

# Beecher 200U

**Happy Friday!**

## Important Updates

Some big things are happening at 200U. Here is a list of important items:

1. The footbridge between Fireman's Park and Beecher Elementary School is getting replaced between March 13 and March 24. Please travel to Miller or Penfield during that time if walking to school from the West.
2. The culvert (bridge) construction starts on March 24. At that time, the bus traffic will travel from Rt. 1 down Penfield. The elementary will not be accessible from the West during that portion of construction.
3. During the bridge project, all families dropping off students will need to turn East/left out of the elementary drive.
4. The high school gyms are looking good. The Den has already started to get paint and should start seeing sealer over the next week. The old gym is getting sanded and almost ready for paint. Normal PE class activities should be up and running when students return from Spring Break.

Beecher Elementary had two successful movie nights this week. Great job by our Elementary Student Council!

*Good News at 200U!!!*

- Beecher has a new Bobcat, Sloan Ruby Kwasny. We could not be happier for mom!

-Congratulations on the great seasons by our 7<sup>th</sup> and 8<sup>th</sup> grade girls volleyball teams, girls and boys basketball teams of all levels, and cheerleading team. You made 200U proud.
