

welcome to 7TH GRADE MATH with MS. DAVIS

Hello! My name is Kaleigh Davis, and I am your child's 7th grade math teacher this school year. I am excited for all the things we have planned for this year! I graduated from Mississippi State University in 2017 with my bachelor's degree in Elementary Education with an emphasis in mathematics and history. I also earned my master's degree in Educational Leadership from Arkansas State University in December of 2021.

This will be my 7th year to teach seventh grade math in DeSoto County. My first four years of teaching were at Horn Lake Middle, and this will be my third year at OBMS. Please let me know if you need anything from me! I check my email and School Status messages each day, and I can respond during my planning periods. I look forward to partnering with you and your child this school year!

Sincerely,

kaleigh davis

CLASSROOM EXPECTATIONS:

Be respectful. • Be prepared. • Be engaged. • Be positive. • My actions, my consequences.

contact me!

parents:

My favorite way to stay in contact with parents is through School Status broadcasts and emails. Please always contact me if you need anything! I check my email and School Status messages each school day, and I can respond during my planning periods.

kaleigh.davis@dcsms.org

students:

You can join our class Remind to receive reminders about tests, quizzes, and upcoming events. You can sign up by texting **@2223davis** to **81010**. (Parents can join the Remind too, but since students cannot receive School Status messages, I like to have a way to send them reminders as well.)

REQUIRED MATERIALS:

- 1 Composition Notebook
- Binder with a section for math
- Pencils
- Notebook Paper
- Glue Sticks &/or Tape

OBMS

show your ob pride:
PREPARATION, RESPECT,
INTEGRITY, DILIGENCE,
AND EXCELLENCE

GRADING POLICY:

This class follows the DeSoto County Schools Grading Policy.

CLASSWORK 35%	This includes all work completed in class and quizzes.
HOMEWORK 15%	Students will complete a spiral review each week that reviews previously taught material. The goal is to keep material fresh on students' minds as we go throughout the year.
TESTS 40%	Tests will be taken at the end of each unit. Dates are posted at least a week in advance on the monthly calendar.
NINE WEEKS TEST 10%	A district-created nine weeks test is given at the end of each nine-weeks.

LATE WORK:

Late work is accepted for *partial* credit. Students, your work is your responsibility. If you turn in something late that is an *online assignment*, you must turn in an orange slip with your name, date, and assignment title so that I know to go look for that assignment.

MAKE-UP WORK:

If you are absent, it is your responsibility to make sure you get your missed work. Your missed work will be placed in the absent bin folder that matches the corresponding date that you missed. If you miss multiple days, you will need to check multiple folders.

INTERACTIVE NOTEBOOKS:

- We add to our notebook almost daily. If you are absent, it is YOUR responsibility to get your page from the absent bin and to get the notes that you missed. This should take place at the beginning of class while students are working on their spiral review.
- Interactive Notebook Test: At the end of each nine weeks, students will take a test using their notebook. This test does not include any math. It simply asks questions about their notebooks. It can ask about page numbers, dates, answers, etc. If you need an easy test grade or extra credit, here you go! ☺

STUDENT LAPTOPS:

Students are expected to bring their device to class charged and ready to use each day. This class includes a mix of digital and paper assignments. A dead laptop will not be an accepted excuse as to why work cannot be completed.

SUCCESS doesn't come from what we do **OCCASIONALLY** but what we do

CONSISTENTLY.
