Frazier School District

VISION:

The Frazier School District is committed to providing students with an academically rigorous curriculum while developing deeper learning competencies in all students. Frazier sets high expectations in support of students' efforts to strive to achieve academically and in the acquisition of the skills necessary for life success.

MISSION

The mission of the Frazier School District is to inspire and empower our students so that they can become lifelong learners who are respectful, responsible and productive citizens in a global society.

SHARED VALUES

The Frazier School District Community believes that all students can learn and that the students should share in the responsibility for their own education. We also believe that our schools should model loyalty and integrity in a respectful, inclusive, and dynamic environment. All students are to be valued and serve a safe and encouraging place to grow and learn. We believe that the district has a responsibility to seek out and cultivate strong partnerships among students, faculty/staff, families, and community in an effort to strengthen the educational process and broaden well-rounded educational opportunities in collaboration with post-secondary institutions, businesses, and industry to create and sustain programs to prepare students to excel beyond high school. We believe that the physical facility of the school should reflect a strong sense of pride while providing the resources needed to carry out our mission. The district will operate in a fiscally responsible manner in order to continually maintain and improve both the physical plant and the educational programs. Fiscal decisions are effectively balanced so that the educational needs of the students are met.

COLORS

The Frazier School District colors are red and white.

ALMA MATER

The Alma Mater is our school song. It represents the tie between you and everyone else who has ever gone to school at Frazier. When this song is played or sung, you should respond with the traditional respect and decorum afforded to your alma mater. Both students and alumni should stand still with heads uncovered during the alma mater. It is generally expected that students and alumni sing along whenever the alma mater is heard.

The words to your alma mater are as follows:

***Hail alma mater, hats off to you!
Ever you'll find us, loyal and true.
Firm and undaunted, always we'll be.
Hail to the school we love
Here's a toast to thee!***

Parents / Guardians will receive written notice by the mid-point of each 9 weeks if their child has a 59% or below in any class. Parents / guardians will be provided an opportunity to schedule a conference at that time as well.

EVALUATION AND ASSESSMENT PROCEDURES: GRADES K-2

Introduction

Students in the primary grades of Kindergarten, Grade 1, and Grade 2 will receive quarterly report cards based on the Learning Objectives developed by the grade level teachers in collaboration with the District Curriculum and the PA Core Standards. The grading system provides a means to measure students' proficiency with respect to the planned course (as defined by the approved district planned program of students) and its objectives. The grading system provides a means to inform students and parent(s) and/or guardian(s) of the students' progress towards achieving the course objectives.

Quarterly Learning Objectives

Quarterly Learning Objectives are designed to inform parents and guardians about where their students should be performing at the end of each of the four quarters of the school year.

Teachers will utilize a variety of assessments to determine students proficiency level based on the Frazier School District's approved grading scale.

EVALUATION AND ASSESSMENT PROCEDURES: GRADES 3-5

Purpose

- a. A grading system provides a means to measure students' proficiency with respect to the planned course (as defined by the approved district planned program of students) and its objectives.
- b. The grading system provides a means to inform students and parent(s) and/or guardian(s) of the students' progress towards achieving the course objectives.
- c. This procedure is designed to bring a degree of uniformity, consistency and fairness into the grading system while still allowing teachers sufficient latitude of judgment in measuring student achievement. Research has shown that teachers differ greatly in determining how students will be evaluated; therefore, the evaluation procedure must be clearly stated in a student evaluation system.

Definitions

Assessment: any number of methods that may be utilized to gather information about the performance of students.

- The purpose of assessment is to monitor students' learning and to guide instruction. Assessment must be aligned with the goals and learning outcomes of the planned course and units.
- In order to accurately analyze student performance, a teacher must use multiple assessment methods. Accurate assessment requires the use of a range of instruments; not just multiple choice, true/false, fill in the blank or paper and pencil tests.
- When a student is offered a fixed number of options (e.g., multiple choice, true/false, fill in the blank) a scoring key can be used to score the items by comparing the option to the scoring key. Performance based methods (open-ended questions, performance tests, journals, exhibitions, and portfolios) depend, to a greater extent, on teacher judgment of a response. Instead of a scoring key, a rubric provides the guidelines laid out for judging student work on performance-based tasks.

Evaluation: What the teacher does with the information collected in the assessment program. Once the assessment data is collected, teachers will interpret their findings and make judgments about student learning.

Students are **evaluated** on the **product** of their learning experiences – not on the learning process; however, the students' participation in the learning process (e.g., cooperative education) may be evaluated.

**Student Learning Experience
(Process)****Learning Outcome
(Product)**

Learning Outcome: What a student knows and can do (Procedural and Declarative Knowledge). Since classroom activities and learning focuses on such instruments as labs, demonstrations and hands-on activities, much of the assessment must be performance based.

Test: A test typically denotes the presentation of a specific set of questions to be answered. The questions are normally essay, multiple-choice, true/false, matching, or fill in the blank. Tests must assess the specific objectives of the planned course. **Teachers should “test what they value and value what they test!”** Tests must also address the Pennsylvania State Standards.

Portfolio: A representative and judicious collection of a student’s best work, over time. A portfolio can provide documentation of the student’s work and serve as a basis for **evaluation** of work in progress or work over time by providing evidence of how the student’s work evolved and was refined.

Product: The tangible results of the learning process. The product is valid if it reflects the knowledge or skills that were taught and appropriately samples the **essential learning outcomes of the course**.

Rubric: A set of scoring guidelines for giving scores (points) to a student's work. The rubric is to be designed to answer the question: What does proficient (and varying degrees of proficiency) at this task look like?

A sample rubric:

- Contains a scale of different possible points to be assigned, often ranging from one (1) to six (6), with six (6) being the highest score.
- States all the different major traits or dimensions to be examined (e.g. syntax or understanding of scientific method)
- Provides key signs or salient points of performance or product for finding the right place on the scoring scale to measure student mastery of the task

Mastery Grading: Grading students on what they know and can do rather than grading them on how they compare with one another (curve). We do not grade on a curve. We grade on a straight percentage.

EVALUATION SYSTEM OF STUDENTS:

EVALUATION GRADE

Evaluation grades reflect students’ mastery of planned course objectives on assessment instruments such as tests, reports, projects, homework, papers, labs, quizzes, journals, diaries, portfolios, observational checklists, exhibitions, videotapes, audiotapes, interviews, performances, debates and other assessment instruments.

A minimum of one (1) graded application project per course is required in each course.

Teachers must review assessments with students so that students may learn from their errors.

Assessments must be graded and be available for review by the parent(s) and/or guardian(s) or student, if requested.

Research indicates that frequent quizzes have been found to correlate positively with student achievement in secondary students. Teachers should use an adequate number of quizzes or equivalent evaluation instruments reasonably spaced throughout the marking period and include them as part of the marking period grade.

Evaluation grades **must be recorded in the grade book as a point system that must be converted to a percent** for grading upon request so that a student, parent and/or guardian, or administrator can be informed of the student's academic progress during the marking period. Total points earned will be converted to a percent for the marking period grade.

Grades will be updated at least once per school week and are accessible to parents/guardians via Skyward Family Access.

GRADING SCALE

Grade Percentage	Grade	Proficiency Level
98 – 100	A+	Advanced
93 – 97	A	
90 – 92	A-	
87 – 89	B+	High Proficient
83 – 86	B	
80 – 82	B-	
77 – 79	C+	Proficient
73 – 76	C	
70 – 72	C-	
67 – 69	D+	Basic
63 – 66	D	
60 – 62	D-	
0 – 59	F	Below Basic

Example:

Student earned 250 points out of a possible 300 points for the marking period

$$\frac{250}{300} = 83.3\% = B$$

$$\frac{\text{Points Earned}}{\text{Points Available}} = \text{Percent} = \text{Letter Grade}$$

- Teachers must use an adequate **number** and **variety** of evaluation instruments to determine the marking period grade. A minimum of ten (10) evaluation **grades**, of which at least three (3) must be major (of substantial depth), graded separately and reasonably spaced, will be required to be recorded in the grade book for each student, per marking period. This does not include midterms or finals. Most teachers will have significantly more evaluation grades.

-
- b. Student class participation **or** performance **must** be evaluated and be a reasonable portion of the student's marking period grade, though not counted as part of the minimum number of evaluation grades.
 - c. **Students, who have an illegal absence or unexcused absence as a result of a class cut must receive a zero (0), recorded in the grade book for each day of such absence (does not include suspensions).**
 - d. A student's grades must be private, not discussed or distributed to anyone who does not have a legitimate educational reason to know the grades. Student grades must never be announced or published in the classroom.
 - e. Teachers must allow students access to their grades, at reasonable times, as recorded in the grade book, so that the students may regularly be aware of their progress in the planned course.

Students will only have one day per excused absence to make up graded assessments. If the student does not meet the deadline, he/she will receive a zero (0) for the graded assessment. Students may not make up work for illegal or unexcused absences, tardies or class cuts. In the event of an extended illness, special arrangements may be made through the principal.

Students who are suspended from school may turn in graded assignments only on the day returning from suspension. Otherwise, failure to do so will result in zeros on the assignments.

HOMEWORK

Research has indicated that time spent on homework is one of the most important factors in achieving good grades. Yet clearly, the responsibility for homework is not the school's alone. This responsibility is also shared by parent(s) and/or guardian(s) and students. Homework is an important ingredient in our academic program and should be treated as such by all concerned. To reach the goal in education, today, it is essential that home time be budgeted so that the student may meet both his/her school obligations and his/her personal and social commitments. Homework assignments are an important part of student learning. Homework assignments provide practice of needed academic skills; assist in developing good study and work habits; enrich and extend what is learned in school; and helps students learn how to manage their time. Parents can assist in their child's learning at home by providing a well-lit, quiet area for your child to complete his/her work. It is essential for parents to encourage and support a child's educational activities both inside and outside the classroom.

HOMEWORK REQUESTS/ MAKE-UP WORK

Students have the right to make up class work missed due to excused absences or suspensions. If a student will be absent from school due to illness, surgery, etc., parents/guardians may request homework by calling the Elementary office as early in the day as possible to request assignments. The student or parent must make arrangements for books and assignments to be picked up.

PLEASE NOTE: To fulfill a request for homework, teachers must be given sufficient time to prepare the assignments. It would be greatly appreciated if you could provide **at least 24 hour notice** to the Office to allow sufficient time for teachers to gather the assignments.

- If a student will be absent from school for field trips, educational trips, athletic events, etc. **it is the responsibility of the students to find out from their teachers what class work or assignments will be missed.**

-
- Students attending school sponsored activities or events are to be considered in attendance and are responsible for turning in all work assigned as if they were physically in class.

Students who earn a cumulative 4.0 average as their final grades at the end of their 3rd or 4th grade year meet the first criteria for candidacy. This average is calculated using the following scale: 90-100% = 4.0; 80-89% = 3.0; 70-79% = 2.0; 60 - 69% = 1.0; 59 and below = 0.0; P = 4.0 and F = 0.0. 1. Retention of any child in grades K–5 shall be determined by a combination of teacher recommendations, tests, and other pertinent data and the child's age. Retention shall be subject to final approval by the elementary school's principal and the superintendent.
2. Since Kindergarten attendance is not mandatory in Pennsylvania, a child may be retained in Kindergarten only with parental consent. Kindergarten teachers shall make recommendations for retention well in advance of the end of the school term so that conferences may be conducted with affected parent(s) and/or guardian(s). Parents must indicate their decision to deny the teacher's request for retention in writing to confirm this decision with the understanding that a child deficient in Reading and Math skills will impair the child's success in language arts and arithmetic instruction in first (1st) grade
3. No child shall be retained in Kindergarten more than one (1) time.
4. A recommendation for retention in grades Kindergarten - Grade 2 occurs if the child receives a 59% or less in 3 or more courses based on the final average. When considering retention of a child, teacher recommendations, test data and expectancy levels are given primary consideration in addition to any other pertinent data as well as the child's age. Students in grades 3 - 5 will be recommended for retention when earning a final average of 59% or below in ELA and Math.
5. No child shall be retained at the primary level (grades 1–2) more than one (1) time if the child had been previously retained in Kindergarten.

-
6. No child shall be retained at the intermediate grade level (Grades 3–5) more than (1) time if the child had been previously retained in Kindergarten and previously retained in the primary level (grades 1-2).
 7. When considering retention of a child at the intermediate grade level, teacher recommendations, test data and expectancy levels shall be given primary consideration.
 8. In the elementary school, the final decision to retain or to promote a child shall be made in consultation by teachers and by the administration. However, every effort shall be made to meet with the parent(s) (s) and/or guardian(s) of the child and to explain the circumstances related to possible retention. Student tests and other pertinent data to support the recommendation of retention will be shared with the parent/guardian.
 9. In the elementary school, beginning with the first nine (9) weeks marking period, a report shall be provided to parent(s) and/or guardian(s) at the midpoint of each marking period for every child who is failing work in any major subject. The deficiency report shall include a request for a parental conference to discuss the child's lack of achievement or possible retention

RESOURCES

TEXTBOOKS

Textbooks are not the course of study for a particular subject nor is the textbook the curriculum. The purpose of a textbook is to be used as one of many resources chosen by the teacher to teach the curriculum. Effective teachers teach students not from a textbook. Therefore a wide variety of instructional strategies, resources and materials will be used by teachers to teach our students to ensure lesson mastery is taking place.

Students are responsible for maintaining any school district material/resources including textbooks in good condition. Students should put their names on the inside cover of the books and provide a book cover in some fashion. Students will be charged for books that are lost, damaged or worn excessively. Fines for damaged or lost items will be assessed by the principal.

Specialized & Support Services

ELEMENTARY SCHOOL COUNSELING

School counselors are certified educators who support student success in the areas of academics, social/emotional growth and career development. School counselors provide short-term counseling to students and refer students for long-term counseling support as needed.

The Elementary School and Middle School are assigned one school counselor, Mrs. Cari Capozza ccapozza@fraziersd.org / 724-736-9507 x 124.

GIFTED EDUCATION (Chapter 16)

DEFINITION FOR MENTALLY GIFTED

Gifted student – shall mean a student of school age with an IQ of 130 or higher who meets established multiple criteria indicating gifted ability or a school-aged student with an IQ lower than 130 when other educational criteria strongly indicate gifted ability. For purposes of this definition, any determination of mentally gifted status shall include an assessment by a certified school psychologist.

Frazier School District shall establish procedures to determine whether a student is mentally gifted. This term includes a person who has an IQ of 130 or higher or when multiple criteria as set forth in the Pennsylvania Department of Education Guidelines indicate gifted ability. Determination of gifted ability will not be based on IQ score alone. Deficits in memory or processing speed, as indicated by testing, cannot be the sole basis upon which a student is determined to be ineligible for gifted special education. A person with an IQ score lower than 130 may be admitted to gifted programs when other educational criteria in the profile of the person

strongly indicate gifted ability. Determination of mentally gifted must include an assessment by a certified school psychologist.

MULTIPLE CRITERIA INDICATING GIFTED ABILITY

1. A year or more above grade achievement level for the normal age group in one or more subjects as measured by nationally normed and validated achievement tests able to accurately reflect gifted performance. Subject results shall yield academic instruction levels in all academic subject areas.
2. An observed or measured rate of acquisition/retention of new academic content or skills that reflect gifted ability.
3. Demonstrated achievement, performance or expertise in one or more academic areas as evidenced by excellence of products, portfolio or research, as well as criterion-referenced team judgment.
4. Early and measured use of high level thinking skills, academic creativity, leadership skills, intense academic interest areas, communication skills, foreign language aptitude or technology expertise.
5. Documented, observed, validated or assessed evidence that intervening factors such as English as a second language, disabilities defined in 34 CFR 300.8 (relating to a child with a disability), gender or race bias, or socio/cultural deprivation are masking gifted abilities.

GIFTED EDUCATION REFERRAL AND EVALUATION PROCEDURES

The Superintendent or designee shall develop and implement procedures and the necessary forms to permit teachers to refer a student or allow a parent/guardian to request in writing that a school-aged student undergo a gifted multidisciplinary evaluation to determine if the student is gifted.

Referral for gifted multidisciplinary evaluation shall be made when the student is suspected by teachers or parents of being gifted and not receiving an appropriate education under Chapter 4 (relating to academic standards and assessment).

Parents who suspect that their child is gifted may request a gifted multidisciplinary evaluation of their child at any time, with a limit of one request per school term. The request must be in writing. The school district shall make the "Permission to Evaluate" form readily available for that purpose. If a request is made orally to any professional employee or administrator of the school district, a copy of the "Permission to Evaluate" form will be provided to the parents within 10 calendar days of the oral request.

The initial evaluation shall be completed and a copy of the evaluation report presented to the parents no later than 60 calendar days after the school district receives written parental consent for evaluation, except that the calendar days from the day after the last day of the spring school term up to and including the day before the first day of the subsequent fall school term may not be counted.

HEALTH SERVICES

The school nurse coordinates our school health services. Students who need to see the nurse must obtain a pass from his/her classroom teacher. Should the nurse not be available, students in need of health room services should report to the office. Under no circumstances should a student use the telephone and/or leave the building.

IMMUNIZATIONS

PLEASE NOTE: As of August 1, 2017, the PA Department of Health has changed school immunization requirements. Under the new regulations, ALL students must be fully immunized by the first day of school or they will be recommended for EXCLUSION from school. If you have any questions, please contact the school nurse with any questions regarding your child's status.

It must be signed by a physician, certified registered nurse practitioner (CRNP), or physician assistant (PA). The medical certificate will be reviewed at least every 30 days and those that do not follow the schedule will be recommended for exclusion from school.

All K-12 students admitted to the Frazier School District must meet the immunization requirements of the Commonwealth of Pennsylvania.

Students Experiencing Homelessness

August 28, 2024

Dear Parents and/or Guardians,

In compliance with the federal McKinney-Vento Homeless Assistance Act, as reauthorized in 2015 by the Every Student Succeeds Act (ESSA), the Frazier School District is attempting to identify all children within the district that may be experiencing homelessness.

The term “homeless children and youth” is identified as individuals who lack fixed, regular, and adequate nighttime residence. This includes individuals:

- **Sharing the housing of other persons due to loss of housing, economic hardship, or a similar reason;**
- **Living in a motel, hotel, trailer park, or campground due to the lack of alternative adequate accommodations;**
- **Living in emergency or transitional shelters;**
- **Living in cars, parks, public spaces, abandoned buildings, bus/train stations, or similar settings;**
- **Living in substandard housing (no running water or working utilities, infestations, etc.).**

Children who are experiencing homelessness may qualify for assistance with free school lunch, school supplies/materials, tutoring, and transportation so that they can remain in their school of origin throughout the duration of their homeless episode.

If you believe your child(ren) may qualify for this service please contact Amanda Law, Homeless Liaison at 724-736-9507, Ext. 128 or by email at alaw@fraziersd.org.

If your living situation changes during the school year, and your child(ren) experiences homelessness, please be sure to contact the school. We will work with you so that your child(ren)’s education is disrupted as little as possible.

Sincerely,

**Amanda R. Law
Frazier School District
Homeless Liaison**

Under McKinney-Vento all school districts are responsible for identifying students experiencing homelessness and connecting them with the resources needed to ensure academic success.

Who is considered homeless—Children or youth living in a shelter, transitional housing, hotel/motel, vehicle, campground, on the street or doubled up with friends or family due to a lack of alternate resources are considered homeless. An unaccompanied homeless youth is a child or youth that is not in the care of their parent or legal guardian and meets the definition of homeless under McKinney-Vento.

Where can students experiencing homelessness attend school? —The law indicates that homeless students have the right to remain in their school origin (the school they attended at the time of the homeless episode or last school attended) through the end of the school year in which they find permanent housing, provided it is in the child/youth’s best interest.

If through consultation between the school and the family and/or unaccompanied youth it is determined that remaining in the school of origin is not in the student’s best interest, then the student has the right to immediately enroll in the school that non-homeless students living in the attendance area in which the child/youth is actually living are eligible to attend, even if they do not have all of the required documentation. Additionally, unaccompanied homeless youth have the right to immediately enroll in school, even if they do not have a legal guardian present.

What supports can school districts provide to homeless students? —Homeless students are eligible for supports and services to remove barriers to educational success. This may include transportation to the school of origin, free meals, referrals to physical/mental health providers, clothing to meet school requirements, access to school supplies and resources, assistance with credit recovery, tutoring supports, expedited evaluations and assistance to participate in school activities including parent engagement opportunities, sports, club, etc.

Homeless Dispute Process—If at any time there is a disagreement about homeless status or best interest for school placement, the district will notify the family in writing of their determination that the family/unaccompanied youth is ineligible for McKinney-Vento services. At this time, the district will provide the family/unaccompanied youth with the ability to dispute their determination. Throughout the dispute process, the child/youth, including unaccompanied youth, will continue to be educated in the school of origin or immediately enrolled in the school they are seeking enrollment until the dispute process is finalized. Transportation will continue throughout the dispute process. All disputes will be sent to the ECYEH Regional Coordinator who will issue a determination. If any party is unhappy with the determination, they can elevate the dispute to the state coordinator.

What if I think that I am eligible for services under McKinney-Vento?

If you believe your child may qualify for this service please contact the district Homeless Liaison, at 724-736-9507, Ext. 128 or by email at alaw@fraziersd.org.

MEDICATIONS

If your son/daughter requires medications (prescription or over-the-counter) to be taken during the school day, you will need to submit a **Permission to Administer Medication** form that could be obtained in the School Office. **Students are not permitted to carry any kind of medication, (prescription or over-the-counter) in school.** If your child must take medication during the school day, a parent/guardian **MUST** bring the medication into the school, along with the **Permission to Administer Medication** form and deliver it to the school nurse. The medication must be in the original container. The nurse will keep the medication during the school day, and at the appropriate time, the student will report to the health room to take the medication.

STUDENT ASSISTANCE PROGRAM

The ESAP team made up of school and agency staff is available to help you access school and community services for your child.

In Pennsylvania, every school district is required to have a plan for identifying and assisting students who experience barriers to learning.

The ESAP team will help you find services and assistance within the school, and if needed, in the community. We do not diagnose, treat, or refer your child for treatment. We will provide you with information and you make the choice(s) that best fit your needs and wishes. As the parent/guardian you are an important part of the team.

Anyone can refer a child to the ESAP Team. Some students are referred by teachers or other school personnel. A friend or family member can also let the ESAP Team know that they are worried about someone. The child can even go directly to the ESAP Team to ask for help. Schools will gather information to determine how a student is doing in their classes. However, the ESAP team will not proceed unless you give your written parent permission. Once permission is

received, the ESAP Team will work with you to develop a plan of action to help your child achieve success in school. Participation in the program is voluntary. The ESAP team information is completely confidential and the team will respect you and your child's privacy at all times.

If you have any questions about SAP or you feel that your child may need help, call your child's school and ask to speak with any of the following team members:

Members of the Student Assistance Teams include:

Mrs. Gillis	Mrs. Law
Mrs. Capozza	Mrs. Silverblatt
Mrs. Blair	Mrs. McManus
Mr. Shaulis	

TITLE I

The Title I program provides supplementary reading and math support using the universal screening assessments. The Title I services are provided in conjunction with student achievement data, parent and teacher feedback to determine how to fulfill the needs of students. Our school receives federal funding to financially support Title I programs, materials and resources throughout the school year. We will continually solicit parent / guardian participation in training, workshops, meetings, surveys and other opportunities to provide families with information that can help support your child academically at home.

RESPONSE TO INTERVENTION & INSTRUCTION PROGRAM (RtII)

RtII is a multi-level research based model that integrates assessment and intervention to maximize student achievement and reduce behavioral problems. This approach enables us to coordinate all school resources, regular education, and special education to provide evidence based reading and math interventions to students who show skill deficits based on DIBELS Benchmark indicators. It is a prevention system to fill in the foundational learning gaps identified through research based benchmark indicators to enable the possibility of successful student outcomes for all students. We identify student deficits based on assessment and screening indicators and then provide the appropriate tier interventions to address these learning deficits. Students who need the most intervention support are placed in flexible intervention groups and receive these interventions. The progress of these students is monitored weekly or bi-weekly (depending on student need). Data meetings occur with the student's teacher to discuss the movement to a less intensive intervention group or remain in the current group based on the progress monitoring findings. Therefore, the intervention groups are flexible and change as the students' needs change. Some students receive interventions all year while others may only require interventions for a short period of time. Some students may never require intervention assistance. Please note that interventions do not take place during core instruction. Reading Tier Time is designated in grades K-5. Title I funding enables us to provide this program.

REMEDIATION PROGRAMS

Data will be reviewed periodically and student progress will be monitored to ensure the students' academic success is achieved.

These students will forfeit their right to attend future assemblies. All assemblies must support the school curriculum and will be announced on the monthly school calendar.

Such instruction shall not require the child's absence from school for more than thirty-six (36) hours per school year, and its organizers must inform the Board of the child's attendance record. CAFETERIA INFORMATION

BREAKFAST

Breakfast will begin at **8:30am**. Students wishing to eat should report directly to the cafeteria. They will be dismissed no later than **8:55am**. Students participating in the breakfast program must be in their assigned classroom first class by 9:05am.

CAFETERIA CHARGE POLICY

PURPOSE

The Board acknowledges the need to have a policy to allow meal charges and a policy to collect delinquent account balances.

DELEGATION OF RESPONSIBILITY

The Board authorizes and directs the Cafeteria Coordinator to enforce the policy and the procedure to collect delinquent account balances.

GUIDELINES

The Frazier School District uses a Point of Sale System for meal purchases. With this system, each student is issued a Personal Identification Number (PIN) when they register for school and that number is carried with them until they graduate. Even though a student may be identified to receive a free or reduced lunch, all parents have the ability to deposit money into their child's accounts and to use the PIN to make meal purchases in the cafeteria. As a convenience to parents/guardians, Frazier School District permits students who forget their lunch money or who do not have sufficient funds in their student account to charge their lunch.

This policy is designed for the convenience of the parents and students so a student may charge his/her lunch when the student forgets his/her meal money or does not have enough funds available in their account. It is anticipated that student and parents/guardians will not abuse this privilege and will affirmatively monitor the cash balance in the student's account to assure that sufficient funds are available to cover the cost of all meals purchases, and to deposit the necessary funds whenever it is determined that the student's account balance is deficient. Cafeteria cashiers or monitors are required, when asked by a student or a parent/guardian, to provide account balance information relative to a particular student's account. In that the school district permits meal charges but reasonable controls must be established by the school district to limit the school district's cumulative exposure from losses resulting from negative account balances.

In order to keep track of your child's account, we are asking that parents set up an account at www.myschoolbucks.com. You will need your child's student ID number in order to setup the account. You will also be able to set up low balance email alerts that will send you an email when your child reaches a dollar amount of your choice. You are also able to pay online but there is a \$1.95 transaction fee.

Students in grades K-5 and special needs students (who are unable to take full responsibility for their money) will not be refused a reimbursable meal (breakfast or lunch) regardless of the dollar amount charged. But, once the charged dollar amount exceeds three (3) meals, \$6.15, the cashier will issue the student a written notification to be sent home to the parent/guardian. Once the student reaches \$12.30 a telephone call will be made to the parents/guardians and a written letter will be sent home. After the students reach a dollar amount over \$16.40, the student will receive an alternative lunch which consists of a cold cheese sandwich, fruit and milk. Parent Broadcasts are made monthly to alert parents/guardians when their child has a negative balance.

All student debt must be paid in full one week prior to the last day of school. If your child eats in the cafeteria during the last week of school, he/she must have money in their account or with them in order to eat. If charges exceed \$100.00, the parent/guardian will be sent a certified letter letting them know the amount owed and to give them the option to pay the amount in full or set up a payment plan. If the parents/guardians choose not to adhere to one of the options, the district will seek the assistance of the local magistrate in order to collect the debt.

Students in all grade levels are not permitted to charge "a la carte" items, additional breakfast or lunch meal items (second sandwich, additional milk, or orange juice) or second breakfast or lunch.

The student's account balance (positive or negative) will remain with the student from year to year through the time of graduation from High School.

CAFETERIA RULES

Certain rules are necessary in order to maintain the efficient operation of the cafeteria.

- All students are to report directly to the cafeteria and remain there throughout their assigned lunch period.
- Quiet conversation will be permitted. Loud, boisterous behavior will not be tolerated.
- Each student is responsible for cleaning his/her place at the lunch table, depositing trash in the proper container and returning his/her tray.
- All food and drink must be consumed in the cafeteria. Students are not permitted to take any food or drink outside the cafeteria.
- Cafeteria proctors are responsible for enforcing all cafeteria regulations. Seating arrangements and the general cafeteria procedures will be implemented at the discretion of the faculty cafeteria proctors with the approval of the principal.
- Inappropriate behavior will result in the student's removal from the cafeteria.

CAFETERIA SERVICE

Frazier School District will be implementing a new provision known as the Community Eligibility Provision (CEP) in the 2024-2025 school year. This program is available to schools and districts that are participating in the National School Lunch and School Breakfast Programs. All enrolled students of Frazier School District are eligible to receive a nutritional breakfast and lunch each

school day at no charge to your household. No further action is required of you. Your child(ren) will be able to participate in these meal programs without paying a fee or submitting an application.

The elementary school cafeteria provides each student with a nourishing breakfast and lunch. Menus are sent home with students each month and are posted on the school district's web page, and in the cafeteria.

Families may set up an online account to manage their child's school lunch account. Families may create an account by visiting: <https://www.schoolcafe.com/>.

CHAPERONES/VOLUNTEERS

Parents play a vital role in the development of a child's academic and social/emotional outcomes. We encourage parents to be involved in their child's academic experience and take part in school activities and events. However, to ensure the safety of our students and staff, parents/guardians who wish to participate in school events as a chaperone or parent volunteer must obtain the required clearances and submit to the school that their child attends. Volunteering and/or chaperoning activities include: PTO sponsored activities, field trips, end of the year events, seasonal classroom celebrations, classroom readers, evening events, assemblies and other activities as determined by the building principal. **To volunteer / chaperone, family members must be PTO Members.**

CHILD FIND

The school district must maintain an ongoing system to identify, locate and evaluate all children who are disabled (as defined by IDEA) and in need of special education. This duty is owed to all students regardless of whether or not they attend school or the kind of school they attend. There is a copy of the Annual Public Notice for Child Find on Edline under Special Education. If you have any questions regarding Child Find, contact the Special Education Department at 724-736-9507 x 128.

The Frazier School District, along with all school districts in Pennsylvania, and other public agencies in the Commonwealth, must establish and implement procedures to identify, locate and evaluate all children who need special education programs and services because of the child's disability. This notice is to help find these children in our districts; offer assistance to parents; and, describe the parents' rights regarding the confidentiality of information that will be obtained during this process.

The content of this notice has been written in English. If a person does not understand any of this notice, he or she should contact the district's LEA (see list below) to request an explanation.

Identification Activity

Child find refers to activities undertaken by public education agencies to identify, locate, and evaluate children residing in the State, including children attending private schools, who are suspected of having disabilities, regardless of the severity of their disability, and determine the child's need for special education and related services. The purpose is to locate these children so that a free appropriate public education (FAPE) can be made available. The types of disabilities that, if found, cause a child to need services are: autism, deaf-blindness, deafness, emotional disturbance, hearing impairment, mental retardation, multiple disabilities, orthopedic impairment, other health impairment due to chronic or acute health problems, specific learning disabilities, speech or language impairment, traumatic brain injury and visual impairment including blindness. In the case of a child that is of preschool age, developmental delay is a type of disability.

The Albert Gallatin School District, Brownsville School District, Connellsville Area School District, Frazier School District, Laurel Highlands School District and Uniontown Area School District, along with other school districts in the state, are required to annually provide notice describing the identification activities and the procedures followed to ensure confidentiality of personally identifiable information. This notice is intended to meet this requirement.

Identification activities are performed to find a child who is suspected as having a disability that would interfere with his or her learning unless special education programs and services are made available. These activities are sometimes called screening activities. The activities include: reviewing group data; conducting hearing and vision screenings; assessing the student's academic functioning; observing the student displaying difficulty in behavior; and, determining the student's response to attempted remediation. Input from parents is also an information source for identification. After a child is identified as a suspected child with a disability, he or she is evaluated, but not before parents give consent for the evaluation to be conducted.

Protected Handicapped Students' Identification

In compliance with state and federal law, the Albert Gallatin School District, Brownsville School District, Connellsville Area School District, Frazier School District, Laurel Highlands School District, and Uniontown Area School Districts will provide to each protected handicapped student-without discrimination or cost to the student or his/her family-those

related aids, services or accommodations which are necessary to provide the student equal opportunity to participate in and obtain the benefits from the school program and extracurricular activities to the maximum extent appropriate to the student's abilities.

To qualify as a protected handicapped student, the child must be of school age with a physical or mental disability which substantially limits or prohibits participation in or access to an aspect of the school program. These services and protections for "protected handicapped students" are distinct from those applicable to all eligible or exceptional students enrolled (or seeking enrollment) in special education programs.

Gifted Identification/Services

The Albert Gallatin School District, Brownsville Area School District, Connellsville Area School District, Frazier School District Laurel Highlands School District and Uniontown Area School District provide services for mentally gifted students which enable them to participate in acceleration or enrichment programs, or both, as appropriate, and to receive services according to their intellectual and academic abilities and needs. The gifted support coordinators also plan a variety of enrichment opportunities and learning extensions outside of the classroom through educational trips, conferences, workshops and competitions. Students may be referred for evaluation to determine mental giftedness through a teacher or parent nomination or when their performance meets established criteria. To identify a student with mental giftedness, the district secures permission to evaluate from parents. A team comprised of district staff and parents then gather information for the evaluation which is summarized in the gifted written report (GWR) and used by the gifted individualized education program (GIEP) team to determine if the student meets criteria for mental giftedness and needs specially designed instruction. The GIEP team develops a program for the student.

Referral for a gifted multidisciplinary evaluation shall be made to the building principal when the student is suspected by teachers or parents as needing referral for a gifted evaluation. Parents who suspect that their child is gifted may request a gifted multidisciplinary evaluation of their child at any time, with a limit of one request per school term. The request must be in writing. Parents may obtain additional information regarding Gifted services for students by contacting the child's school principal or the Supervisor of Special Education.

Confidentiality

If disability is suspected following the screening, your child will be evaluated, given your consent. A written record of the results is called an Evaluation Report, which is directly related to your child and is maintained by the school district. These records are personally identifiable to your child. Personally identifiable information includes the child's name, the name of the child's parents or other family members, the address of the child or their family, a personal identifier such as social security number, and other information that would make the child's identity easily traceable.

Your school district of residence will gather information regarding your child's physical, mental, emotional and health functioning through testing and assessment, observation of your child, as well as through a review of any records made available to the district through your physician and other providers of services, such as day care agencies.

information regarding the Policy of the Collection, Maintenance, and Dissemination of records

is available through the principal's office. The school district protects the confidentiality of personally identifiable information by assigning one school official as the person responsible for ensuring the confidentiality of those records. This official is responsible for training all persons using this information and for maintaining for public inspection a current list of employees' names and positions who may have access to this information.

When the school district no longer needs this information for the provision of educational services, you will be notified. And, the district will destroy this information at your request—with the exclusion of general information such as your child's name, address, phone number, grades, attendance record, classes attended, and grade levels completed, which may be maintained without time limitation.

As the parent of the child, you have several rights regarding the confidentiality of your child's records. You have the right to inspect and review all educational records related to your child that are collected, maintained, or used by the school district. Your district will comply with a request from you to review the records without unnecessary delay. You may also review the records before any meeting regarding planning for your child's special education program (IEP meeting) and before a hearing (should you and our school district disagree about how to educate your child who needs special education services). In no case, shall the district take more than 45 days to furnish you the opportunity to inspect and review your child's records.

You have the right to an explanation and interpretation of the records; to be provided copies of the records if failure to provide the copies would effectively prevent you from exercising your right to inspect and review the records, and; the right to have a representative inspect and review the records.

Upon your request, the school district will provide you a list of the types and location of education records collected, maintained, or used by the agency. The district may charge a fee to search or retrieve information.

You have the right to request an amendment to your child's education records if you believe they are inaccurate or misleading, or violate the privacy or other rights of your child. The school district will decide whether to amend the records within a reasonable time of receipt of your request. If the district refuses to amend the records, you will be notified of the refusal and your right to a hearing. You will also be given additional information regarding the hearing procedures; and, upon request, the district will provide a records hearing to challenge information in your child's education files.

Parent consent is required before personally identifiable information contained in your child's education records is disclosed to anyone other than officials of the school district. School officials collect and utilize such information for purposes of identifying, locating, or evaluating children and to provide a free appropriate public education to children. A school official has a legitimate educational interest if he/she needs to review an education record in order to fulfill a professional responsibility. The school district may also, upon request, disclose records without consent to the officials of another school district in which your child seeks or intends to enroll. Further

When a child reaches age 18, the rights of the parent regarding confidentiality of personally identifiable information is transferred to the student.

A parent may file a written complaint alleging that the rights described in this notice were not provided: Pennsylvania Department of Education
Bureau of Special Education
Division of Compliance
333 Market Street
Harrisburg, PA 17126-0333

The Department of Education will investigate the matter, issue a report of findings and necessary corrective action within 60 days. The Department will take necessary action to ensure compliance is achieved.

Early Intervention Identification

In Pennsylvania, a child between three years of age and the school district's age to begin school who has a developmental delay or one or more of the physical or mental conditions listed above is identified as an "eligible young child." The parents of these children have the same rights described above.

*The Pennsylvania Department of Education is responsible for providing programs and services to eligible young children under Act 212 of 1990, the Early Intervention Services System Act. Screening for preschool children is available upon request. For additional information or to schedule an appointment for screening call the Supervisor of Early Intervention Services, Intermediate Unit 1 at 724-938-3241.

Potential Indicators of Weaknesses In The Developmental Domain Areas And Other Risk Factors That Could Indicate A Disability (Requirement of Section 14.212(b))

A developmental delay is determined by the results of a developmental evaluation. The results

of one or more domain areas (adaptive, personal-social, communication, motor or cognitive) must show at least a 25% delay or a score of 1.5 standard deviations below the mean (Standard Score of 77 or below). The delay results in the need for specially designed intervention/instruction (SDI) to participate in typical activities and routines.

Children with a developmental delay may show weaknesses in the following areas:

Adaptive – Pre-kindergarten aged children with a developmental delay may have difficulty dressing/undressing; using utensils to eat; removing shoes without assistance; distinguishing between nonfood/food substances; or, with toileting needs. They may also have difficulty moving independently around the house; understanding that hot is dangerous; putting away toys when asked; indicating an illness or ailment to an adult; or demonstrating caution to avoid common dangers.

Personal-Social – Pre-kindergarten aged children with a developmental delay may have difficulty responding positively to adult praise, rewards or promise of rewards; greeting familiar adults spontaneously; enjoying simple stories read aloud; helping with simple household tasks; initiating social interaction with familiar adults; expressing affection/liking for peers; playing cooperatively with peers; stating first name, last name, age, or gender; using objects in make-believe play; using 'I' or 'me' to refer to self; or recognizing facial expressions of common emotions.

Communication - Pre-kindergarten aged children with a developmental delay may have difficulty following 2-step verbal commands; associating spoken words with pictures; recalling events from a story presented orally; engaging in extended and meaningful nonverbal exchanges with others; using words to get needs met; responding to 'yes' and 'no' questions appropriately; or asking 'wh' questions.

Motor - Pre-kindergarten aged children with a developmental delay may have difficulty running without falling; kicking a ball without falling; walking up and down steps; alternating feet without assistance; walking backward; imitating the bilateral movements of an adult; pointing with the index finger independent of the thumb and other fingers; scribbling linear and/or circular patterns spontaneously; using the pads of fingertips to grasp a pencil; holding a paper with one hand while drawing or writing with the other hand; fastening clothing without assistance; cutting with scissors; copying a circle; or imitating vertical and horizontal markings.

Cognitive - Pre-kindergarten aged children with a developmental delay may have difficulty attending to one activity for 3 or more minutes; reciting memorized lines from songs or TV shows; showing interest in age-appropriate books; matching/naming colors; responding to one and one more; giving three objects on request; matching shapes; identifying objects by their use; identifying items by size; identifying colors of familiar objects not in view; or identifying simple objects by touch.

Other Factors That Could Indicate a Disability

Developmental disabilities are birth defects related to a problem with how a body part or body system works. They may also be known as functional birth defects. Many of these conditions affect multiple body parts or systems.

Researchers have identified thousands of different birth defects. Birth defects can have a variety

of causes, such as: genetic problems caused when one or more genes doesn't work properly or part of a gene is missing; problems with chromosomes, such as having an extra chromosome or missing part of a chromosome; environmental factors that the expectant mother is exposed to during pregnancy, such as Rubella or German measles; or if drugs or alcohol are used during pregnancy.

If you wish to learn more, have questions, or believe your child requires evaluation services, please contact the person listed for the district in which you reside:

CLASSROOM ASSIGNMENTS

Classroom assignments are determined each spring with input from classroom teachers, special area teachers and other professional staff members who know and work with your child. This professional educational team makes thoughtful consideration to this assignment to create a heterogeneous classroom to balance the academic and social structures within a specific grade level classroom. We consider a multitude of factors including parent input however, it is not the sole factor from which we use to assign a student to a teacher. We do value your input and feel that this assignment is best left to the professional educational staff to create the best educational situation for our students. **Therefore, we respectfully do not accept teacher requests.**

CLASSROOM CELEBRATIONS

Classroom celebrations are at the discretion of the principal and are coordinated by classroom teachers and PTO members. Since activities for these celebrations are specifically designed to address the age, interest and developmental level of the student's grade level involved, younger siblings attending these events are prohibited. Classroom teachers will coordinate and direct the activities. If classroom teachers wish to have parental involvement, he/she will contact the homeroom parent assigned to the classroom. Parents willing to assist at these events must have submitted the appropriate clearances.

CLEARANCES – PARENT CHAPERONES/VOLUNTEERS

Parents/guardians who wish to participate in school events as a chaperone or parent volunteer must obtain the required clearances and submit to the school that their child attends. Beginning August 25, 2015, all volunteers are required to obtain certifications every 60 months.

The required clearances are:

- Report of Criminal History from the PA State Police (PSP); and
- Child Abuse History Clearance from the Department of Human Services (Child Abuse).

Additionally, a fingerprint based federal criminal history (FBI) submitted through the PA State Police or its authorized agent is required if:

- The position the volunteer is applying for is a paid position; and
- The volunteer has lived outside the Commonwealth of PA in the last 10 years

The district also requires volunteers to complete ACT 24 – Arrest/Conviction Report and Certification Form (must be submitted annually).

For more information, please see the SAFETY PROCEDURES section in this handbook.

CONFIDENTIAL COMMUNICATIONS

Information received in confidence by school personnel may be revealed to the student's parent(s) and/or guardian(s), the principal or the appropriate authority where the health, welfare or safety of the student or other persons is clearly in jeopardy. Statutes and regulations appropriate to the proceedings will govern other use of a student's confidential communications to school personnel in legal proceedings.

PARENT INVOLVEMENT

Frazier Elementary School is committed to the belief that all children can learn and acknowledges that parents share the school's commitment to the educational success of their children.

Frazier Elementary School recognizes that a child's education is a responsibility shared by the school and family and agrees that to effectively educate all students, the schools and parents must work as knowledgeable partners.

We define parent and family involvement as an ongoing process that assists parents and families to meet their basic obligation as their child's first educator, promotes clear two-way dialogue between home and school and supports parents as leaders and decision makers at all levels concerning the education of their children.

To this end, a written plan for Title I parent involvement that establishes programs and practices to enhance parent involvement and reflects the needs of students and families will be jointly developed by parents and faculty members through parent and teacher survey information collected during planning meetings held each spring for each school. The plan provides a sense of direction for designing initial and evaluating existing activities.

The plan will also include a school-parent compact and support the development, implementation and regular evaluation of the parent involvement program by parents. The Parent Advisory Council will lead the charge in providing parental feedback and assisting in the district's efforts to build capacity of establishing strong parental involvement throughout the year working towards

the common goal of increasing student achievement of all students. Implementation of the plan will be a priority of the school community.

PARENT-TEACHER COMMUNICATION

Parent and teacher communication is essential to creating a positive academic experience for any student. Discussing concerns and asking questions as they arise are extremely important. We strongly encourage you to communicate with school faculty and staff when there is a concern or question but please note that teachers cannot accept phone calls during instructional time or when supervising students. Please leave a message for your child's teacher either at the office or in the teacher's voice mailbox. Emergency phone calls should be made directly to the school's office.

PARENT-TEACHER CONFERENCES

Parent-Teacher Conferences will be held twice a year. Conferences can be scheduled as needed throughout the year. Parents should contact the classroom teacher when academic or classroom concerns arise.

PARENT TEACHER ORGANIZATION (PTO)

We welcome parent participation and involvement at our elementary school. It is extremely beneficial to students to have their parents/guardians involved in school activities. The Parent Teacher Organization is one way parents can be involved in the school. We encourage you to become an active member in our school's PTO. PTO meetings will occur in the evenings. To learn more about the PTO, please visit the Frazier Elementary website and click on the Parents tab. PTO member applications are available in the elementary school office. Registration for the Frazier Elementary PTO is open for the 1st (2) two weeks of the new school year. Newly enrolled families will be granted (2) two weeks to register for the PTO upon enrollment.

PERMISSION TO PHOTOGRAPH/VIDEO

If you do not wish to have your son/daughter appear in any photos or videos that will be distributed or broadcasted by the Frazier School District in video form, hard copy publication, and/or on the District's website / social media accounts, please submit your disapproval in writing to the building principal.

Also, it is appreciated that you refrain from taking photos and videos of other children when visiting a classroom and posting the images onto social media.

This notice will be provided to parent(s) and/or guardian(s) who, at the beginning of each school year, request such notice by sending a letter to the building principal.

Currently, pesticides are applied, as needed, on Friday afternoon, after school has been dismissed. Pesticides may be applied on other days, after school dismissal, if a sudden infestation develops.

Students not dressed appropriately may not be allowed to go outside on the colder weather days for recess. During inclement weather, students will have recess indoors. Recess may not occur during modified days such as 2 hour delays or early release.

RELIGIOUS EXPRESSION/STUDENTS

The establishment clause in the First (1st) Amendment to the Constitution has been interpreted by the federal court system to mean the public schools may not take sides in matters of religion, may not endorse a particular religion, nor take any action to promote or inhibit religion.

The free exercise clause in the First (1st) Amendment has been interpreted to mean that students have the right to exercise their religious beliefs in school, as long as they are not disruptive, nor attempt to coerce other students to join them or listen to them.

Students are free to pray, say grace before meals, read religious literature and discuss their faith in school as long as they are not disruptive, interfere with the educational process, obey school rules and do not infringe upon the rights of others, harass other students to accept their religious views or proselytize. These actions must be truly voluntary and student initiated. These activities can occur in formal settings before school begins, during class breaks, at lunch and after school.

Students may wear religious garb and display religious messages on clothing, subject to the same guidelines put forth in the APPEARANCE (Dress Code Regulations) Section of this handbook.

Students may express their beliefs about religion in the form of homework, artwork and other written and oral assignments as long as the student's work directly relates to the assignment made by the teacher.

Students may distribute religious literature on school grounds, subject to the time, place and manner regulations found in the Literature Distribution Section of this handbook. This section only applies to students and is not applicable to non-students.

RESTROOMS

Students are not to be excused to the restroom without permission or escort from their teacher or other designated faculty/staff member.

District Discipline Policy

STUDENT CODE OF CONDUCT

INTRODUCTION

The rules and guidelines set forth in this document represent the code of student conduct for elementary education in the Frazier School District.

This document is intended to serve as a guideline for discipline in elementary school. Students should know in advance what procedures would be used to deal with various discipline problems. Also, it is important that the parent(s) and/or guardian(s) and school staff be thoroughly familiar with the information contained in these rules and guidelines.

This document is not intended to contain all of the information needed for handling every discipline problem in the elementary school. However, for those situations not specifically mentioned, the material in this document should serve as a guide for handling such situations.

AUTHORITY

The board of school directors of the Frazier School District has the authority to make reasonable and necessary rules governing the conduct of students in its school. The rule making power, however, is not unlimited; it must operate within statutory and constitutional restraints. A school board has only those powers, which are enumerated in the law of the state, or which by reasonably be implied or necessary for the orderly operation of the school.

Boards of school directors may not make rules which are arbitrary, capricious or outside their grant of authority from the General Assembly or State School Board Regulations. Their rules must stand the test of fairness and reasonableness. A rule is generally considered legitimate if it uses a rational means of accomplishing some legitimate school purpose.

School rules are assumed to be reasonable until they are rescinded or waived. Students, therefore, should obey rules while working through channels to help change those which they feel are not applicable.

COVERAGE

The board of school directors of the Frazier School District requires each student of this district to adhere to the rules and guidelines promulgated by the administration and to submit to such disciplinary measures as are appropriately assigned for infraction of those rules and guidelines.

The Student Code of Conduct governs student behavior in all of the following situations:

1. During time spent in travel to and from school and anytime within the School Safety Zone, which is within 1,000 feet of the real property of the school district.
2. In school or during school hours at school-sponsored activities.
2. In concert with after school and weekend school-sponsored activities on or off school premises.
3. During non-curricular related student group meetings on school premises.
4. During meetings/activities on school premises sponsored by non-school person(s).

-
5. Anytime, outside of school, involving violations or possible violations of the Pennsylvania Criminal Code and/or when such conduct or conditions may directly, and/or immediately result in adverse effects on the educational process, when there is a reasonable need to preserve overall school discipline, when there is a reasonable need to preserve respect for teachers and other school employees, and/or when there is reason to believe that the effect could include endangering the health, safety, welfare, or morale of students within the school system.

Such student rules and guidelines shall require that students conform to reasonable standards of socially acceptable behavior, respect the rights, person, and property of others, preserve a degree of order necessary to the educational program in which they are engaged, obey constituted authority, and respond to those who hold that authority.

The Student Code of Conduct shall be the standard for discipline within the elementary school in the Frazier School District unless altered by the board of school directors, with the recommendations of the superintendent.

The superintendent shall promulgate, where necessary, additional regulations for student code during the school year that carry out the purposes of this policy.

The superintendent or superintendent's designee shall be responsible for the enforcement of the School Code of Conduct.

The Frazier School District recognizes that if any provision of this policy or application thereof to any person or circumstances is judicially determined invalid, the provisions of the remainder of the policy and the application to other persons or circumstances shall not be affected thereby. The Frazier School District recognizes that the provisions of this policy supersedes all other provisions of school district policy that may be inconsistent with the provisions of this policy.

RIGHTS AND RESPONSIBILITIES

Students in the Frazier School District have rights as private citizens just as private citizens have rights. Likewise, students have certain responsibilities. During enrollment in the Frazier School District, there is always the possibility that a student might ignore responsibilities and infringe on someone else's right to learn. It is also possible that a given school official may unintentionally infringe upon a student's rights. It is with the intent of creating this mutual understanding between students, teachers and administrators that these statements of rights and responsibilities exist. Better understanding can be achieved when everyone acknowledges the rights and responsibilities of others.

STUDENT RESPONSIBILITIES

Students share in the responsibility for good discipline in the schools. Moreover, students share with the administration, faculty and other school staff a responsibility to develop a climate within the school that is conducive to wholesome learning and living. No student has the right to interfere with the education of his fellow students. It is the responsibility of each student to respect the rights of administrators, teachers, students and all others who are involved in the educational system and associated with the right to a free public education.

A student will be disciplined when he/she ignores his/her responsibilities or infringes on the rights of others to learn. Past experiences in Frazier Elementary School have shown that only a

small percentage of students face teacher or administrative discipline. Quite often, misunderstandings are worked out by an informal talk between the parties involved.

Students have the responsibility to:

1. Be aware of all rules and guidelines for students' behavior and conduct themselves in accordance with the rules and guidelines
2. Be able to express their ideas and opinions in a respectful manner so as not to offend or slander others
3. Be willing to volunteer information in matters relating to health, safety and welfare to school community and the protection of school property
4. Dress and groom themselves so as to meet fair standards of health, safety and welfare of school community and the educational process
5. Assume that until a rule is waived, altered or repealed, it is in full effect
6. Assist the school staff in operating a safe school for all students enrolled therein
7. Be aware of, and comply with, state and local laws
8. Exercise proper care when using public facilities and equipment
9. Attend school daily, except when excused, and be on time to school, class and other school meetings, activities and events
10. Make all necessary arrangements for making up work when legally absent/tardy from school
11. Pursue and attempt to complete satisfactorily the courses of study prescribed by state and local school authorities.
12. Strive for mutually respectful relations with teachers, administrators and other staff
13. Know and respect the rights of teachers, administrators, school staff members and other students.
14. Take advantage of the academic opportunities offered at school and make a conscientious effort in classroom work

Behavioral Intervention Procedures

The Frazier School District recognizes the importance of establishing clear policies and consistent disciplinary consequences for violations of District rules. It allows the Frazier community to build and maintain a positive, safe, and trusting environment in which our students can learn. We expect our students to be responsible, and considerate citizens, treating each other with dignity and respect. When a student violates District rules and regulations, the student will be subject to an appropriate form of discipline. The information that follows shows the normal sequence and/or combination of disciplinary actions that will be taken for violation to school rules and regulations. Multiple or repeated infractions will result in a referral to the Student Assistance Program and the assistance of additional supports. It is understood that behaviors are developmental in nature, some infractions are more serious than others, and that repeated infractions may warrant stricter consequences. In some cases, the development of an individualized behavior plan may be appropriate. In all cases, consequences are subject to parameters of state and federal law. If a student violates any policy set forth by the Frazier Board of School Directors, the teacher, principal or his/her designee is to follow the regulations outlined in the Student Handbook. The administration of each individual school is given the authority to take appropriate action to ensure compliance with Board policy. In all cases, the Administration retains the right to use its discretion in evaluating cases.

Discipline is a necessary part of any educational system. We are committed to providing a safe

learning environment for all our pupils. No student will be allowed to disrupt the learning process or limit the opportunity of others. Students may not fight, steal, use profanity, or in any way endanger the welfare of their classmates while in school, on our buses, or when coming to or going home from school. Any of the listed infractions will result in disciplinary action.

Any questions or concerns as to our discipline system and its applications may be addressed to the building principal.

As it would be impossible to identify and list all types of inappropriate behavior or action, disciplinary consequences will be administered based on an individual basis for violations not covered in the policy at the discretion of the building administrator.

CLASSROOM RULES

It is the responsibility of the teacher to maintain the proper classroom environment consistent with district policy.

OFFICE REFERRALS

Violations of School Wide Positive Behavior Expectations may result in office referrals. Office referrals will be made when a student's misbehavior includes acts of violence directed toward a person and/or property in which such behavior poses a threat to the safety, health, welfare and/or morals of others, and/or materially disrupts the educational environment. Office referrals may result in a written warning, phone call to parent, documentation in the student's file, detention, suspension, etc. A behavior form will accompany or follow any student who is sent to the office. This form will indicate why the student was sent to the office and the course of action taken by the administration.

INTERVENTION PROCEDURES

Disruption to the learning environment may result in removal of the student from the situation. It is the responsibility of the Frazier Elementary School faculty and staff to maintain a positive learning environment. To maintain the environment, it is necessary for the students to follow basic school and classroom rules. Each teacher will be responsible for the promotion of those positive behaviors and will always first implement corrective strategies within the learning environment. If at any time a student becomes disruptive to the educational process of others, that student may be removed from the situation.

Detention is a designated period of supervised study held after the regular school day, during a student's lunch period or during recess. The building principal will assign the designated detention monitor to set the date, time and place of detention. A designated detention monitor shall provide supervision of students serving detention. .

Parent(s) and/or guardian(s) are responsible for providing transportation for any of their children who are assigned to after-school detention. Students and parents must be informed of their detention assignment at least twenty-four (24) hours in advance in order for their parent(s) and/or guardian(s) to arrange for transportation unless parent/guardian agrees otherwise.

Students who owe any detention time at the end of the school year will be assigned summer detention or may be served during the next school year at the discretion of the building administrator. Report cards and all other school records will be held until this obligation is made up.

AFTER-SCHOOL DETENTION

1. After-school detention will be held at the end of the regular school day from **3:30 P.M. to 4:30 P.M.** Parents must sign out the child when picking him/her up after detention ends. Parents must report to the Elementary School entrance.
2. Detention responsibilities take precedence over all other school activities, including band, athletics and organizational meetings. Students who miss after-school detention for any reason other than an excused absence (see the “Attendance Policy” for a definition of an excused absence) will be assigned additional hours of after-school detention.
3. **Rules governing behavior during after-school detention:**
 - a. Students must report to the after-school detention classroom on time with all assignments and supplies.
 - b. Students must be engaged in assigned class work or approved readings for the entire detention period.
 - c. Loafing, sleeping and playing games will not be tolerated. Students must bring something to do. Students will be provided a writing assignment if necessary.
 - d. Talking and any type of disruptive behavior will not be tolerated. Students will not be excused from the detention room except for the most extreme emergencies.
 - e. Students will sit in seats assigned by the detention monitor.
 - f. Students who violate any of these rules will be assigned another day of after-school detention.

The principal will assign detention adhering to the following guidelines:

- Meet with the student and provide him/her with a written statement noting the reason for assigning after-school detention and the date, time and location of the detention.
- Provide the parent(s) and/or guardian(s) with information regarding the after-school detention. This information will include the reason for assigning after-school detention and the date, time, and location of the detention.
- Provide the principal with a written statement noting the reason for assigning after-school detention and the date, time and location of the detention.

LUNCH / RECESS DETENTION

Lunch and / or Recess Detention may be utilized for a student who demonstrates a behavior concern and fails to meet our school-wide expectations. During this designated detention period. The student will gather his or her lunch and report to the designated location. The student will eat his or her lunch, then have an opportunity to discuss behavior he or she engaged in. The student will have an opportunity to determine what he or she could have done differently instead of engaging in the behavioral concern. Parents/ guardians will be notified in advance of an assigned lunch and / or recess detention.

SUSPENSION AND EXPULSION

The board of education and school administration recognizes that public schools have a legal and moral obligation to educate all children. It is the responsibility of the board of education and the school district to provide a curriculum and an atmosphere within which students can be

educated. It is also the responsibility of the school district to formulate policies and procedures governing the exclusion of students who are disruptive to the education process. The following information provides a description relating to the types of exclusion used by the school district. The information also provides the guidelines under which these exclusions can be imposed.

SUSPENSION UP TO THREE (3) SCHOOL DAYS

Exclusion from school for a period of up to three (3) days can be issued by the building principal. Prior to the suspension, the principal will meet with the student to provide the reason for the suspension, along with the dates of the suspension. The principal will also provide the parent(s) and/or guardian(s) with a written notice regarding the suspension. Students who are suspended can turn in homework assignments for full credit but must do so the first day of their return to their assigned teachers.

SUSPENSION BETWEEN FOUR (4) TO TEN (10) SCHOOL DAYS

Exclusion from school for a period of four (4) to ten (10) days can be issued by the building principal. Prior to the suspension, the principal will meet with the student to provide the reason for the suspension, along with the dates of the suspension. The principal will also provide the parent(s) and/or guardian(s) with a written notice regarding the suspension. An informal hearing relating to the suspension shall be offered to the student and parent(s) and/or guardian(s). This hearing must be offered during the first (1st) three (3) days of the suspension.

EXPULSION

Expulsion refers to the exclusion from school for a period of more than ten (10) days. The building principal and superintendent may recommend expulsion; however, only the board of education has the power to expel a student. Expulsion requires a formal hearing before the board of education. Specific requirements relating to this formal hearing are spelled out in state law.

PROBATION

Under the laws of the Commonwealth of Pennsylvania, the board of education has the right to place a student on probation in addition to any disciplinary action stated in the discipline code. Generally, some form of probation is imposed when a student returns from expulsion. Probation means that the student must be on his/her “best behavior” for a specified period of time. Any “Level II,” “Level III,” or “Level IV,” disciplinary infraction committed while a student is on probation will automatically result in an expulsion hearing before the board of education.

For more serious offenses, the board of education may impose intensive probation. Intensive probation means that any two (2) disciplinary offenses of any level will automatically result in an expulsion hearing before the board of education.

2. The student will receive a failing grade for the marking period in the course in which said actions took place.
3. The student will be disciplined, as required by the Student Code of Conduct.

CUMULATIVE OFFENSES

Cumulative offenses of any level are regarded as a disruption of the learning environment and warrant increased severity of discipline. Students may be moved to a higher level of disciplinary action for an accumulation of the same or different offenses. Students that create a disruption on a minor scale repetitively will be subject to a progressive discipline plan.

No one has the right to place another person at risk or peril. The creator of any situation that poses any threat to another will be held responsible. Further, any student who creates a dangerous situation with an automobile will immediately forfeit the privilege of driving to school.

SEARCHES

In general, searches must be reasonably related to the objectives of the search and not be excessively intrusive in light of the past history, school record, age and sex of the student and the nature of the infraction. Searches should be no more intrusive than necessary to discover that for which the search was instigated.

In general, at no time should school officials conduct a search, which requires a student to remove more clothing than his/her shoes or jacket. If school officials are convinced that a more intrusive strip search is required to expose contraband, they should advise the proper law enforcement agency and the student's parent(s) and/or guardian(s) as soon as possible, of the grounds for their conclusion, unless there is an immediate threat to other students or staff; health, safety or welfare or to school property.

School lockers and other storage spaces are school property loaned to the student for the student's convenience and use of legitimate purposes. Students have no expectation to privacy in relation to their assigned lockers. Lockers can, and will be, searched as provided in the following guidelines:

1. School lockers and other storage spaces are provided to students for their convenience. These storage areas remain school property, and as such, are subject to periodic administrative inspections by school authorities. Students are, therefore, warned not to store items in lockers, which they do not want to bring to the attention of school authorities.
2. The principal or principal's designee shall be required to hold locker inspections throughout the school year. Reporting rooms will be extended for said inspections and each shall be reported to the superintendent.
3. Circumstances, which put the safety of students or school officials at risk or could result in substantial property damage, will also constitute sufficient reasons for school, police and/or fire officials to conduct a thorough search of all school property. A bomb scare is an example of such an emergency.
4. School authorities may search a student's locker if they have reasonable suspicion that a student has violated a regulation set forth in the Student Code of Conduct.
5. Prior to such a locker search, the student shall be notified and given an opportunity to be present. Any inappropriate or illegal materials found in the locker will be seized and shall be used as evidence against the student in disciplinary proceedings.
6. However, where school authorities have reasonable suspicion that the locker contains materials which pose a threat to the health, welfare, and safety of students in the school, students' lockers may be searched without prior warning. Materials shall be used as evidence against the student in disciplinary proceedings. If reasonably possible, the student will be present for the search.
7. Blanket searches of every locker lack individual suspicion and will not be permitted except in an emergency search.

8. Students are responsible for the contents of the locker assigned to them. Therefore, it is important that students keep their lockers locked and do not give another student access to their locker.

School authorities are authorized to conduct searches of student property when reasonable suspicion indicates that a particular student is in possession of an item or a substance that represents a material threat to school routine, poses a threat to the health, welfare, and safety of students or is prohibited by school board regulation or by law.

1. Student property may include, but not limited to purses, book bags, coats, luggage, cars and other such belongings
2. Such searches of student's property will be done by a school employee of the same sex in the presence of a second witnessing school official, if possible

Where school authorities have reasonable suspicion that a student has on his/her person, materials which pose a threat to the health, welfare, and safety of students in the school, a pat-down search of such a student's person may be done by a school employee of the same sex, in the presence of a second witnessing school official.

Where school authorities have reasonable suspicion that a student has on his/her person materials that pose a threat to the health, welfare, and safety of students in the school, a pocket search of the student's person may be done where the student is asked to empty his/her pockets. A school employee of the same sex, in the presence of a second witnessing school official, will do this search.

Referral to Civil Authorities for charges under the appropriate Pennsylvania statute shall be made, when deemed necessary by school officials.

SEXUAL HARASSMENT

It is the policy of Frazier School District to maintain an environment conducive to learning and working that is free from sexual harassment. It is a violation of district policy for any member of the district staff to harass any student or any other member of the district staff through conduct or communication of a sexual nature. It is also a violation of district policy for students to harass other students or members of the school staff through conduct or communication of a sexual nature.

Sexual harassment shall consist of unwelcome sexual advances, request for sexual favors, and other inappropriate verbal or physical conduct when:

1. Submission to such conduct is made either explicitly or implicitly a term or condition of an individual's employment or education.

This rule does not apply to normal school supplies like pencils or compasses, unless such instruments are utilized in such a manner as to reasonably be construed as weapons or dangerous instruments.

This rule does apply to, but is not limited to, any firearm, any explosive including firecrackers, teargas canisters, smoke bombs, or other incendiary devices, army knife, razor, or cutting instrument, cutting incendiary devices, cutting tools, chains slingshots, and other dangerous objects, tools instruments, or implement capable of directly and/or indirectly inflicting bodily injury, and is of no reasonable use to student at school, or any other instrument which, in the manner in which it is used or intended to be used, is calculated or likely to produce bodily injury.

SEVERE WEATHER DRILLS

Periodically, severe weather drills will be conducted in all Frazier schools. An announcement will direct teachers to take their students to their severe weather stations. Teachers are to see that the students sit facing the wall in a crouched position with hands protecting the back of the head if in a hallway. Teachers are to see that students assume the same position within the space assigned if not in a hallway. Students are to remain in this position until the “all clear” is given.

COMMUNITY NEEDS ASSESSMENT

The Pre-K Program will administer a Community Needs Assessment annually to enrolled families to determine what supports are necessary for the program and families. The results will be analyzed and information shared as requested by participants. The Community Needs Assessments will be administered electronically to families. A physical copy of the Community Needs Assessment can be requested from the school office.

ENROLLMENT PLAN

We have operated Pre-K Counts programs for children in the Frazier School District since 2007 (which was the first year we offered Pre-K Counts funding to afford at risk students with Pre K educational programs).

The mission of the Pre-K Counts services are to provide developmentally appropriate activities for young children to prepare them for kindergarten both academically and socially. The mission is to foster the desire to learn in our young children through enriching activities in an environment that encourages exploration and engagement in these crucial early years.

The vision includes supporting the whole child as they learn and grow in our educational community. This includes ensuring a safe and supportive environment where students can make real world connections to their learning through enriching environments. Also, students build positive relationships with qualified teachers who are caring and committed to each child and their personalized learning.

SERVICE AREA

The service area includes the Frazier School District which is a rural public school district located in Fayette County. This district serves the boroughs of Perryopolis and Newell, and the townships of Jefferson, Perry and Lower Tyrone.

According to the 2021-2022 Future Ready PA Index data for Frazier Elementary School: 1) school dropout rate is not available; 2) 47.2% of students are economically disadvantaged; 3) less than 1% of students are English Language Learners; and 4) 12.1% of students receive special education services.

RATIONALE

The Frazier School District is located in Fayette County. Fayette County has been identified as a High Risk Level county based on the Early Childhood Education Program Reach & Risk Assessment Analysis. Residents within this county and district are highly affected by poverty largely related to unemployment and the lack of employment opportunities. In addition, we do not compete for enrollment with other Pre-K programs. Our district's Pre K Counts program is the only Pre-K program available in the district's geographical area. We do not have a waiting list at the current time. We can serve all eligible students who have registered as of today. This also is confirmed with our Community Needs Assessment data.

TUITION

Families applying for the Frazier School District Pre-K Program will be required to submit proof of income to determine eligibility for the Pre-K Counts Program. Pre-K Counts provides free quality half-day pre-kindergarten to eligible 3 and 4 year olds in the Frazier School District. Families who do not meet the eligibility requirements for the Pre-K Counts Program may still participate in the Frazier Pre-K Program by enrolling in the Pre-K Tuition Option. Frazier School District is able to offer the Tuition Option to (16) families.

Frazier Pre-K Program Tuition Option rate for the 2024-2025 school year is \$200.00 per month. Families participating in the Tuition Option will be invoiced (1) month in advance of service by US Postal Mail. Families can mail a check or money order to Frazier School District Business Office 142 Constitution St. Perryopolis, PA 15473. Cash is accepted at the Business Office Monday-Friday 8:00am-3:00pm. After (2) months of missed tuition payments, families will be dismissed from the program.

ADDITIONAL RISK FACTORS

The additional risk factors that impact selection and enrollment decisions to identify students most at risk of school failure are in order of priority: 1) student has a disability and/or receives Early Intervention Services (has an IFSP); 2) potential developmental delay (as per score from the Brigance Early Childhood Screen) ; 3) involvement with community agencies; 4) environmental disadvantages (such as homeless, ESL, etc.); and 5) other family and parent

factors (such as adopted/foster child, teen parent, parent does not have a high school education, etc.).

We utilize a risk factor priority rubric that is scored after the child is registered to prioritize enrollment decisions in the case that space is at a minimum and enrollment decisions must be made.

Other Pre Kindergarten opportunities do not exist within this school district. Our district residents must utilize Pre K programs outside of our district if not attending our district's Pre K Counts program.

PRE-KINDERGARTEN SCREENINGS/OUTCOME ASSESSMENTS

In the springtime, a Pre-Kindergarten registration day will be held where students are assessed using the Brigance Screening Tool. Students identified as a Pre-K Counts Program student will be assessed using The Work Sampling System® and the Ages & Stages Questionnaires® (ASQ®).

The Work Sampling System® which is a curriculum-embedded, authentic performance assessment for teachers to use to assess young students' development in multiple domains. Ages & Stages Questionnaires® (ASQ®) provide accurate, reliable developmental and social-emotional screening for children between birth and age 6 that uses parent knowledge to assist in pinpointing developmental progress and catch delays in young children.

Also a comprehensive evaluation screening tool will be used to assess each child within the first 45 days of school. The Pre-kindergarten screening and assessment process will include vision, hearing, gross/fine motor skills, speech and academic readiness.

We consider a multitude of factors including parent input however, it is not the sole factor from which we use to assign a student to a session. We do value your input and feel that this assignment is best left to the professional educational staff to create the best educational situation for our students. Therefore we respectfully request that parents/guardians do not make specific session requests.

EARLY INTERVENTION PRESCHOOL PROGRAM

What is Early Intervention?

Early Intervention (EI) consists of services and supports designed to help families with children who have developmental delays. While all children grow and change at their own rate, some children can experience delays in their development. Sometimes this can be a cause for concern. Early Intervention provides supports and services to young children and their families/caregivers to help the children grow and develop.

Who is eligible?

Infants, toddlers, and preschool children who have special needs due to a developmental delay or diagnosis are eligible to receive Early Intervention services.

What are Early Intervention supports and services?

Early Intervention (EI) supports and services are provided at no cost to families. EI services may include: information on how children develop skills and abilities; education and support for the parent/caregiver, and specific developmental therapies designed for their child. Early Intervention provides ideas for how a family can help their child at home as well as in the community, and is individualized to enhance both growth and learning. If a child is attending an early care/education setting, EI teachers/therapists/specialists can assist the early childhood staff with strategies to promote the child's development. Early Intervention can also assist families in finding and linking in to a variety of community services and supports.

Where do children/families receive supports and services?

Services may be provided during the child's daily activities at home or in the community, at child care centers, nursery schools, play groups, and Head Start programs.

Who should families contact to see if their child is eligible for Early Intervention?

A first step for any family with a concern about their child's development is to call CONNECT Services (toll free: 1-800-692-7288) or their local EI Program. The Early Intervention program will determine if the child is eligible for Early Intervention.

KINDERGARTEN ADMISSION POLICY #5000A (REVISED 5/22/02)

A child is eligible for admission to kindergarten if he/she has attained the age of five [5] years before September 1.

The principal shall require that each child who registers for entrance to school exhibit documentation as proof of age and birth date.

One of the following instruments shall serve to verify age of a child:

- 1) A legal birth certificate.
- 2) A baptism certificate indicating date of birth, together with a notarized statement from parent or guardian attesting to the accuracy of the certificate.
- 3) A certified copy of entrance into the United States, showing the date of birth of the child, along with a notarized statement from the parent or guardian.
- 4) Such other evidence as an insurance policy, or previous school record, showing date of birth of the child, along with a sworn, notarized statement from parent or guardian.
- 5) If none of the above are available, an affidavit of age, sworn by the parent or guardian, and accompanied by a certificate of age from a public health officer or a licensed practicing physician in the county.

EARLY ENTRANCE

Parents of children whose birthdays fall between September 1st and October 31st of the school year may seek early entrance to kindergarten by writing a request to the Elementary School principal by June 30th. Readiness for kindergarten depends on a child's development of cognitive, social, emotional, perceptual, fine/gross motor skills, language skills, academic readiness skills and age appropriate behavior required by the Frazier School District outlined in their discipline code. Readiness also depends on the curriculum's degree of structure, the behavior of the child required by the instructional program and the expectations of what the child is expected to achieve by the end of the kindergarten program.

1. The school district will ascertain the child's readiness skills by means of a comprehensive psychological evaluation in intellectual functioning, school readiness skills and social and emotional adjustment given by a certified or licensed school psychologist. All pre-school records and previous evaluations should be made available to the psychologist before the evaluation process takes place. This information will be used in the psychological report. The parents are responsible for a fee for administering the testing instrument. The fee will be waived if the parent (s) is/are eligible for the Federal Free Lunch Program.
2. The school district strongly recommends that all children seeking early entrance to kindergarten attend our kindergarten summer readiness program. During the week program our staff will complete a kindergarten readiness checklist which will be used in conjunction with the psychological evaluation report.
3. The parents will receive a written report from the psychologist and they must give this report to the Superintendent of the Frazier School District. The Superintendent, Elementary School Principal, and the K-12 Curriculum Supervisor will ascertain the child's readiness after reviewing the psychological report which the child must score an above average composite IQ on a test of intellectual functioning and an advanced conceptual development/school readiness composite on a test of basic concepts. We will also review the Kindergarten Readiness checklist provided by our staff. The availability of space in our kindergarten classrooms will also factor in the final decision.

BEGINNERS

Beginners are children entering the lowest grade of the primary school above Kindergarten level. They shall be admitted to school only during the first two (2) weeks of the annual school term except that a child who is eight (8) years of age may begin school at any time during the school year.

A beginner is eligible for admission to the lowest grade of the primary school above the Kindergarten level if he/she has attained the age of six (6) years before the first (1st) day of September. The Superintendent may, on the written request of the parent(s) and/or guardian(s), admit as a beginner a child whose chronological age is not less than five (5) years but whose mental age is seven (7) years, when so recommended by the school psychologist and approved by the Superintendent.

LATE ENTRANCE

The School Code does not permit a beginning student to be enrolled in Kindergarten or grade one (1) after school has been in session for ten (10) days.

A transfer or move-in student may be accepted, providing he/she had currently been enrolled in Kindergarten or grade one (1) in another school system.

PRE-KINDERGARTEN ADMISSION

PURPOSE

The Board shall establish age requirements for the admission of pre-kindergarten students which is consistent with statute and sound educational practice and which ensure the equitable treatment of all eligible children.
