

Greenwood Leflore Consolidated School District Executive Team

OUR THOUGHTS...

Mr. James Johnson-Waldington

SUPERINTENDENT OF EDUCATION

The first thirty one (31) days in the the Greenwood Leflore Consolidated School District has been filled with intense and well thought out planning sessions. These sessions and the implementation of strategies that were born of them, will enable the GLCSD faculty and staff to give our students the best educational experience possible. I'm very excited and impressed with everyone's enthusiasm and work ethic as we prepare for our children to arrive on August 4th. I anticipate a year of successes in building the capacity of our staff, student academic performance, and district/community relations. We want our stakeholders to see that this year is the beginning of when our actions will speak so loud that our words will not be heard.

GLCSD....."Champions for Children"

Mrs. Zinnia Howze-Wince

ASSISTANT SUPERINTENDENT OF EDUCATION

It has been a pleasure working with the leadership and administrative staffs of GLCSD; everyone has been receptive to the new initiatives and levels of expectations that have been shared by the Superintendent and I. We look forward to working with, collaborating with and supporting the entire faculty and staff of GLCSD, as we move towards achieving academic excellence. Our motto is, "Champion for Children". We will continue to put the needs of our children first, last and always in everything that we do. Also, we look forward to working with our parents and stakeholders; we welcome their input.
