***Gymnastics = Risk***

*By the very nature of the activity, gymnastics carries a risk of physical injury. No matter how careful the gymnast and coach are, no matter how many spotters are used, no matter what height is used or what landing surface exists, the risk cannot be eliminated. Risk can be reduced, but never eliminated. The risk of injury includes minor injuries such as bruises and more serious injuries such as broken bones, dislocations, and muscle pulls. The risk also includes catastrophic injuries such as permanent paralysis or even death from landings or falls on the back, neck, or head.*
