SCHOOL SONG

In order to promote both a school spirit and a school identity, a school song for FCHS was developed. Students selected "Across the Field", the Ohio State University fight song, as the tune for the FCHS school song. Following are the lyrics to the Franklin County High School song:

We're the Franklin County Wildcats
Here forever more.
Set the crowds to celebrating
with our mighty scores.
Go! Cats! Go!
Blue and silver will conquer all.
FCHS never to fall.
Cheer! Cheer! The 'Cats are here!
Franklin County, we're true to you.

CAFETERIA

Procedure for Student Lunch/M meal Accounts

The National School Lunch Program (NSLP) requires school food authorities to establish written administrative guidelines and procedures for meal charges. Franklin County Community School Corporation will adhere to the following meal charge procedure.

Cafeteria purchases can be prepaid before meal service begins. Students can use their lunch ID number to access their account. Money can be put on students' accounts online, at school, or at the cafeteria register.

A student may charge up to \$25.00 meals maximum (one charge per meal) as long as they establish and maintain a good credit history of making payments on their food service accounts.

A staff member may charge up to \$25.00 as long as they establish and maintain a good credit history of making payments on their food service accounts.

A student who has charged a meal may not charge or purchase "a la carte" item(s), including extra main entrees, second meals, drinks, and other snacks.

If a student repeatedly comes to school with no lunch and no money, food service employees must report this to the building principal as this may be a sign of abuse or neglect and the proper authorities should be contacted.

Schools will provide an alternative meal of a peanut butter sandwich and a milk to a student who pays reduced or full price and who does not provide the required payment for that meal and has a negative balance of \$25.00 or more.

A student with a negative balance of \$25.00 or more can be withheld from participation in any extracurricular activities until the balance is in good standing.

The food service manager or other school personnel will coordinate communications with the parent(s)/guardian(s) to resolve the matter of unpaid charges.

Parents will be notified of any outstanding negative balance in the student's lunch/meal account. Parents may be notified by phone, text, email, or letter.

All accounts must be settled on the last day of the school year. Letters will be sent home approximately 15 days before the end of the school year to students who have any negative balances. Negative balances of more than \$25.00 not paid in full by the last day of school will force the Corporation to take action to collect unpaid funds by means of collection agencies, small claims court, or any other legal method deemed necessary by the Corporation.

Students who graduate or withdraw from the corporation and have \$25.00 or more left in their lunch/meal food service account will be notified by mail by food services and given the option to transfer the funds to another student or to receive a refund. If no response is received within 60 days, the student's lunch/meal account will close and the funds will no longer be available. Unclaimed remaining balances will be transferred to the cafeteria fund.

- Students must take the tests when they are unlocked during designated school hours of 8:00-3:30 PM.

AUDITING CLASSES

Occasionally students may find it necessary to retake a class or a portion of a class for which they have already received credit. This practice, called auditing, is permissible, but credit can only be granted once per course. The grade received when the course is taken the second time shall replace the grade from the initial semester provided that the student's initial semester grade was a "D" or an "F". Auditing is not permitted without permission from the Building Principal and the Guidance Department. Such permission will be granted only when absolutely necessary.

NOTE: Students who choose to withdraw from a course, without a valid academic reason, after the start of each semester or removed from class for disciplinary reasons may receive a withdrawal "F" on their transcript. If a student chooses to retake the course at a later time the FCHS Auditing Policy will be applied. Students who choose to withdrawal from a course must receive both administrator and teacher recommendation and permission from parent/guardian.

CLASS CHANGES

Students will have an opportunity to change their schedule each academic school year. They will have an opportunity in May after students are informed that the schedule is completed for the following school year. Students will need to fill out a schedule change request form and have their parents sign it. Schedule changes will be completed by the end of the school year. Students will have an opportunity to change their second semester schedules during the first semester. Students will be allowed to fill out a schedule change request form after Fall Break. The forms will need to be turned in by Thanksgiving Break in order for the schedule change request to be considered.

Students will be allowed to change their schedule during registration week but will need to set up an appointment with their school counselor in order to do so. Students will not be allowed to change their schedules on or after the first day of school of each semester. This must be completed within the first two weeks of the semester in order to avoid a WDF on the student's transcript.

Any schedule change that is completed must meet one of the following guidelines:

- A student is scheduled for the wrong class
- Change is recommended by the teacher and is approved by principal and counselor
- Any other academic reason deemed appropriate by the principal and counselor

Schedules will not be changed for the following reasons:

- Change lunch period
- Teacher change
- Flip class periods
- Swapping out one elective class for another or no longer wanting to take the class

CLASS RANK

Grades from non-accredited non-public schools shall not be included in determining class rankings. The class valedictorian and salutatorian are determined as students with the two highest Grade Point Averages that have completed eight semesters of high school, at least five of these must have been at FCHS. These semesters shall contain a full day schedule of at least six (6) out of seven (7) course opportunities. Also, these eight semesters shall be completed consecutively.

Summer school coursework completed at Franklin County High School, beginning with the summer immediately prior to the

freshman year, shall be included in the student's course history. In the event of a tie with the grade point average to three decimal places, multiple recipients shall be recognized for each position. Students who are guests of Franklin County High School as foreign exchange students shall not be considered in the determination of class rank.

COMMENCEMENT EXERCISES

A total of 40 credits and fulfillment of all other requirements from the State of Indiana are necessary for graduation. In order for a student to participate in commencement, the credits shall be earned and recorded in the office prior to the commencement ceremony. The class valedictorian and salutatorian are determined as the students with the two highest grade point averages after they have completed eight semesters of work respectively. Commencement is a formal occasion and seniors are to dress and act appropriately. In order to have a well-organized and efficient commencement, practice for the ceremony is conducted. Seniors who plan to participate in the commencement exercises shall attend and participate in commencement practice as scheduled by the principal. Seniors dressed inappropriately at commencement will not be permitted to participate. Graduates seen disrupting the ceremony will not receive their diplomas or certificates. Specific instructions for dress, behavior, and other commencement details will be shared with seniors during a class meeting. **In order for students to receive their diplomas or certificates, all financial and other obligations to the school shall be met.**

CORRESPONDENCE COURSES

The Indiana Department of Education stipulates that a total of only eight credits toward graduation may be earned by correspondence classes. Franklin County High School Administration will accept correspondence credit only from approved institutions, and only then when the class is arranged through the guidance department and approved by the administration. Most students who elect to take a class by correspondence elect to do so only when it appears they may be short of regular credit for graduation. Correspondence credit is acceptable only when a student has failed that particular class at FCHS. Special circumstances for the acceptance of correspondence credit shall be considered by the building administrator and/or guidance counselor.

CREDIT TO BE TRANSFERRED FROM NON-ACCREDITED, NON-PUBLIC SCHOOLS

Franklin County High School has both the right and responsibility to assess the academic status of the students who are transferring from non-accredited/non-public schools and who are initially entering or reentering Franklin County High School. This is done in order to make a determination of the student's placement in the school's program, which can most likely assure the proper continuation of his/her educational growth. The following are the guidelines for determining the recognition of credits of students previously enrolled in non-accredited, non-public schools:

1. Parents shall submit any and all pertinent materials requested by Franklin County High School including but not limited to test results, attendance records, and curriculum used by the school/parent.
2. Students shall be tested using tests selected by Franklin County High School, such as Franklin County High School final examinations, to help determine acceptance of credit.
3. A committee consisting of one administrator, the student's guidance counselor, and the chairs of the departments in which the transfer courses are involved shall make the final determination of the recognition of credit. Only credit or noncredit will be determined, not grades.
4. Any credits granted shall be designated on the student's permanent records as having been transferred from a non-accredited/nonpublic school.

CREDIT RECOVERY OPTIONS

There are several different credit recovery options available for students who have failed one or more courses. Credit recovery courses are offered online or in print, throughout the year and students may register at any time. EARLY GRADUATION

A school corporation may, under procedures adopted by the state, graduate students after six semesters. Students may elect to graduate from FCHS after their JUNIOR year, if they have met ALL the requirements to earn a Core 40 diploma and therefore qualify for the Mitch Daniels Early Graduation Scholarship. Students desiring to pursue this option must meet with their school counselor during their sophomore year to implement a plan and then must complete an application and return it

to their school counselor by December of their junior year. Students planning to graduate early will need to complete classes during summer school. Early graduate students will not be allowed to “work ahead” by taking Plato courses. Furthermore, students will not be allowed to decide their junior year to graduate early. Students should apply and plan to attend a postsecondary institution in order to continue their education.

Early graduates will be allowed to attend the Whitewater Career Center their junior year; however, will not be allowed to return and attend their senior year. Early graduates will be permitted to participate in senior activities but will continue to be considered part of the junior cohort. Further, these students are not eligible for consideration as the Valedictorian or Salutatorian. More information on early graduation and the Mitch Daniels Scholarship can be found here <http://www.in.gov/che/4508.htm>

Final approval for a student to be an early graduate will be completed by the principal.

Additional criteria to follow:

- A. Students wishing to petition for early graduation must notify the counselor of their intent prior to Spring Break of their sixth (6th) semester.
- B. If a student petitions to graduate before their junior cohort, that student will be classified with the junior cohort.
- C. A graduating junior will be allowed to participate in all graduation activities (Graduation Photo, Graduation Breakfast, and Graduation Practice).
- D. Once a student has declared early graduation, that junior student will be allowed to attend College Visits with the senior class.
- E. A student who petitions to graduate prior to their junior cohort will be included in the class standing of their junior cohort.
- F. A student who graduates prior to their cohort will not be eligible to attain valedictorian or salutatorian status, but will be eligible for Academic Hall of Fame.

EMANCIPATION DECLARATION

An emancipated student is an 18-year old individual who lives on his/her own without financial support from a parent or guardian or other adult. Students may be declared emancipated in one of the following ways:

1. The student's parent or guardian with legal custody presents a written, notarized affidavit declaring the student emancipated.
2. The student presents a bona fide court document, which declares the student emancipated.
3. The student presents a copy of a marriage license. No student will be regarded as emancipated until the proper documentation has been filed in his/her permanent record.

The proper forms are available in the office. Because emancipated students are responsible for themselves, certain special requirements are in effect when parental permission or verification is normally required.

1. When an emancipated student is absent, the student must call the attendance office on the day of the absence. Failure to do so will result in an unexcused absence being assigned.
2. When written parent permission is necessary, such as for a field trip, the emancipated student shall sign for him or herself.
3. When an emancipated student is suspended or expelled, parent notification is not required, although parents may be informed if an address is available.

ENROLLMENT PROCEDURES

FCHS School Counselors meet with students individually to assist them in completing the required enrollment procedures. Parents are welcome to confer with counselors during the enrollment process.

It is very important for a student to consider his/her course choices carefully. The number of sections for each course and the staffing needs for these sections are dependent upon the initial requests students make. Cases where enrollment requests exceed class capacities, the administration, in consultation with the school counselors and instructional staff, will determine student enrollment.

FCHS STUDENTS AS FOREIGN EXCHANGE STUDENTS

Students from Franklin County High School planning to study as foreign exchange students shall receive approval from the principal of Franklin County High School prior to enrolling in a foreign exchange program if any credits are to be recognized by Franklin County High School. Recognition of credit will be based on the titles of the courses studied, a detailed description of the curriculum studied, the length of the course of study, and any other pertinent information as requested by the Building Administrator.

FOREIGN EXCHANGE STUDENTS

Franklin County High School Administration/staff recognizes the value of foreign exchange programs and welcomes Foreign Exchange/International Students (FE/IS). The most common concern of the School Corporation, teachers, and administrators regarding foreign students in their school is the student's qualifications. In order for the foreign exchange student(s) (FES) to be enrolled in FCHS, these guidelines shall be followed:

1. All FES shall be represented by a USIA designated exchange visitor program and accepted for listing with the Council of Standards for International Educational Travel. No exceptions shall be allowed.

2. FES shall meet strict criteria for English language proficiency test (high intermediate proficiency). Results of the test and explanation of the scores shall accompany each application. In the absence of a proficiency test, the student shall have the minimum grades of 80% or equivalent in all of his/her formal English classes. FES is placed in the grade that corresponds to the number of years of school already completed.
3. FES shall be between 15 to 18 years old and be academically strong based on his/her transcripts and GPA (minimum 80%). His/her file shall also include an exchange student shall be notified immediately to correct the problem or he/she will be ineligible to continue studies in FCHS.
4. If scheduling allows, no two foreign exchange students should be placed in the same class. However, if they speak the same language, they shall definitely not be placed in the same class.
5. Foreign exchange/International students shall be encouraged to communicate in English.
6. FES who have graduated high school in their country are allowed to join the FCHS commencement and be given an honorary diploma. However, if a FES has not yet graduated high school but is enrolled as a senior at FCHS, he/she is eligible to participate in the FCHS commencement exercises and receive an honorary diploma upon successful completion and passing the required and elective classes: U.S. History, U.S. Government, American Literature, geography, creative writing, and electives.
7. In order to take advantage of the opportunity to attend a U.S. high school, each participant shall take each course seriously with a passing grade although he/she is taking classes on a non-credit basis. Any F grade is subject to notification of his/her organization. If no improvement is made on the part of the participant, he/she is ineligible to continue further studies at FCHS.
8. If a major disciplinary problem arises, all FCHS rules apply and the organization representing the exchange student shall be notified immediately to correct the problem or he/she will be ineligible to continue studies in FCHS.
9. Each organization shall have its own guidelines, rules and name of the local representative on file with the principal and counselors.
10. The foreign exchange student may serve as a resource person in a classroom or the school community as a whole depending on his/her schedule.
11. If possible, acceptance of international students shall be limited to one student speaking a particular language.

FINAL EXAMINATIONS

Students who are absent with an excused absence during final examinations shall make up their examinations within two weeks, ten (10) school days, following the end of the semester. If an examination is not completed during the two week period, a grade of zero (0) for the examination shall be used in determining the course average.

GRADE POINT AVERAGES

To more accurately reflect the scholastic achievement of our students, the formula for determining grade point averages will distinguish the value placed on A's and A+'s. A+'s shall be valued at 4.33 and A's at 4.0. In determining grade point averages for weighted courses, grades will be calculated using the value of one (1) point higher than the regular formula.

GRADING SYSTEM

Franklin County High School operates on a nine-week grading period system. Grade reports will be issued during the week following the end of each grading period, when possible. Semester grades will be computed by assigning a value of forty-five (45) percent to each nine week grade and ten (10) percent for the final exam. Semester examinations or projects are given in all academic subjects. Transfer students' grades are converted to the FCHS system at face value regardless of values placed by the sending school. Franklin County High School operates on a 4.33-point grading system. Grade Point Averages (GPA) are determined according to the following values:

SCHOOL-WIDE GPA SCALE

| | | | | |
|------------------|------------------|------------------|------------------|----------------|

OFFICE OF STUDENT SERVICES

Our high school is fortunate to enjoy the services of two (2) school counselors and one (1) College & Career Readiness Coordinator. These individuals advise students regarding academic matters (schedules, enrollment choices, etc.), help students who suffer with personal problems, handle required testing, and assist students as they make college and career choices. Anytime students want to talk with a counselor, they can stop by the Office of Student Services. The secretary will arrange for students to see the counselor of choice.

The Franklin County Community School Corporation Administration and Board of School Trustees regard home-based educational units as non-accredited unless done through an accredited institution. Upon enrollment at FCHS from an **accredited** home schooling program, the student's transcript shall be evaluated as to the number of credits earned.

When a student enters or reenters FCHS from a **non-accredited** home schooling program, an evaluation will be made by the Office of Student Services and Administration as to the number of credits, if any, the student may possess. We reserve the right to require testing, or any other means we deem appropriate to determine grade level placement of any student entering Franklin County High School from a non-accredited home-based educational program. Such testing is best done at the end of a semester, and grade level placement may or may not correspond with the level achieved by the student in the non-accredited home-based educational unit. Classes taught at any educational institution are most beneficial to the student when taken in their entirety; therefore, the administration and staff of FCHS strongly recommend that a student who is homeschooling enter or re-enter the school corporation at the beginning of a semester. To graduate from Franklin County High School, a student shall enroll at Franklin County High School and attend at least the final semester of his/her senior year. If extraordinary circumstances arise, a waiver, concerning this enrollment policy, may be granted in writing by the Building Principal.

HOMEWORK POLICY

Homework may be defined as out of class preparation in a given subject area which is either: assigned, suggested, or approved by the student's teacher. The Franklin County Community School Corporation policy as well as individual teacher's homework policy shall be distributed and/or discussed with students and parents at the beginning of each semester and shall be reviewed as the need arises throughout the year. Homework shall be viewed as reinforcing teacher instruction, not a substitute for teacher instruction. The following is a list of suggestions and guidelines for homework implementation.

- Homework assignments shall be specific and students shall know what is expected of them.
- Homework shall be an integral part of the classroom activities. It shall never be "busy work" or construed as punishment, and it shall not be assigned for disciplinary reasons.
- Teachers in a departmentalized situation shall be aware of their colleagues' assignment practices so that students are not overburdened with homework.

INCOMPLETE WORK

Students who have not completed the necessary work by the end of each semester shall be issued an "I" for an incomplete grade. **After ten (10) school days including summer school**, if the student has not completed the work, a semester grade will be determined by averaging "0"s for all incomplete work in order to arrive at a final semester grade. Students who have had extended absences due to medical circumstances may be subject to a waiver of this provision with appropriate medical documentation and permission from the administration.

ISTAR

In 1984, Building Administrators from nine area high schools initiated the Indiana Student-Teacher Achievement Recognition program to honor outstanding students and teachers. Students from the top ten percent of their senior class are chosen from each school. These students choose three educators who have been influential in their lives. These educators are also honored at the ISTAR program. The program has grown in stature and continues today.

NATIONAL HONOR SOCIETY

Students will be considered for National Honor Society if they meet ALL of the following criteria:

- 3.75 cumulative GPA or higher after 5 semesters of final grades (change being made listed below under **)

A student whose GPA is just at or just above the 3.75 level may have their induction delayed until they have completed three and a half (3.5) years of high school. Induction into the N.H.S. is a privilege, not a right. Students with a 3.75 GPA are not automatically guaranteed membership. The faculty committee's decision is final. Neither the N.H.S. sponsor nor the school administration has a vote in the selection process. The NHS board decision is FINAL in the selection process.

3. Students who have transferred from another school shall not be certified or permitted to participate in interschool athletics during the ensuing 365 days until the principal has on file a signed and completed IHSAA Athletic Transfer Report approving said transfer by receiving/sending school principals and the commissioner. Coaches should aid in identification of new players in the school system. The sooner they are identified, the sooner they can complete the transfer. If this is handled wrong, it can lead to a forfeit. Once students become eligible in a school, they retain eligibility in that school even though the parent(s), guardian or student moves to another district or territory. Eligibility is determined by the IHSAA.
4. All contestants in sports recognized by the association must be amateurs in the sport in which they wish to participate. Students shall not play under assumed names nor accept remuneration, directly or indirectly for athletic

participation. Any member school students who directly or indirectly sign a professional contract lose their amateur standing and immediately become ineligible only in that sport in which they signed a contract. Member school students shall be considered as violating their amateur standing if they participate in athletic activities, tryouts, auditions, practices and games held or sponsored by professional athletic organizations, clubs, or their representatives. This rule applies to all sports except baseball, golf, softball, and tennis out of season.

5. A student-athlete shall attend regularly scheduled practice sessions to be Eligible for interschool athletic competition.  - a. attendance and active participation in preseason practices, if applicable;
 - b. attendance and active participation in four school-supervised practice sessions of normal length, which shall occur on four separate days prior to the day of the contest, if the student fails to attend and actively participate in **more than 10** consecutive days of regularly scheduled practice.

NOTE: Only two practices are required to satisfy the provisions of this rule in girls' golf.

INTERPRETATION:

| <u>Days Missed</u> | <u># of Practices Required</u> |
|--------------------------|--------------------------------|
| 5 to 10 | 4 |
| More than 10 consecutive | 6 |

6. Students shall not represent their school as a team member or individual in state tournaments or state meets in IHSAA recognized sport(s) which are not under the auspices of IHSAA.
7. The use of undue influence by any person or persons to secure or retain a student or to secure or retain one or both of the parents or guardians of a student as residents may cause the student to be ineligible for high school athletics for a period not to exceed 365 days and may jeopardize the standing of the high school in the association.
8. Contestants' conduct, in and out of school shall be such as (1) not to reflect discredit upon their school or the association, or (2) not to create a disruptive influence on the discipline, good order, moral or educational environment in the school.

NOTE: It is recognized that principals, by the administrative authority vested in them by their school corporation, may exclude such contestants from representing their school.

ATHLETE/SPORTS SEASON DEFINED

A student is determined to become an athlete once he/she participates in a practice. The student will be declared an athlete for one (1) calendar year. If a student does not participate on an athletic team for one (1) calendar year they will no longer be considered an athlete until they participate on another athletic team. The season for a sport begins with the first practice and ends with the last game, including tournaments. Penalties are based on the number of SCHEDULED GAMES in a regular season.

ATHLETIC AWARDS

The Athletic Department at Franklin County High School gives varsity letters to those athletes who participate in enough varsity games or matches. Following are the participation guidelines for the awarding of letters:

| | |

| Baseball/Softball | one half of games |
| Volleyball | one half of games |
| Football | one half of quarters |

The actual awarding of a letter is up to the discretion of the varsity coach. The above serve only as general guidelines and may be altered by the coach involved. Letters won may be worn only on official FCHS letter jackets which students may purchase at cost through the athletic department. Only one letter will be awarded. Letters won in other sports or in later years will be designated by a letter bar that may be affixed to the letter jacket.

ATHLETIC LETTER WINNERS

1. First letter won – letter certificate, FC patch, graduation year patch, sport specific letter bar patch, and eligible to purchase letter jacket.
2. Additional letters – sports specific letter bar patch.
3. Four year letter winners in a particular sport will receive a framed letter plaque for that sport.

DUAL SPORT PARTICIPATION

Dual sport participation may be allowed if the following criteria are met:

1. Primary and secondary sport declared.
2. A required meeting with the athletic director, coaches involved, Student / athlete and parent discussing the guidelines for each individual sport must occur.
3. An acceptable agreement between both coaches must be reached or dual sport participation will not be allowed.

SPORT JUMPING

A student that drops a particular sport will not be eligible to participate in a second sport, either through practice or actual competition, until the season of the dropped sport is completed. An exception to this regulation can be made only through written permission of the athletic director. All requests for deviation must be made in written form and include the signature of the student athlete and parent or legal guardian. The athletic director will confer with the affected coaches prior to his decision. Decisions regarding the student eligibility under this policy will strive to maximize the best interest of the student and program affected. In general, the longer the particular sport has been in a season, the harder it will be to obtain a release until the end of the season.

COLLEGIATE ATHLETIC PARTICIPATION

There are two associations that provide athletic opportunities at the collegiate level. The following link provides you the basic outline to be eligible in each association. [NCAA and NAIA](#)

NCAA Division II colleges have slightly different standards.

All high school students who want to be considered by colleges shall register with the NCAA Eligibility Center and file a student release form with the NCAA before they can even be considered by any member NCAA college. This shall be done early in the student's senior year in high school.

These forms and the current standards information are available in the FCHS guidance office. Parents and students shall check with the student's counselor for further information.

SAFETY

SCHOOL CLOSING OR CHANGING TO E-LEARNING

The Superintendent of Schools and/or designee shall make the final decision on the closing of school due to weather, bad roads, and other conditions. Students who drive to school and who are uncomfortable driving when roads may be slick shall ride the bus. Students are not excused from school when bad weather occurs unless the school bus is not able to pick them up or the parent/guardian notifies the school that they have determined that conditions are too hazardous to send their student(s) to school. Every effort is made to notify all school patrons as soon as possible when school is delayed or canceled. Announcements of such will be made via School Messenger, the Nixle emergency notification system (email or text notification), the Corporation website, and via designated radio and television stations. Detailed information concerning school closings/delays is located on the Corporation website under Transportation.

E-LEARNING

The Franklin County Community School Corporation recognizes the need to provide an alternate means by which students receive classroom instruction when a school day is lost due to inclement weather. An eLearning day may be used on a day when school is canceled, a planned eLearning day, or a scheduled makeup day. Starting with the 2019-2020 school year, FCCSC may implement eLearning days to provide an educational option that is designed to serve as an alternative to traditional classroom instruction. The Indiana Department of Education encourages schools to take advantage of learning opportunities outside of the traditional school day in order for students to engage in their lessons through technology. Additional information may be found at

<https://www.doe.in.gov/elearning/elearning-day-program>.

EMERGENCY DRILLS

Instructions providing for safe exit from the classrooms and building during emergency situations are located in each room. Students are to be aware of the exit procedures for fire and tornado emergencies. Fire drills are held monthly as required by State law. Tornado drills are required two (2) times each year. During both fire and tornado drills it is essential that order and quiet be maintained.

- **TORNADO:** In every classroom there is a chart of directions as to where to seek shelter. Students and teachers are to go quickly and quietly to their designated areas when the tornado warning is sounded. Students should be sitting / kneeling (tucked into a ball) facing the wall with hands covering their heads. If there is no time to move to a protective shelter area, students and teachers should try to protect themselves by getting under a table or chair and covering their heads. These drills will be held two (2) times a school year. The tornado drill warning will be announced over the intercom. FCHS reserves the right to not dismiss students during a time of emergency.
- **FIRE:** During the school year, a fire drill is held once each month. In every classroom there is a chart of directions for leaving the building. Students and teachers should move quickly and quietly to the designated exit. Students and teachers will remain outside the building until the signal for return is given. The fire warning is a continuous sound.

- **LOCKDOWN:** During the school year, two lockdown drills will be conducted. Students will be held in the classrooms with the door locked. Students will be placed away from any window or door. The teachers will instruct students how to protect themselves in case of an intruder. The school building will remain locked and no one will be allowed in or out of the building until completion of the drill. There will be notification given to prepare students, parents, staff, and community members that it is only a drill.

SUICIDAL THREATS

Any written or verbal threats of suicide will be reported to the Building Administrator. The Building Administrator or member of the administrative staff shall notify the parent/guardian. At that time a referral to an outside agency will be provided. In-school counseling services may also be available. (see FCCSC Board Policy 6.46)

BIOLOGICAL PARENTS AND COURT-APPOINTED GUARDIANS

Biological parents and court-appointed guardians have a right of access to the child at school and a child's school records unless a court order has been provided to the school that prevents contact with the child or grants parental rights or guardianship to another person. This presumption would cover having lunch with the child, visiting the child's class, and taking the child from school.

CHILD ABUSE AND NEGLECT POLICY

(IC 51-6-11-3)

In the event it is necessary to report a suspected violation of the Child Abuse Law, school employees shall notify the Building Administrator who will in turn notify the Franklin County Department of Public Welfare.

Reports of abuse shall be made whenever a staff member:

- a. has reason to believe a student is a victim of abuse or neglect,
- b. receives a report of student abuse or neglect, or
- c. sees physical evidence or behavior that appears to be the result of abuse or neglect.

Under law, certain agencies have the authority to question children directly. However, in the absence of a court order, all agencies are to coordinate any desired contact with the students at school through the Building Administrator and the County Welfare Office.

PEST CONTROL POLICY

The school corporation is committed to providing students a safe environment. It seeks to prevent children from being exposed to pests and pesticides. While pesticides protect children from pests that may be found in the school and its surrounding grounds, under some circumstances they may pose a hazard to children. Therefore, pest control practices may involve a variety of chemical and non-chemical methods that are designed to control pests effectively while minimizing potential pesticide exposure to children.

The policy does not apply to the use of the following pesticides:

1. *When used in normal cleaning activities: germ killers, disinfectants, sanitizing agents, and water purifiers;*
2. *Personal insect repellents when self-applied; and*
3. *Gel baits or manufactured enclosed insecticides when used where students and staff members do not have access to the insecticides.*

Pesticides will be applied by certified pesticide applicators when students and staff members are not present, such as during non-instructional time or school vacation periods.

The corporation will:

1. Inform parents and staff members of the corporation's pest control policy at the beginning of the school year by a provision in the student handbook.
2. Provide the name and phone number of the person to contact for information regarding pest control.
3. Establish a registry of parents and staff members who want to receive advance notice of all pesticide use and provide such notice.
4. Provide notice of planned pesticide applications to parents and employees who have requested advance notice.
5. Provide notice of all pesticide applications to school nurses.
6. Maintain written record for at least ninety (90) days of any pesticide applications.

- Cafeteria purchases can be prepaid before meal service begins. Students can use their lunch ID number to access their account. Money can be put on students' accounts online, at school, or at the cafeteria register.
- A student may charge up to \$25.00 meals maximum (one charge per meal) as long as they establish and maintain a good credit history of making payments on their food service accounts.
- A staff member may charge up to \$25.00 as long as they establish and maintain a good credit history of making payments on their food service accounts.
- A student who has charged a meal may not charge or purchase "a la carte" item(s), including extra main entrees, second meals, drinks, and other snacks.
- If a student repeatedly comes to school with no lunch and no money, food service employees must report this to the building principal as this may be a sign of abuse or neglect and the proper authorities should be contacted.
- Schools will provide an alternative meal of a peanut butter sandwich and a milk to a student who pays reduced or full price and who does not provide the required payment for that meal and has a negative balance of \$25.00 or more.

- A student with a negative balance of \$25.00 or more can be withheld from participation in any extracurricular activities until the balance is in good standing.

- Parents will be notified of any outstanding negative balance in the student's lunch/meal account. Parents may be notified by phone, text, email, or letter.
- All accounts must be settled on the last day of the school year. Letters will be sent home approximately 15 days before the end of the school year to students who have any negative balances. Negative balances of more than \$25.00 not paid in full by the last day of school will force the Corporation to take action to collect unpaid funds by means of collection agencies, small claims court, or any other legal method deemed necessary by the Corporation.
- Students who graduate or withdraw from the corporation and have \$25.00 or more left in their lunch/meal food service account will be notified by mail by food services and given the option to transfer the funds to another student or to receive a refund. If no response is received within 60 days, the student's lunch/meal account will close and the funds will no longer be available. ****The returning student must first be brought into the clinic (school nurse) and rechecked prior to admission to class and must be accompanied by a parent/guardian. The student should not ride the bus to school until cleared by the school nurse.**
4. If lice or nits within ¼ inch from the scalp are found upon a return check, the student will be sent home for further treatment.
5. Parents/ guardians should continue daily head checks for 3 weeks and are expected to remove old nits when found.
6. Staff shall maintain the privacy of students identified as having head lice.

IC 20-33-2-27 and 28, specify it is the parent's responsibility and duty to ensure that their child attends school. When illness or other legitimate reasons keep a student at home, there shall be contact between the parent or guardian and the school in order for the absence to be properly documented. After 10 tardies, all additional tardies will be considered excessive and therefore unexcused without third-party documentation.

EARLY DISMISSAL

Any student that leaves school up to 30 minutes early will be counted as an early dismissal.

CONSEQUENCES FOR EXCESSIVE TARDIES

For grades 7-12, a student will be issued a detention for every tenth unexcused tardy to school. CODE OF CONDUCT GUIDELINES

FCCSC recognizes its responsibility to provide all students with an environment conducive to the development of their maximum learning potential. The Code of Conduct supports this endeavor for both in-person or remote environments. The Code of Conduct is adopted by the Board pursuant to state law.

Any student engaging in the following types of conduct either specifically or generally, in-person or through a remote environment (virtually) like the type of conduct listed below is subject to suspension, expulsion, emergency removal or permanent exclusion from curricular or extracurricular activities pursuant to State law. This Code of Conduct applies while a student is in the custody or control of

the school, on school grounds or closely proximate thereto, while at a school-sponsored function or activity or on school-owned or provided transportation vehicles. In addition, the Code of Regulations governs a student's conduct at all times, on or off school property and in the virtual environment, unless specifically limited to school property as stated in a regulation, when such student conduct is reasonably related to the health and safety of other students and/or school employees, or such conduct would unreasonably interrupt the educational processes of the Corporation.

The FCCSC Progressive Discipline Code is divided into four levels. Each level represents progressively more serious misbehavior and consequences. Each principal may take any action concerning his/her school or any school activity within his jurisdiction, which is reasonably necessary to carry out or prevent interference with an educational function or school purposes. Such action may include establishing written rules and standards to govern student conduct. Similarly, the superintendent or his/her administrative staff with his approval may take any action with respect to all schools within the superintendent's jurisdiction, which is reasonably necessary to carry out or prevent interference with an educational function or school purposes.

PROGRESSIVE DISCIPLINE POLICY

FCCSC uses a progressive system of discipline. The system is based on the idea that as a student commits more violations of school policy, the penalties become more severe. The overall goal is to discourage misbehavior, thereby enhancing the learning environment and helping to insure a safe educational setting.

CODE OF CONDUCT

The types of conduct prohibited by the Franklin County Community School Corporation Code of Conduct are as follows:

Level I Discipline:

Level I discipline is used for minor acts of misconduct which interfere with orderly school procedures, school functions, extracurricular programs, approved transportation, or a student's own learning process. STUDENT EXPRESSION

Students have rights of speech and expression that are protected at school. At the same time, the special needs of the school environment require some restrictions on student speech to protect the rights of others, to protect students' safety and well-being, and to prevent disruption to the educational process. Student expression that materially disrupts instruction; creates a hostile environment or interferes with others' instruction; bullies others; advocates the use of substances that are illegal to minors; incites violence; promotes hatred, or urges the violation of law or school rules is specifically prohibited.

SOCIAL/ACADEMIC PROBATION

Students attending FCCSC are expected to establish and maintain a pattern of academic and behavioral success. Students who do not demonstrate academic or behavioral success will be placed on Social Probation. Because school-sponsored events are considered a privilege, any student on Social Probation may **not** be allowed to participate in **any school sponsored club activities (i.e. field trips) or dances. Additionally, students who drive to school may lose their driving privileges to school.** It is expected that a student will re-establish a pattern of academic and/or behavioral success during the probationary period.

- Students may be placed on Social Probation for any of the following:
 - Students who receive Out-of-School Suspension (OSS), Alternative School Assignment (ASA), or In School Suspension (ISS) may be placed on Social Probation until they show improvement in behavior.
- Students who do not pass 70% or more of their subjects at the conclusion of a grading period may be placed on Social/Academic Probation for the next grading period.

Example:

- a. A Student enrolled in 7 classes must pass 5 classes.
- b. A Student enrolled in 6 classes must pass 4 classes.
- c. A Student enrolled in 5 classes must pass 3 classes.

DRESS CODE GUIDELINES

The responsibility for a student's dress, grooming and appearance rests in the first instance with the student and his or her parent(s) or guardian(s). The school will not interfere unless a student's personal choices create a disruptive, distractive influence on the school's educational mission, affect the health or safety of the student or others or are destructive to school property. The school encourages students to dress and groom themselves in a manner that reflects high personal standards, demonstrates respect for themselves and others, and promotes a positive and safe environment in which to learn. Through its dress and grooming guidelines, the school intends to promote community standards of decency, cleanliness, etiquette, decorum and good citizenship as part of its educational mission.

Consistent with these principles, the following guidelines govern dress, grooming and appearance at all Franklin County Community Schools and as a part of all school activities on or off campus. Addressing these items is an attempt to improve the overall decorum of the school climate.

The school may establish special dress requirements for students participating in physical education classes or extracurricular activities and events, including those that occur off the school's premises.

If a student chooses to violate dress code expectations, the building administrator or a designee will confer with both the student and his or her parents or guardians in order to effect a change that satisfies the guidelines. If the student is unable or unwilling to reestablish compliance with the dress code expectations, the student will be required to work in the ASA/ISS room or office for the remainder of the day. Repeated occurrences will result in appropriate disciplinary action.

All students of the school:

- Shall dress in attire that is suitable for the school environment.
- Shall dress in attire that is clean and in good repair.
- Shall dress in attire that ensures their safety and the safety of all others.
- Shall dress in a manner that does not interfere with the learning environment.

Here are some examples that have been deemed as not reaching the stated expectations above.

Indiana Code 20-26-5-40.7 defines wireless electronic devices as a device that is portable and is capable of providing voice, messaging, or other data communications between two or more persons and includes cellular phones, tablet computers, laptop computers, digital cameras, and/or gaming devices. The Indiana Code specifically prohibits use of wireless electronic devices in a manner which constitutes an interference with a school purpose or educational function, an invasion of privacy, or an act of academic dishonesty, or is profane, indecent, or obscene is prohibited.

Here are the FCCSC acceptable use guidelines for wireless electronic devices for students by grade levels:

- Kindergarten through 5th grade students are not permitted to bring any communication devices to school. Parents may request an exception through the building administrator.
- 6th-8th grade students may bring communication devices to school, but they must be left in their lockers.
- 9th-12th grade students may only use a wireless electronic device in accordance to the expectations set forth by building administration such as when they are:

In addition to potential school discipline, students who possess or use a wireless electronic device in a manner which violates the wireless electronic device guidelines may have the device confiscated by school staff and given to building administration. When a device is confiscated, the student's parent/guardian will be notified and with parent/guardian permission, the student can pick it up at the end of the day. If the student is caught with a device a second time, the device will be confiscated, the parent/guardian must come to school and pick up the device, and the student will no longer be permitted to bring a device to school. **Devices as described above are the responsibility of the student/family and Franklin County Schools have no obligation to investigate or financial responsibility for theft of devices.**

BULLYING

The Franklin County Community School Corporation (FCCSC) is committed to providing an educational setting that is safe, secure, and free from harassment and bullying for all of its students and school employees. FCCSC will not tolerate bullying or harassment of any type. FCCSC has developed a district policy as part of a comprehensive plan intended to prevent bullying and harassment. The policy includes an *anonymous* reporting system used to appropriately identify, report, investigate, and respond to situations of bullying and harassment. FCCSC has also created a website as a resource and tool to help cultivate a learning environment where everyone involved can thrive and achieve excellence in education.

As defined by the school corporation, bullying means aggressive behaviors that involve unwanted negative actions that are repeated over time and involve an imbalance of power. As defined by IC 20-33-8-.2, bullying means overt, unwanted, repeated acts or gestures, including verbal or written communications or images transmitted in any manner (including digitally or electronically), physical acts committed, aggression, or any other behaviors, that are committed by a student or group of students against another student with the intent to harass, ridicule, humiliate, intimidate, or harm the targeted student and create for the targeted student an objectively hostile school environment that:

- Has a substantially detrimental effect on the targeted student's physical or mental health;
- Has the effect of substantially interfering with the targeted student's academic performance; or
- Has the effect of substantially interfering with the targeted student's ability to participate in or benefit from the services, activities, and privileges provided by the school.

A building administrator shall investigate immediately all reports of bullying made pursuant to the provisions of this rule. Such investigation must include any action or appropriate responses that may be taken immediately to address the bullying conduct wherever it takes place. The parents of the alleged perpetrator and the targeted student(s) shall be notified of the reported bullying incidents within

five business days of the report of such incidents and on a regular, periodic basis of the progress and the findings of the investigation and of any remedial action that has been taken. During the investigation, the school's priority will be the safety of the victim. The investigation may include a determination of the severity of the bullying incident(s) and whether the transfer of the alleged perpetrator or victim to another school within the school corporation is warranted.

Parents will be allowed to review any or all materials used in the school corporation's bullying and/or suicide prevention programs.

Students who falsely activate the school fire alarm system, who make false reports to the 911 emergency system, or bomb threats shall be suspended out-of-school for ten (10) days with a recommendation for expulsion. Students may be held responsible for payment if any fire apparatus is sent to the school.

CRIMINAL ORGANIZATION ACTIVITY IN SCHOOLS

The Board of School Trustees of the Franklin County Community School Corporation prohibits gang or criminal organization activity and similar destructive or illegal group behavior on school property, on school buses, and/or at school-sponsored functions and prohibits reprisal or retaliation against individuals who report gang or criminal organization activity and similar destructive or illegal group behavior or who are victims, witnesses, bystanders, or other people with reliable information about an act of gang or criminal organization activity and similar destructive or illegal group behavior.

The following definitions apply to this policy:

1. either:
 - a. promotes, sponsors, or assists in; or

Per state law, a school employee shall report any incidents of suspected criminal organization activity, criminal organization intimidation, or criminal organization recruitment to the principal and the school safety specialist. The principal and the school safety specialist may take appropriate action to maintain a safe and secure school environment, including providing appropriate intervention services. Appropriate consequences and remedial actions are those that take into consideration the severity of the offenses and consider both the developmental ages of the student offenders and the students' histories of inappropriate behaviors per the code of conduct.

Any corporation and school employee who promptly reports an incident of suspected gang or criminal organization activity and who makes this report in compliance with the school corporation procedures is immune from a cause of action for damages arising from any failure to remedy the reported incident.

The principal or designee shall conduct a thorough and complete investigation for each report of suspected gang or criminal organization activity. The investigation shall be initiated by the principal or the principal's designee within one school day of the report of the incident. The principal may appoint additional personnel and request the assistance of law enforcement to assist in the investigation. The investigation shall be completed and the written findings submitted to the principal as soon as possible, but not later than five school days from the date of the report of the alleged incident of criminal organization activity.

The principal shall take any appropriate disciplinary actions based upon the findings of the investigation, in accordance with the code of conduct. The superintendent of the school corporation is authorized to define the range of ways in which school staff and the principal or the principal's designee shall respond once an incident of criminal organization activity is confirmed, according to the code of conduct. Consequences for a student who engages in gang or criminal organization activity may range from positive behavioral interventions up to and including suspension or expulsion.

The principal shall provide the parents of the students who were investigated with information about the investigation. The information to be provided to parents includes the nature of the investigation, whether the corporation found evidence of criminal organization activity, and whether consequences were imposed or services provided to address the activity. This information is to be provided in an expedited manner.

As appropriate to the investigation findings, the principal also shall provide intervention and/or relevant support services. The principal shall inform the parents of all students involved in alleged incidents and discuss the availability of counseling and other intervention services.

Support services may include one or more of the following:

7. School sanctioned/facilitated extra-curricular activities.

The principal shall submit the report to the superintendent of the school corporation within ten (10) school days of the completion of the investigation. The superintendent or his/her designee shall report the results of each investigation to the school board on a quarterly basis during regularly scheduled board meetings.

Each school within the school corporation shall record the number of investigations disposed of internally and the number of cases referred to local law enforcement, disaggregated by race, ethnicity, age, and gender. Each school shall report this information to the school corporation superintendent who shall submit a written report to the Indiana Department of Education by June 2 of each year.

This policy shall be annually disseminated to all parents who have children enrolled in a school within the school corporation. Notice of this policy must be published in student handbooks and all other publications of the school corporation that set forth the rules and procedures for schools within the school corporation.

School officials are encouraged to collaborate with stakeholders to provide gang or criminal organization prevention and intervention services and programs, including but not limited to:

1. Provide training for staff and teachers on gang or criminal organization prevention and intervention resources within a jurisdiction on a periodic basis. The gang or criminal organization awareness information should be revised and updated regularly to reflect current trends in gang or criminal organization activity.

Create formalized collaboration plans between local school administration and community based prevention and intervention providers (possibly using the existing County Safe School Commissions as points of contact). The formalized collaborations should make effective, coordinated, and maximized use of federal funding a priority.

BEHAVIORAL INTERVENTION TEAM

In some circumstances, disciplinary actions by the school officials may not be deterring continuous, unacceptable behavior. In these incidents, the administration, staff, or parent/guardian may request a behavior intervention meeting. The behavioral intervention team shall consist of teacher(s), parents/guardians, administrator, counselor, and significant others. The purpose of the team is to assist students who are having difficulties following behavior expectations within the school setting. The intervention meeting involves a brainstorming process in which there is input from all participants. Documentation of the team recommendation is given to the student, parent, building administrator, and all of the student's teachers. This is considered as a contract between the students, parent/guardian, and team members, as well as all teachers who participate in the student's education.

PARENT PARTICIPATION IN DISCIPLINE

A parent, guardian, or custodian of a student less than 18 years old shall be required to participate in any disciplinary action authorized under the Student Due Process Code I.C. 20-8.1-5.1, as well as the student discipline handbook of this school corporation, at the request of a school official. Parent participation includes, but is not limited to, meetings, conferences, hearings, supervising home-study-time, and ensuring regular school attendance. Upon receipt of proper notice, any parent, guardian or custodian who refuses to comply with a

request from a school official to participate in the resolution of behavioral problems of a student whose conduct is repeatedly disruptive to the student's own educational progress or to the progress of others may be referred to the Child Protective Services Division of Public Welfare.

SEARCH AND SEIZURE

- As used in this section, "reasonable cause for a search" means circumstances which would cause a reasonable person to believe that the search of a particular person, place, or thing will lead to the discovery of:
 - Evidence of a violation of the student conduct standards contained in the Student Handbook.
 - Anything which because of its presence presents an immediate danger of physical harm or illness to any person.
- The building administrator, a member of the administrative staff, or a teacher may search a desk or any other storage area on school premises, including a locker, when the person conducting the search has reasonable cause for a search.
- The building administrator, or a member of the administrative staff designated by the building administrator and acting at the direction of the building administrator may, during a school activity, search the pockets of the student or any object in the possession of a student such as shoes, purse, briefcase, or backpack if the building administrator has reasonable cause for a search of that student. The building administrator may ask law enforcement to assist in the search process.
- The privilege of bringing a student-operated motor vehicle onto school premises is hereby conditioned to allow access to the motor vehicle as a part of a reasonable search. The building administrator or a member of the administrative staff designated by the building administrator may request a law enforcement officer to search a motor vehicle on school premises..
- Anything found in the course of a search conducted in accordance with this section which is evidence of a violation of the student conduct standards contained in the Student Handbook or by its presence presents an immediate danger or physical harm or illness to any person may be:
 - Seized and admitted as evidence in any suspension or expulsion proceeding.
 - Returned to the parent or guardian of the student from whom it is seized.
 - Destroyed if it has no significant value, or

Any search of a student's person as a result of the activation of the detector will be conducted in private and in accordance with the policy of personal searches.

SECURITY/SURVEILLANCE

FCCSC property and school buses are equipped with video surveillance devices. The resulting images may be used in disciplinary investigation. The images may also be used in prosecution. Please contact the school office with questions regarding video surveillance devices.

LOCKER POLICY

All lockers made available for student use on the school premises are the property of the School Corporation. These lockers are made available for student use in storing school supplies and personal items necessary for use at school, but the lockers are not to be used to store items which cause, or can reasonably be foreseen to cause, an interference with school purposes or an educational function, or which are forbidden by state law or school rules. The student's use of the locker does not dissolve the school corporation's ownership or control of the locker. The school corporation administration retains the right to inspect the locker and its contents to insure that the locker is being used in accordance with its intended purpose, and to eliminate fire or other hazards, maintain sanitary conditions, attempt to locate lost or stolen materials and to prevent use of the locker to store prohibited or dangerous materials such as weapons, illegal drugs or alcohol or as a part of any reasonable search.

LOCKER RULES

In order to implement the School Corporation's policy concerning student lockers, the Board of School Trustees adopts the following rules and regulations:

1. Locks: The School Corporation will retain access to student lockers by retaining a master key. Students may not use their own locks to prevent access to lockers by school officials and any unauthorized locks may be removed without notice and destroyed.
2. Use of Lockers: Lockers are to be only used to store school supplies and personal items necessary for use at school.
3. Students will be expected to keep their lockers in a clean and orderly manner.
4. Authority to Inspect: The school corporation Administration retains the right to inspect lockers to insure they are being maintained in accordance with the conditions in Rule 2. All inspections of student lockers shall be conducted by the building administrator or member of the administrative staff designated by the building administrator.
5. Inspection of Individual Student's Lockers
 - a. Before a particular student's locker is inspected, the student, if present on school premises, shall, whenever possible, be contacted and given the opportunity to be present during the conduct of the inspection unless circumstances require that the inspection be conducted without delay in order to protect the health and safety of others present on school premises. Whenever an individual student's locker has been inspected under this rule without the student's presence, the Building Administrator or his designee shall notify the student of such inspection as soon as practicable thereafter.

6. Inspection of all lockers:
 - a. An inspection of all lockers in the school or all lockers in a particular area of the school may be conducted if the Building Administrator, Superintendent of Schools, or Assistant Superintendent of Schools reasonably believes that such an inspection is necessary to prevent, impede, or substantially reduce the risk of:
 - i. an interference with school purposes or an educational function,
 - ii. a physical injury or illness to any person,
 - iii. damage to personal or school property, or
 - iv. a violation of state law or school rules.
 - b. Examples of circumstances justifying a general inspection of a number of lockers are:
 - i. When the school corporation receives a bomb threat;
 - ii. When evidence of student drug or alcohol use creates a reasonable belief of a high level of student use;
 - iii. At the end of a grading period, and before or during school holidays to check for missing library books, or laboratory chemicals or school equipment;
 - iv. Where student violence or threats of violence create a reasonable belief that weapons are stored in the lockers.
 - v. If a general inspection of a number of lockers is necessary, then all lockers in the defined inspection area will be examined. Students will not necessarily be given the opportunity to be present while a general inspection is being conducted.
7. Involvement of Law Enforcement Officials
 - a. The Building Administrator, Superintendent of Schools, or Assistant Superintendent may request the assistance of law enforcement officials to assist the school administrators in inspecting lockers or their contents for purposes of enforcing school policies if such assistance is required:

 - c. or if the locker of a student no longer enrolled in the school or if a locker of a student during any vacation period which is reasonably believed to contain rotting items such as food, wet clothing, etc.

PHYSICAL EDUCATION LOCKERS

Lockers are provided for the storage of clothing during P.E. classes. It is the student's responsibility to see that the lockers are properly taken care of and properly used. Items of value should not be kept in any P.E. locker. Lockers are loaned to students and remain the property of the school. Athletic locks are available from athletic sponsors. Please note that all other locker expectations and procedures apply to P.E. lockers.

EXPULSION PROCEDURES

When a Building Administrator (or designee) recommends to the student (or designee) that a student be expelled from school, the following procedures will be followed:

1. **A parent may request that** the Superintendent of Schools (or designee) conduct an expulsion meeting.
2. If no request to attend a hearing is given, the superintendent or the person designated may continue with the discipline outcome decision.
 - a. Failure by the student or a student's parent to request a hearing will be deemed a waiver of rights administratively to contest the expulsion.
3. At the expulsion meeting, the building administrator (or designee), will present evidence to support the charges against the student. The student or parent will have the opportunity to answer the charges against the student, and to present evidence to support the student's position.
4. Once an expulsion decision is made, the superintendent of schools shall notify the student and the parent of the action to be taken.

ALTERNATIVE SCHOOL ASSIGNMENT/IN-SCHOOL SUSPENSION

The Franklin County School personnel run an alternative school assignment/in-school suspension program. The purpose of the program is to provide an alternative to out-of-school suspension. Students assigned to in-school suspension shall come to school as usual on the day(s) they are assigned except they shall immediately report to the main office or designated room with all classroom materials. During an ASA/ISS, students are to do school work assigned to them by their classroom teacher or work related to schoolwork. Talking, sleeping, or other disruptions are not permitted. Students who fail to attend, violate in-school regulations, or fail to cooperate with the supervisor shall be suspended out of school. Students who do not come to school on a day they are assigned the ASA/ISS may not return to regular class until they serve their day(s) in ASA/ISS. Credit is to be given for work that is assigned for days of ASA/ISS if it is completed during the time. **Any student who is serving ASA/ISS will be prohibited from participating in or attending any extracurricular events beginning day 1 of the consequence.**

SUSPENSION PROCEDURES

When a Building Administrator (or designee) determines that a student shall be suspended, the following procedures will be followed:

1. A meeting will be held prior to the suspension of any student. At this meeting the student will be entitled to a written or oral statement of the charges. If the student denies the charges, a summary of the evidence against the student will be presented and the student will be provided an opportunity to explain his or her conduct.
 - a. The meeting shall precede suspension of the student except where the nature of the misconduct requires immediate removal. In such situations, the meeting will follow the suspension as soon as reasonably possible following the date of the suspension.
2. Following the decision to suspend, the parents or guardians of suspended students will be notified in writing. The notification will include the dates of the suspension, describe the student's misconduct, and the action taken by the building administrator.
3. For any assignments and/or school work completed by the student during the student's suspension period, credit will be given to the student to the same extent and in the same manner as students who are not suspended receive.

OUT-OF-SCHOOL SUSPENSION: (OSS)

Out-of-school suspension occurs when a student is denied the privilege of attending school. OSS could range from one day to ten days depending on circumstances. **Any student who is serving OSS will be prohibited from participating in or attending any extracurricular events beginning the first day of suspension**

DRIVER'S PERMIT/LICENSE AND SUSPENSION/EXPULSION

ATHLETICS / EXTRACURRICULAR ACTIVITIES

To be eligible to enjoy this privilege, students participating in FCMS athletic programs shall adhere to the athletic code of conduct rules and regulations. Students on academic or social probation are not permitted to practice, play, or attend games.

A variety of after-hour school activities are held for students at FCCSC. Extra-curricular activities help to broaden the students' experiences. Participation in extracurricular and athletic teams are a privilege. Participation is encouraged for all students. Sports participation develops student skills in teamwork and goal setting, and also assists in physical development and personal discipline. The spirit of competition and sportsmanship add immeasurably to the personal development of student athletes. Students may also be involved in athletics by becoming a manager or trainer for any of the above teams.

If a student's activity/practice is not immediately after school, then the student shall leave the building with bus riders or walkers and return for the activity/practice.

To participate or attend a school-related activity the student shall have been in attendance at least four bells the day of the event, unless prior arrangements with school administration have been made. **Students who have been assigned ISS, OSS may not attend any extracurricular events on the assigned dates.**

Failure to follow school rules or specific instructions may result in a student being asked to leave, possibly losing the privilege to attend future events and/or additional school consequences.

EXTRACURRICULAR EXPECTATIONS

Students are encouraged to:

- Respect school property and the authority of school officials.
- Cheer an injured player who has to be removed from the contest.
- Show self-control during and after every game.

TEAM CUTS

It is the intention of FCCSC for all students who wish to participate in a sport to have the opportunity to do so. However, the nature of some sports limits the number of students who may effectively participate. When it is necessary for a coach to make a cut in the number of participants in a sport, he or she will inform the affected players personally. A student cut from a team may try out for another sport.

RANDOM DRUG TESTING FOR HIGH SCHOOL OR MIDDLE SCHOOL STUDENTS THAT PARTICIPATE IN FCCSC ACTIVITIES

INTRODUCTION

The effective date of this program is June 2017. This program does not affect the current policies, practices, or rights of Franklin County Schools with drug and/or alcohol possession or use, where reasonable suspicion is obtained by means other than drug testing through this policy. The Franklin County School Corporation reserves the right to test any student's breath, saliva, hair, or urine if the administration has reasonable suspicion that the student is using or is under the influence of alcohol or an illegal substance.

REASONABLE CONCERN

The Franklin County School Corporation has a strong commitment to the health, safety and welfare of its students. Results of studies throughout the United States and an increased substance abuse problem in Franklin County indicate that education alone, as a preventive measure, is not effective in combating substance abuse. According to a student survey, 65% of the students enrolled in Franklin County High School believe that there should be a random drug testing program. Our commitment to maintaining a safe and secure educational environment requires a clear policy and supportive programs relating to detection, treatment, and prevention of substance abuse by students involved in all school activities.

PURPOSE

The random drug testing program is not intended to be disciplinary or punitive in nature. Students who drive to school or are involved in extracurricular/co-curricular activities and athletics need to be exemplary in the eyes of the community and other students. It is the purpose of this program to deter the use of illegal substances, enhance the health and safety of all students, and to undermine the effects of peer pressure by providing a legitimate reason for students to refuse the use of illegal substances. No student shall be expelled or suspended from school as a result of any verified "positive" test conducted by his/her school under this program other than stated herein.

SCOPE

Participation in athletics, extracurricular and co-curricular activities, as well as driving to and from school is a privilege. This policy applies to all Franklin County Community School Corporation students in grades 7-12 who wish to participate in athletics, extracurricular, and co-curricular activities that are listed in the current student handbook *and any other school sponsored activities not listed, including prom and school dances*. It also includes any student who wishes to drive to school, from school, or during school. Any student not driving or participating in any activity who would like to consent to the random drug testing program, or any custodial parent/guardian wishing to enroll his/her student in the program is welcome to do so by signing the consent form and returning it to the principal or designee.

LEGAL OBLIGATION

Indiana Code 20-10.1-4-9.2 directs school districts to plan and maintain drug free schools.

DRUG EDUCATION

The sponsor or coach of each activity will require the attendance of all prospective participants at one or more drug education session(s). Each prospective participant shall receive a copy of this policy. The policy will be explained to the participant at that time. An educational presentation will also be made to educate the student about the harmful effects and consequences of alcohol and other drug abuse. Students will receive information as to where they can seek professional help, if needed, for a use or abuse problem.

RANDOM DRUG TESTING CONSENT FORM

It is MANDATORY that each student who participates in athletics, extracurricular, and co-curricular activities, as well as those who drive to and from school, sign and return the consent form prior to participation in any of these activities. The consent form must also be signed by a parent/guardian. Failure to comply will result in non-participation.

By signing the consent form, the student is agreeing to participate in the random drug testing program in the Franklin County Community School Corporation.

TESTING PROCEDURE

1. Each student will be assigned an ID number. The ID numbers will be supplied to the laboratory that will in turn use a computer program to randomly select the students to be tested. Testing may occur Monday through Friday during school hours. Testing may also occur during the months of June and July. This variable schedule will keep students conscious of the possibility of being tested at any time.
2. **No student will be given advance notice or early warning of the testing.** In addition, a strict chain of custody will be enforced to eliminate invalid tests or outside influences.
3. Upon being selected for a random drug test under this policy, either by random draw, request of a parent/guardian, or a "follow-up test, a student will be required to provide a sample of "fresh" urine according to the quality control standards and policy of the laboratory conducting the urinalysis.
4. All students will remain under school supervision until they have produced an adequate urine specimen. If unable to produce a specimen, the student will be given up to 24 ounces of fluid. If still unable to produce a specimen within two hours, the student will be taken to the nurse's office to participate in a hair or saliva administration. If the student does not participate in any of these administrations, he/she is no longer eligible for any activity in which he/she participates. In addition, the parents/guardian will be telephoned and informed that the student is unable to produce a sample for the testing procedure and that he/she may be tested at a later date to be reinstated for eligibility. **The failure or refusal to participate in the random drug test will be treated as a positive test result.**
5. All specimens registering below 90.5 degrees or above 98.8 degrees Fahrenheit will be invalid. There is a heat strip on each of the specimen bottles indicating the validity of the urine specimen by temperature. If this occurs, the student must give another specimen.
6. If it is proven that tampering or cheating has occurred during the collection, the student will become ineligible for all athletics, extracurricular, and co-curricular activities, and all driving privileges will be revoked for the remainder of the school year. This will be reported to the parent/guardian.
7. Immediately after the specimen is taken, the student will return to class with a pass signed by the principal or designee.
8. The specimens will then be turned over to the testing laboratory, and each specimen will be tested for alcohol, nicotine, and all

illegal substances.

9. The laboratory selected must follow the standards set by the Department of Health and Human Services. It must be certified under the auspices of the Clinical Laboratory Improvement Act (CLIA) and the Joint Commission Accreditation of Healthcare Organizations (JCAHO).

CHAIN OF CUSTODY

1. The certified laboratory will provide training and direction to those who supervise the testing program, set-up the collection environment, and guarantee specimens and supervise the chain-of-custody. To maintain anonymity, the student's number, not name, will be used.
2. The principal/administrative designee will be responsible for escorting students to the collection site. The student should bring all materials with him/her to the collection site and should not be allowed to go to his/her locker. (The administrator should not bring all the students drawn from the pool to the collection simultaneously. Calling four or five students at a time allows the collections to be carried out quickly and will not cause students to wait a long time which would create a loss of important time from class. Extracurricular participants may be called after school, perhaps during practice time.
3. Before the student's urine sample is tested by the laboratory, the student will agree to fill out, sign, and date any form which may be required by the testing laboratory. If a student chooses, he/she may notify the administrator that he/she is taking a prescription medication.
4. A sanitized kit containing a specimen bottle will be given to each student. The bottle will remain in the student's possession until a seal is placed upon the bottle. The student will sign that the specimen has been sealed. *The seal may be broken only by the lab testing the specimen.*
5. If the seal is tampered with or broken, after leaving the student's possession and prior to arriving at the lab, the specimen is invalid. The student will be called again to test as soon as possible. The student will remain eligible for all activities subsequent to a retest.
6. The supervisor obtaining the urine specimen will be of the same gender as the student. Students will be instructed to remove all coats and wash their hands in the presence of the supervisor prior to entering the restroom. The door will be closed so that the student is by himself/herself in the restroom to provide a urine specimen. The supervisor will wait outside the restroom. The student will have two minutes to produce a urine specimen. The commode will contain a blue dye so the water cannot be used to dilute the sample. The faucets in the restrooms will be shut off.
7. After the specimen has been sealed, it will be transported to the testing laboratory by lab personnel. The testing laboratory will report the results back to the principal/administrative designee.
8. In order to maintain confidentiality, the container which contains the urine specimen to be tested will not have the name of the student on the container. Instead, the student's random identification number will appear on the container. Also, the results sheet for the urinalysis will be mailed back to the principal/administrative designee with no name attached; only the students' random identification number will appear on the results sheet.

TEST RESULTS

This program seeks to provide needed help for students who have a verified "positive" test. The students' health, welfare, and safety will be the reason for preventing students from participation in athletics, extracurricular, and co-curricular activities and driving to and from school. A student who drives or is involved in athletics, extracurricular, and co-curricular activities will be subject to the disciplinary consequences outlined in the Student Code of Conduct policy located in the student handbook. Consequences may carry over to the following school year.

1. The principal/administrative designee will be notified of a student testing positive. The principal/administrative designee will notify the student and his/her parent/guardian. The student or his/her parent/guardian may submit any documented prescription, explanation, or information which may be considered in determining whether a "positive" test has been satisfactorily explained. In addition, the student or parent/guardian may appeal by requesting that the urine specimen be tested again by the certified laboratory at a cost to the student or his/her parent/guardian.
2. If the test is verified "positive," the principal/administrative designee will meet with the student and his/her parent/guardian. The student and parent/guardian will be given the names of counseling and assistance agencies that the family may want to contact for help. *A follow-up test will be requested by the principal/administrative designee after such an interval of time that the substance previously found would normally have been eliminated from the body. **Follow-up test is at the expense of the student.** If this "follow-up" test is negative, the student will be allowed to resume all activities when the suspension outlined in the Student Code of Conduct has been fulfilled.* If a second "positive" result is obtained from the "follow-up" test or any later test of that participant, *the student will not be allowed to participate in any activities for one calendar year.* In addition, the Franklin County Community School Corporation reserves the right to test for the next 365 days. Any test will be at the expense of the student.
3. Information on a verified "positive" test result will be shared on a "need to know" basis with the student's coach, teacher, and/or sponsor. The results of a "negative" test will be kept confidential to protect the identity of all students being tested. Confidentiality will always be a top priority. All school employees are bound by the confidentiality policies adopted by the Franklin County School Board of Trustees and will be expected to adhere to these policies at all times.
4. Result sheets will be returned to the principal/administrative designee identifying students by number and not by name. Names of students tested will not be kept in open files or on any computer. Results will be secured in a location to which only the principal/designee will have access. Positive test results will not be part of a student's permanent file.

FINANCIAL RESPONSIBILITY

1. Under this policy, no student shall be expelled or suspended from school as a result of any verified “positive” test conducted by his/her school under this program. (Once a student has a verified “positive” test result and has subsequently tested negative from a “follow-up” test, any future “follow-up” drug test that must be conducted will be paid for by the student or his/her parent/guardian).
2. A request on appeal for another test of a “positive” urine specimen is the financial responsibility of the student or his/her parent/guardian.
3. Counseling and subsequent treatment by non-school agencies is the financial responsibility of the student or his/her parent/guardian.

CONFIDENTIALITY

Under this drug testing program, any teacher, coach or sponsor of the Franklin County School Corporation who may have knowledge of the results of a drug test will not divulge to anyone the results of the test or the disposition of the student involved, other than in the case of a legal subpoena being made upon that person in the course of a legal investigation. Once again, this will underscore the Franklin County Community School Corporation’s commitment to confidentiality with regards to the program.

IMPORTANT NOTE

Coaches, sponsors, and/or teachers of each sport/activity may set additional rules and requirements for eligibility in their respective activity. Coaches/sponsors and/or teachers have the necessary authority to enforce those rules. Any student who violates a rule or requirement as a member of a team or activity will be subject to the consequences as defined in those rules and requirements. All such rules shall be presented to prospective students prior to the activity and/or season. Students unable to abide by these rules and requirements will not be allowed to participate in the activity.

STUDENT ACTIVITIES

ASSEMBLIES

These programs are designed to give students an opportunity to enjoy additional educational experience outside the classroom. Assemblies are held during the school day and are considered a part of the total school program. Unless specified, all students will attend all assemblies. Any student who is removed from an assembly for inappropriate behavior may be prohibited from attending future assemblies and may receive additional school consequences.

FIELD TRIPS

Transportation is arranged through the corporation for all field trips. Occasionally special consideration will be given for other transportation arrangements. Consideration will be given only for adult transportation that involves the permission of the parent and the permission of the sponsor, coach and administration. Students participating in field trips shall have the appropriate field trip permission slip on file with an administrator at least one (1) day prior to leaving for the field trip. Regular school rules apply on all field trips.

Students who engage in acts of misconduct during field trips face consequences that range from detention to expulsion and the loss of the privilege to participate in further field trips. In cases when money is collected for field trips, expenses for transportation and similar expenses will be deducted prior to any refunds. Students who have excessive absences from a class or classes without extenuating circumstances may remain at school during field trips. They are to attend their regularly scheduled classes.

OVERNIGHT FIELD TRIPS

Students who do not demonstrate behavioral success, and are on social probation at the time of the activity, will not be eligible to participate in overnight field trips. Students who have committed level 3, 4, or 5 discipline infractions may not be eligible to participate in any overnight field trips. Questions about possible refunds will be handled through the travel company.

EXTRA-CURRICULAR TRANSPORTATION

If a student rides a bus to an extracurricular activity, he/she shall return on the bus unless excused by the Building Administrator/Designee, Athletic Director, Coach, or Sponsor, and is signed out by a parent.

CURRICULUM AND ASSESSMENT

LITERACY STATEMENT

In 2015 the Indiana General Assembly passed House Enrolled Act (HEA) 1108. This law put in place an official definition for dyslexia in Indiana.

House Enrolled Act 1108 defines dyslexia as: A specific learning disability that: (1) is neurological in origin and characterized by: difficulties with accurate or fluent word recognition and poor spelling and decoding abilities; (2) typically results from a deficit in the phonological component of language that is often unexpected in relation to other cognitive abilities and the provision of effective classroom instruction; (3) may include problems in reading comprehension and reduced reading experience that can impede the growth of vocabulary and background knowledge; and (4) may require the provision of special education services after an eligibility determination is made in accordance with Article 7.

Senate Act 217 requires all students in grades K-2 to be screened for dyslexia. Early identification of students at risk for dyslexia is critical for the development of early and appropriate interventions to support the student before they begin to fall behind their peers.

RETENTION POLICY

Consideration for retention of students in the same grade level shall be determined by the following principles:

- IREAD Assessment (see below)
- Any student who receives a final failing grade in both Math and English
- Any student who receives a failing grade in English or Math and also an additional two (2) final failing grades.
- Excessive unexcused absences.

The consideration for retention is always in partnership with the parent or guardian with a focus on the needs of the individual student or Indiana Statute (IREAD). Students may be assigned to the next grade level based on a team decision.

IREAD

In the 3rd grade, promotion decisions will be based on a student's ability to reach mastery on IREAD-3. If the student does not pass in their first attempt on the IREAD-3 exam, successful completion of a second attempt during locally offered options will result in the student being promoted to the next grade. Students who do not pass on their second attempt will be retained. The rule provides three good cause exemptions for retention. Those include one for special education students, one for English Learners, and one for students that have been retained twice prior to fourth grade.

Third graders who do not pass IREAD, after two failed attempts, must attend summer school. Successful completion of summer school could allow for the student to be placed in fourth grade with an individualized reading plan. Significant growth in test scores must be indicated for this to be a possible option. Students who decrease in scores or maintain scores will be retained.

Senate Bill 1 requires all second graders to take IREAD. Those second graders that pass will not have to take IREAD in third grade. Summer school will be required for "at risk" second graders. Students are required to take IREAD until passage or entering the seventh grade.

FINANCIAL INFORMATION

The Franklin County Community School Corporation Board of Trustees understands that it is required to collect all monies owed to it by patrons, employees, parents and students, including money owed for technology repairs and other extracurricular accounts. Every effort shall be made by the school administration to collect the monies owed to the school corporation including debt procedures. Such efforts must be documented by school administration before the debt is forgiven, waived, or written off the school corporation accounts and considered an uncollectible account.

Parents are advised of the following payment requirements by notice in the Student Handbook:

- Payment of extracurricular charges are due at the time of purchase/registration or incident.
- Letters will be sent with negative balances to notify patrons, employees, parents and students.
- A payment plan contract is also available through each school's treasurer.
- Those extracurricular/repair fees not paid by the end of season or school year shall be submitted to a collection agency.

The school corporation may forgive, waive, or write-off all or a portion of the debt if one of the following conditions is met:

- The school administration determines that the student or the parent or guardian of the student is unable to pay the debt;
- The payment of the debt could impact the health or safety of the student;
- The cost to pursue and collect the debt from the student and his/her parents would cost more than the potential total debt collected; or
- There are mitigating circumstances as determined by the superintendent that preclude the collection of the debt.

Every decision to forgive, waive, or write-off a debt must be documented and include the facts for the decision relating to one of the above stated reasons.

The superintendent may develop regulations addressing specific situations relating to the above conditions.

In the cases where a positive balance exists in the accounts, every effort must be made by the school administration to return the positive balance to the account holder when the person is no longer in the school corporation. If attempts made to refund the balance have been unsuccessful, the balance should be transferred to the corresponding school fund or if such transfer is appropriate, to the school corporation general fund.

TRANSPORTATION

TRANSPORTATION ELIGIBILITY

School bus transportation is a privilege extended to those students who reside within the geographical area of the Franklin County Community School Corporation. This privilege includes riding from home/daycare to school and from school to home/daycare on a school bus, provided the student maintains proper behavior. Students should understand and appreciate the important part he/she plays in accomplishing SAFE and EFFICIENT transportation for everyone.

The ride on a school bus is simply an extension of the school day, and as such, all school rules apply. Language and behavior that is not acceptable in the school setting is also not tolerated on the school bus. School bus rules include:

5. Don't try to talk to the driver or get his/her attention while the bus is moving unless it is an emergency.

Frequency or severity of the violation will be considered in the disciplinary action. When circumstances warrant, law enforcement may be contacted.

ANIMALS

Animals of any kind are prohibited from riding a school bus, except for service animals as may be required by law.

BUS STOPS

Students shall be waiting at the designated stop five minutes prior to their scheduled pickup time. Students shall stand at least fifteen (15) feet from the location where the school bus stops for pick-up and move toward the bus only AFTER THE BUS HAS COME TO A COMPLETE STOP.

School bus drivers are responsible to motion the students crossing the road by hand/arm signal indicating that it is safe to cross the road. At a stop where there are both crossers and non-crossers, the crossing students shall enter/exit the bus first and the driver shall motion these students across. The non-crossing students shall then be allowed to enter/exit the bus.

BUS CHANGES

All students must adhere to a regular schedule of where they are to be picked up and dropped off. Frequent changes cause delays and anxiety for students, drivers, staff, and other parents, and will not be tolerated. If you need your child to do something different than their regular schedule, a parent/guardian must call the transportation department. Phone calls for bus changes will **ONLY** be accepted in urgent/emergency situations, and must be received at least one hour prior to dismissal. Transportation is not provided to and from work, dance class, etc. Transportation is not permitted for birthday parties, sleepovers, etc.

BUS SCHEDULE

Parents/guardians wishing school bus transportation for their child(ren) shall submit a request in EZ Routing with a set schedule for school bus transportation.

A child whose parent continually fails to submit a schedule or alters or fails to follow the submitted schedule may be denied bus privileges.

Students riding the bus to/from a town stop shall ride the bus to which they are assigned. Balancing school bus loads is important and bus hopping will not be tolerated.

DRIVER-PARENT COMMUNICATION

School bus drivers are encouraged to maintain open communication with the parents/guardians of the students they are transporting. Parents and school bus drivers are expected to treat each other in a civil, polite manner. Any time disagreements between parents and the bus driver cannot be resolved between themselves, the Building Administrator(s) of the student(s) involved shall be contacted to intercede. Parents are not to board a school bus to confront a school bus driver. Such boarding will be considered trespassing and law enforcement will be notified.

MEDICATIONS ON SCHOOL BUSES

Prescription and over-the-counter medications are NOT permitted on school buses only when authorized by parents in writing and the Building Administrator/designee.

MEETING THE BUS ALONG THE ROUTE PROHIBITED

Parents shall not drive a student to another location to “catch” the bus. Students whose parents attempt to do so will not be permitted to board the bus. Parents also may not intercept the school bus along the route to have their child taken off the bus. Students and parents are prohibited from meeting the buses at designated transfer sites to board or leave the school bus. In case of an emergency where the parent must retrieve a child from the bus, the parent must contact the transportation office so that school personnel can make arrangements with the school bus driver. In the event that a weather or road hazard emergency prevents a school bus driver from picking up or delivering a child from home, such an alternate arrangement may become necessary. In such an event, the transportation office shall be notified of any special arrangements made.

MISSING THE SCHOOL BUS TO GO HOME

Parents need to have a contingency plan in the event their child misses the school bus home. Once the school buses have been dismissed in the afternoon they will not wait on or return/turn around to pick up a student who was not outside on time, no exceptions. Students may use the phone in the front office with permission.

PRIVATE ROADS AND LANES

At no time shall a school bus enter a private lane or road to load or unload students unless it is a turnaround point, or if doing so is authorized by the Superintendent/designee.

STUDENTS LIVING ON IMPASSABLE ROADS

The parents of any student living one-half mile or more from the bus route on a public road that is impassable by bus are eligible for consideration for payment for private transportation to a bus route, two trips a day at the mileage rate currently specified in the Corporation Administrative Handbook.

Students living one-half mile or less on a road that is off a public road are expected to meet the bus at the intersection of such a public road.

TRANSPORTING ILL, INJURED OR INFECTED STUDENTS

A student with a contagious disease or condition shall be isolated from other students until transportation can be arranged. These students shall not be transported on the school bus. It shall be the responsibility of the Building Principal to arrange or provide appropriate transportation for all ill, injured, or infected students.

BUS TRANSPORTATION TO VOCATIONAL SCHOOL

Franklin County Community School Corporation provides transportation to students who attend the Whitewater Technical Career Center and all students are expected to ride the bus provided. All normal bus rules are in effect. In addition, Career Center students shall adhere to the schedule distributed at the beginning of the school year. Any student who misses the vocational bus either in the morning or the afternoon shall be sent to the media center. Any student who skips going to vocational school will result in an in-school suspension being assigned after the second occurrence.

RETURNING FROM WHITEWATER TECHNICAL CAREER CENTER

Students who return to school after attending vocational school will go to their scheduled class. Permission may be given by the administration to go to lockers if necessary.

VIDEO RECORDINGS ON SCHOOL BUSES
