

KTDB Radio Story Telling: 2021

1. KTDB will continue to provide vital information to the majority of Navajo community; try to meet the needs of minority with other diverse audiences in a very remote area of Indian country.
2. Being that KTDB is an educational radio station, KTDB works with Contract and Public school, local government, business, health department and other necessary agencies.
3. KTDB is the only communication system in place in this remote area, people calling to know more about COVID-19 virus; as to how they should deal with the virus. One person called and said the station saved her life, if she did not hear about how the virus is dangerous to her health, she would have not gone to the hospital to save her life; all because the radio was talking about the COVID-19 encouraging people to get shots. Listeners are relying on KTDB to disseminate about COVID-19 and many other important information.
4. KTDB brought in community leaders to talk about COVID-19 and how it effects the mind, body and overall health, this type of issues will continue throughout the year. More programs are done in the Navajo language. Broadcast in Navajo language and English.
5. Broadcasting daily, getting people involve to combating the virus that is in every community of this world. Thank you Government and CPB.
