

Adv Geometry

with Mrs. Antley

Overview

Geometry is a mathematical topic that can be seen all around us. In nature through beehives, spiderwebs or through man-made structures such as the Taj Mahal or the roof over your own head! This is the one math that when you question, "When will I ever use this?" the answer is easy and comes with plenty of examples. We will study all of the building blocks that make up the shapes that you have seen since preschool. Then, we will dive into more complex topics that will give you a better understanding of how more complex shapes/structures are held together.

Grading Scale:

Tests/Projects:
60%

Daily Grades:
40%

(6-8 Tests and 10+ Daily Grades per 9 weeks)

Materials Needed

- 3 ring binder
- Paper & Pencils (NO PEN!)
- Composition Notebook*
- Highlighters*
- Scientific Calculator*

(*Teacher will provide if necessary)

Policies

Make-up work:

For excused absences, work is to be made up and turned in within 3 days of returning to school. All test must be made up within a week of the original test day. **No make-up work will be accepted for unexcused absences!**

Tutoring:

Will be held in my classroom during Bulldog on Tuesday, Wednesday, and Friday. You may receive a notice for required tutoring if you are not completing classwork, have excessive make-up work, etc.

Retake Policy:

You have the opportunity to retake two tests per nine weeks. You must make corrections to your first attempt. Then, you will receive an alternated version to retake. The grades from the original attempt and retake will be averaged.
