Protecting the health and well-being of all students is of utmost importance to the school. The school board has adopted a suicide prevention policy which will help to protect all students through the following steps:

1. Students will learn about the recognizing and responding to warning signs of suicide in friends, using coping skills, using support systems and seeking help for themselves and friends. This will occur in all health classes.
2. Each school will designate a suicide prevention coordinator to serve as a point of contact for students in crisis and to refer students to appropriate resources.
3. When a student is identified as being at risk, they will be assessed by a school employed mental health professional who will work with the student and help connect them to appropriate local resources.
4. Students will have access to national resources which they can contact for additional support, such as:
 - The National Suicide Prevention Lifeline 1.800.273.8255 (TALK)
www.suicidepreventionlifeline.org
 - The Trevor Lifeline – 1.866.488.7386 www.thetrevorproject.org
5. All students will be expected to help create a school culture of respect and support in which students feel comfortable seeking help for themselves or friends. Students are encouraged to tell any staff members if they, or a friend are feeling suicidal or in need of help.
6. Students should also know that because of the life or death nature of these matters, confidentiality or privacy concerns are secondary to seeking help for students in crisis.
7. For a more detailed review of policy changes, please see the SPS's full suicide prevention policy.

Checklist to Recognize Subtle Signs of Suicidal Thoughts

Uncover subtle signs of suicidal ideation early to ensure students receive timely intervention.
