Notes:

Pitts & Sons, Inc. states on variance sheet:

FUEL SURCHARGE: a fuel surcharge will be added to the invoice based on the diesel fuel average that is updated each week using the U.S. Energy Information Administration's website at eia.gov/petroluem/gasdiesel. If the average falls below \$3.50 per gallon then the fuel surcharge will be omitted from the invoice. The fuel surcharge percentage will be calculated by comparing the Nat'l Avg column to the % Range column on the attached Fuel Index.
