**Lagging/Leading Report**

This report is designed to address how each student performed over time on their

# Using Filters

To use iFilters (Interactive Filters)

1 Click on any filter

2 Select how to filter

*NOTE: when you set 1 filter, all other filters are limited by that selection.*

*So selecting Grade "6" and Course Subject "Math" will limit the Teacher filter to only teachers that teach math in 6<sup>th</sup> grade.*

3 Clear all filters by clicking on the broom icon 

4 Refresh a report to use the new filters that you've set by pressing the refresh icon. 

## iFilters and Saved Filters

### Creating Saved Filters

**1** Select the filter attributes desired

**2** The reports you run now will include only students with the criteria selected in your iFilter

**3** To save this filter, click on the disc icon

**4** Name your filter and click Save New Filter

### Working with Saved Filters

- Enable iFilters – Use this green arrow to switch to iFilters from a Saved filter. Notice that your previously chosen iFilter attributes are still there.
- Clear filter values – Sweep away chosen attributes in your Saved Filter
- Copy Saved Filter – Use the attributes in a Saved filter to create another filter. Name and add additional filter criteria.
- Rename Saved Filter - Change the name of a Saved Filter
- Delete a Saved Filter – Remove the Saved filter permanently

### Creating a List of Students from Multiple Teachers For Title 1 Groups, Reading Groups, etc.

- 1** Make sure you are in a principal account.
- 2** Set the Grade filter to the grade the students are in to limit all filters to that grade. For example “7”
- 3** Click on the Course Subject filter to filter one subject – for example “Math”
- 4** Click on the Teacher filter and select the teachers that have the students for your group. *(Hold Ctrl down as you select teachers for multiple selects)*
- 5** Finally, click on the Student filter and click on the students that you want in the group.
- 6** Save the filter with an appropriate name.
