Newsletter

The Week of February 23rd, 2026

Upcoming Dates

- 3/2-3/6 - Read Across America Week ☺
- 3/9 - Late Start Monday
- 3/20 - Silverwood reading logs are due
- 3/26 - Last day of the quarter
- 3/25 & 3/26 - Conferences (more information in folders next week)
- 3/27 - No School; Teachers in Service
- 3/30-4/3 - Spring Break

A Note To You

Hello Families,
Take a look at the fun activities we have planned for Read Across America Week! Details are in today's folders. Keep an eye out for parent-teacher conference sign-up sheets. Those will come in folders next week. Continue to help your kiddo track their reading on their Silverwood reading logs to earn a Silverwood reading ticket.
Have a great week!
Mrs. Summerfield

Practice at Home

- ❖ Our spelling patterns all follow a rule. To find out more about those rules, take a look at the UFLI spelling sheet that I send home each week. If you ever have any questions, please reach out to me!
- ❖ Practice solving real world math problems! Who in your household is taller? By how much? How many more dollars do I need to pay for this item? Etc.

This Week's Agenda

Spelling: Ending words with -ible or -able

When words end with these patterns, they often sound the same.

Determining when to use each spelling pattern can be tricky if we don't know the rule behind each pattern.

-able is a suffix. It is added to base words such as 'manage'.

Manage + able = manageable fix + able = fixable

-ible is not a suffix and is just part of the word. Examples include 'possible' and 'divisible'.

Reading: We are continuing to learn about pollination, including how plants get pollinated. This week we are working in groups to research and write about a specific pollinator.

Math: We are finished learning about measurement. We will be spending this week strengthening our addition and subtraction skills on a number line.

Science: We will continue to learn about how substances can change when they are heated or when other substances are added to them. This will help in our investigation to find out what ingredients might be best to make glue.
