

## **WAO Construction Update**

### **August 2025**

We have been told by our contractors that they expect things to be ready for the start of school on Sept 2nd. That being said, we expect there will be areas of the high school and the new addition that will still need some finishing and/or repair after we are back in school.

The new addition gym floor was installed and kitchen equipment arrived last week. The commons area in the new addition and the HS library are getting very close to completed. Out front, they are moving dirt and seeding grass. Sidewalks and curbs are going in and it's starting to take shape on the north side. Brickwork is almost finished outside and our crew is finally able to start moving furniture back into classrooms.

The newly refurbished track & field grounds look great. Big thanks to the WAO Booster Club for their generous contribution! With school starting right around the corner, there is definitely a sense of urgency the last 2-3 weeks and steady progress is being made everyday!

New addition commons area

Progress on the north side

Progress on the south side
