Mission

Our mission at Johnsonville Middle School is to provide each student with a diverse education in a safe, supportive environment that promotes self-discipline, respect, motivation, creativity, and excellence in learning.

Principal's Message

As we prepare for another exciting school year at Johnsonville Middle School, I want to express my gratitude for your continued support in your child's education. At JMS, we are committed to providing a well-rounded and engaging learning experience that helps every student grow academically, artistically, and athletically.

Through a diverse and enriching educational approach, JMS strives to encourage and educate students to be confident, knowledgeable, responsible, and productive citizens in an ever-changing world. We know that achieving this goal takes teamwork between teachers, parents, and students, and we truly value your partnership in this journey.

To support student learning, we continue to implement **i-Ready**, an online assessment and instructional tool that personalizes each student's journey toward proficiency in reading and math. Students set yearly and stretch goals to monitor their progress. Additionally, **Progress Learning** is a critical resource for closing achievement gaps and enhancing literacy skills.

Our team at JMS conducts **Multi-Tiered System of Supports (MTSS) meetings** to regularly discuss student progress, ensuring we address the unique learning needs of each child. With the support of our Literacy Coach, MTSS Coach, instructional tutors at every grade level, and school-wide **Professional Learning Communities (PLCs)**, we are continually refining our strategies to provide the best educational experience for all students.

I am excited to collaborate with you and your child in the upcoming school year. Your involvement is vital in helping each student achieve their full potential. I encourage you to visit JMS, communicate with your child's teachers, and remain engaged in their educational journey.

Johnsonville Middle School is committed to **empowering all stakeholders to pursue a pathway to excellence**. We are dedicated to equipping every student with the tools and skills necessary for success, and together, we will foster a lifelong love of learning in them.

Thank you for your ongoing support. I am looking forward to a fantastic year ahead!

Sincerely,
Mirandi Squires

SIC Annual Goals

- **Establish a Fundraising Committee**—We will form a fundraising committee that includes teachers and parents to organize fundraising initiatives to support school programs and activities. This committee will work collaboratively to develop creative and effective fundraising strategies.
- **Enhance Communication Between Parents and the School** – We will continue to improve communication between parents and the school by providing clear, consistent updates and offering assistance on how to use the digital platforms used for communication. This will ensure parents stay informed and engaged in their child's education.
- We will continue to **involve parents** in the planning, reviewing, and improving programs in the school-wide reform plan through parent suggestions and input at School Improvement Council meetings and end-of-the-year surveys.

Increasing Student Achievement

- Administering i-Ready diagnostics three times a year to obtain data that will determine remediation needs for each student. The principal will have data dives after each i-Ready Diagnostic.
- Reviewing quarterly academic performance for each student
- Utilizing instructional technology programs such as Progress Learning and i-Ready to meet Typical and Stretch Growth Goals
- Utilizing Interventionists Providing Intensive Tier 3 Instruction
- Providing Instructional Tutors for Each Grade Level
- Reading Coach, MTSS Instructional Coach, and Instructional Coach for Grades 5-8
- Implementing monthly PLC with Reading Coach
- Providing multiple incentives for student academic success
- MTSS Coach meeting with classroom teachers and instructional tutors to discuss best practices/strategies/leading data-driven discussions to determine student placement for tiered instruction
- Implementing Read to Succeed
- New Math Standards Team PLCs to Prepare for New Math Standards in 25-26
