MYTH BUSTERS

The Facts About COVID-19 and Vaccination

Worried about COVID-19?
How contagious is the delta variant?
What is hospitalization like?
Can the vaccine be trusted?

We know you have questions. We get it. Pandemics are scary — even a year and a half after it first began and especially if you or your family members haven't yet been vaccinated.

For the answers to all your COVID-19 questions — plus some myth busting of popular vaccination conspiracy theories — please join our team of COVID-19 experts:

ONLINE ON

**Wednesday,
Aug. 18
at 7 p.m.**

Registration is required.
