

Marion County Virtual School is a non-traditional K-12 public school with classes taught by highly qualified, certified Tennessee teachers. Marion County Virtual Elementary School serves students in Grades K-5 and Marion County Virtual High School serves students in Grades 6-12. We partner with SchoolsPLP to provide educational services, a company that has been providing a technology-based curriculum for over 20 years.

The Marion County Virtual School is a practical solution for students and parents who are interested in a non-traditional school setting. Partnering with our vendor, SchoolsPLP, we have ensured that quality instruction is being provided for our students. Students are engaged in an asynchronous model of learning and the school has a clear and successful plan in communicating with students and parents to ensure that students are on track and successful in their daily learning.
