commitment to prepare Mississippi children to compete on a national and international level. This system placed Mississippi standards on par with standards in other states and allowed greater transparency in school, district, and state performance.

The Legislature enacted the *Children First Act of 2009* to create a task force to study and report the status of underperforming schools and school districts, enhancement of accountability, and sanctions imposed on those schools and school districts. As a result of the task force study and recommendation, Governor Haley Barbour approved the *Children First Act (CFA)* on April 8, 2009.

During a session of public meetings and workshops held in the Summer of 2012 through the Fall of 2013 the MDE Accountability Task Force developed many recommendations. The recommendations of the Accountability Task Force are directly aligned with the vision and mission of the SBE. The SBE set forth the following vision:

- To create a world-class education system that gives students the knowledge and skills to be successful in college and the workforce and flourish as parents and citizens. To do so, the state must provide leadership through the development of policy and accountability systems so that all students are prepared to compete in the global community.

The following Accountability Task Force recommendations support the three (3) SBE goals:

- Goal 1: To mobilize resources and supplies to help ensure that all students exit third grade reading on grade level.
- Goal 2: To reduce the dropout rate to 13% by 2015.
- Goal 3: To have 60% of students scoring proficient and advanced on assessments of the Common Core State Standards by 2016 with incremental increases of 3% each year thereafter.

The authority for Mississippi's system of school accountability is addressed in Mississippi statutes and rules. The Mississippi Statewide Accountability System was based on Federal laws as required under the Elementary and Secondary Education Act Flexibility Waiver, Miss. Code Ann. § 37-17-6, and the recommendations from the Accountability Task Force and Technical Review Committee which was formed in the Fall of 2013. A new Accountability Task Force is created annually to continue to review and make recommendations to revise the business rules of the Mississippi Statewide Accountability System.

In 2013, the Educational Principles and Practices Task Force was created through a mandate from the SBE to review and revise the *Mississippi Public School Accountability Standards, 2012*. The task force members consisted of 9 (nine) District Superintendents, 1 (one) SBE member, and 1 (one) MDE Representative. Through the assistance of SEDL's Southeast Comprehensive Center (SECC), the final version of the updated Accountability Standards was approved by the SBE in April 2014 and became official July 1, 2014, for the 2014-2015 School Year.

In October of 2014 the SBE approved accreditation audit procedures that may lead to the declaration of a State of Emergency in accordance with Miss. Code Ann. §§ 37-17-6 (12)(a) and (b) and Accreditation Policy 5.0. Accreditation Policy 5.0 gives the SBE and CSA the authority to call an on-site audit or

investigation of a school district at any time. Accreditation Policy 5.2 also authorizes public school district audits to be conducted in response to formal complaints being received by the MDE.

In December of 2014 the SBE unveiled a 5-year Strategic Plan for 2016-2020, which sets the roadmap for changing the trajectory of public education in Mississippi. The plan detailed five (5) goals to improve educational outcomes for every public school student in the state. The five (5) goals are:

1. All Students Proficient and Showing Growth in All Assessed Areas
2. Every Student Graduates from High School and is Ready for College and Career
3. Every Child Has Access to a High-Quality Early Childhood Program
4. Every School Has Effective Teachers and Leaders
5. Every Community Effectively Using a World-Class Data System to Improve Student Outcomes In

August of 2016, the SBE updated the plan with a sixth goal. The sixth goal is:

6. Every School and District is Rated “C” or Higher

The 5-year plan builds upon the Board’s existing priorities of improving literacy, particularly among K-3 students, reducing the dropout rate and improving overall student proficiency. Embedded in the plan is the Board’s full commitment to maintaining Mississippi’s College- and Career-Readiness Standards.

In the Spring of 2017, a Task Force was established to review and update Process Standards 29, 30, and 31 as well as their related checklists and monitoring forms. Editorial changes were made to the Process Standards while the monitoring forms, checklist, and related documents were updated with a scheduled release date for the 2017/2018 school year.

In June of 2017 the SBE approved Mississippi’s Every Student Succeeds Act (ESSA) plan, the federal law that reauthorizes and modifies the Elementary Education and Secondary Education Act (ESEA). The SBE adopted the ESEA plan to improve transparency, provide support for underperforming schools and districts, increase accountability for results, and focus professional training for better quality teachers and school leaders to positively impact public education in Mississippi.

ACCREDITATION POLICIES OF THE STATE BOARD OF EDUCATION

1.0 ADMINISTRATIVE POLICY

The Education Reform Act of 1982 created the Commission on School Accreditation (CSA) to continuously review the standards on accreditation and the enforcement thereof and to make recommendations thereon to the SBE. Miss. Code Ann. § 37-17-3

1.1 MEMBERSHIP OF THE COMMISSION ON SCHOOL ACCREDITATION

The CSA shall be composed of fifteen (15) members, as prescribed in Miss. Code Ann. § 37-17-3 and shall consist of two (2) classroom teachers, two (2) principals of schools, two (2) school district superintendents, two (2) local school board members, and seven (7) individuals who are not actively engaged in the education profession.

No local school district shall be permitted to have more than one (1)-member representative on the CSA.

1.2 APPOINTMENT

Each member of the CSA is appointed by the SBE upon recommendation of the State Superintendent of Public Education.

1.3 TERMS OF OFFICE

The length of a regular term is four (4) years. Upon acceptance of appointment, each member is eligible to serve for two (2) consecutive terms. If a member changes employment or accepts a position that is no longer reflective of the category for which he or she was appointed, or if a member moves out of the Congressional district he or she was appointed to represent, that member must resign and a new member will be appointed to fill the unexpired term. A member of the CSA who is appointed to fill an unexpired term is eligible for appointment to his or her own term(s) of office.

1.4 GENERAL DUTIES OF COMMISSION ON SCHOOL ACCREDITATION

The SBE, acting through the CSA, shall establish and implement a permanent performance-based accreditation system, and all public elementary and secondary schools shall be accredited under this system. It shall be the purpose of the CSA to continually review and enforce the standards on accreditation and to make recommendations to the SBE.

1.5 OFFICERS

The CSA annually elects a chairperson and vice-chairperson. The CSA may designate a member to serve as presiding officer in the event the chairperson and vice-chairperson are unable to preside.

1.6 MEETINGS

The CSA meets on call of the State Superintendent of Public Education. Any official action taken by the CSA requires the presence of a quorum, which is defined as a majority of the membership. The CSA shall provide notice of the meetings, which notice shall include the date, time, place, and purpose of each CSA meeting. Any member of the CSA may participate in an official meeting by teleconference or video means.

1.6.1. Agenda

The Executive Secretary, in consultation with the Chairperson, shall prepare the agenda which is to be considered by the CSA.

All requests to be placed on the agenda shall be received in writing by the Executive Secretary no later than ten (10) days before a scheduled meeting. Agenda items received after this deadline may only be added if approved by a majority vote of the CSA.

The Executive Secretary shall provide the proposed agenda, with supporting documents, to each CSA member, no later than seven (7) days prior to a scheduled meeting.

Further distribution of the agenda shall be made to all interested parties, all persons appearing before the CSA, and to the media.

1.6.2. Minutes

The Executive Secretary shall prepare the minutes of the CSA. The Executive Secretary may secure such assistance as is necessary for the preparation of the minutes.

All proposed minutes shall be provided to each CSA member within seven (7) days prior to any scheduled meeting.

All proposed minutes shall become the official minutes, after adoption by the CSA.

1.7 EXPENSES

In accordance with Miss. Code Ann. §§ 25-3-41 and 25-3-69, each member of the CSA is reimbursed for per diem, travel, and other allowable expenses that are incurred when attending meetings of the CSA.

1.8 STAFF

Staff assigned to the CSA consists of personnel in the MDE. An appropriate staff member of the MDE shall be designated and assigned by the State Superintendent of Public Education to serve as Executive Secretary and coordinator for the CSA.

2.0 DISTRICT ACCREDITATION POLICY

The SBE, acting through the CSA, is required to establish and implement a process for accountability at the public school district level. School districts are held accountable for Accreditation Policies and Process Standards and receive an annual accreditation status. Standards of the performance-based accreditation system recommended by the CSA and adopted by the SBE are contained in the current edition of the *Mississippi Public School Accountability Standards*.

2.1 ASSIGNMENT OF DISTRICT ACCREDITATION STATUSES

In the fall of each year, the CSA determines the annual accreditation status of all public school districts based on verified accreditation data from the previous school year. An annual district accreditation status is assigned based on compliance with Process Standards. Information concerning district compliance with Process Standards is reported to the CSA on an annual basis. See Policy 2.2.

The district superintendent and school principals are responsible for ensuring that all data reported to the MDE are true and accurate as verified by supporting documentation on file in the school district. Reporting false information is a violation of the accreditation requirements set forth by the SBE and may result in the downgrading of the district's accreditation status.

After the CSA acts on accreditation records presented, during the fall, the district superintendent and the chairperson of the local school board are notified of the assigned status. The decision of the CSA is final unless appealed by the school board of the school district to the SBE in accordance with the appeal procedures in Policy 6.0 of this document. If a school board of the school district does not request a hearing before the CSA, they waive their right to any appeal of the CSA's decision.

2.2 PROCESS STANDARDS

Process (input) Standards address accepted educational principles and practices that promote educational quality. Any verified violation of a Process Standard is noted on the record summary of a school district at the time of discovery within any school year; however, it does not affect the current accreditation status of the district. See Policy 2.5 for the exceptions. If a noted violation of a Process Standard has not been corrected by the following school year when accreditation statuses are assigned, the violation is reported to the CSA for appropriate action.

The SBE, acting through the CSA, reserves the right to suspend school district compliance of any Process Standard that is not mandated by state or federal law. See Policy 4.2 for Rewards.

2.3 ACCREDITATION STATUSES DEFINED

Districts are assigned an annual accreditation status based on compliance with Process Standards and Accreditation Policies.

ACCREDITED is assigned to a district that complies with Accreditation Policies and 100% of the Process Standards. (See exceptions in Appendices F and H.)

PROBATION is assigned to a district that fails to comply with 100% of the Accreditation Policies and Process Standards. The district will be required to develop and implement a Corrective Action Plan (CAP) with defined timelines to address the deficiencies. See Policy 2.8.

WITHDRAWN is assigned to a district that has previously been assigned a PROBATION status and has failed to comply with its CAP within the approved timelines. It may also be assigned to a district found in violation of any Process Standards contained in Policy 2.5.2. Any school district placed in a District of Transformation may have its accreditation withdrawn. The district will be required to develop and implement a CAP with defined timelines to address the deficiencies. See Policy 2.8.

2.4 NOTIFICATION OF DEFICIENCIES AFTER ASSIGNMENT OF STATUS

After the annual assignment of a district's accreditation status in the fall, the process of determining statuses for the following school year begins. Whenever information on file with the MDE indicates that a school district may be in violation of a standard, the superintendent and the school board of the district are notified in writing by appropriate MDE staff responsible for monitoring compliance with the standard. School district officials are given forty-five (45) calendar days from the date of receipt of notification to provide a written response verifying accuracy or inaccuracy of the notice of possible noncompliance with the standard.

If the written response includes sufficient evidence to correct or refute the alleged violation, the superintendent of the district is notified by appropriate MDE staff responsible for monitoring compliance with the standard. Any verified violation of a standard is reported in writing to the Office of Accreditation, where

it is noted on the current Accreditation Record Summary of the district. The Office of Accreditation notifies the superintendent of the district in writing of the verified violation.

2.5 FACTORS THAT MAY AFFECT AN IMMEDIATE CHANGE IN ACCREDITATION STATUS

An assigned accreditation status may remain unchanged during that school year except in those cases where verified noncompliance of accreditation standards may downgrade an accreditation status immediately, in accordance with Policy 2.5.1 or 2.5.2.

2.5.1 Recommended Accreditation Status – PROBATION

Districts in violation of any of the following standards may be presented to the CSA for action, that may include downgrading the district's accreditation status to Probation:

- Accreditation Policy 2.1, reporting false information,
- Standard 1.1 and 1.3, failure to implement appropriate standards of governance,
- Standard 1.2, failure to comply with school board policies that meet state and federal statutes, rules, and regulations,
- Standards 4 and 5, failure to comply with financial accountability requirements,
- Standard 14, failure to comply with graduation requirements,
- Standard 16, failure to comply with test security procedures required by the Mississippi Statewide Assessment System,
- Standards 17.1-17.8, failure to comply with state/federal regulations,
- Standard 20, failure to comply with Instructional Practices, or
- Standards 29, 30, and 31, failure to comply with standards that sustain a safe school climate.

2.5.2 Recommended Accreditation Status – WITHDRAWN

Districts in violation of any of the following standards may be presented to the CSA for action, that may include withdrawal of the district's accreditation:

- Accreditation Policy 2.1, reporting false information,
- Standard 1.1 and 1.3, failure to implement appropriate standards of governance,
- Standard 1.2, failure to comply with school board policies that meet state and federal statutes, rules, and regulations,
- Standards 4 and 5, failure to comply with financial accountability requirements of a serious nature,
- Standard 14, failure to comply with graduation requirements specified in Standards 14.1, 14.2, and 14.5,
- Standard 16, failure to comply with test security procedures required by the Mississippi Statewide Assessment System in Appendix F, numbers 8 and 9,
- Standards 17.4-17.6, federal programs whose regulations call for strong sanctions for continued patterns of noncompliance,
- Standard 20, failure to comply with Instructional Practices, or
- Standards 29, 30, and 31, failure to comply with standards that pose life-threatening conditions for students and staff.

2.6 RESOLVING ACCREDITATION CONTROVERSIES

All controversies involving the accreditation statuses of school districts are initially heard by a duly authorized representative of the CSA in accordance with Miss. Code Ann. § 37-17-5, and Policy 6.0, unless a recommendation is made regarding a State of Emergency under Miss. Code Ann. §37-17-6(12)(b). See Policy 2.9.

2.7 CONSOLIDATION OF SCHOOL DISTRICTS OR RECONFIGURATIONS OF SCHOOLS

2.7.1 When two (2) or more school districts consolidate, the affected school district(s) may, depending on the nature and applicability, have any current citations applied to the consolidated district until the consolidated district has provided evidence of compliance of the violation and the Office of Accreditation has verified compliance.

2.7.2 When a local school board approves the reconfiguration of a school within the same district the school district may be allowed to maintain its accreditation status.

See Section 20 of the Business Rules of the Mississippi Statewide Accountability System for additional explanation of how performance classifications (grades) are assigned to reconfigured schools/districts.

2.8 CORRECTIVE ACTION PLAN (CAP) AND WITHDRAWAL OF ACCREDITATION

2.8.1 Corrective Action Plan (CAP) with Definitive Timelines

When a school district has been assigned a PROBATION or WITHDRAWN accreditation status, the school district shall develop a Corrective Action Plan (CAP) with defined timelines in which to correct the district's deficiencies.

The school district is required to submit a CAP within sixty (60) calendar days of notification. The plan shall stipulate what will be done to remove the deficiencies and the timeline required in accordance with Miss. Code Ann. § 37-17-6(11)(b). The plan shall be approved by the local school board as documented by official minutes and bear the signatures of the school board chairperson/president and district superintendent. The SBE has final approval on the CAP and the timelines. When corrective action has been implemented to remove a citation, the school district shall submit documentary evidence confirming such to the Office of Accreditation. Assigned MDE staff may conduct follow-up visits as necessary to verify corrective action and compliance.

2.8.2 Withdrawal of Accreditation

If the district fails to correct the deficiencies during the time specified in the CAP, the school district may have its accreditation withdrawn by the CSA in accordance with Miss. Code Ann. § 37-17-6(12)(a). The status of the district will be listed as WITHDRAWN NOT ACCREDITED, and the record of that district will continue to be maintained.

2.8.2.1 Hearings

Before requesting approval from the SBE to withdraw the accredited status of a district, the CSA shall conduct a hearing to allow the officials of the affected district to present evidence or other reasons why its accreditation should not be withdrawn. See Miss. Code Ann. § 37-17- 6(12)(a) and Policy 6.0.

2.8.2.2 Results of Hearings

Upon consideration of the transcribed record and recommendation of the CSA's representative, the CSA shall meet, make a decision, and notify all parties in writing by certified mail. Within forty-five (45) calendar days of the conclusion of the hearing and after consideration of the results of the hearing, the CSA shall be authorized, with the approval of the SBE, to withdraw the accreditation of the district and may issue a request to the Governor that a state of emergency be declared in that district in accordance with Miss. Code Ann. § 37-

17-6(12)(a). If the decision is made not to withdraw the accredited status of the district, a new timeline is established in the district's Corrective Action Plan (CAP).

2.8.2.3 Public Notice

If a state of emergency has been declared, the CSA files a public notice at least once a week for at least three (3) consecutive weeks in a newspaper published within the immediate or general vicinity of the affected school district in accordance with Miss. Code Ann. § 37-17-6(13).

2.8.2.4 Access to School District Records

School districts are required to produce necessary reports, correspondence, financial statements, and any other documents necessary for the CSA to implement this section on withdrawal of accreditation and District of Transformation.

2.8.2.5 Reinstatement of an Accredited Status

Based on the recommendation from the Office of Accreditation or the State Superintendent of Public Education, the superintendent and school board chairperson/president of a school district whose accreditation has been withdrawn may file a petition with the CSA on School Accreditation for reinstatement of accreditation to be effective on January 1 or July 1. The CSA shall require all school districts that petition for reinstatement of accreditation to appear before the CSA to furnish evidence satisfactory to the CSA that the school district is compliant with all accreditation standards prior to the reinstatement of accreditation.

2.9 CONDITIONS OF EMERGENCY STATUS AND WITHDRAWAL OF ACCREDITATION

2.9.1 Declaration of State of Emergency

The SBE may request the Governor to declare a state of emergency in any school district in accordance with Miss. Code Ann. § 37-17-6. Upon the declaration of the state of emergency by the Governor, the SBE may take all such action for dealing with the school districts as authorized under Miss. Code Ann. § (12) or (15), including the withdrawal of the district's accreditation.

2.9.2. State of Emergency Hearing Procedures

Pursuant to Miss. Code Ann. § 37-17-6(12), there are several avenues for the SBE to make a request to the Governor to declare a state of emergency.

2.9.2.1 Withdrawal of Accreditation Hearing and Subsequent State of Emergency

In accordance with Miss. Code Ann. § 37-17-6(12)(a), the CSA shall conduct a hearing to determine whether a school district's accreditation should be withdrawn based on failure to comply with their CAP or violations of accreditation standards that may require immediate action. Based on the CSA's consideration, if the CSA, with the approval of the SBE, withdraws the accreditation of a school district, the SBE shall be authorized to request to the Governor that a state of emergency be declared in the district. See Miss. Code Ann. § 37-17-5, Policy 2.8.2, and Policy 6.0 for hearing procedure.

2.9.2.2 Extreme Emergency Situation Hearing

In accordance with Miss. Code Ann. § 37-17-6(12)(b), the MDE's Office of Accreditation shall present evidence to the CSA to support the existence of an extreme emergency situation in the school district that jeopardizes the safety, security, and educational interests of the children and the belief that the emergency situation is related to a serious violation or violations of accreditation standards or state or federal law or failure to meet academic standards as

evidenced by a continued pattern of poor student performance. This presentation shall not exceed forty (40) minutes.

Following the MDE's Office of Accreditation's presentation, district representative(s) which shall include, the superintendent and school board chairperson/president, will address the CSA. While the district may have legal representation, *only* district employees and/or school board members may address the CSA during the forty (40) minutes allowed for the district to present evidence pertinent to this matter.

Following the presentations, the CSA will be allowed to address MDE staff and local district representatives to ask any clarifying questions.

Once all questions have been asked by the CSA, the attorney for the district (if applicable), and the attorney for the MDE, will be allowed ten (10) minutes each to provide closing arguments.

Based on the evidence presented, the CSA acts in one of the following manners:

- Accepts the recommendation of MDE and determines that an extreme emergency exists. The CSA submits the resolution to the State Superintendent of Public Education and the State Board of Education; or
- Rejects the recommendation of MDE.

In accordance with the resolution from the CSA that an extreme emergency exists, the SBE meets to:

- Accept the CSA's determination that an extreme emergency exists, and requests the Governor to declare a state of emergency; or
- Reject the CSA's determination that an extreme emergency exists.

Any request made to the Governor, shall contain an expiration date, which automatically rescinds the request to the Governor if the Governor fails to declare a state of emergency after a specified time period. This expiration date shall be set by the SBE.

2.9.2.3 Failing District

The MDE Office of Accreditation may present evidence to the SBE that the school district meets the SBE's definition of a failing school district ("F" designation) for two (2) consecutive years. No prior action by the CSA is necessary.

The SBE may request the Governor to declare a state of emergency in that school district.

2.9.2.4 More than 50% of the schools are Schools At-Risk

The MDE Office of Accreditation may present evidence to the SBE that more than 50% of the schools within the school district are "schools at-risk" (i.e., failing schools identified as "F") in any one (1) year. No prior action by the CSA is necessary.

The SBE may request the Governor to declare a state of emergency in that school district.

2.9.3 Achievement School District

In the alternative, the SBE may consider a school district for inclusion in the Achievement School District (ASD), in accordance with Miss. Code Ann. § 37-17-17 if it meets the definition of Failing District or More than 50% of the schools are Schools At Risk, as found in Policy 2.9.2.3 and 2.9.2.4, and meets the following criteria established by the State Board of Education:

- The Mississippi Achievement School District shall only take over the number of districts for which it has the capacity to serve; and

- District must have been identified as an “F” district for two (2) consecutive years or two (2) of three (3) consecutive years; and
- 50% or more of the schools are rated as an “F” school; and/or
- 50% or more of the students in the district are in an “F” school.

2.9.4 Penalty for the Withdrawal of Accreditation

Policy 2.9.3 is effective one (1) calendar year following the Withdrawal of Accreditation by the CSA and the SBE.

The withdrawal of a school district’s accreditation by the CSA will result in the following:

- A school or schools within a district shall be limited to participation in no more than fifty percent (50%) of the regular season of any interscholastic activity, which shall include division/district/regional games,
- The interscholastic season schedule for a school or schools within a district shall not include the opening day of season or any type of post season participation, as determined by the Office of Accreditation, and
- Cheerleading, drill and dance squads, speech and debate, choral music, and band may participate in district or state contest, but shall not be eligible to receive ratings.

All schedule requests must be submitted in writing to the MDE’s, Office of Accreditation, at least thirty (30) days prior to the beginning of the season. The Office of Accreditation shall pre-approve all schedules and participation in interscholastic activities. In addition to the suspension of all post season activities, the school district shall not be allowed to participate in jamborees, special games, parades, tournaments, holiday tournaments, or competitions of any nature.

Failure to comply with section 2.9.3 will result in the suspension of ALL interscholastic activities.

Failure of a district to have its accreditation reinstated by the CSA after a period of two (2) calendar years from the date of the withdrawal of accreditation shall result in the immediate suspension of ALL interscholastic activities until the district’s accreditation status is reinstated.

Note: Interscholastic activities include, but are not limited to, football, basketball, baseball, track and field, cross country, tennis, golf, volleyball, softball (fast pitch and slow pitch), soccer, wrestling, swimming, power lifting, bowling, archery, cheerleading, drill, and dance squads, speech and debate, choral music, and band.

3.0 PERFORMANCE CLASSIFICATION POLICY

The SBE, acting through the CSA, is required to establish and implement a process for accountability at the individual public school level and district level in accordance with Miss. Code Ann. § 37-17-6. Individual schools and districts are held accountable for: 1) student proficiency, 2) student growth, and 3) graduation, 4) acceleration, 5) college- and career-readiness, and 6) participation, if applicable, and receive an annual School Performance Classification and District Performance Classification.

When the district establishes a new school and/or the district reconfigures the specific grades or students assigned to an existing school(s) within the district, the student proficiency data used to assign school performance classifications will follow the guidelines established in the School Performance Standards and the Mississippi Statewide Accountability System.

3.1 ASSIGNMENT OF PERFORMANCE CLASSIFICATIONS

3.1.1 School Performance Classification

Information concerning school performance is reported to the CSA on an annual basis, and performance classifications are assigned in the fall of each school year. In accordance with Miss. Code Ann. § 37-17-6(5), each public school will be assigned an annual performance classification. In addition, the graduation rate will be included in determining the performance classification of schools with a Grade 12. See Miss. Admin. Code 7-3: 7.1 and 7.2, State Board Policy Chapter 7, Rules 7.1 and 7.2 and the Glossary for definition of alternative school. Note: Refer to the Business Rules of the Mississippi Statewide Accountability System for exceptions.

3.1.2 District Performance Classification

Information concerning district performance is reported to the CSA on an annual basis, and performance classifications are assigned in the fall of each school year. Each public school district will be assigned an annual performance classification based on proficiency, growth, graduation rate, acceleration, college- and career- readiness, and participation. A district performance level is assigned based on the performance of all students in the district [i.e., the district will be treated as one (1) K-12 school].

3.1.3 Internal Review of Preliminary Accountability Results

If the school district has reason to believe the preliminary results of the statewide accountability system applied to a district or school are incorrect due to a calculation or data error, the school district may submit written evidence to the Office of District and School Performance, to support the position of the school district. All requests for review shall be submitted in writing based on the timeline published each year by the Office of District and School Performance. Any requests not submitted based upon the published timeline shall not be considered after the deadline for submission.

The Office of District and School Performance will review these requests and present them to an Internal Review Committee for consideration. The Internal Review Committee will consist of, at a minimum, four (4) MDE staff, and one (1) external chairperson.

The Office of District and School Performance shall present the decision(s) of the Internal Review Committee to the CSA for consideration.

3.1.4 Review or Appeal of Final Accountability Results

If the school district disagrees with the decision of the SBE, the school district may submit written evidence to appeal the final results of the statewide accountability system approved by the SBE. Only appeals based on results believed to be incorrect due to a calculation or data error, shall be considered. The appeal shall be submitted to the Executive Secretary of the SBE within ten (10) calendar days of the SBE's approval. Only school districts that have contested preliminary results may seek an appeal of the decision of the SBE. Any school districts that have not contested preliminary results will have waived their rights to appeal the final results of the statewide accountability system.

For those applicable appeals to the final results, the same process shall be followed as a request for review (i.e., Internal Review Committee, CSA, and SBE); however, during the appeal of the final results, school districts will receive notification of the Internal Review Committee's decision prior to presentation to the CSA. The district superintendent may request to address the CSA regarding the appeal of the results. The district superintendent shall be allotted thirty (30) minutes to address the CSA. The MDE shall also be allotted thirty (30) minutes to address the CSA. The CSA may ask questions of either the District or the MDE following their presentation. The CSA shall not consider any new

factual evidence, not previously provided to the Internal Review Committee. The CSA will make a recommendation to the SBE for approval. At the SBE meeting, the district superintendent shall be allotted ten (10) minutes to address the SBE. The MDE shall also be allotted ten (10) minutes to address the SBE. The SBE may question either the district superintendent or the MDE following their presentation. The SBE shall not consider any new factual evidence. The SBE may either affirm or deny a school district's appeal. The SBE makes the final determination of the appeal's disposition.

3.2 PERFORMANCE STANDARDS

Performance (output standards) address selected components of the statewide assessment program and other outcome measures related to the performance of a school and/or district. The SBE also considers factors such as proficiency and growth, graduation rates, dropout rates, college- and career- readiness, acceleration, participation, and any other factors the SBE deems appropriate.

3.3 PERFORMANCE CLASSIFICATIONS

The performance classification assigned to a school or district will be determined by performance indicators as defined in the Mississippi Statewide Accountability System. These indicators are scored and combined to assign performance classifications of **A, B, C, D, and F**. See Performance Standards.

A school may not receive a school performance classification if test data have been invalidated, and the school performance classification will be noted as Test Data Invalidated. (See Section 18 of the Business Rules of the Mississippi Statewide Accountability System for exceptions.) See Appendix F.

3.4 SCHOOLS AT-RISK

Following an analysis of school data each year, the MDE shall identify those schools that are deficient in educating students and need improvement in accordance with Miss. Code Ann. §§ 37-18-3 and 37-18-5. This analysis shall indicate individual school performance based on the annual performance classifications (grades).

3.4.1 Designation

A school shall be identified as a School At-Risk and in need of assistance if the school is designated as an F as identified by the SBE. A school that is failing and that is identified as Comprehensive Support and Improvement (CSI), Target Support and Improvement (TSI), or Additional Target Support and Improvement (ATSI), as outlined in the Mississippi Consolidated State Plan (Mississippi Succeeds), shall be recognized as a School At-Risk.

3.4.1.1 Comprehensive Support and Improvement (CSI) Identification

- **METHOD 1:** graduation rate less than or equal to 67% (identification in 2018-19 based on 2017-18 data; subsequent identification every 3rd year); or
- **METHOD 2:** bottom 5% of Title I A schools (identification in 2018-19 based on 2017-18 data; subsequent identification every 3rd year)
- **METHOD 3:** previously identified Additional Targeted Support and Improvement school with 3 consecutive years of subgroup proficiency performance (ELA or math) at or below that of all students in the bottom 5% of Title I A schools (identification for this group to begin in 2021-22)

3.4.1.2 Target Support and Improvement (TSI) Identification

- Subgroup in the lowest 50% of overall accountability index; and
- Subgroup in lowest quartile of 3-year average gap-to-goal; and
- Subgroup scores in lowest quartile of 3-year improvement toward gap-to-goal closure; then
- Schools with a subgroup meeting all three (3) of the above criteria will be rank-ordered annually, using overall accountability index, and the bottom 5% of all schools not identified for CSI will be identified for TSI.

3.4.1.3 Additional Target Support and Improvement (ATSI) Identification

For all schools, 3-year average subgroup performance is at or below that of all students in the lowest performing schools (bottom 5% of Title I A schools) (for example: identification in 2018-2019 based on 2015-2016, 2016-2017, and 2017-2018 data; subsequent annual identification based on most recent 3-year data trend).

3.4.2 Notification

Within fifteen (15) days after a School At-Risk has been identified, written notice shall be sent by the MDE, on behalf of the SBE, by e-mail and mail to the school principal, local superintendent, and the local board of education.

For All Schools At-Risk and CSI schools, the district shall create a team, consisting of the superintendent, a board member, the principal, specified district level staff, a content area teacher, and a parent or community member representative from the identified school, to participate in a cross-agency interview with MDE personnel to address the school's performance. The school team shall lead a presentation from a template provided by the MDE, addressing topics, including but not limited to, leading and lagging data, equitable access, leadership, instructional transformation, talent development, and culture shift. Following the interview, the superintendent shall receive verbal and written feedback on the presentation prepared by the interview team and shall utilize this feedback to inform decision-making and plan for school improvement.

3.4.3 Plan of Improvement

The school shall complete a plan for improvement, which shall be approved by the local board of education as documented by official minutes and bear the signatures of the school board chairperson/president and district superintendent. The MDE shall provide final approval for school improvement plans of schools with a CSI designation. The MDE will monitor the plan implementation of failing schools that are identified as CSI. The local school district shall monitor the plan implementation of Schools At-Risk that are not identified as CSI.

The principal or designee shall provide an update addressing progress toward the plan's action steps each month to the community during the monthly local school board meetings. The update and a copy of the school board meeting agenda shall be submitted to the MDE. The school will continue to implement the approved plan until the release of the accountability performance ratings in the subsequent year.

4.0 RECOGNITION AND EXEMPTIONS

The SBE shall provide special recognition to individual schools or school districts meeting the highest level of performance as defined as a school or district with a performance classification of an “A.”

The SBE may provide certain exemptions to individual schools or school districts assigned the performance classifications of an “A” or “B.”

4.1 RECOGNITION

Special recognition shall be provided to all schools meeting the highest level of performance. Examples of recognition include, but are not limited to, public and/or media announcements and events.

4.2 EXEMPTIONS

4.2.3 Financial Rewards

See Miss. Code Ann. § 37-19-10 for information regarding the School Recognition Program.

5.0 ACCREDITATION MONITORING PROCEDURES

The MDE continuously monitors school districts to verify compliance with applicable accreditation requirements and state and federal laws.

5.1 ON-SITE EVALUATIONS

The SBE, the State Superintendent of Public Education, or the CSA has the authority to call for an on-site evaluation or investigation of a school district at any time. If deficiencies are found in meeting accreditation standards or state and/or federal laws, the district superintendent shall be notified in writing and given forty-five (45) calendar days from the receipt of notification to provide a written response. The report of findings is filed in the current accreditation records in the Office of Accreditation.

5.2 INVESTIGATIVE AUDITS (COMPLAINTS AGAINST DISTRICTS)

All formal complaints made against schools or districts must be submitted to the Office of Accreditation in writing and include the name and contact information (valid phone number or valid e-mail address) of the individual(s) filing the complaint. The written complaint shall contain specific details concerning alleged violations. While the Office of Accreditation may receive anonymous complaints, these complaints are not considered formal. Additionally, the Office of Accreditation shall not provide any details regarding the status of a complaint and/or investigation.

5.2.1 Areas Over Which the Commission On School Accreditation Has No Authority

If the complaint addresses an area over which the CSA has no authority, receipt of the complaint is acknowledged with instructions of where to direct the complaint, and the complaint is filed in the Office of Accreditation. The CSA does not have authority to overturn decisions made by local school boards, nor does it have jurisdiction to investigate allegations of discrimination, harassment, and hostile work environment, or violations of the Public Records Act. The Equal Employment Opportunity Commission (EEOC) and/or Office of Civil Rights and the Mississippi Ethics Commission have jurisdiction over these matters. The MS Ethics Commission also has authority to enforce the provisions of the Open Meetings Act and issue civil penalties for violations.

5.2.2 Areas Over Which the Commission On School Accreditation Does Have Authority

If the complaint addresses an area over which the CSA has authority, the superintendent may be notified in writing of the nature of the complaint and given forty-five (45) calendar days to provide a written response to the allegations and to present documentation of compliance. The district superintendent may also be notified that the district is subject to an unannounced investigative audit.

5.2.3 Unannounced On-Site Investigative Audits

The SBE, the State Superintendent of Public Education, or the CSA has the authority to call for an on-site investigation of a school district at any time. Procedures for conducting investigative audits are as follows:

5.2.3.1 The auditor(s) may arrive in the district without prior notification. The number of auditors involved will depend on the nature and seriousness of the allegations.

5.2.3.2 The auditor(s) inform the district superintendent of the purpose of the audit and of the procedures to be followed. The auditor(s) will provide the district superintendent with a letter of notice from the State Superintendent of Public Education.

5.2.3.3 The auditor(s) may use various methods to collect the data needed to verify or discredit the complaint, including, but not limited to, examination of official records, anonymous surveys, interviews with school personnel, and observations.

5.2.3.4 The auditor(s) may attend all regularly scheduled and special-called board meetings of the district. The district superintendent and board chair shall notify the auditor(s) in advance of the date and time of all regularly scheduled and special-called board meetings.

5.2.3.5 Near the completion of the on-site investigation, the auditor(s) will schedule a time to meet with the superintendent and school board chair to conduct an exit conference.

5.2.3.6 Upon completion of the investigation, the auditor(s) compile a written report in accordance with Policy 5.8 that shall be provided to the district superintendent and the chairman of the school board, and depending on the recommendation of the MDE, may be addressed with the CSA.

5.3 SPECIAL TEST AUDITS

Reports regarding potential testing irregularities or test security violations are referred to the Office of Student Assessment. Such reports shall include, but are not limited to, statistical analyses of test data conducted after each test administration, self-reported incidents, third-party allegations regarding violations of testing requirements, and irregularities noted during test security audits. Regular test security audits may be conducted prior to, during, and following each test administration to promote the integrity and security of the Mississippi Assessment System. The Office of Student Assessment will report to the Office of Accreditation each testing irregularity that has been verified as a violation of a testing requirement.

5.3.1 Self-reports or third-party allegations regarding testing irregularities may be either formal written reports (signed or unsigned) or verbal reports or complaints that may be made officially or anonymously and with or without documentary evidence.

5.3.2 If a third-party allegation addresses an area over which the SBE has no authority, the individual filing the allegation will be notified.

5.3.3 A self-report or allegation shall identify specific details concerning alleged violations of test security and/or testing irregularities to warrant an investigative audit.

5.3.4 Any statistical analysis that indicates a potential testing irregularity or test security violation will be reviewed and evaluated by staff in the Office of Student Assessment. If the review and evaluation of the statistical analysis indicate that further information is required to resolve or confirm the testing irregularity, the Office of Student Assessment may require that a school district investigate the potential irregularity and report its findings to the Office of Student Assessment. Any verified testing irregularity is reported to the Office of Accreditation for appropriate action.

5.3.5 Procedures for test security audits are as follows:

5.3.5.1 The auditor may arrive at the school without prior notification.

5.3.5.2 The auditor informs the school administrator of the purpose of the audit and of the procedures to be followed.

5.3.5.3 The auditor requests that the district superintendent be notified that a test audit is in progress.

5.3.5.4 The auditor uses the same methods to collect data as described in Appendix F.

5.3.5.5 The auditor reports the audit findings to the Office of Student Assessment. If the audit findings indicate that a testing irregularity has occurred, the Office of Student Assessment will notify the district superintendent. If the response from the district superintendent does not resolve the irregularity, the irregularity is reported to the Office of Accreditation for appropriate action.

5.4 SUMMER PROGRAM AUDITS

Each school district providing educational programs during the summer is required to report summer program data, including types of instructional programs provided, staffing, and enrollment. School districts offering summer programs may be audited to verify information contained in the annual Summer School/Extended Year Report.

5.5 UNANNOUNCED AUDITS

Unannounced audits are conducted by MDE staff or MDE-trained auditors under contract with the MDE. A limited number of accreditation standards are audited, and depending on the size of the district, this audit may include only a sample review of schools.

5.6 OTHER STATE/FEDERAL PROGRAM AUDITS

When audits or evaluations of other state or federal programs reveal verified noncompliance with state or federal program regulations, the areas of noncompliance are filed with the Office of Accreditation and placed on the district's Accreditation Record.

5.7 ANALYSIS AND VERIFICATION OF ACCREDITATION INFORMATION

Accreditation staff in the MDE review annual personnel/accreditation information and other annual reports submitted by school districts. Staff will analyze and compare this information with any other accreditation data on record and notify responsible officials of any inconsistency in reporting or any apparent deficiency in meeting standards. Any information submitted by a school district may be verified through on-site visits. Upon request, the school district shall provide documentation necessary to validate compliance with accreditation requirements.

5.8 COMPILATION OF THE AUDIT REPORT

Procedures followed when reporting, interpreting, and responding to on-site audit findings are outlined in Policy 5.8.

5.8.1 A report of the on-site audit findings, including corrective actions with timelines, is compiled within forty-five (45) calendar days from the close of the audit. If additional time is needed for the compilation of the report, MDE will provide written notice of this timeline. The report, along with a cover letter stating the process standard(s) that the district failed to comply with will be mailed, e-mailed, or hand-delivered to the district. The cover letter will also provide MDE's recommendation to the CSA. Copies of the report shall be provided to the superintendent and the school board chair/president, and the CSA/SBE, if applicable.

5.8.2 If the MDE does not recommend any action (i.e., Probation, Withdrawal of Accreditation, or State of Emergency) be taken, the district shall respond to the site visit findings. The superintendent is given forty-five (45) calendar days from the day of receipt of the report, to respond in writing to any deficiency cited. The date the district's response is due in the Office of Accreditation is indicated in the report cover letter.

5.8.3 If the MDE's recommendation to the CSA is to downgrade the district's accreditation status to Probation, the MDE shall inform the superintendent and the school board of the district in writing that the district's accreditation status may be downgraded in accordance with Policy 2.5.1. Upon receipt of the notification from the MDE, the school board of a school district may request a hearing in accordance with Policy 6.0.

5.8.4 If the MDE's recommendation to the CSA is to withdraw the district's Accreditation, the MDE shall inform the superintendent and the school board of the district in writing that the district's accreditation status may be withdrawn in accordance with Policy 2.5.2. and Policy 6.0. The MDE's recommendation is only related to the withdrawal of the district's Accreditation status and not related to declaring a state of emergency.

5.8.5 If the MDE's recommendation to the CSA is to determine whether a state of emergency exists, then the MDE will follow the procedure prescribed in Policy 2.9.2.

6.0 HEARING AND APPEAL PROCEDURES

All controversies involving the accreditation of schools or school districts are initially heard by a duly authorized representative of the CSA before whom a complete record is made in accordance with Miss Code Ann. § 37-17-5 unless a recommendation is being made to declare a state of emergency under Miss. Code Ann. § 37-17-6(120)(b). See Policy. 2.9.2. This does not apply to appeals of the Mississippi Statewide Accountability System.

6.1 REQUEST FOR HEARING

The school board of a school district may request a hearing by filing written notice with the executive secretary of the CSA within ten (10) calendar days of the written notification of the recommended CSA action.

6.2 AUTHORIZED REPRESENTATIVE OF THE COMMISSION

Upon receipt of the written request for hearing from the school board, the chairman of the CSA assigns, in writing, a duly authorized representative previously appointed by the CSA to hear the controversy.

6.3 HEARING PROCEDURES

6.3.1 The CSA's representative sets the time, place, and date for a hearing and notifies all parties of the time, place, and date of the hearing by certified mail, return receipt requested. All parties may be represented by counsel at the expense of the party. The hearing is conducted in such a manner as to afford all parties a fair and reasonable opportunity to present witnesses and other evidence pertinent to the issues and to cross-examine witnesses presented by the opposing party. The CSA's representative may permit any portion of the evidence to be submitted in the form of depositions or affidavits; and in case affidavits are received, an opportunity to present counter-affidavits is provided.

6.3.2 It is the responsibility of each party at the hearing to secure the attendance of such witness or witnesses as the party deems necessary or appropriate, and any expense connected with the attendance of such witnesses is borne by the party responsible for the attendance of the witness.

6.3.3 At least fourteen (14) calendar days prior to the hearing, parties represented by counsel and/or producing witness will provide a list containing the name, address, and telephone number of counsel and/or witnesses, and copies of all exhibits that will be produced at the hearing, to the other party or parties, and the CSA.

6.3.4 In conducting the hearing, the CSA's representative is not bound by common law or by statutory rules of evidence or by technical or formal rules of procedure, provided, however, hearsay evidence, if admitted, is not the sole basis for the determination of facts by the CSA's representative.

6.3.5 After presentation by the MDE regarding recommended action and policy in support thereof, the party filing the written notice of hearing has the burden of going forward with the evidence, and at the conclusion of the hearing, the CSA's representative grants any party the opportunity to present a statement in such party's own behalf, either in person or by such party's attorney.

6.3.6 All hearings held before the CSA's representative are recorded and transcribed by a court reporter whose fees and costs of transcription are paid by the school district involved within forty-five (45) calendar days after having been notified of such costs and fees by the CSA. Within thirty (30) calendar days of receipt of the transcribed record of the hearing, the CSA's representative files a written recommendation to the CSA as to the resolution of the controversies. Upon consideration of the transcribed record and recommendation of its representative, the CSA shall meet, make its decision and notifies all parties in writing by certified mail, return receipt requested. The decision of the CSA is final unless the school board of the school district involved elects to appeal to the SBE.

6.4 APPEAL PROCEDURES

If the school utilizes any form of a modular/block schedule, the instructional planning time provided is a minimum of either 225 minutes per week or an average of 225 minutes per week per instructional cycle, exclusive of lunch period.
 - 24.2 Instructional planning time for the elementary school teacher is no less than 150 minutes per week, exclusive of lunch period.

PERFORMANCE STANDARDS

INTRODUCTION

The Mississippi Statewide Accountability System is designed to improve student achievement and increase the level of accountability for both school districts and individual schools. The accountability system focuses on student performance at each school and at the district level. Performance standards have been established, and student data from established performance metrics are used to determine individual school performance classifications and district level performance classifications.

The following specifications for establishing school and district performance standards and accountability requirements are addressed in Miss. Code Ann. §37-17-6(5), §§ 37-18-1 through 37-18-7.

The SBE shall establish, design, and implement a program for identifying and rewarding public schools that improve. The SBE shall apply an "A," "B," "C," "D," and "F" designation to the school and school district statewide accountability performance classifications outlined in Miss. Code Ann. §37-17-6(5).

A school shall be identified as a School At-Risk and in need of assistance if the school is designated as an "F," as identified by the SBE. See Accreditation Policy 3.4

INCLUSION OF STUDENTS WITH DISABILITIES AND ENGLISH LEARNERS (EL)

The Mississippi Statewide Assessment System provides procedures to ensure the inclusion of all students in the assessment programs, including a wide range of testing accommodations, instructional level testing on statewide assessments and alternate assessments. The data for students using testing accommodations are treated no differently from any other test data. The scores for students with disabilities taking alternate assessments are included in the achievement and growth components. The weighting procedures in the achievement component ensure that those students count equally within the achievement level assigned to the school.

School districts are allowed to exclude the academic achievement results only for first-year English Learners (EL) students (on a case-by-case basis) from determinations of Mississippi Statewide Accountability System results, consistent with the requirements of the Elementary and Secondary Education Act (ESEA), as reauthorized by the Every Student Succeeds Act (ESSA).

 - c. Year 3 (2017-2018) and beyond: Participation - 50%/Performance - 50% (50 points)

Mississippi Statewide Accountability System: Business Rules

1. Assignment of Performance Classifications

- 1.1 Standards for student, school, and school district performance will be increased when student proficiency is at a 75% and/or when 65% of schools and/or districts are earning a grade of “B” or higher, in order to raise the standard on performance after targets are met. See Miss. Code Ann. § 37-17-6.

1.1.1 When performance classification cut-points are established, the following percentiles shall apply:

		A	≥	90 th Percentile
63 rd Percentile	≤	B	<	90 th Percentile
38 th Percentile	≤	C	<	63 rd Percentile
14 th Percentile	≤	D	<	38 th Percentile
		F	<	14 th Percentile

- 1.2 Grades for schools (and districts) with no 12th grade (elementary/middle schools) shall be determined based on the following cut-points effective with the 2016 - 2017 school year:

		A	≥	442
377	≤	B	<	442
328	≤	C	<	377
269	≤	D	<	328
		F	<	269

- 1.3 Grades for schools with a 12th grade will be determined based on the following cut-points effective with the 2017 - 2018 school year:

		A	≥	754
648	≤	B	<	754
584	≤	C	<	648
510	≤	D	<	584
		F	<	510

- 1.4 Grades for districts shall be determined based on the following cut-points effective with the 2016 -2017 school year:

		A	≥	668
599	≤	B	<	668
536	≤	C	<	599
489	≤	D	<	536
		F	<	489

- 1.5 Assignment of district performance classifications shall be calculated by treating the district as one (1) large school based on the same performance classifications used for schools.

- 1.6 Cut-points for schools/districts shall be reviewed following the implementation of a new assessment.
- 1.7 Schools with grade configurations that include both 12th grade and grades below 9th grade shall have a performance classification assigned consistent with Section 1.3, but the composite score shall be adjusted to account for the inclusion of performance measures for students below 9th grade. The following process shall apply:
 1. Compute a composite score separately for students in grades below 9th grade and for students in 9th through 12th grades.
 2. Transform the composite score for students in grades below 9th grade to the scale consistent with Section 1.3.
 3. Weight each composite score by the percentage of students represented in the calculation and add the two (2) weighted scores together to obtain the adjusted composite score.
 - 1.7.1 The adjustment provided for in this section shall not be applied in the calculation of cut-points for districts and schools.
 - 1.7.2 The adjustment provided for in this section shall only apply in the assignment of the performance classification and shall not apply to federally required school identification measures.

2. Full Academic Year (FAY)

- 2.1 In order for a student to meet Full Academic Year (FAY) and be included in the proficiency and growth calculations, he/she must have been enrolled (regardless of attendance) for at least 75% ($\geq 75\%$) of the days from September 1 (of school year) to the first day of testing. This date will be published yearly by the MDE and will be the same for all schools, students, and assessments. For schools on a traditional school calendar, the date will be in the spring.
Note: 74.5% will not be rounded up to 75%.
 - 2.1.1 Enrollment is defined as enrollment at the school/district level except for students in 4x4 block scheduled courses.
- 2.2 For students in 4x4 block scheduled courses, FAY for the Fall semester will be calculated from September 1 of the school year to the first day of Fall primary test administration. The specific date will be published yearly by MDE. FAY for the Spring semester will be calculated from February 1 to the first day of Spring testing, the same day as schools using a traditional school calendar. These dates will be published yearly by MDE.
- 2.3 The beginning and ending dates will be included in the calculation of FAY. Calculations will be based on calendar days, not instructional days. Weekends and holidays will be included in the calculations.
- 2.4 If a student meets FAY at a school other than the school where he/she is enrolled at the time of testing, his/her scores will count at the school where he/she met FAY.
- 2.5 This definition of FAY will not be applied to students for previous years where a previous definition of FAY was applied. If no FAY was calculated for a student in a previous year, this method will be applied.
- 2.6 FAY will be calculated at the school level as well as at the district level. Therefore, it is possible for a student who transfers within a district to meet FAY for a district and be included in the calculations for the performance classification for the district but not be included in the calculations for a school. Scores of all students will be included in the state level calculations regardless of FAY status.
- 2.7 If a student enrolls and withdraws in the same or different school on the same day, the student will be considered as having been enrolled for one (1) day in the receiving school.
- 2.8 (Deleted) Rule 2.9 supersedes.
- 2.9 If FAY cannot be calculated or discerned because of incorrect MSIS coding, the student will be forced to meet FAY at the school/district if the movement of the student appears to be within the same school/district.
- 2.10 If a student drops out of school and re-enrolls within the same school year, the re-entry date of the

student will be included as the next enrollment date for the student.

- 2.11 If a student has concurrent enrollment in more than one (1) school/district, the period of concurrent enrollment will be included in FAY calculations at both locations.

3. N-Count Minimums

- 3.1 School Totals
 - 3.1.1 In order for a school to earn a performance classification, the school must have a minimum of ten (10) valid test scores in each of the required components. Schools that do not have the minimum of ten (10) valid test scores for each of the components will have data from prior years combined with the current year [up to three (3) years of data] in order to achieve the minimum N-count. See Sections 15, 22, and 24 for exceptions to this rule.
 - 3.2 N-Count Minimums for the Lowest Performing Twenty-Five Percent Student Subgroup
 - 3.2.1 This subgroup must have a minimum of ten (10) valid test scores. If there are less than ten (<10) students in the Lowest Performing Twenty-Five Percent Student subgroup, the subgroup will consist of all students except for the students scoring at the highest achievement level. If this calculation still results in a number less than ten (<10), then all students will be included in the calculation of the Lowest Performing Twenty-Five Percent Student subgroup.
 - 3.2.2 At the grade-level, a minimum of four (4) students with valid scale scores are required to identify the Lowest Performing Twenty-Five Percent Students-subgroup. If a grade has less than four (<4) students with valid scale scores for the subject, there will be no students identified as being in the subgroup for that grade level for that subject.
 - 3.2.3 In order to ensure the inclusion of students with disabilities in the Lowest Performing Twenty-Five Percent Student subgroup, no N-Count minimum will apply in the identification of the Lowest Performing Twenty-Five Percent Student subgroup for students taking the alternate assessment.
- Note: See Section 7 for more information on the Lowest Performing Twenty-Five Percent Student subgroup.

4. Participation Rates

- 4.1 If a school/district does not meet an overall 95% participation rate, the school/district will automatically be dropped one (1) performance classification and will have 95% of its enrollment included in proficiency calculations, as required by federal regulation. Participation rates are not rounded.
- 4.2 Elementary schools with no assessments (K, 1, and 2) will not be assigned a participation rate. Therefore, these schools will not be impacted by the participation rate minimum requirements.
- 4.3 Students may be removed from the denominator of testing participation calculations if he/she meets the criteria set forth by the Office of Student Assessment as having a Significant Medical Emergency which made participation in the state testing impossible. For details regarding the definition of Significant Medical Emergency and the process of requesting a student be removed from the calculations, please contact the Office of Student Assessment.
- 4.4 High School participation rates will be calculated based on the Senior Snapshot. Data from all statewide end-of-course, subject area assessments will be used in the participation calculations.
 - 4.4.1 For the 2013-2014 school year, the Senior Snapshot process used for calculating participation rates in end-of-course, subject area assessments will remain consistent with previous years. Beginning with the 2014-2015 school year, U.S. History will be included in the participation rate calculations.
- 4.5 Students with significant cognitive disabilities (SCD) with no U.S. History assessment scores will be removed from the denominator for the participation rate calculation for U.S. History.
- 4.6 Beginning with the 2015-2016 academic year, the ACT assessment will be included in participation

rate calculations. See Section 25.

- 4.7 If a student is expelled but is still enrolled in MSIS for the school/district during the testing window, he/she will be included in the denominator. If the student does not test, the student will count as “not tested.”

5. Proficiency

- 5.1 Proficiency will be determined by the percentage of students who achieve a performance/proficiency of Proficient and above. No additional credit will be given for students scoring in a performance/proficiency level above proficient (e.g., “Advanced”). No partial credit will be given for students scoring in any performance level below proficient.
- 5.1.1 For proficiency components worth 50 points, the weighted percentage of students proficient will be multiplied times 0.5 to determine the points applied to the component.
- 5.1.2 The science proficiency component for schools with a 12th grade will be based on all science assessments administered at that school. Therefore, for schools with a 12th grade that also have a 5th and/or 8th grade, the science component for that school will still be worth 50 points.
- 5.2 Assessments included in the proficiency calculations will consist of all federally required statewide assessments in Reading/Language Arts/English, Mathematics and Science, and any additional end-of-course, subject area assessments. This includes all Alternate Assessments based on Alternate Achievement Standards (AA-AAS) for SCD students. Note: This rule will need to be reviewed with the implementation of any new statewide assessments.

6. Growth

- 6.1 Growth is determined by whether or not a student increases in performance/proficiency levels from one (1) year to the next based on the following criteria:
- An increase of ANY performance/proficiency level
 - Staying at Proficient from one (1) year to the next
 - An increase within the lowest three (3) performance/proficiency levels that crosses over the mid-point of the level. Example: Bottom half of Basic to top half of Basic.
- Following the implementation of new assessments, a linking/equating process will be used to establish comparable scales across the new and old assessments and to determine the criteria for meeting growth as defined above.
- 6.2 Additional weight in the numerator is given for the following increases:
- Staying at Advanced from one (1) year to the next will be given a weight = 1.25.
 - Any increase of two (2) or more performance/proficiency levels will be given a weight = 1.25.
 - Any increase to the highest performance/proficiency level will be given a weight = 1.25.
- Note: Because additional weight is given, it is mathematically possible for a school or district’s growth value to be greater than 100 points for any/all of the four (4) growth components.
- 6.3 Any decrease in performance/proficiency levels = 0.
- 6.4 The lowest three (3) performance/proficiency levels will be split into half at the mid-point of the range. If the range is an odd number and cannot be split into two (2) equal halves, the lower half of the performance/proficiency level will be one (1) point larger than the upper half. (Example: If the range of the performance/proficiency level is thirteen (13) scale score points, the bottom half of the range will be seven (7) scale score points and the upper half of the range will be six (6) scale score points.)
- The splitting of the lowest three (3) performance/proficiency levels into half at the mid-point range is not intended to create three (3) new separate performance/proficiency levels. Therefore, students who move from the bottom half of the lowest performance/proficiency level to the bottom

half of the second lowest performance/proficiency level will not be given additional weight for increasing two (2) performance/proficiency levels. That student will be considered to have increased one (1) performance/proficiency level.

Note: Rules regarding the splitting of the lowest three (3) performance/proficiency levels are subject to review and change with the implementation of any new assessments.

- 6.5 Assessments used for calculation of growth will include:
- Grade-level (3-8) assessments in English Language Arts;
 - Grade-level (3-8) assessments in Mathematics;
 - High School level assessments in English Language Arts;
 - High School level assessments in Mathematics;
 - Alternate Assessments (3-8 and High School) in English Language Arts; and
 - Alternate Assessments (3-8 and High School) in Mathematics. Note: Growth will not be calculated for Science or U.S. History.
- 6.6 Students taking Algebra I, in 7th or 8th grade, are required by federal regulation to also take the grade-level assessment in mathematics. Therefore, these students will have two (2) growth calculations: grade-level to grade-level and grade-level to Algebra I. The grade-level to grade-level growth calculation will be applied to the current school. The grade-level to Algebra I growth calculation will be banked until the student's 10th grade year.
- 6.7 To calculate growth for the high schools for Math-All Students, Math-Lowest Performing Students, Reading-All Students and Reading-Lowest Performing Students, the 8th grade grade-level assessments will be used as the baseline. The exceptions to this are as follows:
- If a student takes Algebra I during his/her 8th grade year, his/her 7th grade grade-level assessments will be used as the baseline and banked until the student is in the 10th grade.
 - If a student takes Algebra I in the 7th grade, his/her 6th grade grade-level math assessment will be used as the baseline and banked until the student is in the 10th grade.
- 6.8 If a student does not have the previous year's grade-level assessment, the student will be excluded from the growth calculation(s) except in the cases of the end-of-course, subject area assessments.
- 6.9 For students taking end-of-course, subject area assessments in grades lower than 10th grade, growth will be banked until the student's 10th grade year and then applied.
- 6.10 If a student does not take the end-of-course, subject area assessments until 11th or 12th grade year, growth will be calculated and applied in the first year he/she has a valid score. The exception to this will be for students taking the alternate assessment. For students taking the alternate assessment, a cap of two (2) years will be applied to the growth calculations. Therefore, if a student takes the alternate assessment in 8th grade and does not take the high school level alternate assessment until 11th or 12th grade, he/she will not be included in the growth calculations.
- 6.11 Students who are retained in 3rd through 8th grades will have a growth calculation based on the retained grade from the previous year. (Example: A 4th grade student who was retained will have growth calculated based on his/her previous year's 4th grade assessment scores.)
- 6.12 For K-3 schools, growth of 4th grade students in the district will be used for the growth calculations of the K-3 school in which they met FAY. Growth of the 3rd grade students who are retained will be included with the 4th grade student growth calculations.
- 6.13 The student must meet FAY for the current year in order to be included in the growth calculations but is not required to meet FAY for the previous year.
- 6.14 Growth will not be calculated for students who take the Alternate Assessment in the current year but took the grade-level general education assessment the previous year or vice versa.
- 6.15 The denominator for the growth calculation includes any FAY student with two (2) valid assessment scores (as defined above). The numerator will include any student included in the denominator who has demonstrated growth as defined above and weighted accordingly.

7. Lowest Performing Students

7.1 Calculation methodology for students whose baseline assessment score is 3rd through 7th grade:

- 7.1.1** The Lowest Performing Twenty-Five Percent Student subgroup in reading and the Lowest Performing Twenty-Five Percent Student subgroup in mathematics are determined using the same method but applied separately to reading data and to mathematics data. The procedure used to identify the lowest performing students in a school is applied separately by grade, and the identified students are combined across all grades to comprise the Lowest Performing Twenty-Five Percent Student subgroup and to determine learning gains.

Note: The Lowest Performing Twenty-Five Percent Student subgroup will be determined by identifying the percentage of students, as defined by Miss. Code Ann. § 37-17-6, who are the lowest performing students in a given subject area.

The process:

1. Beginning with the 2014-2015 school year, the scores of all students participating in the general education and alternate assessments will be standardized by subject area, grade level, assessment type, and school year.
2. Sort the standardized scores of all FAY students in a grade from highest to lowest based on their prior year standardized scores. Students without an eligible score from the previous year are not included. See Section 6 and Rule 7.1.3 for additional clarification.
3. Divide the number of students in the list by four (4). If the result is not a whole number, then automatically round up to meet the 25% minimum.
4. Count, from the lowest score up, the number of students identified in step 3. Then identify the standardized score that corresponds to that student. This standardized score becomes the boundary score.
5. Identify all students with the boundary score determined in step 4. All students with the same boundary score or lower standardized score will be included in the Lowest Performing Twenty-Five Percent Student subgroup for that subject/grade.
6. Repeat the process for each grade for the subject then combine students to form the Lowest Performing Twenty-Five Percent Student subgroup for the school for the subject.

Note: The number of students in the Lowest Performing Twenty-Five Percent Student subgroup must meet the minimum N-count as defined in Section 3.2. If the minimum N-count is not met, the rules outlined in Section 3.2 will be applied. See Section 3.

It is possible for the Lowest Performing Twenty-Five Percent Student subgroup to be more than 25% when steps 5 and 6 are applied.

7.1.2 Deleted

- 7.1.3** The Lowest Performing Twenty-Five Percent Students-subgroup for schools whose highest grade is lower than 4th grade will be identified based on the students who attended the school, not based on their 4th grade school's Lowest Performing Twenty-Five Percent Student subgroup. Therefore, a student may be identified in the Lowest subgroup in one (1) school, but not the other.

- 7.1.4** In order to ensure the inclusion of students with disabilities, the Lowest Performing Twenty-Five Percent Student subgroup for students taking the alternate assessment will be identified by subject but not by each grade level.

- 7.2 The Lowest Performing Twenty-Five Percent Student subgroup for a district will be identified using the same method described above [i.e., the district will be calculated as if it were one (1) school]. Therefore, it is possible that some students may be identified as members of the Lowest Performing Students subgroup for their school but not for their district, or for their district but not their school.
- 7.3 The Lowest Performing Twenty-Five Percent Student subgroup for the state will be identified using the same method [i.e., the state will be calculated as if it were one (1) school].
- 7.4 Because students may take end-of-course assessments prior to the 9th grade, any assessment scores used in the identification of the Lowest Performing Twenty-Five Percent Student subgroup for grades 10 through 12 will be standardized to the 8th grade-level assessment for the identification process.

8. Graduation Rate

- 8.1 The federally approved four-year graduation rate will be used. Miss. Code Ann. § 37-17-6 Definition: The number of students who graduate in four (4) years from a school and LEA with a regular high school diploma or state-defined alternate diploma divided by the number of students who entered four (4) years earlier as first-time 9th graders, with adjustments for deaths, emigration, and transfers in and out. Ninth (9th) grade students who repeat 9th grade will stay in their original cohort.
Definition: A “regular high school diploma” is the standard high school diploma that is fully aligned with the state’s academic content standards.
- 8.2 Ungraded students will be assigned to their peer-age cohort, based on the year in which the student obtains the age of 14 prior to September 1.
- 8.3 The schools/district graduation rate will be multiplied by 2.0 to calculate the points applied to the graduation component for schools/districts.
- 8.4 In the calculation of graduation rates, students are assigned to the school and district of longest enrollment during the federally defined, four-year adjusted cohort window. In the event a student has equal enrollment in one (1) or more schools or districts, the student will be assigned to the school and district of final enrollment.
- 8.5 The school/district graduation rate applied in the graduation component is lagged one (1) year.

9. Acceleration

- 9.1 Beginning in school year 2015-2016, high schools will have an Acceleration component in their calculations.
- 9.2 The Acceleration component refers to the percentage of students taking and passing the assessment associated with accelerated courses which include Advanced Placement (AP), International Baccalaureate (IB), Advanced International Certificate of Education (AICE), dual credit or SBE-approved industry certification courses. For students taking dual credit courses, passing refers to students who are passing the course with an unweighted “C” or above. For AP courses, the student must score at least three (3) on the AP exam. For IB courses, the student must score at least four (4) on the IB exam. For AICE courses, the student must obtain a passing score on the exam. (Passing scores of “A”, “B”, “C”, “D”, and “E” on the AICE exams are not based on the American “A-F” grading scale.) For industry certification courses, the student must pass the exam.
 - 9.2.1 Dual credit courses must be credit-bearing courses with a minimum of three (3) semester hours credit, and beginning in school year 2019 - 2020, shall be limited to the list of articulated courses found in Appendix V of the current *Procedures Manual for the State of Mississippi Dual Enrollment and Accelerated Programs* document. Refer to the current edition of the *Approved Courses for Secondary Education* for approved Career and Technical Education (CTE) courses.
 - 9.2.2 Beginning in school year 2020 – 2021, schools must enter non-weighted course grades for dual credit courses in MSIS. These non-weighted grades will be used in the performance

measure for dual credit courses.

- 9.3 The Acceleration component will consist of a Participation and a Performance component. These two (2) components will be combined for one (1) score worth fifty (50) points and phased in on the following sliding scale:
- a. Year 1 (2015-2016): $(\text{Participation}-70\%/\text{Performance}-30\%) \div 2$
 - b. Year 2 (2016-2017): $(\text{Participation}-60\%/\text{Performance}-40\%) \div 2$
 - c. Year 3 (2017-2018) and beyond: $(\text{Participation}-50\%/\text{Performance}-50\%) \div 2$
- 9.4 Calculation of Participation
- 9.4.1 The numerator for the Participation component calculation will be the number of students taking accelerated courses and/or related exams as defined in Section 9.2.
- 9.4.2 The denominator for the Participation component calculation shall include all students whose Mississippi Student Information System (MSIS) grade or peer-grade equivalent is 11th or 12th grade plus any 9th or 10th grade students who are taking and passing these assessments/courses. Ninth (9th) and 10th grade students will not be included in the denominator unless they are also included in the numerator.)
- 9.4.3 Students participating in multiple accelerated courses during the same school year will be given additional weighting in the numerator as follows:
- 2 courses: 1.1
 - 3 courses: 1.2
 - 4 courses: 1.3
 - 5 courses: 1.4
- 9.5 Calculation of Performance
- 9.5.1 The numerator for the Performance component calculation will be the number of students taking and passing accelerated assessments/courses such as AP, IB, AICE, dual credit, dual enrollment, or industry certification courses based on the definition above.
- 9.5.2 The denominator for the Performance component calculation will consist of all students participating in the courses and/or tests identified in the participation calculations.
- 9.5.3 Students who are enrolled in accelerated courses but do not take the required assessment will be considered as “not proficient” in the performance calculations.
- 9.6 For students taking and passing multiple dual credit courses, the additional weighting used in the participation calculations will be applied.
- 9.7 In the calculation of participation, students who take an accelerated course during their 11th grade year but do not take an accelerated course during their 12th grade year will be counted in the denominator both years, but in the numerator during their 11th grade year only.
- 9.8 Students enrolled in a block schedule must meet FAY either in the fall or spring to be included in the acceleration component. Students enrolled in a traditional schedule must meet FAY for the traditional schedule to be included in the acceleration component.
- 9.9 For students taking and passing accelerated courses in AP, IB, AICE, or industry certification that have a normed, end-of-course assessment, the numerator will be doubled in weight.
- 9.10 For students in 9th through 12th grade that participate in accelerated courses as described in Section 9.2 that are designed with a two (2) year curriculum and do not have an associated assessment in the first year, the student will be included in participation calculations but will be excluded from performance measures in the first year and will be included in both participation and performance measures in year two (2).
- 9.11 In the event that accelerated credential, as defined in Section 9.2, is reported for a student that is not associated with a course, the credential will be included in the calculation for the final school in which the student meets FAY.

10. Banking Scores: End-of-course, subject area assessments taken before 10th grade

- 10.1 Scores of students taking Algebra I, Biology, English II, or U.S. History end-of-course, subject area tests assessments in a grade below 10th grade will be “banked” for proficiency/achievement and growth calculations until the student is in the 10th grade and then applied to the student’s 10th grade school (if the student met FAY requirements the year he/she was assessed and during his/her 10th grade year). See Section 6 for additional clarification on Growth.
 - 10.2 If a student transfers out of the district before or during their 10th grade year, his/her scores (achievement and growth) will not be applied to the school of origin or receiving school in the new district. Note: See Section 4 (Participation) and 6 (Growth) for additional information.
 - 10.3 If a student matriculates from the 9th grade to the 11th grade without enrolling in the 10th grade, banked scores will be included in accountability measures when the student is enrolled in the 11th grade.
- Note: For the 2021-2022 School year only, accountability measures in proficiency and growth will not include banked scores from prior years but will include all high school, end-of-course, subject area assessments taken during the 2021-2022 school year, regardless of grade level. For any schools with end-of-course assessments that do not contain 12th grade, scores will be assigned to the high school that the current school feeds to. Scores will also be banked in accordance with Rule 10.1 for use in future school years; therefore, some students’ scores will be included in accountability measures twice.

For 10th grade students taking end-of-course assessments included in accountability calculations during the 2021-2022 school year that do not have a prior-year score due to the suspension of assessments during the 2019-2020 school year, growth will be measured using the 2018-2019 school year as the baseline year.

11. Comprehensive Support and Improvement Schools (CSI)

- 11.1 Title IA High Schools with a graduation rate less than or equal to 67 percent shall be identified as a Comprehensive Support and Improvement school. This identification will occur on a three (3) year cycle.
Note: For the 2022-2023 Academic School Year Only, the identification cycle is reduced to one (1) year.
- 11.2 Title IA schools with a composite accountability score in the bottom five (5) percent of overall accountability index will be identified as a Comprehensive Support and Improvement school. This identification will occur on a three (3) year cycle.
Note: For the 2022-2023 school year, the identification cycle is reduced to one (1) year.
- 11.3 Beginning with the 2022-2023 academic year, a school previously identified as an Additional Targeted Support and Improvement school with three (3) consecutive years of subgroup score in ELA or math at or below that of all students in the bottom five (5) percent of Title IA schools shall be identified as a Comprehensive Support and Improvement school. This identification will occur annually.
Note: Performance data from the 2019-2020 and 2020-2021 school years will not be used in the identification described in Section 11.3.

For the 2022-2023 school year, the identification cycle is reduced to one (1) year.

12. Targeted Support and Improvement Schools (TSI)

- 12.1 A school with a subgroup composite score that is in the lowest 50 percent and in the lowest quartile of the three (3) year average gap-to-goal, and in the lowest quartile of the three (3) year improvement toward gap-to-goal closure shall be identified as a Targeted Support and Improvement school.
Note: Performance data from the 2019-2020 and 2020-2021 school years will not be used in the

three (3) year average.

- 12.2 Schools meeting the requirements in Section 12.1 will be rank-ordered annually, using the composite accountability score, and the bottom five (5) percent of all schools not identified for Comprehensive Support and Improvement will be identified as a Targeted Support and Improvement school.

13. Additional Targeted Support and Improvement Schools (ATSI)

- 13.1 A school with a three (3) year average subgroup performance score at or below that of all students in the lowest performing five (5) percent of Title IA schools shall be identified as an Additional Targeted Support and Improvement school.

Note: Performance data from the 2019-2022 and 2020-2021 school years will not be used in the three (3) year average.

14. Deleted

15. English Learners (EL)

- 15.1 The scores of English learners who have attended a U.S. school for less than 12 months will only be included in participation calculations in the first (1st) year. In the second (2nd) year, growth will be included, and in the third (3rd) year, growth and proficiency will be included in accountability measures.

15.1.1 Local Education Agencies (LEA) shall identify English learner students, who have attended a U.S. school for less than 12 months, to be designated for exclusion on or before February 1, annually. Note: For more information, contact the Office of Federal Programs.

- 15.2 An EL performance component will be calculated for each school and district beginning with the 2017 - 2018 school year and will be included in the calculation of accountability grades beginning in the 2018 - 2019 school year. The EL performance component will be equal to the average EL progress rate of students as defined in Section 15.4, multiplied by the total points assigned to the EL component for that school/district.

15.2.1 Each school or district must meet the minimum N-count for EL students in order to have an EL performance measure calculated.

15.2.2 The performance measure will be equal to 5% of total available points in the accountability system. All other components will be reduced by a total of 5% when the EL performance measure is included.

15.2.3 The component score for districts and schools will be adjusted such that an average student rate of 0.9 or higher shall receive the maximum score for this component. This adjustment will be applied uniformly to all other averages below 0.9, effectively increasing each value by 10 percent.

- 15.3 Progress toward proficiency will be calculated for all EL students using the state English Language Proficiency Test (ELPT). An annual progress goal will be calculated for each student based on reaching proficiency on the ELPT within five (5) years of entry into an EL program. The annual progress goal will be equal to the minimum score needed to achieve proficiency at year five (5), minus the prior year score, divided by the number of years the student had remaining to exit the EL program in the prior year.

15.3.1 In year five (5) and beyond, the annual progress goal is equal to the minimum score needed to achieve proficiency, minus the prior year score.

- 15.4 EL performance will be measured by the annual progress achieved by EL students. Each student will have a rate ranging between zero (0) and one (1) based on the student's current year ELPT score, minus the prior year score, divided by the annual progress goal as defined in 15.3. Any student who does not demonstrate progress will have a rate of zero (0). No student will receive a rate higher than one (1).

- 15.4.1 The student must meet FAY requirements in the current year but is not required to meet FAY requirements in the prior year.
- 15.4.2 The student must have a prior year score to be included in the calculation.

16. Students with Disabilities

- 16.1 United States Department of Education (USDE) regulations limit the number of scores of children taking alternate assessments for SCD students scoring proficient or above to one percent (1%) of the students at the state and district level. This rule does not apply at the school level because these regulations recognize that some schools offer specialized services or are near specialized medical facilities that attract higher numbers of students with significant special needs. Therefore, if a district has greater than one percent (1%) of their total population scoring proficient or above on an alternate assessment, the percent above one percent (1%) will count as not proficient in accountability calculations.
- 16.2 All eligible SCD students will be expected to participate in statewide assessments per the schedule provided by the Office of Student Assessment. Note: This rule will need to be updated and revised with the implementation of any new alternate assessment.
- 16.3 Non-SCD students are not allowed to participate in alternate assessments. If any such students have alternate assessment data, the test data shall be considered invalid.
- 16.4 Students with disabilities will be those students whose SPED indicator in MSIS is "Y" (Yes) at the end of month eight (8) (closest approximation to the test administration dates).
 - 16.4.1 In order for a student to be counted as SCD, his/her SCD indicator and SPED indicator must be set to "Y" (Yes) in MSIS.
- 16.5 Students with disabilities who are coded as "ungraded" (56 or 58) in MSIS will be assigned a peer-grade calculation based on his/her age on September 1 of the current school year.

17. Duplicate Test Scores

- 17.1 If a student takes the general education (grade-level) assessment AND the alternate assessment, the scores from the general education assessment will be used in the school/district accountability calculations.
- 17.2 If MSIS records indicate two (2) valid assessment scores for the same assessment in the same year, the score from the first administration date will be used. If MSIS records indicate two (2) valid assessment scores for the same assessment on the same date, the higher of the two (2) scores will be used in the school/district accountability calculations.

18. Invalid Test Scores

- 18.1 Students with invalid test scores will be counted as "not tested" for participation calculations.
 - 18.1.1 Following an invalidated score, when a student retests, the first valid test score will be used in the proficiency, growth, and participation calculations.
- 18.2 If an invalid score is validated after the accountability calculations are performed and final school/district performance classifications have been assigned, the school/district's performance classifications will not be recalculated and adjusted to reflect the validated score. If during the next year, the student tests again and has a valid test score, that test score, although it was not the student's first test score, will be used during the next year's calculations. Please refer to the Office of Student Assessment regarding deadlines for appealing invalid test scores.
- 18.3 For students in 3rd grade through eighth 8th grade, if a student's MSIS grade level (or peer grade level for ungraded students) does not match his/her assessment grade level, the student's scores will not be included in the numerator for participation, growth, or proficiency calculations, and the student will count as not proficient, not meeting growth, and not tested. Likewise, the student's scores will not be used the following year in growth calculations.

Note: This rule does not apply to end-of-course, subject area assessments or high school alternate assessments.

19. Rounding

- 19.1 In the calculation of each of the components in the statewide accountability system that are reported to schools, the final value of each component will be rounded to one (1) decimal place (tenths place). After the components are summed, the total value will be rounded to a whole number and reported for the final performance classification calculation.

Example:

Reading Proficiency	80.5
Reading Growth – All Students	80.5
Reading Growth – Lowest Performing Students	80.5
Math Proficiency	80.5
Math Growth – All Students	80.5
Math Growth – Lowest Performing Students	80.5
Science Proficiency	80.5
Total Score	564

Note: Other rounding rules are embedded in the explanations of the specific components.

20. School Reconfigurations or Redrawing of District Lines

- 20.1 A school's accountability calculations will be based on the grade configuration of the school (and the students in that school) on the date that corresponds with the FAY at the time of testing. See Section 2 for details on FAY. The calculations are applied to the school the following year, regardless of any reconfigurations or redistricting that takes place during the summer after testing or during the school year before testing.
- 20.2 Consolidated districts/schools who maintain the same grade configuration and/or student population as existing in the previous school district will receive the eligible scores or statuses of students who previously attended the school in the previous school district.

21. Alternative, Career, Technical, and Child Development Centers

- 21.1 Effective before and with the 2017 – 2018 academic year, no performance classifications will be assigned to alternative, career and/or technical programs, or child development centers authorized in Miss Code Ann. §37-23-91. Scores of students attending these programs will be included in the accountability calculations of the student's official MSIS home school of residence.
- 21.2 Performance data on available indicators will be reported for students enrolled in child development centers.

22. Schools without Tested Subjects or Grades

- 22.1 Elementary/Middle Schools
- 22.1.1 Any elementary/middle school that does not have reading or math scores because the school does not have the required grade level, the scores from the students in the next higher grade in the tested subject within the same district will be applied back to the student's lower elementary school of origin. In order for the scores to be applied, the student must meet FAY at the lower grade school, the current school and if there is a gap in years, anywhere in the district for the years in between.

Example 1, Pre-K through 2nd grade School:

- Reading and Math Proficiency - The reading and math scores from students in 3rd grade who attended the Pre-K through 2nd grade school and are still in the same district will be used to calculate the math and reading proficiency for Pre-K through 2nd grade school.
- Science Proficiency - An equating process will be used to adjust the scores for this component.
- Growth - The reading and math scores from students in 4th grade who attended the Pre-K through 2nd grade school and are still in the same district will be used to calculate the growth for Reading-All Students, Math-All Students, Reading-Lowest Performing Students, and Math-Lowest Performing Students for that Pre-K through 2nd grade school. The students would have to have met FAY in
 - the Pre-K through 2nd grade school during 2nd grade,
 - the 4th grade school in the same district, and
 - any school within the same district during 3rd grade.

Example 2, Pre-K through 3rd Grade:

- Reading and Math Proficiency - The reading and math scores from students in the 3rd grade will be used to calculate the math and reading proficiency for that school.
- Science Proficiency - An equating process will be used to adjust the scores for this component.
- Growth - The reading and math scores from students in 4th grade who attended the Pre-K through 3rd grade and are still in the same district will be used to calculate the growth for Reading-All Students, Math-All Students, Reading-Lowest Performing Students, and Math-Lowest Performing Students for Pre-K through 3rd grade.
- All applicable FAY rules will apply.

Example 3, Pre-K through 4th Grade:

- Reading and Math Proficiency - The reading and math scores from students in 3rd and 4th grades at the school will be used to calculate the math and reading proficiency for Pre-K through 4th grade.
- Science Proficiency - An equating process will be used to adjust the scores for this component.
- Growth - The reading and math scores from students in 3rd and 4th grades at the school will be used to calculate the growth for Reading-All Students, Math-All Students, Reading-Lowest Performing Students, and Math-Lowest Performing Students for Pre-K through 3rd grade.
- All applicable FAY rules will apply.

Example 4, 6th and 7th grade:

- Reading and Math Proficiency - The reading and math scores from students in 6th and 7th grade at the school will be used to calculate the math and reading proficiency for that school.
- Science Proficiency - An equating process will be used to adjust the scores for this component.

- Growth - The reading and math scores from students in 6th and 7th grade at the school will be used to calculate the growth for Reading-All Students, Math-All Students, Reading-Lowest Performing Students, and Math-Lowest Performing Students for 6th and 7th grade.
 - All applicable FAY rules will apply.
- 22.1.2 An equating process to adjust the points required will be used for elementary/middle schools that do not have science scores because the school does not have a 5th or 8th grade.
- 22.1.3 Beginning with the 2014-2015 and ending with the 2017-2018 school year, the cut-points established for elementary/middle schools that do not have science scores will remain static in succeeding years. In subsequent years, the cut-points shall be reviewed following the administration of a new assessment.
- 22.2 High Schools
 - 22.2.1 Schools with missing data for components specific to high schools will have available proxy data applied in the following order of availability; three (3) year historical school average, two (2) year historical school average, prior year school score, current year district score, prior year district score. If no proxy data is available, an equating process will be used to adjust for the missing components.
- 22.3 Schools with only Pre-Kindergarten and/or Kindergarten will be assigned the school performance classification of the next level school to which that school feeds. If the school feeds to multiple schools, the performance classification will be assigned from a weighted average of the composite scores of the schools to which it feeds.

23. State and Other Special Schools

- 23.1 Mississippi School of the Arts (MSA) and Mississippi School for Math and Science (MSMS)
 - 23.1.1 The Mississippi School of the Arts and Mississippi School for Math and Science will not be assigned performance classifications but will have performance on available indicators reported consistent with other schools/districts.
 - 23.1.2 If a student takes an end-of-course, subject area assessment for the first time while at MSA or MSMS, his/her scores will be sent back to their school/district of origin and rolled into the state totals.
 - 23.1.3 Students enrolled at MSA and/or MSMS during the time of the Senior Snapshot will have their ACT scores sent to their high school of origin.
 - 23.1.4 For students enrolled at MSMS or MSA, the school/district of origin is defined as the school/district where the student was enrolled and met FAY requirements in the school year immediately prior to enrollment at MSMS or MSA.
- 23.2 Mississippi School for the Blind (MSB) and the Mississippi School for the Deaf (MSD)
 - 23.2.1 The MSB and MSD will not be assigned performance classifications but will have performance on available indicators reported consistent with other schools/districts.
 - 23.2.2 Students enrolled in the MSB and MSD will have performance measures included in the performance classification of the school/district of residence.
- 23.3 Other State/Special Schools
 - 23.3.1 State agencies (i.e., Hudspeeth, Ellisville State School, etc.) will not be assigned performance classifications.
 - 23.3.2 Students placed in non-public schools (special private schools; i.e., Millcreek, CARES, etc.) but are enrolled in regular Mississippi public schools will have their performance measures included in the calculations of the school/district in which he/she is enrolled in MSIS.
 - 23.3.3 Students enrolled in special/non-public schools with codes 200 and 500 have no enrollment and are not used for any of the usual statistical and reporting purposes. If a student is enrolled in a public school during the testing window, he/she would have to be

tested (and counted in the testing participation rates) and his/her score (if FAY) would be used for accountability purposes.

- 23.3.4 University-based schools will not receive performance classifications.
- 23.4 Students in Correctional Facilities/Juvenile Justice System
 - 23.4.1 According to the USDE, these facilities are considered “programs” not schools and would not be assigned performance classifications.
 - 23.4.2 If a student, who is still enrolled in MSIS, is in such a program and is not tested, the student will count as “not tested” in the participation rate calculations of the school/district. If the student is tested, his/her scores will count at his/her MSIS resident school.
- 23.5 Virtual Public Schools
 - 23.5.1 Only schools classified under the USDE’s Education Data Exchange Network (EDEN) reporting requirements as a separate school entity will receive a performance classification.
- 23.6 Early College High Schools
 - 23.6.1 Students enrolled in an Early College High School will have their performance measures included in the performance classification of the school/district of residence.
 - 23.6.2 Early College High Schools will not be assigned performance classifications but will have performance on available indicators reported consistent with other high schools.

24. 9th Grade Only Schools

- 24.1 Scores of a 9th grade only school will be combined with the high school to which that school feeds and calculated as one (1) school but reported as two (2) separate schools. In other words, both schools will earn the same performance classification because it will be based on the same data calculations.

25. College- and Career-Readiness Indicator

The following rules will apply only if the state legislature mandates statewide ACT testing and appropriates funding for such testing.

- 25.1 The ACT or ACT WorkKeys assessment will be used in the College- and Career-Readiness Indicator.
- 25.2 The College- and Career-Readiness component will be comprised of a Mathematics and an English/Reading component. These two (2) components will be equally weighted and combined for one (1) score worth 50 points: $(\text{Math} + \text{English/Reading}) \div 2$
- 25.3 A student will be included in the numerator for Mathematics if he/she is considered College- and Career-Ready in Mathematics by having a score on the Mathematics component of the ACT at or above the ACT College Readiness Benchmark for the Mathematics component at the time of the student’s assessment.
- 25.4 A student will be included in the numerator for English/Reading if he/she is considered College- and Career- Ready in English/Reading by having a score on the English component of the ACT at or above the ACT College Readiness Benchmark OR if his/her score on the Reading component of the ACT is at or above the ACT College-Readiness Benchmark at the time of the student’s assessment.
- 25.5 Science ACT sub-scores will not be included in the College- and Career-Readiness component.
- 25.6 ACT Composite scores will not be included in the College- and Career-Readiness component. (Rationale: ACT does not designate a composite score to indicate college readiness.)
- 25.7 The highest available sub-score or WorkKeys Certification for each student at the end of month nine (9) in Mathematics and English/Reading, as described above, will be used in the College- and Career-Readiness Indicator accountability calculations.
- 25.8 Contingent upon legislative funding, the state will pay for one (1) statewide ACT administration to be held in the spring for students classified in MSIS as 11th graders. Ungraded students whose birthdates link them to the cohort of students identified as 11th graders will also be included. Students may take the ACT as many additional times as they choose, at their own expense.

- 25.9 If the IEP committee deems it appropriate, an SCD student may participate in the administration of the ACT.
- 25.10 Deleted.
- 25.11 A student's score will be applied to the school in which the student is enrolled in MSIS at the time of the Senior Snapshot.
- 25.12 In lieu of the performance requirements established in Sections 25.3, and 25.4, a student may obtain a Silver level or higher National Career Readiness Certificate administered through the ACT WorkKeys assessment and successfully complete an industry certification or career pathway recognized by the Mississippi Department of Education. A student who achieves a Gold or Platinum level National Career Readiness Certificate administered through the ACT WorkKeys does not have to meet the additional requirement of successful completion of an industry certification or career pathway.
- 25.13 The participation rate numerator will include the state administration or non-state administration of the ACT. The denominator will include all students in the Senior Snapshot.
- 25.14 The denominator for the College- and Career-Readiness component calculation will consist of all students participating in the ACT as identified in the participation calculation.

26. Senior Snapshot

Senior Snapshot is a method of identifying high school students for the high school assessment participation rate calculation and College- and Career- measures. Senior Snapshot captures ALL students who have been enrolled in a Mississippi public school starting in month one (1) of the 10th grade and continuing without interruption until either the end of month 9 of the 12th grade or until a completion status is entered, whichever comes first. If the student does not meet the enrollment criteria, he/she will not be included in the denominator for participation rate calculations or College- and Career -Readiness measures.

27. Other

- 27.1 Deceased Students
 - 27.1.1 Students indicated in MSIS as deceased will not be included in any accountability calculations.
- 27.2 Foreign Exchange Students

Appendix A-5 ADDITIONAL OPTIONS IN LIEU OF PASSING THE END-OF-COURSE ASSESSMENTMISS. ADMIN. CODE 7-3: 36.5, STATE BOARD POLICY CHAPTER 36, RULE, 36.5 (EFFECTIVE 2013- 2014 SCHOOL YEAR AND THEREAFTER)

Mississippi Admin. Code 7-3: 36.5, State Board Policy Chapter 36, Rule 36.5 provides approved options for students to meet high school end-of-course (EOC) assessment requirements for graduation through approved alternate measures. Mississippi Admin. Code 7-3: 36.5, State Board Policy Chapter 36, Rule 36.5, applies to past, current, and future graduates and allows a student to meet the graduation requirements once he or she has failed to pass any required end-of-course (EOC) assessment one (1) time.

The following graduation options provide opportunities for students to obtain a certain score or level on the ACT, ASVAB, ACT WorkKeys, MS-CPAS, or other state-approved industry certifications. Students also may obtain a grade of “C” or higher in a dual credit/dual enrollment course, corresponding to the EOC assessment that was not passed.

Notes:

- ACT sub-scores resulting from non-college reportable accommodations **can** be used for graduation options, but the scores are non-college reportable.
- ACT sub-scores resulting from Residual ACT Testing **cannot** be used for graduation options.
- This option is available regardless of when the student took the SATP2, PARCC, or MAP/MAAP assessments.
- The college credit option is only applicable if the student is enrolled in high school and college at the same time. Student must meet the dual enrollment/dual credit admissions requirements of the community college partnering with the school district.
- The Graduation Options listed below are applicable to any EOC assessment.

Assessment Options	Math	Science	English	Social Studies
ACT	17	17	17	17
Dual Credit/Enrollment	C or higher in College Algebra	C or higher in College Biology & corresponding lab	C or higher in College English Comp I	C or higher in College American History II

APPENDIX A-5

MDE Revision to Concordance Tables Effective 2021-2022

Concordance tables, effective beginning with the 2014-2015 school year, provide opportunities for students who do not obtain a passing score on an EOC assessment to utilize a different graduation option, using a combination of the assessment scores with the final course grade. The tables provide the final course grade required to use with the scale score obtained on the EOC assessment. Remember, students must be enrolled in school to utilize the concordance table option.

The Mississippi Department of Education (MDE) has worked with the Technical Advisory Committee (TAC) to develop one universal concordance table that shall be used for each of the four EOC subject area assessments. The concordance tables were developed during each of the EOC test administrations, and the universal concordance table concept will alleviate confusion in determining which concordance table to apply for each test administration.

Universal Concordance Table

Concordance Table	Scale Score			
Grade in Course	1049-1048	1047-1046	1045-1044	1043-1042
A	Pass	Pass	Pass	Pass
B	Pass	Pass	Pass	Fail
C	Pass	Pass	Fail	Fail
D	Pass	Fail	Fail	Fail

Composite (Combined) Score
MISS. ADMIN. CODE 7-3: 36.4(3) State Board Policy Chapter 36, Rule 36.4(3)
(EFFECTIVE 2015-2016 SCHOOL YEAR)

Composite (Combined) Score Calculations provide opportunities for students who do not obtain a passing score on one or more EOC assessments. Students may utilize an additional graduation option by taking the average of all EOC assessments and achieving a minimal combined score of 646. Scale scores from the PARCC and MAP assessments will need to be transformed according to the guidance provided in Sections 1, 3, and 4.

Section 1 (Only SATP2 Assessments)

- I. Calculate the student's composite (combined) score by determining the average score across all four assessments.

Test	Score
Algebra I (SATP2)	650
English II (SATP2)	647
Biology I (SATP2)	656
U.S. History (SATP2)	638

$$\text{Average Composite (Combined) Score} = \frac{650 + 647 + 656 + 638}{4} = \frac{2591}{4} = 647.75 = 648$$

Section 2 (SATP2 and PARCC Assessments)

- I. Calculate the Transformed Score for the PARCC assessments by using the following formulas:
 - To transform a PARCC Algebra I Score:
Student's PARCC Algebra I Scale Score – 78 points
 - To transform a PARCC English II Score:
Student's PARCC English II Scale Score – 80 points
- II. Calculate the student's composite (combined) score by determining the average score across all four assessments.

Test	Score	Transformation	Transformed Score
Algebra I (PARCC)	723	$723 - 78 =$	645
English II (PARCC)	724	$724 - 80 =$	644
Biology I (SATP2)	652		652
U.S. History (SATP2)	644		644

$$\text{Average Composite (Combined) Score} = \frac{645 + 644 + 652 + 644}{4} = \frac{2585}{4} = 646.25 = 64$$

Section 3 (SATP2 and MAP Assessments)

- I. Calculate the Transformed Score for the MAP assessments by using the following formulas:
 - To transform a MAP Algebra I Score:

Student's MAP Algebra I Scale Score – 403 points

- To transform a MAP English II Score:
Student's MAP English II Scale Score – 405 points

- II. Calculate the student's composite (combined) score by determining the average score across all four assessments.

Test	Score	Transformation	Transformed Score
Algebra I (MAP)	1048	$1048 - 403 =$	645
English II (MAP)	1049	$1049 - 405 =$	644
Biology I (SATP2)	652		652
U.S. History (SATP2)	644		644

$$\text{Average Composite (Combined) Score} = \frac{645 + 644 + 652 + 644}{4} = \frac{2585}{4} = 646.25 = 646$$

Section 4 (SATP2, PARCC, and MAP Assessments)

- I. Calculate the Transformed Score for the PARCC and MAP assessments by using the following formulas:

- To transform a PARCC Algebra I Score:
Student's PARCC Algebra I Scale Score – 78 points
- To transform a PARCC English II Score:
Student's PARCC English II Scale Score – 80 points
- To transform a MAP Algebra I Score:
Student's MAP Algebra I Scale Score – 403 points
- To transform a MAP English II Score:
Student's MAP English II Scale Score – 405 points

Calculate the student's composite (combined) score by determining the average score across all four assessments.

Test	Score	Transformation	Transformed Score
Algebra I (PARCC)	723	$723 - 78 =$	645
English II (MAP)	1049	$1049 - 405 =$	644
Biology I (SATP2)	652		652
U.S. History (SATP2)	644		644

$$\text{Average Composite (Combined) Score} = \frac{645 + 644 + 652 + 644}{4} = \frac{2585}{4} = 646.25 = 646$$

Calculate the student's composite (combined) score by determining the average score across all four assessments.

Test	Score	Transformation	Transformed Score
Algebra I (MAP)	1048	$1048 - 403 =$	645
English II (PARCC)	724	$724 - 80 =$	644
Biology I (SATP2)	652		652
U.S. History (SATP2)	644		644

$$\text{Average Composite (Combined) Score} = \frac{645 + 644 + 652 + 644}{4} = \frac{2585}{4} = 646.25 = 646$$

 - Have a signed statement from the parent acknowledging the Certificate of Completion is not a traditional high school diploma and will not meet the requirements for entry into careers or post- secondary opportunities requiring a diploma.
2. Students without a Significant Cognitive Disability who have not yet turned sixteen (16) by the end of the eighth grade should transition to the ninth grade on a diploma path.
3. Students with a Significant Cognitive Disability at the end of 8th grade who:
 - Have extremely limited or no receptive and expressive communication skills AND
 - Have a signed statement from the parent acknowledging the Certificate of Completion is not a traditional high school diploma and will not meet the requirements for entry into careers or post- secondary opportunities requiring a diploma.

REQUIREMENTS OF THE MISSISSIPPI STATEWIDE ASSESSMENT SYSTEM STANDARD 16

I. PURPOSE

It is the policy of the State Board of Education that all test procedures and results that are used in the Mississippi Statewide Assessment System and/or used in the Mississippi Statewide Accreditation System be valid and accurate for making related decisions. In order to protect the security and integrity of all tests administered through the Mississippi Statewide Assessment System, as well as to ensure reporting of accurate assessment results, the State Board of Education establishes the following requirements and the consequences applied when a school district or school is found in violation of any requirement. These requirements are established under the authority granted in Miss. Code Ann. § 37-16-1, § 37-16-3, and § 37-16-4.

II. DEFINITIONS

Secure test materials include certain test administrator manuals, test booklets, answer documents, and other materials as specified by the Office of Student Assessment.

A possible testing irregularity is any incident in the test handling or administration that leads to a question regarding the security of the test or the accuracy of the test data.

A verified testing irregularity is a violation of a testing requirement.

III. REPORTING AND USE OF TEST DATA

The school district will release test score information to parents, legal representatives, teachers, students, other educators, the media, and the public in a timely manner and provide interpretive material as necessary. The school district will use test scores appropriately in making decisions regarding students. A decision or characterization that will have a major impact on an individual student is not made on the basis of a single test score. Additional retesting opportunities will be made available for any “high stakes” test.

IV. REQUIREMENTS

The following is not an exhaustive list of requirements.

To ensure that security is maintained from year to year, it is the responsibility of the District each year to review the list of individuals who have access to the secure storage area and to ensure that only those individuals listed have access to the secure area by way of keys or vault combination.
- a. Secure test materials are kept in locked storage before testing at both the district and school levels.
 - b. Access to secure test materials is limited to those individuals identified in the test security plan. Test administrators and proctors will have access as described in the district test security plan.  - a. Test administrators shall be licensed school personnel.
 - b. Due to the need for the one-on-one administration of the English language proficiency test for English Language Learners, which includes component subtests such as reading, writing, speaking, listening, the test administrator may be a non-licensed employee as long as the proctor for the administration is a licensed staff member.

 - e. Each student enrolled in and re-taking courses for which end-of-course Subject Area Tests are required shall take the appropriate Subject Area Test only if the student has not previously passed the Subject Area Test.
 - f. Each student shall take the appropriate end-of-course Subject Area Test at the end of the course regardless of the grade level in which the course is offered.
 - g. Students enrolled in a Mississippi public school will be required to pass end-of-course Subject Area Test in a course for which the school accepts Carnegie units earned by the student through enrollment in summer school, virtual school, or any other non-standard school as defined by the Office of Accreditation.

Such an environment should provide adequate lighting, reduced noise level, and spacing to ensure that students cannot see the answers being bubbled (or answers being selected during computer-based online testing) by other students.

V. INVESTIGATION

The Office of Student Assessment follows a systematic procedure to ensure that all evidence indicating possible testing irregularities is investigated. Corrective action will be taken when warranted.

A. PROCEDURE FOR INVESTIGATION

Identifying and investigating possible testing irregularities involves a variety of data sources. These include formal testing audits, self-reports of testing irregularities, allegations/complaints related to possible testing irregularities, and results of analyses and reports designed to identify possible irregularities, including the percent of students tested, changes in enrollment, score exceptionalities, erasure report results, and missing documents reports.

The procedure for handling testing irregularities is repeated for each test administration. The Office of Student Assessment will notify the school district in writing when a possible testing irregularity has been identified. Within fifteen (15) working days following a reported potential irregularity/violation and/or receipt of the written notification from the Office of Student Assessment, the District will submit a written

report to the Office of Student Assessment. The Office of Student Assessment reserves the right to conduct an independent investigation.

The Office of Student Assessment will evaluate the District report to determine whether the possible testing irregularity has been resolved or the testing irregularity has been verified. If the possible testing irregularity has been resolved, the Office of Student Assessment will notify the District that no further action is required. If a testing irregularity has been verified, the Office of Student Assessment will notify the district superintendent.

In the case of any verified testing irregularity that jeopardized or may have jeopardized the security and integrity of the test(s) or the accuracy of the test results, the Office of Student Assessment will report the irregularity to the Office of Accreditation for appropriate action and follow-up. (See VI. *CONSEQUENCES*.) In the case of improper student behavior supported by a data forensics company and not disproved in the District report, the Office of Student Assessment will respond to the district superintendent with a request on behalf of the State Superintendent of Education that the district superintendent ask for the invalidation of the suspect test scores and prepare for the students with the suspect test scores to participate in the next test administration. If the District refuses to invalidate the suspect scores, the State Superintendent will have the authority to invalidate the scores.

In case of an allegation of an irregularity that prompts a need for an investigation by the Mississippi Department of Education and the investigation provides substantial evidence that an irregularity has occurred, the State Superintendent will have the authority to invalidate suspect scores. The district superintendent will be notified of the invalidated suspect scores and of the need to prepare students with the suspect scores to participate in the next test administration.

B. PROCEDURES FOR PERSONAL MISCONDUCT INVESTIGATION

If an irregularity that represents misconduct or other breaches of test security on the part of district personnel within a school district is identified, the superintendent of the District will be notified of the irregularity. It is the responsibility of the District to conduct an investigation into the allegation and report findings to the Office of Student Assessment. If the Office of Student Assessment concludes that the irregularity was resolved, the district is notified that no further action is necessary.

If the Office of Student Assessment concludes that the irregularity was verified, the district superintendent is notified that the Office of Accreditation is being apprised of the finding.

In case of an allegation of an irregularity or in the case of statistical analyses that prompt a need for an investigation by the Mississippi Department of Education and the investigation provides substantial evidence that an irregularity has occurred, the State Superintendent will have the authority to invalidate suspect test scores. The district superintendent will be notified of the invalidated suspect scores and of the need to prepare students with the suspect scores to participate in the next test administration. The district superintendent will be notified that the Office of Accreditation is being apprised of the findings.

The district attorney may investigate allegations of violations of test security on his own initiative following receipt of allegations, at the request of a school district, or at the request of the Mississippi Department of Education.

After a conviction, the personnel in question will be notified in writing that the evidence of conviction will be presented to the Commission on Educator and Administrator Education, Certification and licensure and development and that the Commission is required to take action pursuant to the authority granted in Miss. Code Ann. § 37-16-4. In the case of improper student behavior supported by the data forensics company and not disproved in the district report, the district superintendent will be asked to request the invalidation of the suspect test scores and prepare for the students with the suspect test scores to participate in the next test administration.

VI. CONSEQUENCES

A. LETTER OF WARNING

If a violation has been verified that did not result in a substantial probability that the security, accuracy, or validity of the test results has been jeopardized, then the Office of Student Assessment may issue a letter of warning to the school district superintendent to be placed in the district and/or school file.

Multiple and/or repeated minor violations that indicate the district and/or school has not corrected issues addressed in previous letters of warning or that the district and/or school has continued to be in noncompliance with the numbered issues listed in Requirements (Section IV) may result in a recommendation for a citation to be placed on the accreditation record. (See Section B below.) In the case of improper student behavior supported by the data forensics company and not disproved in the district reports, the District will be asked to request the invalidation of the suspect scores. If the improper student behavior is determined to be isolated to an individual student's or to individual students' behavior and not supported or condoned by the District, the District will not receive a letter of warning. The District will be asked in an official letter by the Office of Student Assessment to put measures in place to address and prevent the possibility of such improper behavior being repeated. However, multiple administrations resulting in suspect scores may result in further investigation by the Office of Student Assessment that may lead to further consequences. (See VI. CONSEQUENCES.)

B. CITATION PLACED ON THE ACCREDITATION RECORD WITH NO IMMEDIATE ACTION TO DOWNGRADE THE ACCREDITATION STATUS

1. Multiple Letters of Warning

Multiple and/or repeated violations as outlined in Section A above may result in a recommendation for a citation to be placed on the district's Accreditation Record Summary. The Office of Accreditation will note the citation of noncompliance on the district's accreditation record and notify the superintendent of this action. No immediate action to downgrade the district accreditation status will be recommended. This citation will remain on record until the district has **successfully** completed the next scheduled administration of the same test for which the irregularity was originally verified.

The Office of Student Assessment may recommend to the Commission on School Accreditation that the school's annual performance classification include the label School in Violation of Test Security.

2. Substantial Probability That the Security, Accuracy, or Validity of the Test Results Has Been Jeopardized

If a verified violation has resulted in a substantial probability that the security, accuracy, or validity of the test results has been jeopardized, the Office of Student Assessment will issue written notification to the district superintendent. The Office of Student Assessment will note the violation on the School and/or District Assessment Record and notify the Office of Accreditation.

The Office of Accreditation will note the citation of noncompliance on the district's accreditation record and notify the superintendent of this action. No immediate action to downgrade the district accreditation status will be recommended. This citation will remain on record until the district has **successfully** completed the next scheduled administration of the **same test** for which the irregularity was originally verified. For example, if the citation is issued for the December Subject Area Administration of the U.S. History Test, the next scheduled administration for the same test will be the December Subject Area administration the following year.

The Office of Student Assessment may submit a recommendation to the Commission on School Accreditation that the school's annual performance classification include the label School in Violation of Test Security.

C. CITATION PLACED ON THE ACCREDITATION RECORD THAT MAY RESULT IN IMMEDIATE ACTION TO DOWNGRADE OF ACCREDITATION STATUS

If it is determined that a violation of a testing requirement jeopardizes the security and integrity of the test(s) or the accuracy of test results, the Office of Student Assessment will issue written notification of the violation to the superintendent of the school district and to the Office of Accreditation.

The Office of Accreditation will note the citation of noncompliance on the district's Accreditation Record Summary and notify the superintendent of this action. The citation of noncompliance will be presented to the Commission on School Accreditation for appropriate action. This citation will remain on record until the district has successfully completed the next scheduled administration of the same test for which the irregularity was originally verified. For example, if the citation is issued for the December Subject Area Administration of the U.S. History Test, the next scheduled administration for the same test will be the December Subject Area administration the following year.

The Office of Student Assessment may recommend to the Commission on School Accreditation that the school's annual performance classification includes the label of School in Violation of Test Security.

D. INVALIDATION OF SCORES

1. Student Retest and Score Invalidation Procedure

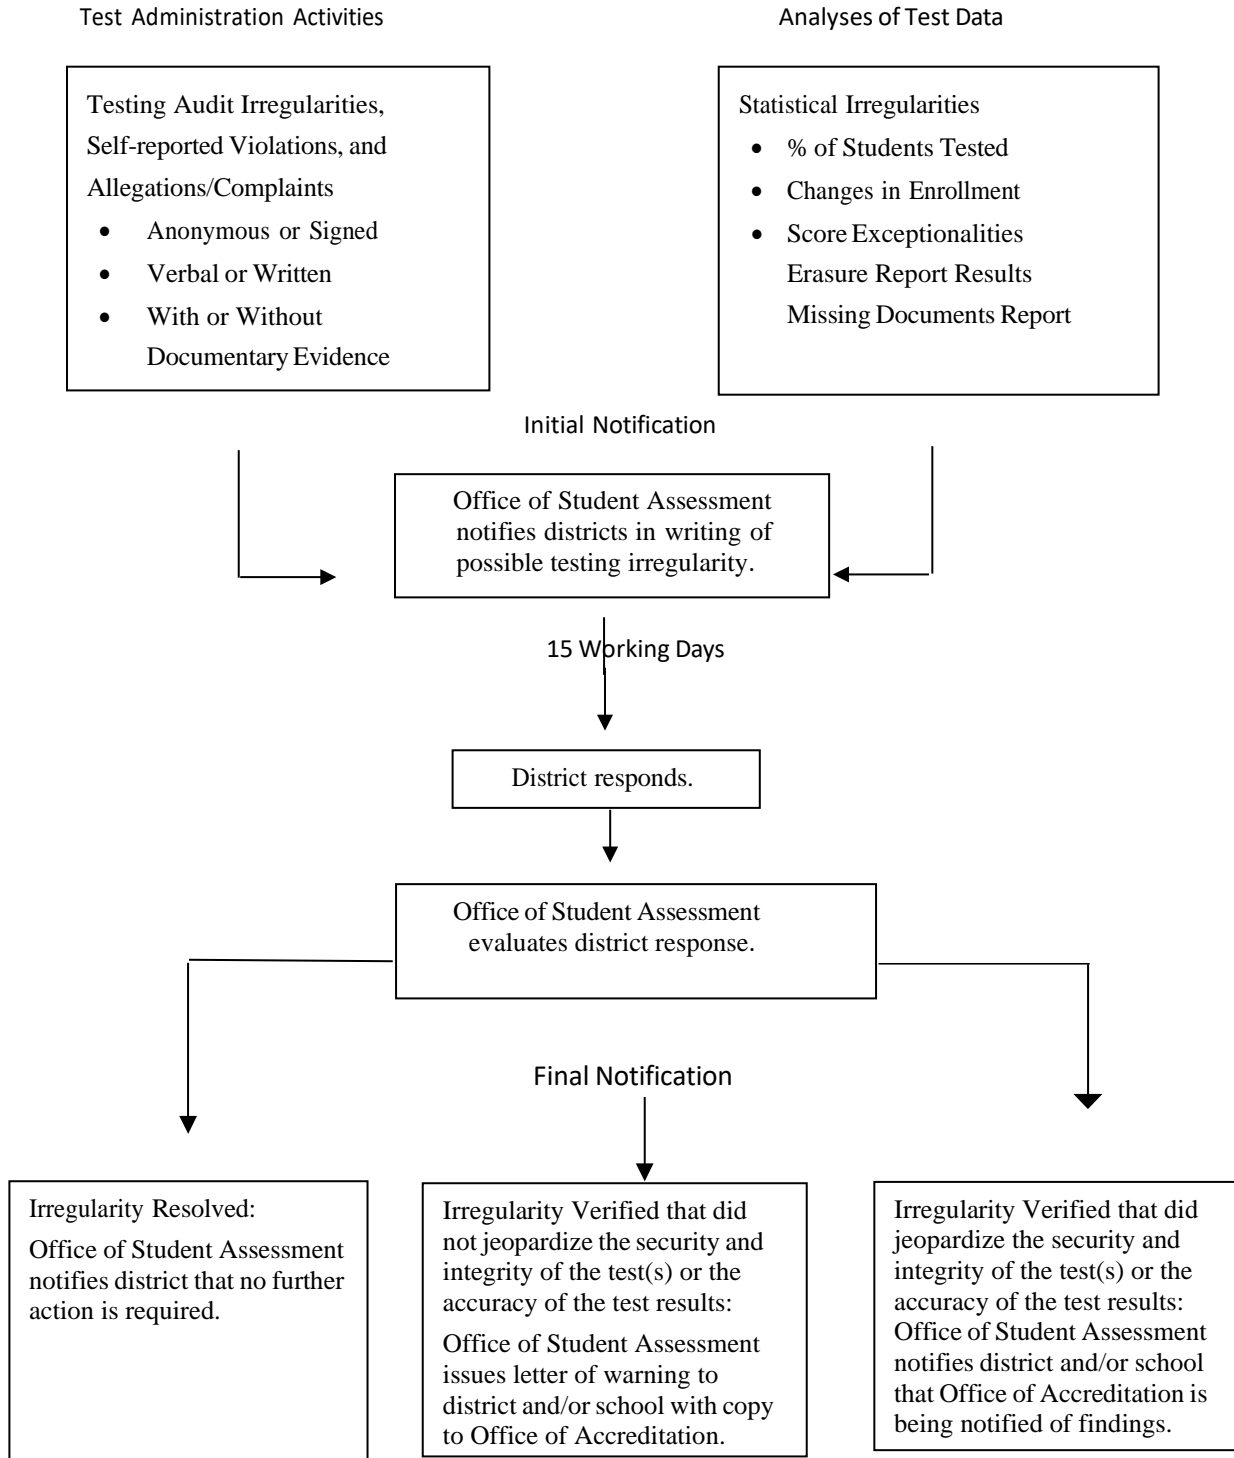

In the case of findings that reveal misconduct at the District or school level, the State Superintendent of Education may order the local school district to have students retake the examination(s) at the district's expense for all areas in question. Should the local district choose not to have students re-examined to establish validity, the State Superintendent of Education will have the authority to have affected scores invalidated. At such time, the local district will be notified.

A school will not receive a school performance classification if the test data have been invalidated, and the school performance classification will be noted as Test Data Invalidated. (See Accreditation Policy 3.3.) In the case that the Office of Student Assessment has requested the district superintendent ask for the invalidation of a student's (or students') suspect scores based upon the analyses by the data forensics company and the refusal to do so by the district superintendent, the State Superintendent will have the authority to have suspect score(s) invalidated. At such time, the local district will be notified.

2. Individual Irregularity Procedure

If there is evidence of a nature that confirms one (1) or more individual testing irregularities on the Subject Area Tests or other tests that have high stakes consequences for individual student(s) resulting in the student or students not being able to graduate in the current school year, the individual(s) in question shall be notified in writing of the irregularity by the district superintendent and given an opportunity to provide an explanation and evidence that the questioned score(s) is/are consistent with other test scores or other academic performance. If retesting of individuals on the test is required and the retesting yields scores that would deny students a diploma or affect promotion/retention decisions after all retesting opportunities have been exhausted, affected individuals will be given an opportunity to appeal to the State Board of Education the decision to invalidate their original scores on the test. No hearing will be granted to any student who has not completed all other requirements for graduation or promotion and exhausted all retake opportunities.

Procedure for Handling Possible Testing Irregularities

The procedure for handling testing irregularities is repeated for each test administration.

**SENIORS OF SCHOOL YEAR 2008-2009 AND LATER
(Ending with entering ninth graders in 2016-2017)**

In accordance with Miss. Code Ann. § 37-16-11(2), the State Board of Education has approved criteria for an occupational diploma for students with disabilities. The Mississippi Occupational Diploma provides an option for students with disabilities that emphasizes high expectations in both academics and work experiences that will assist students in acquiring and maintaining the necessary competencies and skills needed to secure and retain competitive employment. The primary postgraduate goal for these students is competitive employment.

- The decision regarding participation in the Mississippi Occupational Diploma program will be made by the student's Individualized Education Program (IEP) committee, which must include a school counselor. Instructional program and diploma options are to be reviewed annually by the IEP committee and revisions made as necessary.
- The Mississippi Occupational Diploma program may be implemented in any Least Restrictive Environment deemed appropriate by the IEP committee. Students in the occupational diploma program may earn credits by successfully completing course work selected from the general education
- curriculum and/or special education courses as agreed upon by the student's IEP committee.
- Students with disabilities choosing to participate in the Mississippi Occupational Diploma program must earn a minimum of 21 course credits and complete an occupational diploma portfolio containing a collection of evidence of the student's knowledge, skills, and abilities.
- Students with disabilities choosing to participate in the Mississippi Occupational Diploma program must successfully complete a two (2) year Career/Technical (Vocational) Program. In lieu of completing a two-year Career/Technical (Vocational) Program, students with disabilities may document a minimum of five hundred forty (540) hours of successful, paid employment.
- Prior to graduation, an exit IEP committee meeting must be held to evaluate accomplishment of the goals and objectives on the IEP and the completion of all requirements for the Mississippi Occupational Diploma. At this meeting, the student will present the completed Mississippi Occupational Diploma Portfolio for review by the IEP committee.
- The final Mississippi Occupational Diploma Portfolio will be reviewed and approved prior to graduation by the principal or a designee.

For additional details, see the State Board of Education approved guidelines for the Mississippi Occupational Diploma at http://www.mde.k12.ms.us/special_education/pdfs/occupat_diploma.pdf.

APPENDIX H

CONSEQUENCES FOR NONCOMPLIANCE WITH FINANCIAL ACCOUNTABILITY REQUIREMENTS STANDARDS 4 AND 5

The Office of Internal Accountability will review the accreditation standards to determine if there is a violation. The following consequences will be implemented for violations of the financial accountability requirements and accreditation standards.

A. LETTER OF WARNING: MINOR ACCOUNTING OR AUDIT VIOLATION

If a violation of financial accountability requirements has been verified, then the Office of Internal Accountability will notify the Office of Accreditation. The Office of Accreditation will issue a letter of warning to the school district and place the letter of warning in the district file. Four (4) consecutive violations of the same process standard reported to the Office of Accreditation will result in a citation placed on the district's Accreditation Record Summary. (See Section B below.)

B. CITATION OF NONCOMPLIANCE ON RECORD WITH NO IMMEDIATE ACTION TO DOWNGRADE THE ACCREDITATION STATUS

When four (4) consecutive violations of the same process standard have been verified, then the Office of Internal Accountability will notify the Office of Accreditation. A citation of noncompliance will be placed on the district's Accreditation Record Summary, and the Office of Accreditation will notify the district superintendent and school board chairperson of this action. No immediate action to downgrade the district's accreditation status will be recommended. The deficiencies will remain on record until the district has successfully demonstrated compliance with all financial accountability requirements and accreditation standards.

If the deficiencies remain on record at the time annual accreditation statuses are assigned, the district's accreditation status will be downgraded, and the district will be required to develop a corrective action plan to address the deficiencies.

C. CITATION OF NONCOMPLIANCE ON RECORD WITH A RECOMMENDATION TO IMMEDIATELY DOWNGRADE THE ACCREDITATION STATUS

Any verified violations of financial accountability requirements that are considered to be a serious financial condition as defined by the Office of the State Auditor will result in a recommendation to immediately downgrade the district's accreditation status. When the Office of Internal Accountability has determined that a verified violation of financial accountability requirements is of such serious nature that immediate action is warranted, the Office of Accreditation will be notified. The Office of Accreditation will note the citation of noncompliance on the District's Accreditation Record Summary and notify the district superintendent and school board chairperson of this action. The citation of noncompliance will be presented to the Commission on School Accreditation with a recommendation to immediately downgrade the District's accreditation status.

Commission Takes Action to Immediately Downgrade the Status. If the Commission takes action to immediately downgrade the accreditation status, the district will be required to develop a corrective action plan to address the deficiencies. The deficiencies will remain on record until the district has successfully demonstrated compliance with all financial accountability requirements and accreditation standards.

Commission Does Not Take Action to Downgrade the Status. If the Commission does not take immediate action to downgrade the accreditation status, the deficiencies will remain on the District's Accreditation Record Summary until the district has successfully demonstrated compliance with all financial accountability requirements and accreditation standards. If the deficiencies remain on record at the time annual accreditation statuses are assigned, the district's accreditation status will be downgraded, and the District will be required to develop a corrective action plan to address the deficiencies.
