If there is a non scratching option like felt, yes. Otherwise, steel.

We need the most inclusive height range. The smallest tables are for grades K-3, while the larger ones will be for grades 4-8.

Lift Gate

Can you clarify where this furniture will need to be delivered at the main building?

It will need to be delivered to the main office/building.

Will you need assistance staging the product in the correct rooms or will someone be able to receive items from a freight carrier?

We should not need any of the other services, and should be able to receive the shipment as long as it can be unloaded to the ground versus a loading dock.

Would you need out installers to assemble on site?

We should not need any of the other services.

Will we required to uncrate and assemble the furniture at the delivery locations?

No

For the picnic tables would you accept quotes for 8ft tables? If not can we just quote the other items?

No bid on the picnic tables is acceptable

Please advise if the domestic is a preference or a requirement.

The domestic procurement is a requirement that we must communicate, and we must set a preference for quotes received with domestic products over quotes received for products which are not domestic. This is a requirement of the funding source and also a policy of our local governing board.

Also if goods are assembled in the USA would that be considered USA goods?

The goods must be produced in the United States.

Lastly would you be flexible on your delivery date?

I wish we could be more flexible with our delivery date, but we are facing time constraints with inhabiting a new building before the start of the school year.
