The purpose of the Report Card rating details report is to describe the rating methodology and display the data used by the school accountability system to determine the overall school rating (i.e., overall level) that is shown on each school's Report Card. For more details on the school report cards, please visit the following link:
<http://www.oregon.gov/ode/schools-and-districts/reportcards/reportcards>.

The Oregon Department of Education (ODE) will not assign overall ratings to schools on the 2016-17 Report Card Rating Details report given the expiration of Oregon's ESEA flexibility waiver on August 1, 2016 and the transition to the Every Student Succeeds Act (ESSA) in 2017-18. However, the ODE will report ratings by indicator (e.g., academic achievement, academic growth, etc.) as well as student group for each school.

Levels are calculated using the percentage of points earned out of the total points eligible. For schools with data on all indicators, the total points possible are:

- 20 for Academic Achievement
- 30 for Academic Growth
- 15 for Student Group Growth
- 25 for Graduation
- 10 for Student Group Graduation

The total score is matched to the scoring guide above to determine the school rating.

The Academic Achievement indicator reflects the percent of all students that meet or exceed standards on the state English language arts and mathematics assessments at all tested grades in the school. Both English language arts and mathematics have an annual measurable target, and each student group will meet the target if the value for "% of students at Level 3 or Level 4" is greater than or equal to the target.

The Academic Growth indicator uses the Colorado Growth Model to measure student growth in English language arts and mathematics as compared to academic peers (i.e., students throughout the state who have a similar English language arts or mathematics test score history).

Oregon adopted this growth model as part of the process of obtaining a waiver from some of the requirements of the No Child Left Behind Act (NCLB). This growth model provides a more complete picture of student performance and will help provide a better evaluation of school effectiveness.

The growth model examines a student's current performance as compared to that of his/her academic peers with a similar test score history, and expresses it as a percentile (i.e., a ranking from 1 to 99 where 99 is the highest). For example, a growth percentile of 50 in English language arts would indicate that a student had typical or average growth compared to all other students in the state with similar prior test scores. A growth percentile of 80 would indicate that a student's growth was as high or higher than 80 percent of his/her academic peers.

The school accountability system uses the median growth percentile for both English language arts and mathematics to represent the "typical" growth at the school. For example, a median growth percentile of 65 in mathematics would indicate that the typical student in this school exhibited growth in mathematics as high or higher than 65 percent of his/her academic peers. As shown below, this median growth percentile is the basis for the Academic Growth ratings for English language arts and mathematics.

Growth Level Cutoffs	
Level	Median Growth Percentile

Level 4	50 to 64.5
Level 3	40 to 49.5

The Student Group Growth indicator measures the growth of historically underserved student groups. It disaggregates the Academic Growth indicator and reflects the growth for economically disadvantaged, English learners, students with disabilities, and historically underserved races/ethnicities. The school accountability system uses the median growth percentile for both English language arts and mathematics to represent the "typical" growth for each student group.

Level 5	65 & above
Level 4	50 to 64.5
Level 3	40 to 49.5
Level 2	35 to 39.5
Level 1	Less than 35

To receive a Student Group Growth indicator rating, a student group must meet the minimum size requirement for the Academic Achievement indicator rating (i.e., 40 tests in the last two years combined) and at least 30 students with growth percentiles.

The Graduation indicator uses four- and/or five-year cohort graduation rates. These rates follow incoming high school students for four or five years to determine the percent of students who graduate with a regular diploma in that timeframe. A school year's cohort consists of students who first enrolled in high school in that school year. Students are added to a school's cohort when they transfer into the school, and are removed from a school's cohort if they transfer to another high school. Students that drop out or otherwise leave a school without transferring to another diploma-granting school remain members of the cohort in which they were last enrolled.

Graduation Level Cutoffs		
Level	Four-Year Rate	Five-Year Rate
Level 5	90.0 & above	93.0 & above
Level 4	76.0 to 89.9	78.0 to 92.9
Level 3	67.0 to 75.9	67.0 to 77.9
Level 2	60.0 to 66.9	60.0 to 66.9
Level 1	Less than 60.0	Less than 60.0

To receive a Graduation indicator rating, a school must have at least 40 students in the combined cohort. The following provides a description of the rating levels:

- Level 5: the school had a graduation rate that was in the top ten percent of all high schools in the state.
- Level 4: the school had a graduation rate that was above average, but not in the top ten percent.
- Level 3: the school met the state minimum target, but still had a graduation rate that was below average.
- Level 2: the school met the federal minimum target, but not the state minimum target.
- Level 1: the school did not meet the federal minimum target. Schools that are Level 1 for both their four-year and five-year rates can have an overall rating no higher than Level 2.

The rating for the Graduation indicator is the higher of the school's levels between the four-year and five-year rates.

Four-Year Cohort ¹	Level	2011-12 Cohort		2012-13 Cohort		Combined Rate	Applied Rate ²
		Adjusted Cohort	% Grad	Adjusted Cohort	% Grad		
All Students	Level 3	63	71.4	57	70.2	70.8	Combined

		Adjusted Cohort	% Grad	Adjusted Cohort	% Grad		
All Students	Level 4	68	76.5	63	79.4	77.9	Current

1. Cohort year is the school year in which the students enrolled in high school for the first time.
2. The Applied Rate is the graduation rate used to determine the level. It is the higher of the combined rate and the most recent rate.

Data notes:

Not Rated Refers to a student group that did not meet minimum size requirement in order to receive a rating.

The terms "Prior Cohorts" and "Current Cohorts" apply to small schools that require four years of graduation data to receive ratings.

> Prior Cohorts include student data from the first two years of a given four year cycle (e.g., 2009-10 and 2010-11 cohorts).

> Current Cohorts include student data from the last two years of a given four year cycle (e.g., 2011-12 and 2012-13 cohorts).

Beginning with the 2009-10 five-year cohort and the 2010-11 four-year cohort, ODE's cohort graduation rate methodology changed to include as graduates students who earned modified diplomas and students who earned but were not awarded Oregon diplomas. In prior years, only students who earned and were awarded Oregon diplomas were counted as graduates for the purposes of this rate. See <http://www.oregon.gov/ode/reports-and-data/students/Pages/Cohort-Graduation-Rate.aspx> for more information.
