

PUBLIC INFORMATION PROGRAM

The School Board will do its best to keep the people informed of the affairs of the District. To achieve its goals for positive school community relations and maintenance of reciprocal communication with the public, the Board authorizes the Superintendent or his/her designee to:

- Prepare or guide the preparation of informational materials including annual report, newsletters, newspaper releases, special pamphlets and other assigned material and to maintain a relationship with the media and public organizations.
- Organize or assist in development of speaking engagements with civic organizations, PTSA, and other groups.
- Provide staff members with assistance for preparation of material for community and staff distribution.
- Assist in coordinating work with civic and other groups which support the school system values.

The Board expects that "affairs of the district" will include, but not be limited to, school performance, student progress, personalized learning strategies, and academic opportunities.
