New Business-Tammy Amerson-Wilson, Wesley Nurse, discussed the grant that she is working on to fund a clothing closet for Ingram ISD. The amount will be \$5,000, and will be placed into an Activity Fund by the district, and any amount remaining at the end of the school year will be rolled over to the next year. The goal is to have something in place for the 26-27 school year, and the SHAC will be working on identifying how best to meet the clothing needs of our students. Any recommendations will be shared with the School Board and Administration before being put into action.

The SHAC then completed the annual Self-Assessment Tool which is meant to be a resource for the committee and assists with ensuring that objectives are met, how they will be accomplished and if those objectives are meeting their target dates. Regarding the organization of the SHAC, members answered yes to all questions. This section focuses on understanding of roles and responsibilities, clearly defined structure of the committee, meeting as required each year, and ensures that membership is reflective of the community population (students, staff, administrators, faith organizations, parents, economic groups). The members then addressed the second section of the assessment, which covers goals and activities, and answered yes to all questions. The third section covers members' knowledge and awareness regarding any updates on school health programs, school board and administration support of school health, values and attitudes of the community, member awareness of current local and state legislative mandates and state and national developments in school health. Again, members answered yes to all questions in this section. The final part of the assessment asked about support for the SHAC from the school board, administration and community. The SHAC also answered yes to the questions in this section, and the assessment was then completed.

The meeting dates for the 2026-2027 school year were then set by the SHAC. They will be held in the cafeteria on the secondary campus at 4:15 pm, and will be on the following dates: October 6, 2026, December 1, 2026, February 2, 2027 and May 4, 2027.

There was no further business to discuss and the meeting was adjourned.
