★ SUPPORTING YOUR STUDENT AT HOME

We are halfway through the 2nd quarter! Time is flying by so quickly. As we approach the holiday season, I ask that you keep-up with the skills that your child will learn in school. Passages are getting a bit harder; math strategies are becoming trickier. But rest assured, with practice at school and at home, your child will excel in them at their own pace. As always, reach out to me if you have any questions or concerns.
