To the Class of 1972:

We, the faculty, trust that you have concerned yourself with activities which have given you faith in yourself, faith in others, faith in the ability of each person to improve and grow, and faith in the desire of human beings to work out their problems cooperatively. This philosophy of faith will be your key to happiness.

*Principal*

In our school the individual learner is the center around which the education process revolves.

More specifically, we believe that our school should provide experiences and activities for promoting clearer understanding, developing habits of reflective thinking, and cultivating desirable personalities in pupils.
