### Scope of Work:

The contractor is to operate a K-12 virtual school to provide a free, full-time 180-day online instructional program to eligible students during the 2011 – 2012 school year. All students are required to participate in the state assessment program created in Section 1008.22 Florida statutes, and all instructional staff must be highly qualified as identified by NCLB standards and hold valid Florida teaching certificates under provisions of Chapter 1012, Florida Statutes. All curriculum and course content must align to Florida's Sunshine State Standards. The school is to participate in Florida's school accountability system established in Section 1008.31, Florida Statutes. The contractor agrees to establish a student progression plan and other policies to support a virtual program in compliance with applicable Florida Statutes in consultation with the District. - 7. Pay the Contractor in accordance with Attachment B.
- Provide information to parents and students about right to participate in district VIP.
- 9. Provide a diploma for graduating seniors.

#### Attachment B - Continued

- Contractor in delivering the services contracted for shall provide Deliverables in the form of
  instructional tools and supplies, instructional materials, and computer hardware and software as are
  necessary to deliver the Project, but will retain ownership of all such Deliverables.
- II. To the best of the Contractor's knowledge, the Contractor further warrants that as to each Deliverable produced pursuant to this Agreement, Contractor's production of the Deliverable and the District's use of the Deliverable, will not infringe on the copyrights of any third party. This provision applies to each work of authorship in which copyrights subsist pursuant to 17 U.S.C. Sections 102-105 and to each exclusive right established in 17 U.S. C. Section 106. To the best of the Contractor's knowledge, in furtherance of this provision, the Contractor warrants that:
  - a. As to each work of software or other "information technology" as identified in Section 287.012(15), Florida Statutes, in which copyrights subsist, the Contractor has acquired the rights by conveyance or license to any third party software or other information technology, which was used to produce the Deliverables.
  - b. As to each image and sound recording incorporated into a Deliverable, the Contractor has acquired the necessary rights, releases and waivers from the person whose image or sound is included, or from the holder of the copyrights subsisting in the literary, musical, dramatic, pantomime, choreographic, pictorial, graphic, sculptural, motion pictures, audiovisual, work or sound recording from which the included image or sound was taken.
- III. If there is a modification to the rules and regulations approved by the State Board of Education in contradiction to the terms outlined in this Agreement, the Parties will amend the Agreement as necessary to bring the Agreement into accord with the rules and regulations so long as such change does not materially change the Deliverables as currently defined.
- IV. Contractor will comply with all applicable laws including, but not limited to, those requiring confidentiality of student records.
- V. Contractor has filed for or is the owner of various trademarks and logos. The District will be granted the use of such logos and trademarks in connection with its virtual school offering but shall be limited to those services provided under this Agreement.
- VI. Contractor will maintain and keep in force Worker's Compensation, Liability and Property Damage Insurance to protect it from claims under worker's compensation claims for personal injury, including death, and claims for damages to any property of the District, or of the public, which may arise from operations under this Agreement, whether such operations be by Contractor, or by any subcontractor or anyone directly or indirectly employed by any of them.
- VII. In no event will the District, Board members, District officers, employees, or agents be responsible or liable for the debts, acts or omissions of Contractor, its officers, employees, or agents.
- VIII. Method for Conflict Resolution Any dispute concerning performance of the Agreement shall be decided by the District's designated Agreement manager, who shall reduce the decision to writing and serve a copy on the Contractor. The decision shall be final and conclusive unless within ten (10) days from the date of receipt, the Contractor files with the District a petition for administrative hearing. The District's decision on the petition shall be final, subject to the Contractor's right to review pursuant to Chapter 120 of the Florida Statutes. Exhaustion of administrative remedies is an absolute condition precedent to the Contractor's ability to pursue any other form of dispute resolution; provided, however, that the parties may employ the alternative dispute resolution procedures outlined in Chapter 120.

- IX. Without limiting the foregoing, the exclusive venue of any legal or equitable action that arises out of or relates to the Agreement shall be the appropriate state court in \_\_\_\_\_ County, Florida; in any such action, Florida law shall apply and the parties waive any right to jury trial.

- XI. Debt Responsibility As required by Florida statute, the Contractor is responsible for all debts for the school district virtual instruction program that arise out of the Contractor's performance of this Agreement if the agreement is not renewed or is terminated. This does not excuse the District from paying any obligations incurred resulting from its obligations under this Agreement or from the payment of any debts incurred under this Agreement for termination, unless such termination is as provided for in Section X.
- XII. Contractor is required to comply with all requirements of s. 1002.45.
- XIII. Contractor agrees to be bound by and meet all requirements in Section 1002.45, Florida Statutes, as may be amended from time to time, including, but not limited to, the requirements for background screening for all employees.

#### Detailed Curriculum Plan

#### General information

All students enrolled in the FLVS FT VIP program in grades K-8 will participate in their grade-level specific schedule, included in this document. Students in grades 9-12 will participate in a Regular, Honors, or Rigorous Academic Track with classes assigned according to credits needed for graduation in their district. The following represents the detailed curriculum plan for districts in the Virtual Instruction Program (VIP) for 2011-2012. Students performing above or below grade level may receive additional adjustments, subject to district approval as follows:

#### Students performing below grade level K-8

Students who are not performing at grade level will be placed in their appropriate grade-level courses but may receive additional content and instruction designed to address their deficiencies. Students who are not performing at grade level in math grades 3-8 may receive enhanced course content in math. The course codes will be the same as the standard course codes for these courses but the student's records will identify the course as "Essential." Students who scored a level 1 or 2 on the FCAT Reading test will be placed in an Intensive Reading course in place of Educational Technology and Online Learning and Art. Health and Physical Education may also be waived for these students as necessary.

#### Students performing above grade level K-8

Students who are above grade level may receive enhanced course content in language arts, math, or science in grades 3 through 8. The course codes will be the same as the standard course codes for these subjects in grades 3-5 but the student's records will identify the course as "Advanced or Talented." In grades 6-8, course codes for Advanced content will be used. Students receiving this content will not qualify for any "gifted" designation within their resident district. Students who are well above grade level in math may receive a math course at one or more grade levels above their age-based grades with district approval.

In addition, students may be offered one (and in rare situations, more than one) additional Elective course, with district approval. Electives and further details about courses may be viewed in the FLVS FT Program Guide 2011-2012. Course, and unit descriptions for grades K-8 are available at <a href="http://www.connectionsacademy.com/curriculum/elementary-school/free-online-learning.aspx">http://www.connectionsacademy.com/curriculum/elementary-school/free-online-learning.aspx</a> and for high school at <a href="http://www.flvs.net/areas/flvscourses/Pages/Course%20Catalog/CourseListing.aspx#high.">http://www.flvs.net/areas/flvscourses/Pages/Course%20Catalog/CourseListing.aspx#high.</a>

All courses include detailed assessments to ensure student mastery of Florida requirements. Details about the assessments are available from the Florida Department of Education in the Florida Connections Academy provider application or from Florida Virtual School.

The Contractor represents that to the best of its knowledge, all curriculum provided under this plan complies in all material respects to the Florida Next Generation Sunshine State Standards for each grade level and subject.

- 2. As an exception of the provision in paragraph A above, a grievant may file an EEOC charge while the grievance is in process when such filing becomes necessary to meet federal filing deadlines pursuant to 42 U.S.C. s. 2000e et seq. Furthermore, an employee may seek resolution of a dispute through site or school procedures prior to filing a grievance and may request of the site administrator, an extension of the time limits for initial filing of the grievance for this purpose.

#### 2. Time Limits.

- a. The time limits provided in the Article shall be observed, but may be extended by written agreement of the parties. Whenever illness or other incapacity of a party necessary to hear the grievance prevents his/her presence at a grievance meeting, the time limits shall be extended, by mutual consent, to such time that the party can be present. In the event a grievance is filed after May 15 of any year and strict adherence to the time limits may result in hardship to any party, the Board shall use its best efforts to process such grievance prior to the end of the school term or as soon thereafter as possible.
- b. Upon failure of any administrator to provide a decision at any step, within the time limits provided in this Article, the grievant may proceed to the next step. Upon failure of the grievant to file at the next step within the time limits provided, the grievance shall be deemed to have been resolved by the decision at the prior step.
- Upon written agreement of the parties, any step in this procedure may be waived.
- d. A grievant may withdraw his/her grievance at any step but that same grievance may not be filed a second time unless it is of a continuous nature.

#### STEP IV

- d. Selection of Arbitrator. The parties shall follow the American Arbitration Association procedure for selection of an arbitrator and shall conduct the arbitration under its rules and procedures except as modified by the provisions of this Contract. The arbitration shall be scheduled within sixty (60) days following selection of the arbitrator.
- e. Authority of the Arbitrator.
  - The arbitrator shall have no power to alter, add to, or subtract from the terms of
    this contract. Arbitration shall be confined to the application and interpretation of
    this Contract and the precise issue(s) submitted for arbitration. The arbitrator
    shall refrain from issuing statements of opinion or conclusions not essential to the
    determination of the issues submitted.
  - In rendering decisions, an arbitrator shall give due regard to the responsibilities of the Board and the Superintendent and their designees as provided in law and rule and shall so construe such responsibilities, except as they may be specifically conditioned by this Contract.
  - 3. The arbitrator's decision shall be final and binding on the parties as provided in Section 447.401, Florida Statutes, provided that either party may ask that an appropriate court vacate such a decision on one or more of the grounds stated in section 682.13, Florida Statutes.
  - 4. An arbitrator's award may be retroactive as the equities of a case may demand, but an award shall not be retroactive to a date earlier than sixty (60) days prior to

the date the grievance was initially filed except for those provisions of State or federal law that may require an earlier date.

f. Fees and Expenses. The losing party shall pay the fees and expenses of the arbitrator. A party desiring a transcript of the arbitration proceedings shall provide written notice to the other party at least five (5) days prior to the date of the arbitration and shall be responsible for scheduling a stenotype reporter to record the proceedings and for paying the appearance fee of the reporter and the cost of obtaining an original transcript. The party shall also provide a photocopy of the transcript to the other party upon written request and payment of reasonable copying expenses.

# Processing.

- a. The site administrator shall refuse consideration of a grievance not filed or processed in accordance with this Article.
- b. If a grievance arises as the result of a condition that the immediate supervisor is without jurisdiction to resolve, the grievance shall be filed at Step II after discussing such filing with the Superintendent's designee.
- g. Precedent No complaint informally resolved, or grievance resolved at either Steps I or II, shall constitute a precedent for any purpose unless agreed to in writing by the Board and GCCTA.
- h. Documents. The grievant or representative shall be provided, upon request and with reasonable copying charge, with a copy of any identifiable document relevant to the grievance. All written materials dealing with the processing of a grievance shall be filed separately from the grievant's personnel file except an arbitration decision or a settlement agreement that requires personnel action(s) that affects the grievant.
- Notwithstanding the expiration of this contract, any claim or grievance arising while it
  was in effect may be processed through the grievance procedure until resolution,
  provided it is timely filed.
- j. Hearings and conferences under this procedure shall be conducted at a time and place which will afford a fair and reasonable opportunity for all persons, including witnesses, entitled to be present, to attend, and will be held, insofar as possible, after regular school hours, or during working time of personnel involved. When such hearings and conferences are held, at the option of the administration, during school working hours, all employees whose presence is required shall be excused, with pay, for that purpose.
- k. Adjustments of any grievance as described herein shall not be inconsistent with the provisions of this Agreement.

#### ARTICLE VI

# TEACHER ASSESSMENT

# Preamble:

The parties wish anyone who reads this language to understand that we agree to the following terms only with great reluctance and with the realization that what we are agreeing to will in all probability hinder the educational process. We are compelled to negotiate this language by state law and do so only to comply with those requirements.

The following contract language will be subject to re-openers and review within one year from its full implementation upon request by either party. Gadsden County Teacher Evaluation Model (GCTEM) will be made up of two components; the score for Instructional Practices and the score

on the State of Florida's value added tables of student learning growth or other student learning growth data approved by the State and specified below. The percentage of which each will contribute to a teacher's total evaluation is specified below. Each teacher will receive an **overall rating** of Highly Effective, Effective, Needs Improvement (referred to as Developing in the case of teachers in their first three years of employment), or Unsatisfactory based upon the total number of points accrued on the two measures.

#### Definitions:

State assessments: Any standardized state approved assessment for a given subject.

District assessments: A standardized district created and/or approved assessment for a given subject across the district in a given subject area.

Value added state model: Formula developed by the state to measure student-learning growth.

Learning targets: Locally agreed upon goal for measurement of student progress

Three years of data: Current year plus two immediately preceding years

GCTEM: Teacher Evaluation System, the term for the overall evaluation of a Gadsden County teacher.

Unsatisfactory Performance: Two consecutive Unsatisfactory annual GCTEM evaluations, two Unsatisfactory annual GCTEM evaluations within a three year period, or three consecutive annual GCTEM evaluations of Needs Improvement or a combination of Needs Improvement and Unsatisfactory.

Performance Improvement Process (PIP): A process afforded to teachers to support performance concerns as identified in GCTEM.

90-day Performance Probation: The statutory 90-day process for which unsuccessful completion could lead to non-renewal of an annual contract or termination of a professional services or continuing contract under the following conditions: Receives two consecutive annual performance evaluation ratings of unsatisfactory, two annual performance evaluation ratings of unsatisfactory within a three year period, or three consecutive annual performance evaluation ratings of needs improvement and unsatisfactory. During this 90-day period the district will offer assistance to the teacher

Independent Second Opinion: An evaluation undertaken by a neutral third party administrator selected by the Parties. Any independent evaluator should be free from any influence from either party to this Agreement and should engage in no ex parte communications with any of the parties prior to rendering his/her decision. The evaluation form will include the following ratings: Highly Effective, Effective, Needs Improvement (Developing in the case of teachers in their first three years of service), or

Unsatisfactory. Should the independent evaluator not confirm the principal's evaluation, a second independent evaluator will be utilized. The evaluation is sustained if the teacher receives two or more "Unsatisfactory" ratings by the majority of the evaluators.

#### General Rules:

- 1.) When a teacher's data source is other than state assessments for the specific students taught by the teacher in the tested subject area, effort will be made to associate the teacher's actual students' test results to their evaluation to the greatest extent possible.
- 2.) State assessments will be substituted for district assessments or learning targets as they become available.
- 3.) The parties agree to proportion the effects of the instructional practices rubric and the value added measure in such a manner that makes it impossible for someone scoring an Effective or Highly Effective in one measure to be scored as Unsatisfactory on the total evaluation measure.
- 4.) No transfer or layoff decisions will be made solely on the basis of student learning gain data until all appropriate subject area assessments have been implemented.
- 5.) Any teacher placed on the 90-day performance probation described herein which could lead to his or her non-renewal or termination may request the superintendent or his or her designee to review his or her class list for the coming year for equity of the teaching assignment.
- 6.) Teachers on a PIP at the time this language is ratified will continue to be evaluated and receive assistance on the basis of those procedures in effect at the time they were placed on the PIP.
- 7.) Teachers being placed on a PIP at the beginning of the 2011-12 school year will follow the process described herein.

# A. Gadsden County Induction Program (GCIP)

- 1. All first year Category 1 teachers or teachers possessing a temporary, one-year contract will be assigned a GCIP Mentor and complete the 180-day GCIP.
- 2. Re-hired Gadsden teachers who have more than five years of service with the School Board of Gadsden County and who have worked for the district within the past three years will be exempt from requirements of the GCIP program.
- any teacher who changes school, grade level or content area in the second year of employment may be designated as a Year 2 GCIP (Y2 GCIP), and be afforded a GCIP Mentor for the 90-day GCIP.

# B. Gadsden County Teacher Evaluation Model (GCTEM)

All teachers will be evaluated with the GCTEM, described herein. All the appropriate observation and evaluation forms appear in The Gadsden County Teacher Evaluation Model Manual (hereinafter known as "the model").

Data collected during the Teachscape/PDA Classroom Walk-Through observation process may not be used as part of a teacher's formal evaluation process. If during the course of walking through the campus an administrator observes behavior that causes concern, the administrator will remain in the classroom for a minimum of ten minutes to conduct an informal observation.

# 1. Category 1 Teachers, First Year Teachers

- All probationary contract teachers will be considered to be in Category 1 of the GCTEM.
- b. Prior to the first observation, the teacher shall be familiarized with GCTEM.
- c. The approved observation and evaluation form(s) for Level Category 1 teachers will be in "the manual"
- d. With the exception of those teachers terminated during their probationary contracts, all Category 1 teachers must be evaluated twice yearly.
- e. During the first 20 work days from a teacher's hire date, excluding pre-service days or holidays, the administrator will observe the teacher using the Observation (Short Form).
- f. If performance concerns exist following the Observation Form, the administrator will use the FEAP Summative Observation to determine if action is warranted.
- g. During the probationary contract year, the employee may be dismissed without cause or may resign from the contractual position without breach of contract.
- h. If in the opinion of the principal, performance concerns exist that could cause a teacher to be dismissed during the probationary contract year, informal assistance will be provided to that teacher via an Internal Assistance Plan (IAP) prior to such a determination. The IAP will be initiated with a letter from the principal scheduling a meeting to discuss concerns. The Union will receive a copy of the notification letter with an invitation to participate and represent the teacher at the IAP meeting. The Professional Development Director will receive a copy of the IAP notification letter. The principal will share concerns and determine school-based staff to provide support for the teacher. This process will continue until such time as a final 97-day determination is made but no less than four weeks from the inception of the IAP process.

i. The teacher who has been supported on an IAP for a minimum of four weeks, may be released from the IAP, terminated during the probationary year, or be placed on a Performance Improvement Plan (PIP) for a minimum of 2 months prior to the final Evaluation.

# j. Criteria for initiating a PIP:

- A score of Unsatisfactory or Developing.
- k. Outcome of the Mid-Year Evaluation:
  - Initiate IAP if a score is Unsatisfactory or Developing.
  - Continue PIP if overall score is Unsatisfactory or Developing.
  - Discontinue PIP if the overall score is Effective or Highly Effective.

#### l. Outcome of the Final Evaluation

- 1. A Category 1 teacher who receives assistance through an IAP and/or PIP and receives an Unsatisfactory or a Developing will be non-renewed.
- 2. A Category 1 teacher who receives an Effective or Highly Effective, score on PRIDE will become a Category 2 teacher.

# 2. Category 2, Annual Contract (AC) Teachers

- a. All annual contract teachers will be considered to be in Category 2 of the GCTEM.
- b. Prior to the first observation, the teacher shall be familiarized with the GCTEM.
- d. Category 2, teachers will be evaluated annually on GCTEM.
- e. If concerns exist following the Observation (Short Form), the administrator will use the FEAP Summative Observation to determine if action is warranted.
- g. If an administrator has documented performance concerns regarding a Category 2, teacher, that teacher will be afforded assistance through the PIP process for a minimum of four months prior to GCTEM.
- h. Criteria for initiating a PIP:
  - 1. A score of Developing/Needs Improvement or Unsatisfactory.

- 1 A teacher receiving a second GCTEM evaluation of Developing/Needs Improvement initiates a 90-day performance probation.
- 2 A teacher receiving a GCTEM evaluation of Unsatisfactory initiates a 90-day performance probation.
- 3 Any Category 2 teacher, previously placed on a PIP for a minimum of four months and who experiences performance difficulties based on the Short Form, (completed during the first 20 days, working with students) and FEAP, will be placed on a PIP. The teacher will be evaluated in November. If the evaluation is unsatisfactory, the 90-day performance probation will commence. At the end of the 90-days, the principal will evaluate the teacher. If found unsatisfactory, the teacher will be afforded the independent second opinion. The teacher will have his or her teacher contract held in abeyance until the student growth portion is completed on the GCTEM.
- i. The teacher will have the opportunity to give input into the interventions specified in his or her PIP. Teachers refusing assistance will be evaluated by the building principal with no right to a second opinion. A teacher's decision to refuse a PIP may not be rescinded until the following school year.

#### k. Outcome of the GCTEM Final Evaluation:

- b. If concerns exist following the Observation (Short Form), the administrator will use the FEAP Summative Observation to determine if action is warranted.
- c. If an administrator has documented performance concerns on the Observation (Short Form), regarding a Level 3 teacher, that teacher will be afforded assistance for a minimum of four months prior to the Final Evaluation through the PIP process.
- d. Criteria for initiating a PIP:

All such evaluation(s) will be completed at least two weeks prior to the last day of student attendance. The second opinion evaluator will use the revised Final Evaluation, based on the principal's revised Final Evaluation of documented PIP competencies.

- f. An employee notified of unsatisfactory performance may request an opportunity to be considered for a transfer to another appropriate position, with a different supervising administrator, for the subsequent year of employment.
- d. Any proposed termination due to failure to successfully complete a NEAT/Performance Probation process will be subject to the grievance and arbitration process as defined in Article III of this Agreement and/or a hearing held by the Department of Administrative Hearing (DOAH).

# C. Value Added/ Student Learning Gain Data

# Methodology:

The percentage and composition of the student data component of each teacher's evaluation is expressed below:

# 1. Classroom teacher, majority of students take FCAT in subject area taught by teacher

The teacher's evaluation will be based 50% on Instructional Practices, 50% on the state's value added data based upon their students' state assessment (e.g., FCAT) scores. When three years of this data is not available for each teacher, the proportions will alter to 60% on Instructional Practices and 40% value added data.

# 2. Classroom teacher, majority of students take FCAT but in other subject area than that taught by teacher

The teacher's evaluation will be based 50% on Instructional Practices, 50% on student gains on a district-wide standardized test or statewide assessment when available. When three years of data is not available for each teacher, the proportions will alter to 60% on Instructional Practices and 40% student gains data. If not using a statewide assessment, the measure to be employed at each grade level and subject area must be agreed to by the parties. If a district-wide standardized test or statewide assessment does not exist, teachers in this group will be evaluated as in Number 3, below.

#### 3. Classroom teacher, majority of students do not take FCAT

The teacher's evaluation will be based 50% on Instructional Practices, 50% on student gains on a set of measureable learning targets agreed to in advance between the teacher and principal. When three years of data is not available for each teacher, the proportions will alter to 60% on Instructional Practices and 40% measureable learning targets. A list of acceptable measureable learning targets to be employed at each grade level and subject area must be agreed to by the parties.

#### 4. Non-classroom teacher, assigned to specific school(s)

The teacher's evaluation will be based on 70% on Instructional Practices and 30% on the state's value added data of FCAT scores for those students attending the specific schools to which the non-classroom teacher is assigned. When three years of data is not available for each teacher, the proportions will alter to 80% on Instructional Practices and 20% value added data.

#### 5. Non-classroom teacher, not assigned to specific school(s)

The teacher's evaluation will be based on 70% on Instructional Practices and 30% on the state's value added data of FCAT scores for the students in the district as a whole. When three years of data is not available for each teacher, the proportions will alter to 80% on Instructional Practices and 20% value added data.

D. During pre-school planning, or within the first ten days of reporting to the work site for active employment, each teacher shall be given a copy of the GCTEM Manual. This distribution shall be followed by an explanation, demonstration and discussion of the

- assessment process. A copy of all current teacher assessment forms shall be available upon request or on the district's website.
- E. For the purposes of teacher assessment, the principal will make at least one (1) scheduled observational visit to the teacher's classroom. The principal may make as many unscheduled visits or as many additional scheduled visits as he/she sees fit, and his/her assessment may be based on any information which may be available to him/her at the time the assessment is made.
- F. Within ten (10) school days after each such scheduled visit, the principal shall have a conference with the teacher, at which time the teacher shall receive a copy of the completed assessment form. Upon approval by the Superintendent the 10-school day time limit may be extended for extenuating circumstances or by mutual consent of the parties.
- G. Each completed assessment form for the teacher and all copies of it shall be dated and signed by the principal and the teacher, with the teacher receiving one copy. The teacher's signature indicates only that he/she has read the completed form, and not necessarily that he/she agrees with the assessment.
- H. In the event that the teacher disagrees with the written assessment of her/his performance, she/he may write her/his objections on the assessment report or attach them to the report to be placed in her/his personnel file. A teacher shall not be requested nor required to sign a blank or incomplete evaluation form.
- In order to assure quality teaching and learning and a fair, equitable and impartial evaluation of teacher performance the parties agree to form an appeals committee comprised of two members of the GCCTA appointed by the GCCTA president and two from the administration appointed by the Superintendent, neither party shall have any influence on the appointment of the members of the other party. The following procedures shall be followed:
  - 1. It is the intent of the parties that the procedures listed below in the appeals process shall serve as the alternative to Steps I and II of the grievance procedure.
  - 2. If the employee desires, he/she has the right to request representation or represent himself/herself, but under no circumstances will GCCTA be required to represent a non-member.
  - 3. An employee may not be represented by an attorney or a rival union in an appeal.
  - 4. The site administrator or the Superintendent's designee and the union president will make every effort to obtain informal resolution of the dispute within 30 (thirty) days of the employee's evaluation. If unresolved the alleged dispute shall move to the formal appeals process.
  - 5. Issues appealed to the committee shall be addressed expeditiously by the committee keeping in mind the statutory time frames and shall meet and render a decision within 10 school days..
  - 6. The representatives of the committee shall communicate their findings in writing to the Superintendent and the union president as well as the affected employee(s) and the site administrator.

- 7. Disputes not resolved at the committee level will then follow the prescribed procedures in Article III, beginning at Step III.
- J. The teacher, upon written request, shall have the right to review and reproduce the contents of the personnel file, being accompanied by a representative of the GCCTA, if desired, and in the presence of the administrator responsible for the safekeeping of such file.
- K. The personnel file of each teacher shall be open to inspection only by the School Board, the Superintendent, the principal, the teacher, and such other persons as the teacher or the Superintendent may authorize in writing, unless otherwise provided by law.
- L. The School Board shall have the right to reprimand, suspend, demote or discharge its employees for just cause. Just Cause shall be defined to mean:
  - 1. The Board or its designees made an effort to discover if, in fact, the employee did violate or disobey a rule or order of management or did commit any of the acts referred to by Section 1012.33, Florida Statutes, prior to taking official action.
  - 2. The Board or its designees conducted a fair and objective investigation of the facts.
  - 3. The Board applied its rule and penalties uniformly and without discrimination to all employees.
  - 4. The employee was given an opportunity to present his/her side prior to official action being taken.
  - 5. The Board's rule or order that the employee is alleged to have violated was not arbitrary, capricious or discriminatory.
  - 6. The Board gave the employee forewarning of the consequences or possible consequences if the employee did not obey the rule or order.
  - 7. When determining the degree of discipline, consideration will be given to the employee's service record and the nature of the offense.

# ARTICLE VII VACANCY AND PROMOTION, TRANSFER AND REASSIGNMENT AND REDUCTION IN FORCE

- A. The provisions of this Article shall not apply in such manner that would prohibit the Board from complying with applicable court orders.
- B. <u>Vacancy</u> and <u>Promotion</u>
  - Notice of all openings for promotion and instructional vacancies shall be posted as necessary by the Superintendent or his designee for five (5) teacher work days during the regular school year or five (5) administrator work days during the summer, as the case may be, prior to the filling of the vacancy, in the district administration building and shall be transmitted to the building principal of each school, who shall post the notice in that school. Such postings shall include the kind of certificate necessary, and information concerning the securing and deadline for filing of the application. A copy of all vacancies

shall be sent to the President of GCCTA by the district mail courier at least three days prior to the posting of said positions. A signature will be secured to validate delivery.

#### C. Transfer and Reassignment

The Board and the GCCTA recognize that the transfer of employees shall be the responsibility of the Board upon recommendation of the Superintendent. Any teacher who desires a change in grade and/or subject assignment in the following year or who desires to transfer to another school in the following year shall file, using a form furnished by the Superintendent, a written request to that effect in duplicate, one copy to be filed with the principal and one copy filed with the Superintendent. Such request shall be considered for the following school year and shall remain active only until the beginning of the school year following the school year in which filed.

Assignment of new teachers to positions in the school district shall be made after active requests for reassignment or transfer to such positions have been reviewed.

In making transfers, the Board will first review requests of volunteers. Lists of available positions in other schools shall be posted in each school.

No assignment of teachers to a specific position in the school district shall be made until all pending requests for reassignment or transfer to that position have been given due consideration. With all other factors being equal, District seniority shall be the deciding factor in assignments for voluntary transfers.

Teachers who have requested transfers or reassignments shall be notified in writing of the administration's action on said transfer or reassignment as soon as possible or immediately following the filling of a requested position.

#### D. Reduction in Personnel

In the event the School Board determines that the number of teachers must be reduced, written notice shall be provided to the GCCTA. For the purpose of this article, the non-renewal of an annual contract teacher at the end of his/her contract shall not be deemed a reduction in personnel. The following procedures shall be controlling:

#### E. <u>Involuntary Transfers</u>

Involuntary transfers may occur due to staff reduction in a department and/or grade level within a school or the closing of an existing facility. The Board shall notify the Union within ten (10) days after the determination that involuntary transfers must occur.

Teachers transferred under this provision (Reduction in Personnel) shall not be again subject to involuntary transfers for a period of one (1) year unless extenuating circumstances exist which shall include, but not be limited to, funding, reduction in student population, and cancellation of programs. Should a position become available at the same school from which a teacher was involuntarily transferred due to a staff reduction, the teacher shall have the opportunity to request to return to such school, subject to all of the following conditions:

- a. The same or similar position needs to be filled no later than the end of the school year following the school year of the transfer.
- b. The position is in the same area of assignment from which the teacher was transferred.
- c. The teacher is certified for the position.
- d. The teacher is qualified for the position in the judgment of the Superintendent.

In cases in which more than one teacher has been involuntarily transferred from the same area of assignment, at the same school, and meet the above conditions, the teacher with the most seniority shall first be given the option to return.

#### F. Layoffs

The School Board shall determine the program areas, subject areas in secondary schools, positions in elementary schools or other positions in which the reduction shall take place.

The School Board will place continuing and professional service contract personnel in positions held by annual contract personnel for which the continuing and professional service contract teacher is properly certified.

The order of layoff of members of the bargaining unit shall be teachers having the least amount of teaching experience in the Gadsden County School System.

#### G. Recall

The School Board shall determine the positions in which recall will be made and the number of teachers to be recalled.

Teachers shall be recalled in the inverse order of layoff.

Notification of recall shall be made by certified mail to the address of record. Within ten (10) calendar days of receipt of the letter of recall, the teacher shall notify the District Personnel Office in writing whether he/she will accept reemployment. Failure to respond to the letter of recall within the required time automatically terminates the employee's right of recall.

# H. Performance Issues/ Failing Schools

Before recommending an involuntary transfer based upon any performance problems, the Superintendent or his designee shall give notice of the performance problem(s) and time to address and respond to the concerns, and unless extenuating circumstances exist, the instructional bargaining unit member will be offered assistance and time to address and resolve the concerns. In addition, the following procedures shall apply:

a. Instructional bargaining unit members affected by recommendations for such an involuntary transfer which have been proposed for the upcoming year will be notified on or before May 1, unless extenuating circumstances exist.

- b. A conference will be held, if requested by the instructional bargaining unit members, between the instructional bargaining unit member and the Superintendent and/or his/her designee to discuss the reasons for recommending a transfer, and to allow the instructional bargaining unit members the opportunity to present his/her side of the matter and his/her position regarding being transferred. Any instructional bargaining unit member attending a conference will have the right of Union representation upon the instructional bargaining unit member's request. A written report of the conference with an instructional bargaining unit member concerning a recommended transfer will be given to the instructional bargaining unit member within ten (10) working days of the conference.
- c. The instructional bargaining unit members will receive written notice of the recommendation of the Superintendent of a transfer and will have the opportunity to appear at the School Board meeting at which the transfer will be presented for approval. Instructional bargaining unit members affected by involuntary transfer shall be notified in writing on or before July 1 unless extenuating circumstances exist which shall include, but not be limited to, absence of student performance data, school grades, funding, and reduction in programs.

Instructional bargaining unit members who are involuntarily transferred due to their assigned school being deemed as a failing school shall:

- a. be given written notice of their transfer with reason specific to their teaching or students' performance evaluation.
- b. be notified of their transferred assignment by July1 unless extenuating circumstances exist which shall include, but not be limited to, absence of student performance data, school grades, funding, and reduction in programs.

A. Any case of assault upon a teacher shall be reported promptly to the site administrator or a designee by that teacher or any other teacher observing or having knowledge of the assault. In cases involving assault by a student upon a teacher, where said teacher is determined by the Administration to be free from fault, and where said teacher has filed civil charges, the Board shall render reasonable assistance to the teacher in connection with handling of the incident by law enforcement and judicial authorities.

The foregoing shall not require the Board to provide legal advice or counsel for the teacher or to incur, assume or bear any financial liability.

- D. Materials relating to work performance, discipline, suspension, or dismissal must be reduced to writing and signed by a person competent to know the facts or make the judgment. No such materials may be placed in a teacher's personnel file that the teacher has not had the opportunity to see. A copy of the materials to be added to a teacher's personnel file shall be provided to the teacher either by certified mail return receipt requested or by personal delivery. A teacher shall sign any reviewed material. However, such signing does not indicate agreement but rather that the teacher has seen the material. In the event a teacher does not review and sign such material within two (2) working days after notification of the existence of such material, the material shall be filed in the personnel file. Upon request, a teacher, or any person designated in writing by the teacher, shall be permitted to examine the personnel file of such teacher. The teacher shall be permitted conveniently to reproduce any materials in the file, at a cost no greater than the fees prescribed in F.S. 119.07(1).
- E. The district is committed to a policy of "zero tolerance" on matters of student misbehavior, acts of violence or threatened acts of violence, and assault and battery on school personnel. It is recognized that it is the teacher's responsibility to pursue the prosecution of perpetrators of such acts as defined by Board policy.

All teachers shall be entirely free from political domination or coercion, or the pretended necessity of making political contributions of money or other things of value, or engaging in any political work or activity against their wishes under the assumption that failure to do so will in any way affect their status as employees of the school system.

E. Such terminal pay, when paid upon registration without retirement, or upon normal retirement, shall be paid only where the individual's resignation or retirement is concurrent in time with her/his separation from the full-time service of this School District, unless the teacher is participating in DROP, and then only if he/she is resigning or retiring under favorable circumstances, and not, for example, if the individual is being or has been dismissed by the Board, or if proceedings for such dismissal are pending. Further, such payment shall not be made if, within three (3) calendar years preceding the individual's separation from the full-time service of this School District, the individual has or shall have been

convicted, under the laws of the United States of America or any State thereof, of a felony. The plea of guilty in any court, of the decision of guilty by any court, or the forfeiture of a bond in any court of law, or the written acknowledgment of having so committed any such offense, duly witnessed and made to the Superintendent or his duly appointed representative or the School Board, shall, for the purpose of this Article, have the same effect as that of a conviction of the offense.

A teacher who participates in DROP will receive pay for accumulated sick leave as indicated above. The rate of pay for such leave shall be based upon the salary rate of the teacher at the time DROP begins. Such leave shall be paid in annual installments during each of the years of DROP participation. The initial payment will be made during the first month of DROP, with subsequent payments made during the retirement anniversary months. Leave accrued during DROP will be included in the final payment and will be paid at the salary rate of the retiring teacher upon separation from service according to provisions outlined applicable Florida Statutes.

A teacher who begins participation in DROP, but elects to cancel DROP shall, within six (6) months of the DROP cancellation, repay the Gadsden County School Board all sick leave pay previously received as a part of DROP. Such sick leave time when repaid, will be returned to the account of the teacher as if there had been no DROP participation.

- C. "Normal retirement", as used in this Article, shall mean retirement as defined in subsection 231.40(2), Florida Statutes, 1979.
- D. Terminal pay for accumulated sick leave paid to any person pursuant to this Article XV shall totally replace and be in lieu of any and all payments to which the recipient might otherwise be entitled pursuant to any rule or other provision by the Board relating to terminal pay for accumulated sick leave.

## TERM OF AGREEMENT

Subject to applicable law, rules and regulations, this Agreement shall become effective when approved and ratified by the Board and the Bargaining Unit and signed by the parties, and shall continue in effect through June 30, 2012.

This Agreement shall not be extended orally, and it is expressly understood that is shall expire on the date last aforesaid.

After ratification of this multiyear contract, that parties agree that once in each calendar year of this Agreement, the GCCTA may, upon written request made to the other, reopen Appendix A, B, and C and each party, may, at its sole option, upon written request made to the other party, reopen two (2) articles other than Appendix A, B, and C specifying such other articles so to be reopened.

#### MEMORANDUM OF UNDERSTANDING

The Gadsden County Classroom Teachers Association, The Gadsden Educational Staff
Professional Association, and
The Gadsden County School District

The Gadsden County Classroom Teachers Association (GCCTA), the Gadsden Educational Staff Professional Association (GESPA) and the Gadsden County School District (GCSD) hereby tentatively agree to the provisions set out below and will support the ratification of such provisions by the members of the GCCTA bargaining unit and the Gadsden County School Board:

Gadsden County Schools Title I School Improvement Grant, Section 1003(g) herein called SIG: GCCTA, GESPA and the GCSD acknowledge that the Gadsden County School District has qualified for the SIG grant for the sole purpose of meeting the requirements of the Department of Education Transformation Intervention Model for some of the schools in the Gadsden County School. In complying with the requirements of the SIG grant, GCCTA, GESPA and the Gadsden County School Board, hereby agree to this Memorandum of Understanding to address any changes in the Collective Bargaining Agreement (CBA) between the parties and the effect of these changes on the employees of any Gadsden County Public Schools who receive said grant.

The parties further recognize that the successful execution of the School Improvement Grant is wholly dependent upon the cooperative and collaborative efforts of the parties and that utilization of Florida Statute 447.403 is counterproductive to achieving the goals contained within the School Improvement Grant.

Therefore, the parties agree as follows:

- The Parties agree that the execution of this MOU constitutes support of the goals and
  objectives of the SIG. The parties further agree that said signature does not constitute
  agreement to modify the existing CBA or to negotiate additional language. The parties,
  however, agree to engage and use their best efforts to develop a mutually agreeable plan to
  address reforms consistent with the objectives of SIG and according to Article IX, section G
  of the GCCTA CBA or Article XII, Section F of the GESPA CBA.
- 2. The parties agree to use best efforts to develop a negotiated, mutually agreed upon implementation plan in the areas identified by the parties as part of the Plan. The signature of the Union President on the MOU does not constitute an agreement to (a) reopen or otherwise modify the CBA, unless and until a subsequent negotiated time specific waiver or other agreement has been mutually agreed upon by the Gadsden County Classroom Teachers Association, the Gadsden Educational Staff Professional Association and the Gadsden County School Board or (b) limit or waive its rights and protections under the Florida Constitution, the Florida Public Employees' Relations Act and other applicable laws.
- 3. If a School Improvement Grant is awarded, the parties agree that any items in the Plan that impact wages, hours or terms and conditions of employment or that may modify the current CBA are subject to bargaining in accordance with Chapter 447.
- 4. Any items relating to the SIG Application or Plan that are unsuccessfully negotiated between the parties specifically for the purpose of applying for or receiving the School Improvement Grant award will not be subject to the impasse procedures set forth in Chapter 447. Neither party will unilaterally declare impasse under Chapter 447 during negotiations of any provisions specifically for the purpose of applying for or receiving the SIG award.

- 5. In the event that negotiations result in modification to the existing CBA, the Gadsden County Classroom Teachers Association, the Gadsden Educational Staff Professional Association and the Gadsden County School Board agree that such modifications expire upon either the expiration of the School Improvement Grant or upon the expiration of the funding of the grant, whichever occurs first.
- 6. The Gadsden County Classroom Teachers Association, the Gadsden Educational Staff Professional Association and the Gadsden County School Board agree that if bargaining according to this MOU results in any modification to the current CBA in order to comply with SIG requirements, then such modification(s) will not operate as the status quo (it being understood that said SIG modifications shall expire at the end of the term of the current MOU unless otherwise mutually extended by the parties).
- 7. The parties agree that after good faith negotiations should there fail to be a fully ratified and non-imposed agreement; the parties are released from any obligation to continue participation in the School Improvement Grant.

The parties hereby agree to the following for the 2011-2012 school year: The parties will meet annually to address possible changes to the MOU necessary to implementing the DOE requirements and timelines of the Transformation Intervention Model funded by the SIG grant.

- Common Planning Time: Common planning time will be scheduled during the regular school
  day at least one (1) period per day to provide for structured common planning time that does not
  encroach on the contractual planning time. Common planning time will vary according to grade
  level for elementary schools and according to subject level for high schools.
- Recruitment, replacement and retention: The Financial incentives for hard to staff schools shall be as follows (all supplemental amounts are gross amounts before deductions):
  - 1. Recruitment supplements of up to \$2,000 will be used to recruit highly qualified and highly effective teachers for those schools as determined by the grant.
  - 2. Highly qualified highly effective teachers, coaches and administrators will be paid a supplement of \$1,500 to be retained (all employees will re-apply for their positions each year).
  - Other rewards that are already in place for professional development, continuing education units and additional certification shall be utilized as enhancements to the aforementioned supplements.
- Performance Pay (all performance pay amounts are gross pay before deductions and will not become part of the base salary): SIG Schools faculty members will receive performance pay in the amount of \$1,000 for teachers making 65% student learning gains in FCAT tested subjects; \$1,500 for teachers making 80% student learning gains in FCAT tested subjects; \$2,000 for teachers making 90% student learning gains in FCAT tested subjects and \$2,500 for teachers making 100% student learning gains in FCAT tested subjects. Principals will receive a \$3,000 supplement for making AYP and a \$2,000 supplement if the school improves one letter grade or more. Assistant principals will receive the \$2,000 and \$1,500 supplement respectively for the same performances as the principal. Other staff (paraprofessionals) will receive a supplement of up to \$1,000 total for assisting in raising student achievement (\$200 per teacher making 65% learning gains in FCAT tested subjects). Instructional coaches will receive a supplement of \$1,000 if 70% of their teachers make 65% student learning gains in FCAT tested subjects, \$2,000

for 80% of their subject teachers making 65% student learning gains in FCAT tested subjects and \$3000 if 90% or more of their subject teachers making 65% or more student learning gains in FCAT tested subjects. Teachers are not eligible for the same performance pay from both SIG and Race to the Top.

Failure to Improve (all teachers and leaders must re-apply for their positions each year if they do not meet FDOE requirements for making sufficient learning gains in FCAT tested subjects): Teachers and Leaders who fail to improve Student achievement or school level achievement will be replaced. Teachers will be given ample opportunities to improve professional practices before replacement – three (3) years and principals will be given a two (2) year period to raise school achievement.

# Performance Pay Dispute/Resolution:

All pay for performance disputes and evaluations will be resolved through the CBA grievance process.

This Memorandum of Understanding shall expire July 1, 2012.

#### 20. NOTICE OF DEFAULT

Except as to the provisions of Section II of this lease, Lessee shall not be deemed to be in default under this lease in the payment of rent or the payment of any other moneys required in this agreement, or in the furnishing of any bond or insurance policy when required unless Lessor shall first give to Lessee ten (10) days written notice of the default and Lessee fails to cure the default within thirty (30) days.

The subsequent acceptance of rent under this lease by Lessor shall not be deemed to be a waiver of any preceding breach by Lessee of any term, covenant, or condition of this lease, other than the failure of Lessee to pay the particular rental so accepted, regardless of Lessor's knowledge of the preceding breach at the time of acceptance of rent.

#### 26. PARTIES BOUND

Re:

Re-roofing Project - Building One & Three

Carter Parramore Academy - Change Order No. 1

Dear Mr. Shepard:

Please find enclosed three originals of the change order #1 for the above referenced project. The costs are for replacement of rotten wood mostly at the roof deck, additional time and coordination by the contractor because of the hidden electrical circuits on the Cafeteria roof, and also removal of abandoned mechanical equipment at the Kitchen. These items are detailed on attachments to the change order form.

I have reviewed the enclosed form with documentation and find the totals to be in order and the values to be reasonable and therefore recommend acceptance in the amount of \$21,999.50. If you concur, please sign each of the attached forms and forward two of them back to my office. I will forward one to the contractor.

Please contact me if you have any questions.

Sincerely,

Joel Sampson

NCARR

#### **FOREWORD**

In 1976, the Florida State Legislature passed into law the Educational Accountability Act of 1976, which includes the statutory requirement that each school district in the State of Florida establish a comprehensive program for pupil progression.

In 2003, the Legislature enacted **Florida Statute** (**F.S.**) **1008.25**, which changed the name of this document from Pupil Progression Plan to Student Progression Plan and requires more stringent student performance for promotion and greater communication with parents regarding progress, including the publication of annual reports in the local newspaper.

The Student Progression Plan is revised and updated annually, based on input from school and district personnel and legislative and State Board Rule changes. This plan is written in the best interest of individual students and complies with the State Statutes and directives from the Florida Department of Education. All district level and school level instructional personnel, parents, and students are encouraged to study the requirements of the Gadsden County Schools Student Progression Plan, with the understanding that the legislative intent is to raise the quality of education in Florida schools.

Promotion, remediation, retention, or specific assignment procedures contained in this plan are designed to ensure that each student's grade placement is made to serve the best interests of the student and are in accordance with **F.S. 1008.25** and all other relevant state and school board rules.

The Gadsden County School District has a strategic plan in place to improve instruction and student achievement in all of its schools. The plan incorporates many of the Best Practices recommended by the guidelines of Florida's Office of Program Policy Analysis and Governmental Accountability (OPPAGA).

Every student in the Gadsden County School District is expected to make satisfactory progress through the grades and achieve a level of academic proficiency and social/emotional development which will enable him/her to benefit from instruction at the next grade. The Gadsden County Schools Student Progression Plan implements school board policy and establishes procedures to be followed. It provides each student enrolled in the Gadsden County School District with the maximum opportunity to succeed in school.

All Gadsden County Schools are expected to make every reasonable effort to assist students in meeting promotion and/or graduation requirements.

The commitment to continuous improvement to achieve the goal of enabling all students to realize their potential in a rapidly changing, diverse, global society is expected of all stakeholders of the school system.

Assessments of student learning provide students with a variety of opportunities to demonstrate the achievement of the expectation for their learning.

Education is the key to opportunity and social mobility.

A safe and supportive learning environment promotes student achievement.

Students need to not only develop a deep understanding of essential knowledge and skills, but also need to develop the capacity to apply their learning, and to reason, solve problems, and produce quality work.

The chief priority of any school system should focus on learning across the system (student learning, professional learning, and organizational learning).

The development of a caring school community should be a priority for the school system.

The allocation of resources, in alignment with mission and goals, helps to maximize the opportunity for students to learn and experience success in school.

#### **VISION STATEMENT**

It is the vision of The School Board of Gadsden County that all students are prepared for success in a rapidly changing, diverse, global society through a variety of educational opportunities.

The district is committed to providing safe and supportive learning environments that ensure continuous progress towards high student achievement. Through the collaboration of a caring school community and the allocation of resources, aligned with mission and goals, the school district will maximize the opportunities for all students to succeed in life.

#### MISSION STATEMENT

The mission of Gadsden County School District is to Build a Brighter Future and to *Building a Brighter Future* prepare students for success in life.

#### LEGAL BASIS OF THE STUDENT PROGRESSION PLAN

#### F. S. 1008.25 Public school student progression; remedial instruction; reporting

**requirements.** .--It is the intent of the Legislature that each student's progression from one grade to another be determined, in part, upon proficiency in reading, writing, science, and mathematics; that district school board policies facilitate such proficiency; and that each student and his or her parent be informed of that student's academic progress.

#### COMPREHENSIVE PROGRAM - F.S. 1008.25 (2)

Each district school board shall establish a comprehensive program for student progression which must include the following:

- 1. Standards for evaluating each student's performance, including how well he or she masters the performance standards approved by the State Board of Education.
- 2. Specific Levels of performance in reading, writing, science and mathematics for each grade Level, including the Levels of performance on statewide assessments, as defined by the Commissioner of Education. If below Level performance is documented, the student must receive remediation or be retained within an intensive program that is different from the previous year's program and takes into account the student's learning style.
- 3. An appropriate alternative placement must be made for a student who has been retained two (2) or more years. For students retained in third grade who have been retained twice in the K-3 school years, an Intensive Acceleration Class is to be provided.

#### **ALLOCATION OF RESOURCES - F.S. 1008.25 (3)**

District school boards shall allocate remedial and supplemental instructional resources to students, with priority given to: students who are deficient in reading by the end of third grade and students who fail to meet performance Levels required for promotion, consistent with the District school board's plan for student progression required in # 2.

#### ASSESSMENT AND REMEDIATION - F.S. 1008.25 (4)

- (a) Each student must participate in the statewide assessment tests required by **F.S. 1008.22**. Each student who does not meet specific Levels of performance as determined by the district school board in reading, writing, science, and mathematics for each grade Level, or who scores below Level 3 in reading or math, must be provided with additional diagnostic assessments to determine the nature of the student's difficulty, the areas of academic need, and strategies for appropriate intervention and instruction as described in paragraph (b).
- (b) The school in which the student is enrolled must develop, in consultation with the student's parent, and must implement a **progress monitoring plan**. A progress monitoring plan is intended to provide the school district and the school flexibility in meeting the academic needs of the student and to reduce paperwork. A student who is not meeting the school district or state requirements for proficiency in reading and math shall be covered by one of the following plans to target instruction and identify ways to improve his or her academic achievement:
  - 1. A federally required student plan such as an individual education plan;

- 2. A school-wide system of progress monitoring for all students; or
- 3. An individualized progress monitoring plan.

  The plan chosen must be designed to assist the student or the school in meeting state and district expectations for proficiency. If the student has been identified as having a deficiency in reading, the K-12 comprehensive reading plan required by **F.S. 1011.62(9)** shall include instructional and support services to be provided to meet the desired Levels of performance. District school boards may require low-performing students to attend remediation programs held before or after regular school hours or during the summer if transportation is provided.
- (c) Upon subsequent evaluation, if the documented deficiency has not been remediated, the student may be retained. Each student who does not meet the minimum performance expectations defined by the Commissioner of Education for the statewide assessment tests in reading, writing, science, and mathematics must continue to be provided with remedial or supplemental instruction until the expectations are met or the student graduates from high school or is not subject to compulsory school attendance.

#### READING DEFICIENCY AND PARENTAL NOTIFICATION - F.S. 1008.25 (5)

- (a) It is the ultimate goal of the Legislature that every student read at or above grade Level. Any student who exhibits a substantial deficiency in reading, based upon locally determined or statewide assessments conducted in kindergarten or grade 1, grade 2, or grade 3, or through teacher observations, must be given intensive reading instruction immediately following the identification of the reading deficiency. The student's reading proficiency must be reassessed by locally determined assessments or through teacher observations at the beginning of the grade following the intensive reading instruction. The student must continue to be provided with intensive reading instruction until the reading deficiency is remedied.
- (b) Beginning with the 2002-2003 school year, if the student's reading deficiency, as identified in paragraph (a), is not remedied by the end of grade 3, as demonstrated by scoring at Level 2 or higher on the statewide assessment test in reading for grade 3, the student must be retained.
- (c) The parent of any student who exhibits a substantial deficiency in reading, as described in paragraph (a), must be notified in writing of the following:
  - 1. That his or her child has been identified as having a substantial deficiency in reading.
  - 2. A description of the current services that are provided to the child.
  - 3. A description of the proposed supplemental instructional services and supports that will be provided to the child that are designed to remediate the identified area of reading deficiency.
  - 4. That if the child's reading deficiency is not remediated by the end of grade 3, the

- child must be retained unless he or she is exempt from mandatory retention for "good cause".
- 5. Strategies for parents to use in helping their child succeed in reading proficiency.
- 6. That the Florida Comprehensive Assessment Test (FCAT) is not the sole determiner of promotion and that additional evaluations, portfolio reviews, and assessments are available to the child to assist parents and the school district in knowing when a child is reading at or above grade Level and ready for grade promotion.
- 7. The district's specific criteria and policies for midyear promotion. (Midyear promotion means promotion of a retained student at any time during the year of retention once the student has demonstrated ability to read at grade Level.)

#### **ELIMINATION OF SOCIAL PROMOTION - F.S. 1008.25 (6)**

- (a) No student may be assigned to a grade Level based solely on age or other factors that constitute social promotion.
- (b) The district school board may only exempt students from mandatory retention for "good cause". "good cause" exemptions shall be limited to the following:
  - 1. Limited English proficient students who have had less than 2 years of instruction in an English for Speakers of Other Languages program.
  - 2. Students with disabilities whose individual education plan indicates that participation in the statewide assessment program is not appropriate, consistent with the requirements of State Board of Education rule.
  - 3. Students who demonstrate an acceptable Level of performance on an alternative standardized reading assessment approved by the State Board of Education.
  - 4. Students who demonstrate, through a student portfolio, that the student is reading on grade Level as evidenced by demonstration of mastery of the Next Generation Sunshine State Standards in reading equal to at least a Level 2 performance on the FCAT.
  - 5. Students with disabilities who participate in the FCAT and who have an individual education plan or a Section 504 plan that reflects that the student has received intensive remediation in reading for more than 2 years but still demonstrates a deficiency in reading and was previously retained in kindergarten, grade 1, grade 2, or grade 3.
  - 6. Students who have received intensive remediation in reading for 2 or more years but still demonstrate a deficiency in reading and who were previously retained in kindergarten, grade 1, grade 2, or grade 3 for a total of 2 years. Intensive reading instruction for students so promoted must include an altered instructional day that

includes specialized diagnostic information and specific reading strategies for each student. The district school board shall assist schools and teachers to implement reading strategies that research has shown to be successful in improving reading among low-performing readers.

- (c) Requests for "good cause" exemptions for students from the mandatory retention requirement as described in **F.S. 1008.25** (b)3 and 4 shall be made consistent with the following:
  - 1. Documentation shall be submitted from the student's teacher to the school principal that indicates that the promotion of the student is appropriate and is based upon the student's academic record. In order to minimize paperwork requirements, such documentation shall consist only of the existing progress monitoring plan, individual educational plan, if applicable, report card, or student portfolio.
  - 2. The school principal shall review and discuss such recommendation with the teacher and make the determination as to whether the student should be promoted or retained. If the school principal determines that the student should be promoted, the school principal shall make such recommendation in writing to the district school Superintendent. The district school Superintendent shall accept or reject the school principal's recommendation in writing.

#### SUCCESSFUL PROGRESSION FOR RETAINED READERS - F.S. 1008.25 (7)

- 1. Students retained due to a deficiency in reading must be provided intensive interventions in reading to improve the student's specific reading deficiency, as identified by a valid and reliable diagnostic assessment. This intensive intervention must include effective instructional strategies, participation in the school district's summer reading camp, and appropriate teaching methodologies necessary to assist those students in becoming successful readers, able to read at or above grade Level, and ready for promotion to the next grade.
- 2. Beginning with the 2004-2005 school year, each school district shall:
  - 1. Conduct a review of student progress monitoring plans for all students who did not score above Level 1 on the reading portion of the FCAT and did not meet the criteria for one of the "good cause" exemptions in **F.S. 1008.25(6)(b).** The review shall address additional supports and services, as described in this subsection, needed to remediate the identified areas of reading deficiency. The school district shall require a student portfolio to be completed for each such student.
  - 2. Provide students who are retained under the provisions of paragraph (5)(b) with intensive instructional services and supports to remediate the identified areas of reading deficiency, including a minimum of 90 minutes of daily, uninterrupted, scientifically research-based reading instruction and other strategies prescribed by the school district, which may include, but are not limited to:
    - a. Small group instruction.

- b. Reduced teacher-student ratios.
- c. More frequent progress monitoring.
- d. Tutoring or mentoring.
- e. Transition classes containing 3rd and 4th grade students.
- f. Extended school day, week, or year.
- g. Summer reading camps.
- 3. Provide written notification to the parent of any student who is retained under the provisions of **F.S. 1008.25** (**5**)(**b**) that his or her child has not met the proficiency Level required for promotion and the reasons the child is not eligible for a "good cause" exemption as provided in **F.S. 1008.25**(**6**)(**b**). The notification must comply with the provisions of **F.S. 1008.25**(**15**) and must include a description of proposed interventions and supports that will be provided to the child to remediate the identified areas of reading deficiency.
- 4. Implement a policy for the midyear promotion of any student retained under the provisions of **F.S. 1008.25(5)(b)** who can demonstrate that he or she is a successful and independent reader, reading at or above grade Level, and ready to be promoted to grade 4. Tools that school districts may use in reevaluating any student retained may include subsequent assessments, alternative assessments, and portfolio reviews, in accordance with rules of the State Board of Education. Students promoted during the school year after November 1 must demonstrate proficiency above that required to score at Level 2 on the grade 3 FCAT, as determined by the State Board of Education. The State Board of Education shall adopt standards that provide a reasonable expectation that the student's progress is sufficient to master appropriate 4th grade Level reading skills.
- 5. Provide students who are retained under the provisions of **F.S. 1008.25(5)(b)** with a high-performing teacher as determined by student performance data and above-satisfactory performance appraisals.
- 6. Provide parents of students to be retained with at least one of the following instructional options:
  - a. Supplemental tutoring in scientifically research-based reading services in addition to the regular reading block, including tutoring before and/or after school.
  - b. A "Read at Home" plan outlined in a parental contract, including participation in "Families Building Better Readers Workshops" and regular parent-guided home reading.

- c. A mentor or tutor with specialized reading training.
- 7. Establish a Reading Enhancement and Acceleration Development (READ) Initiative. The focus of the READ Initiative shall be to prevent the retention of grade 3 students and to offer intensive accelerated reading instruction to grade 3 students who failed to meet standards for promotion to grade 4 and to each K-3 student who is assessed as exhibiting a reading deficiency. The READ Initiative shall:
  - a. Be provided to all K-3 students at risk of retention as identified by the statewide assessment system used in Reading First schools. The assessment must measure phonemic awareness, phonics, fluency, vocabulary, and comprehension.
  - b. Be provided during regular school hours in addition to the regular reading instruction.
  - c. Provide a state-identified reading curriculum that has been reviewed by the Florida Center for Reading Research at Florida State University and meets, at a minimum, the following specifications:
    - (I) Assists students assessed as exhibiting a reading deficiency in developing the ability to read at grade Level.
    - (II) Provides skill development in phonemic awareness, phonics, fluency, vocabulary, and comprehension.
    - (III) Provides scientifically based and reliable assessment.
    - (IV) Provides initial and ongoing analysis of each student's reading progress.
    - (V) Is implemented during regular school hours.
    - (VI) Provides a curriculum in core academic subjects to assist the student in maintaining or meeting proficiency Levels for the appropriate grade in all academic subjects.
- 8. Establish at each school, where applicable, an Intensive Acceleration Class for retained grade 3 students who subsequently score at Level 1 on the reading portion of the FCAT. The focus of the Intensive Acceleration Class shall be to increase a child's reading Level at least two grade Levels in 1 school year. The Intensive Acceleration Class shall:
  - a. Be provided to any student in grade 3 who scores at Level 1 on the reading portion of the FCAT and who was retained in grade 3 the prior year because of scoring at Level 1 on the reading portion of the FCAT.
  - b. Have a reduced teacher-student ratio.
  - c. Provide uninterrupted reading instruction for the majority of student contact time each day and incorporate opportunities to master the grade 4 Next Generation Sunshine State Standards in other core subject areas.
  - d. Use a reading program that is scientifically research-based and has proven results in accelerating student reading achievement within the

- same school year.
- e. Provide intensive language and vocabulary instruction using a scientifically research-based program, including use of a speech-language therapist.
- f. Include weekly progress monitoring measures to ensure progress is being made.
- g. Report to the Department of Education, in the manner described by the department, the progress of students in the class at the end of the first semester.
- 9. Report to the State Board of Education, as requested, on the specific intensive reading interventions and supports implemented at the school district Level. The Commissioner of Education shall annually prescribe the required components of requested reports.
- 10. Provide a student who has been retained in grade 3 and has received intensive instructional services but is still not ready for grade promotion, as determined by the school district, the option of being placed in a transitional instructional setting. Such setting shall specifically be designed to produce learning gains sufficient to meet grade 4 performance standards while continuing to remediate the areas of reading deficiency.

#### **ANNUAL REPORT - F.S. 1008.25 (8)**

- (a) Each district school board must annually report to the parent of each student the progress of the student toward achieving state and district expectations for proficiency in reading, writing, science, and mathematics. The district school board must report to the parent the student's results on each statewide assessment test. The evaluation of each student's progress must be based upon the student's classroom work, observations, tests, district and state assessments, and other relevant information. Progress reporting must be provided to the parent in writing in a format adopted by the district school board.
- (b) Each district school board must annually publish in the local newspaper, and report in writing to the State Board of Education by September 1 of each year, the following information on the prior school year. The provisions of this section relating to public school student progression and the district school board's policies and procedures on student retention and promotion include:
  - 1. By grade, the number and percentage of all students in grades 3 through 10 performing at Levels 1 and 2 on the reading portion of the FCAT.
  - 2. By grade, the number and percentage of all students retained in grades 3 through 10.
  - 3. Information on the total number of students who were promoted for "good cause", by each category of "good cause" as specified in **F. S.1008.25(6)(b)**.
  - 4. Any revisions to the district school board's policy on student retention and promotion from the prior year.

#### PROGRESS MONITORING PLAN

Each student who does not meet specific Levels of performance as determined by the district School Board in reading, writing, mathematics and science, as defined in the progression section, must be provided additional diagnostic assessments to determine the nature of the student's difficulty and areas of academic need. Assessment results and notification of an academic deficiency will be shared with parent/guardian in a formal conference or by mail. The teacher and counselor, in consultation with the student's parent/guardian, must develop a Progress Monitoring Plan (PMP) to assist the student in meeting state and district expectations for proficiency.

A PMP is required for all students scoring a Level 1 in reading and/or math in grades 3-10, and science in grade 11. The plan must include intensive remedial instruction in the areas of weakness. Schools are expected to provide strategies that meet the needs of students. These strategies may include but are not limited to dropout prevention services, parent tutorial programs, contracted academic services, exceptional student education services, modified curriculum, reading instruction, after-school and other extended day services, tutoring, mentoring, and intensive skills development programs. **F.S. 1008.25(4)(b)(c)** 

The Progress Monitoring Plan should provide the following information:

- Clearly identify the specific diagnosed academic needs to be remediated,
- Clearly identify the proven research-based intervention strategies to be used,
- Clearly identify a variety of remedial instruction to be provided, and
- Clearly identify the monitoring and re-evaluation activities to be used

If the student has been identified with a reading deficiency, Gadsden County School District's K-12 Comprehensive Reading Plan dictates that instructional and support services will be provided to desired Levels of performance.

\_\_\_\_

Additionally, if subsequent evaluation determines that the deficiency has not been remediated, the student may be retained. Each student who does not meet minimum performance expectations for the statewide assessment tests in reading, writing, science, and mathematics must continue remedial or supplemental instruction until expectations are met, or the student graduates from high school, or the student is not subject to compulsory school attendance.

#### ASSESSMENT OF STUDENT PERFORMANCE

**F.S. 1008.24(4)** states that each student must participate in the Statewide Assessment Testing Program (Florida Comprehensive Assessment Test - FCAT) that measures achievement of the Next Generation Sunshine State Standards.

The FCAT is administered by content area and grade Levels as follows:

- FCAT Reading and Mathematics are administered at grades 3-10
- **FCAT Science** is administered at grades 5, 8, and 11.
- **FCAT Writes** is administered at grades 4, 8, and 10.

In addition to the required state assessments, the Gadsden County School District has identified various methods of assessing students' progress:

- The Stanford 10 nationally normed standardized achievement test is used at grades 1 and 2 to determine student achievement Levels in reading
- District produced assessments will provide consistent documentation of performance regarding Next Generation Sunshine State Standards
- Other school/district developed assessments may be used to measure student performance

#### STUDENT ATTENDANCE

- **F. S. 1003.21 (1)(a)** requires all children who have attained the age of 6 years or who will have attained the age of 6 years by February 1 of any school year or who are older than 6 years of age but who have not attained the age of 16 years, except as otherwise provided, are required to attend school regularly during the entire school term.
- **F.S. 1003.21(1)(a) 2.** Children who will have attained the age of 5 years on or before September 1 of the school year are eligible for admission to public kindergartens during that school year under rules adopted by the district school board.
  - (a) Any child who has attained the age of 6 years on or before September 1 of the school year and who has been enrolled in a public school or who has attained the age of 6 years on or before September 1 and has satisfactorily completed the requirements for kindergarten in a private school from which the district school board accepts transfer of academic credit, or who otherwise meets the criteria for admission or transfer in a manner similar to that applicable to other grades, shall progress according to the district's student progression plan. However, nothing in this section shall authorize the state or the school

\_\_\_\_

district to oversee or exercise control over the curricula or academic programs of private schools or home education programs.

- (b) A student who attains the age of 16 years during the school year is not subject to compulsory school attendance beyond the date upon which he or she attains that age if the student files a formal declaration of intent to terminate school enrollment with the district School Board. Public school students who have attained the age of 16 years and who have not graduated are subject to compulsory school attendance until the formal declaration of intent is filed with the district School Board. The declaration must acknowledge that terminating school enrollment is likely to reduce the student's earning potential and must be signed by the student and the student's parent. The school district must notify the student's parent of receipt of the student's declaration of intent to terminate school enrollment. The guidance counselor or other school personnel must conduct an exit interview with the student to determine the reasons for the student's decision to terminate school enrollment and actions that could be taken to keep the student in school. The student must be informed of opportunities to continue his or her education in a different environment, including, but not limited to, adult education and GED test preparation. Additionally, the student must complete a survey provided by the Department of Education to provide data on student reasons for terminating enrollment and actions taken by schools to keep students enrolled.
- (c) Students who become or have become married and students who are pregnant shall not be prohibited from attending school. These students and students who are parents shall receive the same educational instruction or its equivalent as other students, but may voluntarily be assigned to a class or program suited to their special needs. Consistent with F.S. 1003.54, pregnant or parenting teens may participate in a teenage parent program. Pregnant students may attend alternative education programs or adult education programs, provided that the curriculum allows the student to continue to work toward a high school diploma.
- (d) Consistent with rules adopted by the State Board of Education, children with disabilities who have attained the age of 3 years shall be eligible for admission to public special education programs and for related services. Children with disabilities younger than 3 years of age who are deaf or hard of hearing; visually impaired; dual sensory impaired; orthopedically impaired; other health impaired; who have experienced traumatic brain injury; who have autism spectrum disorder; established conditions, or who exhibit developmental delays or intellectual disabilities may be eligible for special programs and may receive services in accordance with rules of the State Board of Education. Rules for the identification of established conditions for children birth through 2 years of age and developmental delays for children birth through 5 years of age must be adopted by the State Board of Education.
- (e) Children and youths who are experiencing homelessness and children who are known to the Department, as defined in F.S. 39.0016, must have access to a free public education and must be admitted to school in the school district in which they or their families live.

School districts shall assist such children in meeting the requirements of **F. S. 1003.21(4)** and **F.S. 1003.22**, as well as local requirements for documentation.

- **F. S. 1003.21** (4) Before admitting a child to kindergarten, the principal shall require evidence that the child has attained the age at which he or she should be admitted in accordance with the provisions of **F. S. 1003.21(1)(a)2**. The district school Superintendent may require evidence of the age of any child whom he or she believes to be within the limits of compulsory attendance as provided for by law. If the first prescribed evidence is not available, the next evidence obtainable in the order set forth below shall be accepted:
  - (a) A duly attested transcript of the child's birth record filed according to law with a public officer charged with the duty of recording births;
  - (b) A duly attested transcript of a certificate of baptism showing the date of birth and place of baptism of the child, accompanied by an affidavit sworn to by the parent;
  - (c) An insurance policy on the child's life that has been in force for at least 2 years;
  - (d) A bona fide contemporary religious record of the child's birth accompanied by an affidavit sworn to by the parent;
  - (e) A passport or certificate of arrival in the United States showing the age of the child;
  - (f) A transcript of record of age shown in the child's school record of at least 4 years prior to application, stating date of birth; or
  - (g) If none of these evidences can be produced, an affidavit of age sworn to by the parent, accompanied by a certificate of age signed by a public health officer or by a public school physician, or, if these are not available in the county, by a licensed practicing physician designated by the district school board, which states that the health officer or physician has examined the child and believes that the age as stated in the affidavit is substantially correct. Children and youths who are experiencing homelessness and children who are known to the Department, as defined in **F.S.39.0016**, shall be given temporary exemption from this section for 30 school days.

#### ENFORCEMENT OF SCHOOL ATTENDANCE / TRUANCY

- **F.S. 1003.26** states that the Legislature finds poor academic performance is associated with nonattendance and school districts must take an active role in promoting and enforcing attendance as a means of improving student performance. It is the policy of the state that each Superintendent be responsible for enforcing school attendance of all students subject to the compulsory school age in the school district and supporting enforcement of school attendance by local law enforcement agencies. School board policies require the parent of a student to justify each absence of the student, and that justification will be evaluated based on adopted district School Board policies that define excused and unexcused absences. The policies provide that schools track excused and unexcused absences and contact the home in the case of an unexcused absence from school, or an absence from school for which the reason is unknown, to prevent the development of patterns of nonattendance. The Legislature finds that early intervention in school attendance is the most effective way of producing good attendance habits that will lead to improved student learning and achievement. Each public school shall implement the following steps to promote and enforce regular school attendance:
  - (1) (a) Upon each unexcused absence, or absence for which the reason is unknown, the school principal or his or her designee shall contact the student's parent to determine the reason for the absence. If the absence is an excused absence, as defined by district school board policy, the school shall provide opportunities for the student to make up assigned work and not receive an academic penalty unless the work is not made up within a reasonable time.
  - (b) If a student has had at least five (5) unexcused absences, or absences for which the reasons are unknown, within a calendar month or 10 unexcused absences, or absences for which the reasons are unknown, within a 90-calendar-day period, the student's primary teacher shall report to the principal or his or her designee that the student may be exhibiting a pattern of nonattendance. The principal shall, unless there is clear evidence that the absences are not a pattern of nonattendance, refer the case to the school's child study team to determine if early patterns of truancy are developing. If the child study team finds that a pattern of nonattendance is developing, whether the absences are excused or not, a meeting with the parent must be scheduled to identify potential remedies, and the principal shall notify the Superintendent and the school district contact for home education programs that the referred student is exhibiting a pattern of nonattendance.
  - (c) If an initial meeting does not resolve the problem, the child study team shall implement the following:
    - 1. Frequent attempts at communication between the teacher and the family.
    - 2. Evaluation for alternative education programs.
    - 3. Attendance contracts.

The child study team may, but is not required to, implement other interventions, including referral to other agencies for family services or recommendation for filing a truancy petition pursuant to **F.S. 984.151**.

- (d) The child study team shall be diligent in facilitating intervention services and shall report the case to the Superintendent only when all reasonable efforts to resolve the nonattendance behavior are exhausted.
- (e) If the parent refuses to participate in the remedial strategies because he or she believes that those strategies are unnecessary or inappropriate, the parent may appeal to the School Board. The School Board may provide a hearing officer, and the hearing officer shall make a recommendation for final action to the School Board. If the School Board's final determination is that the strategies of the child study team are appropriate, and the parent still refuses to participate or cooperate, the Superintendent may seek criminal prosecution for noncompliance with compulsory school attendance.
- (f)1. If the parent of a child who has been identified as exhibiting a pattern of nonattendance enrolls the child in a home education program pursuant to **chapter 1002** of the Florida Statutes, the Superintendent shall provide the parent a copy of **F.S. 1002.41** and the accountability requirements of this paragraph. If the district school Superintendent chooses not to file a truancy petition, procedures for filing a child-in-need-ofservices petition shall be commenced pursuant to this subsection and chapter 984. In accordance with procedures established by the district school board, the designated school representative shall refer a student who is habitually truant and the student's family to the children-in-need-ofservices and families-in-need-of-services provider or the case staffing committee, established pursuant to F.S. 984.12, as determined by the cooperative agreement required in this section. The case staffing committee may request the Department of Juvenile Justice or its designee to file a child-in-need-of-services petition based upon the report and efforts of the district School Board or other community agency or may seek to resolve the truant behavior through the school or community-based organizations or agencies. Prior to and subsequent to the filing of a child-inneed-of-services petition due to habitual truancy, the appropriate governmental agencies must allow a reasonable time to complete actions required by this section and F.S. 1003.26 to remedy the conditions leading to the truant behavior. Prior to the filing of a petition, the district School Board must have complied with the requirements of F.S. 1003.26, and those efforts must have been unsuccessful.

If a parent is ordered to attend school with a student, the school shall provide for programming to educate the parent and student on the importance of school attendance. It shall be unlawful to terminate any employee solely because he or she is attending school with his or her child pursuant to a court order.

# GENERAL PROCEDURES FOR PROMOTION AND ALTERNATIVE ASSIGNMENT IN GRADES K-5

- (1) No student may be assigned to a grade Level based solely on age or other factors that constitute social promotion. Each student must participate in the statewide assessment tests required by s.1008.22. A student not meeting the specified Levels of performance in reading, writing, mathematics, and/or science as defined herein, must be provided with additional diagnostic assessment to determine the nature of the student's difficulties and areas of academic need. Based upon the results of statewide assessments or based on teacher recommendation, a student who is substantially deficient in reading, mathematics, science, and/or writing skills will be given intensive instruction following the identification of the deficiency. Intensive instruction may include, but is not limited to, participation in tutoring, mentoring, or curriculum modification. The student's proficiencies will be reassessed at the beginning of the following grade, and, if any deficiency is still present, the student will be given additional intensive instruction different from the previous year that takes into account the student's learning style on an ongoing basis until the deficiency has been remediated, or he/she graduates from high school or is not subject to compulsory attendance.
- (2) The district's Reading Enhancement and Acceleration Development (READ) Initiative will be made available to all K-3 students who are at risk of retention as identified by its assessment system that measures phonemic awareness, phonics, fluency, vocabulary, and comprehension. The services, which are grounded in the State of Florida reading curriculum, will be provided during regular school hours in addition to regular reading instruction. Each elementary school shall regularly assess the reading ability of each K-3 student.
- (3) The district School Board shall assist schools and teachers to implement reading strategies that research has shown to be successful in improving reading among low performing\_readers.\_The parent of any student must be immediately notified in writing if his/her child has been identified as having a substantial deficiency in reading. The notification must include a description and explanation of the services currently being provided to the child and the proposed supplemental services and supports that will be provided to the child that are designed to remediate the identified area of reading deficiency. Strategies must be included for parents to use in helping their child succeed in reading proficiency. The parent will be notified if the child's reading deficiency is not remediated by the end of grade 3, the child must be retained unless he or she is exempt from mandatory retention for "good cause".
- (4) "Good cause" exemptions shall apply only to a student in grades 1-8 who has not met certain requirements for promotion to the next higher grade. "good cause" exemptions shall be limited to the following:
  - a. A student with limited English proficiency who has had less than two (2) years of instruction in English for Speakers of Other Languages (ESOL);

- b. A student with a disability whose Individual Education Plan indicates that participation in the statewide assessment program is not appropriate, consistent with the requirements of State Board of Education rule;
- c. A student who demonstrates an acceptable Level of performance on a district and State approved alternative standardized reading assessment;
- d. A student who demonstrates, through a student portfolio, that he/she is reading on grade Level as evidenced by demonstration of mastery on the Next Generation Sunshine State Standards in reading equal to at least a Level 2 performance on the FCAT:
- e. A student who demonstrates through a portfolio that promotion requirements have been met in other applicable subject areas;
- f. A student with a disability, who has been previously retained in the K-3 grade, who participates in the FCAT, and who has an individual education plan or a 504 plan that reflects that the student has received intensive remediation in reading for more than 2 years but still demonstrates a deficiency in reading;
- g. A K-3 student who has received intensive remediation in reading for 2 or more years but still demonstrates a deficiency in reading and/or mathematics, and who was previously retained in the K-3 grade for 2 or more years; and/or
- h. A 4-8 student who has received intensive remediation in reading and/or mathematics for 2 or more years in the 4-8 grade group but still demonstrates a deficiency in reading and/or mathematics and who was previously retained for 2 or more years in the 4-8 grade or combined retentions of 3 years in the K-8 grade group.

A student promoted under either of the conditions in section "g" must have met other applicable promotion requirements. Additionally, the student must be provided intensive reading and/or mathematics instruction in an altered instructional day based upon a plan (AIP/IEP/MSSP/LEP) that includes individually specific diagnostic information and specific reading and/or mathematics strategies for the student.

- (5) Request for "good cause" exemptions for a student who demonstrates acceptable performance in reading through alternative standardized reading assessment, or through a student portfolio of Next Generation Sunshine State Standards mastery, shall adhere to the following guidelines:
  - a. Documentation shall be submitted from the student's teacher to the school principal indicating that the promotion of the student is appropriate and is based upon the student's academic record. In order to minimize paperwork requirements, such documentation shall consist only of the current AIP/IEP, report card, or student portfolio.
  - b. The school principal shall review and discuss the request with the teacher and make a determination as to whether the student should be promoted or retained. If the school principal determines that the student should be promoted, the school principal shall make such recommendation in writing to the district school Superintendent. The Superintendent shall accept or reject the school principal's

\_\_\_\_

- recommendation in writing.
- c. In each case of promotion based on "good cause", the student's report card should indicate "grade placement by alternative assignment." Parents should be notified formally in writing that their child is being alternatively assigned to the next higher grade, the reason(s) for the assignment, and the name of the principal who approved the placement. A copy of this notification should be placed in the student's cumulative guidance record.
- (6) A Limited English Proficient (LEP) student is required to meet the same standards for promotion/graduation as non-LEP student unless the LEP student has been enrolled in the ESOL program less than 2 years. In such case the promotion requirements are waived. An LEP student must receive language arts/English instruction through ESOL (English for speakers of other languages). An LEP student may not be failed if instructional strategies, materials, and testing have not been appropriately modified and documented to meet his/her needs. A student cannot be retained based solely on English language proficiency or based on the results of any single assessment instrument. Promotion of an LEP student in any grade other than grade 3, who has not met district criteria for promotion, must be based on the recommendation of the AIP/LEP committee. An LEP student may be retained only through the action of an LEP committee.
- (7) The assignment of a student in grades K-8 to a higher grade Level which results in the student's skipping of a grade, or part of a grade, should be made only on the basis of exceptionally high achievement by the student and evidence that the student will benefit more from the instructional program at the higher grade Level. The probable long-range academic, social and emotional effects of the decision should be considered. The principal has the responsibility for recommending such assignment. A student will not be accelerated without parental consent and approval of the Superintendent. The student's report card should be noted to indicate, "accelerated grade placement." Parent(s) should be notified in writing that their child is receiving an accelerated grade placement to the next higher grade, the reasons(s) for the assignment, and the name of the principal who initiated and approved the placement. A copy of the notification should be placed in the student's cumulative guidance record.
- (8) Any student (grades 3-8) who is currently retained because of one (1) course failure and/or failure of one (1) FCAT section for the same course will be allowed to take courses at the next higher grade Level while simultaneously being remediated for the course and/or FCAT section failed if the FCAT SSS Level 1 score is no more than fifty (50) points below Level 2. This is a concept referred to as "Bridging". If the student is retained for failing two (2) or more courses and/or two or more sections of FCAT, the student may not be bridged. Also, if the student fails one course and not the same corresponding section on the FCAT, the student may not be bridged. If a student is bridged and has to transfer to another school, the transfer will be approved on a space available basis. Upon meeting the criteria for promotion, as determined by the principal of the school at which the student is enrolled, the student may be promoted to the next higher grade.

Student Progression Plan 2011-2012

- (9) Any student (K-8 except 3<sup>rd</sup> grade) who has been retained in his/her current grade and who meets promotion requirements by demonstrating proficiency/mastery, may be reassigned at any time during the next school year to the next higher grade, upon recommendation of the principal, in consultation with teacher(s), and approval of the Superintendent. This reassignment should occur at the end of a grading period if such assignment results in the student being transferred to another school. To be eligible for mid-year promotion after November 1, a student in third grade must demonstrate mastery of reading skills consistent with the month of promotion to fourth grade. Evidence of demonstrated mastery is as follows:
  - 1. Successful completion of portfolio elements that meet state criteria
  - 2. Satisfactory performance on a locally-selected standardized assessment.

To promote a student using a portfolio as a "good cause" exemption, there must be evidence that demonstrates the student's mastery of the Next Generation Sunshine State Standards in reading equal to at least a Level 2 performance on the Grade 3 FCAT Reading. Such evidence must be an organized collection of the student's mastery of the Sunshine State Standard Benchmarks for Language Arts that are assessed by the Grade 3 FCAT Reading.

# The student portfolio must meet the following requirements:

- Be selected by the student's teacher.
- Be an accurate picture of the student's ability and include only student work that has been independently produced in the classroom.
- Include evidence of mastery of the benchmarks assessed by the grade 3 Reading FCAT. For each benchmark, there must be three examples of mastery as demonstrated by a grade of "C" or better.
- Include evidence that the benchmarks assessed by the Grade 3 FCAT Reading have been met. Evidence is to include multiple choice items and passages that are approximately sixty (60) percent literary text and forty (40) percent information text, and that are between 100-700 words with an average of 500 words. Such evidence could include chapter or unit tests from the district's/school's adopted core reading curriculum that are aligned with the Next Generation Sunshine State Standards or teacher-prepared assessments.
- Be an organized collection of evidence of the student's mastery of the Sunshine State Standard Benchmarks for Language Arts that are assessed by the Grade 3 FCAT Reading. For each benchmark, there must be at least three (3) examples of mastery as demonstrated by a grade of "C" or above, and
- Be signed by the teacher and the principal as an accurate assessment of the required reading skills.

# Mid-Year Promotion For Retained Third Graders F.S. 1008.25 (7)(B)4

Mid-year promotion is an option for any retained 3rd grade student who can demonstrate that he or she is a *successful and independent reader* at or above grade Level and is ready to be promoted to grade 4. When promoting a student mid-year using a locally-selected standardized assessment, there must be evidence that the student scored at or above grade Level in reading comprehension, as demonstrated by standard scores or percentiles, consistent with the month of promotion to fourth grade.

\_\_\_\_\_

Schools can make the determination for mid-year promotion using:

- Subsequent Assessments
- Alternative Assessments
- Portfolio Review in accordance with the State Board of Education Rules governing third grade portfolios:
  - Must be selected by the student's teacher
  - o Be an accurate picture of the student's ability and include only student work that has been independently produced in the classroom
  - Include evidence of mastery of the benchmarks assessed by the grade 3 Reading FCAT
  - Include evidence of beginning mastery of grade 4 benchmarks that are assessed by the grade 4 Reading FCAT
    - Multiple choice
    - Short response
- (1) Students that have been in the third grade for three consecutive years (Tier 3 students) must be provided grade Level work for the subject areas that are not at risk. Districts must provide all Tier 3 students with intervention instruction and the option of being placed in a transitional instructional setting.
- (2) The teacher and/or the Student Study Team must carefully evaluate any student who appears to be having difficulty meeting course requirements for promotion. Any student who is retained should receive counseling services and be referred to the Student Study Team for further evaluation by appropriately certificated specialists.
- (3) The school will annually report in writing, to the parent of each student, the progress being made by the student toward achieving state and district grade Level expectations for proficiency in reading, writing, science, social studies, and mathematics. The school will also report to the parent, the results of the student's performance on each state assessment test. The evaluation of each student's progress must be based upon the student's classroom work, observations, tests, district and state assessments, and other relevant information. Progress reporting must be provided to the parent in writing in a format adopted by the district School Board. The district School Board must annually publish in the local newspaper, and report in writing to the State Board of Education by September 1<sup>st</sup> of each year, the following information on the prior school year: 1. The provisions of this section relating to public school student progression and the district School Board's policies and procedures on student retention and promotion. 2. By grade, the number and percentage of all students in grades 3 through 10 performing at Levels 1 and 2 on the reading portion of the FCAT. 3. By grade the number and percentage of all students retained in grades 3 through 10. 4. Information on the total number of students who were promoted for "good cause", by each category of "good cause". 5. Any revisions to the district School Board's policy on student retention and promotion from the prior year.
- (4) Schools shall provide for the frequent monitoring of the student's progress in meeting the desired Levels of performance. This monitoring should take the form of daily, weekly or

chapter exams; teacher observations; or any district assessment. Parents or adult students will be notified in writing at any time during a grading period when it is apparent that the student may fail or is doing unsatisfactory work in any course or grade assignment. Parents or adult students will also be notified in writing at any time during the school year when it is apparent that the student may be retained and may not be eligible for a "good cause" exemption. An acknowledgment of such notification should be obtained and retained by the school. The opportunity for a conference with the teacher, principal or other school official is available to any parent or adult student. Notification to the parent or adult student as specified herein shall be deemed to be directory only, and the failure to so notify the parent or adult student shall not negate or invalidate the action taken.

- (5) Students in grades 1 (one) through 10 (ten) are required to be assessed in reading and mathematics. Science and writing will be assessed at selected grade Levels. Based upon the results of statewide assessments, or teacher recommendation, a student who is substantially deficient in reading, writing, science, or mathematics skills will be provided an Academic Improvement Plan (AIP) and given intensive instruction following the identification of the deficiency. The student's deficiency will be reassessed at the beginning of the next school year, and, if any deficiency still exists, the student will be given additional intensive instruction until the deficiency has been remediated, graduates from high school or is not subject to compulsory school attendance. Remedial instruction provided during high school may not be in lieu of English and mathematics credits required for graduation.
- (6) A personalized middle school success plan will be developed and implemented for each entering sixth (6<sup>th</sup>) grade student who scored below Level 3 in reading on the most recently administered FCAT. The plan must be followed until the student completes the eighth (8<sup>th</sup>) grade or scores at Level 3 or above in reading on the FCAT. The success plan must identify educational goals and intermediate benchmarks for the student in the core curriculum areas; be based upon academic performance data and identification of strengths and weaknesses; include academic intervention strategies and frequency of monitoring, provide innovative methods to promote advancement, and other interventions that have been shown to accelerate the learning process. The success plan must be incorporated in the student's AIP, I.E.P, 504 Plan, and/or ESOL Plan as appropriate. Each principal of a school with grades 6, 7, or 8 shall designate a certified staff member at the school to administer the development and implementation.
- (7) The school will develop the Academic Improvement Plan in consultation with the student's parent(s) immediately following the identification of the deficiency. The plan must implement improvements designed to assist the student in meeting state and district expectations for proficiency. If the student has been identified as having a deficiency in reading the academic improvement plan shall identify the student's specific areas of deficiency in phonemic awareness, phonics, fluency, comprehension, and vocabulary; the desired Levels of performance in these areas; the instructional and support services to be provided to meet the desired Levels of performance. The district School Board shall assist schools and teachers to implement research-based reading activities that have been shown to be successful in teaching reading to low-performing students. The parents will be notified of the student's progress in correcting the deficiency at the end of each semester until the

- deficiency has been corrected. Upon subsequent evaluation, if the documented deficiency has not been remediated in accordance with the academic improvement plan, the student may be retained.
- (8) It is the intent of the Gadsden County School District to implement full accountability in terms of student performance as specified in Section 1008.25, Florida Statutes. If state assessment results are not available by the first day of post-school planning, promotions will be determined based on the other promotional criteria as specified in this Student Progression Plan. These may include, but are not limited to, the student's portfolio, performance on classroom work, teacher observation, and student performance on teacher-made test and/or district assessments.
- (9) Teachers of courses in Language Arts, Reading, English, Mathematics, Science, or Social Studies for grade Levels one (1) through ten (10) are required to maintain an individual student portfolio that serves as official documentation that the student has or has not mastered Next Generation Sunshine State Standards for that specific course.
- (10) The classroom teacher has the responsibility for assessing and grading each student's performance. The decision shall be based on some or all of the following:
  - 1. Daily observation of classroom performance
  - 2. Student performance of classroom/homework assignments
  - 3. Criterion reference and/or standardized achievement test results
  - 4. District produced tests
  - 5. Teacher-made tests
  - 5. Text-related test results
  - 6. Student portfolios

The earliest the alternative assessment may be administered for student promotion purposes is following administration of the Grade 3 FCAT Reading. An approved standardized reading assessment may be administered two (2) times if there are at least 30 days between administrations and different test forms are administered pursuant to SBE Rule **6A 1.094221(2)(d)**.

A 3<sup>rd</sup> grade student who is deficient in reading at the end of the school year, as demonstrated by not scoring at Level 2 or higher on the statewide assessment test (FCAT) must be retained unless exempted for "good cause".

# **Required Services for Certain Retained Third Grade Students**

- (1) Each school will review all AIP's for all retained third grade students who did not score above Level 1 on FCAT Reading and did not meet one of the "good cause" exemptions. Additional support and services will be offered to remedy the identified deficiencies. Additional support and services may take the form of supplemental tutoring in research based reading services; a "Read at Home Plan" outlined in a parental contract, including participation in "Families Building Better Readers Workshops" and regular parent-guided home reading; and/or a mentor or tutor with specialized training in reading.
- (2) In addition to the above, retained third grade students will be provided intensive instructional services and support to address their identified area of reading deficiency including a minimum of 90 minutes of daily, uninterrupted researched-based instruction and other strategies including but not limited to: Small group instruction, reduced

- teacher-student ratios; more frequent progress monitoring, tutoring or mentoring; transitional classes (Bridge), extended school day, week, or year, and/or summer reading camps.
- (3) For any Tier 3 students (grade 3 students who have been retained 2 or more years) who scored at Level 1 on the reading portion of the FCAT and who were retained in grade 3 the prior year, the district School Board shall allocate remedial and supplemental instruction resources to students who fail to meet performance Levels required for promotion consistent with the district School Board's plan for student progression required in paragraph (2)(b) by establishing an Intensive Acceleration Class (IAC). The IAC must have a reduced teacher-student ratio; provide uninterrupted reading instruction for the majority of the student contact time each day and incorporate opportunities to master the grade 4 Next Generation Sunshine State Standards in other core subject areas; use a reading program that is research-based with proven results in accelerating student reaching achievement within the same school year that is different from the previous years program; provide research-based intensive language and vocabulary instruction, including use of a speech language therapist; and weekly progress monitoring. progress of students in this class will be reported to the Department of Education at the end of the first semester.
- (4) All efforts will be made to ensure that third grade students have high-performing teachers as determined by student performance data and above-satisfactory performance appraisals.

#### PROMOTION CRITERIA FOR A STUDENT IN GRADES 4 THROUGH 5

In order to be promoted to the next grade, a student in grades 4 through 5 must receive passing grades in the areas of reading and/or language arts, process writing (where applicable), mathematics and science. A student must also score:

- (1) At or above Level 2 on FCAT Mathematics, or achieve a gain score on FCAT Mathematics representing at least a year's growth. In lieu of the FCAT mathematics requirement, a student may demonstrate mastery through the use of an approved mathematics portfolio or through a district/state approved alternative assessment by scoring at or above the 50<sup>TH</sup> percentile.
- (2) At or above Level 2 on FCAT Reading, or achieve a gain score on FCAT Reading representing at least a year's growth. In lieu of the FCAT reading requirement, a student may demonstrate mastery through the use of an approved reading portfolio or through a district/state approved alternative assessment by scoring at or above the 50<sup>TH</sup> percentile.
- (3) At or above Level 2 on FCAT Science for a student in grades five (5) or eight (8). In lieu of the FCAT science requirement, a student may demonstrate mastery through the use of a science portfolio or through a district/state approved alternative assessment by scoring at or above the 50<sup>TH</sup> percentile.
- (4) A 4.0 or higher on the FCAT Writes for students in grades four (4) and eight (8). Alternatively, a student's writing portfolio demonstrating mastery may be used in lieu of this requirement.

# MIDDLE GRADES STUDENT PROGRESSION PLAN

Student Progression Plan 2010-2012

# GENERAL PROCEDURES FOR PROMOTION AND ALTERNATIVE ASSIGNMENT IN GRADES 6-8

- (1) No student may be assigned to a grade Level based solely on age or other factors that constitute social promotion. Each student must participate in the statewide assessment tests required by s.1008.22. A student not meeting the specified Levels of performance in reading, writing, mathematics, and/or science as defined herein, must be provided with additional diagnostic assessment to determine the nature of the student's difficulties and areas of academic need. Based upon the results of statewide assessments or based on teacher recommendation, a student who is substantially deficient in reading, mathematics, science, and/or writing skills will be given intensive instruction following the identification of the deficiency. Intensive instruction may include, but is not limited to, participation in tutoring, mentoring, or curriculum modification. The student's proficiencies will be reassessed at the beginning of the following grade, and, if any deficiency is still present, the student will be given additional intensive instruction different from the previous year that takes into account the student's learning style on an ongoing basis until the deficiency has been remediated, graduates from high school or is not subject to compulsory attendance.
- (2) The district School Board shall assist schools and teachers to implement reading strategies that research has shown to be successful in improving reading among low performing\_readers. The parent of any student must be immediately notified in writing if his/her child has been identified as having a substantial deficiency in reading. The notification must include a description and explanation of the services currently being provided to the child and the proposed supplemental services and supports that will be provided to the child that are designed to remediate the identified area of reading deficiency. Strategies must be included for parents to use in helping their child succeed in reading proficiency. The parent will be notified if the child's reading deficiency is not remediated by the end of school year, the child must be retained unless he or she is exempt from mandatory retention for "good cause".
- (3) "Good cause" exemptions shall apply only to a student in grades 1-8 who has not met certain requirements for promotion to the next higher grade. "good cause" exemptions shall be limited to the following:
  - a. A student with limited English proficiency who has had less than two (2) years of instruction in English for Speakers of Other Languages (ESOL);
  - b. A student with a disability whose individual education plan indicates that participation in the statewide assessment program is not appropriate, consistent with the requirements of State Board of Education rule;
  - c. A student who demonstrates an acceptable Level of performance on a district and State approved alternative standardized reading assessment;
  - d. A student who demonstrates, through a student portfolio, that he/she is reading on grade Level as evidenced by demonstration of mastery on the Next Generation Sunshine State Standards in reading equal to at least a Level 2 performance on the FCAT;
  - e. A student who demonstrates through a portfolio that promotion requirements have

- been met in other applicable subject areas;
- f. A student with a disability, who has been previously retained in the K-3 grade group, who participates in the FCAT, and who has an individual education plan or a 504 plan that reflects that the student has received intensive remediation in reading for more than 2 years but still demonstrates a deficiency in reading; and/or
- g. A student in grades 4-8 who has received intensive remediation in reading and/or mathematics for 2 or more years in the 4-8 grade group but still demonstrates a deficiency in reading and/or mathematics and who was previously retained for 2 or more years in the 4-8 grade group or combined retentions of 3 years in the K-8 grade group.

A student promoted under the conditions in section "g" must have met other applicable promotion requirements. Additionally, the student must be provided intensive reading and/or mathematics instruction in an altered instructional day based upon a plan (AIP/IEP/MSSP/LEP) that includes individually specific diagnostic information and specific reading and/or mathematics strategies for the student.

- (4) Request for "good cause" exemptions for a student who demonstrates acceptable performance in reading through alternative standardized reading assessment, or through a student portfolio of Next Generation Sunshine State Standards mastery, shall adhere to the following guidelines:
  - a. Documentation shall be submitted from the student's teacher to the school principal indicating that the promotion of the student is appropriate and is based upon the student's academic record. In order to minimize paperwork requirements, such documentation shall consist only of the current AIP/IEP, report card, or student portfolio.
  - b. The school principal shall review and discuss the request with the teacher and make a determination as to whether the student should be promoted or retained. If the school principal determines that the student should be promoted, the school principal shall make such recommendation in writing to the district school Superintendent. The Superintendent shall accept or reject the school principal's recommendation in writing.
  - c. In each case of promotion based on "good cause", the student's report card should indicate "grade placement by alternative assignment." Parents should be notified formally in writing that their child is being alternatively assigned to the next higher grade, the reason(s) for the assignment, and the name of the principal who approved the placement. A copy of this notification should be placed in the student's cumulative guidance record.
- (5) A Limited English Proficient (LEP) student is required to meet the same standards for promotion/graduation as non-LEP student unless the LEP student has been enrolled in the ESOL program less than 2 years. In such case the promotion requirements are waived. An LEP student must receive language arts/English instruction through ESOL (English for

speakers of other languages). An LEP student may not be failed if instructional strategies, materials, and testing have not been appropriately modified and documented to meet his/her needs. A student cannot be retained based solely on English language proficiency or based on the results of any single assessment instrument. Promotion of an LEP student in any grade other than grade 3, who has not met district criteria for promotion, must be based on the recommendation of the AIP/LEP committee. An LEP student may be retained only through the action of an LEP committee.

- (6) The assignment of a student in grades K-8 to a higher grade Level which results in the student's skipping of a grade, or part of a grade, should be made only on the basis of exceptionally high achievement by the student and evidence that the student will benefit more from the instructional program at the higher grade Level. The probable long-range academic, social and emotional effects of the decision should be considered. The principal has the responsibility for recommending such assignment. A student will not be accelerated without parental consent and approval of the Superintendent. The student's report should be noted to indicate, "accelerated grade placement." Parent(s) should be notified in writing that their child is receiving an accelerated grade placement to the next high grade, the reasons(s) for the assignment, and the name of the principal who initiated and approved the placement. A copy of the notification should be placed in the student's cumulative guidance record.
- (7) Any student (grades 3-8) who is currently retained because of one (1) course failure and/or failure of one (1) FCAT section for the same course will be allowed to take courses at the next higher grade Level while simultaneously being remediated for the course and/or FCAT section failed if the FCAT SSS Level 1 score is no more that fifty (50) points below Level 2 or the FCAT NRT score is no less than thirty percent (30%). This is a concept referred to as "Bridging". If the student is retained for failing two (2) or more courses and/or two or more sections of FCAT, the student may not be bridged. Also, if the student fails one course and not the same corresponding section on the FCAT, the student may not be bridged. If a student is bridged and has to transfer to another school, the transfer will be approved on a space available basis. Upon meeting the criteria for promotion, as determined by the principal of the school at which the student is enrolled, the student may be promoted to the next higher grade.
- (8) Any student (K-8 except 3<sup>rd</sup> grade) who has been retained in his/her current grade and who meets promotion requirements by demonstrating proficiency/mastery, may be reassigned at any time during the next school year to the next higher grade, upon recommendation of the principal, in consultation with teacher(s), and approval of the Superintendent. This reassignment should occur at the end of a grading period if such assignment results in the student being transferred to another school. To be eligible for mid-year promotion after November 1, a student in third grade must demonstrate mastery of reading skills consistent with the month of promotion to fourth grade. Evidence of demonstrated mastery is as follows:
  - 1. Successful completion of portfolio elements that meet state criteria
  - 2. Satisfactory performance on a locally-selected standardized assessment.

To promote a student using a portfolio as a "good cause" exemption, there must be evidence that demonstrates the student's mastery of the Next Generation Sunshine State Standards in reading equal

\_\_\_\_

to at least a Level 2 performance on the Grade 3 FCAT Reading. Such evidence must be an organized collection of the student's mastery of the Sunshine State Standard Benchmarks for Language Arts that are assessed by the Grade 3 FCAT Reading.

# The student portfolio must meet the following requirements:

- Be selected by the student's teacher.
- Be an accurate picture of the student's ability and include only student work that has been independently produced in the classroom.
- Include evidence of mastery of the benchmarks assessed by the grade 3 Reading FCAT. For each benchmark, there must be five examples of mastery as demonstrated by a grade of "C" or better.
- Include evidence that the benchmarks assessed by the Grade 3 FCAT Reading have been met. Evidence is to include multiple choice items and passages that are approximately sixty (60) percent literary text and forty (40) percent information text, and that are between 100-700 words with an average of 350 words. Such evidence could include chapter or unit tests from the district's/school's adopted core reading curriculum that are aligned with the Next Generation Sunshine State Standards or teacher-prepared assessments.
- Be an organized collection of evidence of the student's mastery of the Sunshine State Standard Benchmarks for Language Arts that are assessed by the Grade 3 FCAT Reading. For each benchmark, there must be at least five (5) examples of mastery as demonstrated by a grade of "C" or above, and
- Be signed by the teacher and the principal as an accurate assessment of the required reading skills.
- (9) Students that have been in the third grade for three consecutive years (Tier 3 students) must be provided grade Level work for the subject areas that are not at risk. Districts must provide all Tier 3 students with intervention instruction and the option of being placed in a transitional instructional setting.
- (10) The teacher and/or the student study team must carefully evaluate any student who appears to be having difficulty meeting course requirements for promotion. Any student who is retained should receive counseling services and be referred to the student study team for further evaluation by appropriately certificated specialists.
- (11) The school will annually report in writing, to the parent of each student, the progress being made by the student toward achieving state and district grade Level expectations for proficiency in reading, writing, science, social studies, and mathematics. The school will also report to the parent, the results of the student's performance on each state assessment test. The evaluation of each student's progress must be based upon the student's classroom work, observations, tests, district and state assessments, and other relevant information. Progress reporting must be provided to the parent in writing in a format adopted by the district school board. The district School Board must annually publish in the local newspaper, and report in writing to the State Board of Education by September 1<sup>st</sup> of each year, the following information on the prior school year: 1. The provisions of this section relating to public school student progression and the district School Board's policies and procedures on student retention and promotion. 2. By grade, the number and percentage of all students in grades 3 through 10 performing at Levels 1 and 2 on the reading portion of

\_\_\_\_\_

- the FCAT. 3. By grade the number and percentage of all students retained in grades 3 through 10. 4. Information on the total number of students who were promoted for "good cause", by each category of "good cause". 5. Any revisions to the district school board's policy on student retention and promotion from the prior year.
- (12) Schools shall provide for the frequent monitoring of the student's progress in meeting the desired Levels of performance. This monitoring should take the form of daily, weekly or chapter exams; teacher observations; or any district assessment. Parents or adult students will be notified in writing at any time during a grading period when it is apparent that the student may fail or is doing unsatisfactory work in any course or grade assignment. Parents or adult students will also be notified in writing at any time during the school year when it is apparent that the student may be retained and may not be eligible for a "good cause" exemption. An acknowledgment of such notification should be obtained and retained by the school. The opportunity for a conference with the teacher, principal or other school official is available to any parent or adult student. Notification to the parent or adult student as specified herein shall be deemed to be directory only, and the failure to so notify the parent or adult student shall not negate or invalidate the action taken.
- (13) Students in grades 1 (one) through 10 (ten) are required to be assessed in reading and mathematics. Science and writing will be assessed at selected grade Levels. Based upon the results of statewide assessments, or teacher recommendation, a student who is substantially deficient in reading, writing, science, or mathematics skills will be provided an Academic Improvement Plan (AIP) and given intensive instruction following the identification of the deficiency. The student's deficiency will be reassessed at the beginning of the next school year, and, if any deficiency still exists, the student will be given additional intensive instruction until the deficiency has been remediated, or the student graduates from high school or is not subject to compulsory school attendance. Remedial instruction provided during high school may not be in lieu of English and mathematics credits required for graduation.
- (14) A personalized middle school success plan will be developed and implemented for each entering sixth (6<sup>th</sup>) grade student who scored below Level 3 in reading on the most recently administered FCAT. The plan must be followed until the student completes the eighth (8<sup>th</sup>) grade or scores at Level 3 or above in reading on the FCAT. The success plan must identify educational goals and intermediate benchmarks for the student in the core curriculum areas; be based upon academic performance data and identification of strengths and weaknesses; include academic intervention strategies and frequency of monitoring, provide innovative methods to promote advancement, and other interventions that have been shown to accelerate the learning process. The success plan must be incorporated in the student's AIP, I.E.P, 504 Plan, and/or ESOL Plan as appropriate. Each principal of a school with grades 6, 7, or 8 shall designate a certified staff member at the school to administer the development and implementation.
- (15) The school will develop the Academic Improvement Plan in consultation with the student's parent(s) immediately following the identification of the deficiency. The plan

must implement improvements designed to assist the student in meeting state and district expectations for proficiency. If the student has been identified as having a deficiency in reading the academic improvement plan shall identify the student's specific areas of deficiency in phonemic awareness, phonics, fluency, comprehension, and vocabulary; the desired Levels of performance in these areas; the instructional and support services to be provided to meet the desired Levels of performance. The district School Board shall assist schools and teachers to implement research-based reading activities that have been shown to be successful in teaching reading to low-performing students. The parents will be notified of the student's progress in correcting the deficiency at the end of each semester until the deficiency has been corrected. Upon subsequent evaluation, if the documented deficiency has not been remediated in accordance with the academic improvement plan, the student may be retained.

- (16) It is the intent of the Gadsden County School District to implement full accountability in terms of student performance as specified in **F.S. 1008.25**. If state assessment results are not available by the first day of post-school planning, promotions will be determined based on the other promotional criteria as specified in this Student Progression Plan. These may include, but are not limited to, the student's portfolio, performance on classroom work, teacher observation, and student performance on teacher-made test and district assessments.
- (17) Teachers of courses in Language Arts, Reading, English, Mathematics, Science, or Social Studies for grade Levels one (1) through ten (10) are required to maintain an individual student portfolio that serves as official documentation that the student has or has not mastered Next Generation Sunshine State Standards for that specific course.

## GENERAL REQUIREMENTS FOR MIDDLE GRADES PROMOTION

## **F.S.** 1003.4156 requires the following:

(1) Beginning with students entering grade 6 in the 2006-2007 school year, promotion from a school composed of middle grades 6, 7, and 8 requires that:

Promotion from a Florida public middle school to high school requires successful completion of all grade Level requirements (grades 6-8) in the public school district. Promotion from middle school requires that a student successfully complete the following courses:

- English 3 middle school or higher courses
- Mathematics 3 middle school or higher courses
- Social Studies 3 middle school or higher courses that include one semester of study of state and federal government and civics education
- Science 3 middle school or higher courses
- Career and Education Planning 1 course (students will develop an electronic Personal Education Plan [ePEP])

Each school must hold a parent meeting either in the evening or on a weekend to inform parents about the course curriculum and activities. Each student shall complete an electronic personal education plan that must be signed by the student, the student's instructor, guidance counselor, or academic advisor, and the student's parent.

For each year in which a student scores at Level l on FCAT Reading, the student must be enrolled in and complete an intensive reading course the following year. Placement of Level 2 readers in either an intensive reading course or a content area course in which reading strategies are delivered shall be determined by diagnosis of reading needs. The Department shall provide guidance on appropriate strategies for diagnosing and meeting the varying instructional needs of students reading below grade Level. Reading courses shall be designed and offered pursuant to the comprehensive reading plan required by **F.S. 1011.62(8).** 

For each year in which a student scores at Level 1 or Level 2 on FCAT Mathematics, the student must receive remediation the following year, which may be integrated into the student's required mathematics course.

(2) Students in grade 6, grade 7, or grade 8 who are not enrolled in schools with a middle grades configuration are subject to the promotion requirements of this section.

| (3) As part of the newly passed requirements for middle grades promotion, each student should be enrolled in a career and education planning course in 7 <sup>th</sup> or 8 <sup>th</sup> grade. The course must include educational planning using the online student advisement system known as Florida Academic Counseling and Tracking for Students at the Internet Web site FACTS.org and shall result in the completing of a personalized academic and career plan. Each student's plan must be signed by the student, the student's parent, and the student's guidance counselor. |

|                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |

# HIGH SCHOOL STUDENT PROGRESSION PLAN

# GENERAL PROCEDURES FOR PROMOTION AND ALTERNATIVE ASSIGNMENT IN GRADES 9-12

- (1) No student may be assigned to a grade Level based solely on age or other factors that constitute social promotion. Each student must participate in the statewide assessment tests required by s.1008.22. A student not meeting the specified Levels of performance in reading, writing, mathematics, and/or science as defined herein, must be provided with additional diagnostic assessment to determine the nature of the student's difficulties and areas of academic need. Based upon the results of statewide assessments or based on teacher recommendation, a student who is substantially deficient in reading, mathematics, science, and/or writing skills will be given intensive instruction following the identification of the deficiency. Intensive instruction may include, but is not limited to, participation in tutoring, mentoring, or curriculum modification. The student's proficiencies will be reassessed at the beginning of the following grade, and, if any deficiency is still present, the student will be given additional intensive instruction different from the previous year that takes into account the student's learning style on an ongoing basis until the deficiency has been remediated, or he/she graduates from high school or is not subject to compulsory attendance.
- (2) The district School Board shall assist schools and teachers to implement reading strategies that research has shown to be successful in improving reading among low performing\_readers. The parent of any student must be immediately notified in writing if his/her child has been identified as having a substantial deficiency in reading. The notification must include a description and explanation of the services currently being provided to the child and the proposed supplemental services and supports that will be provided to the child that are designed to remediate the identified area of reading deficiency. Strategies must be included for parents to use in helping their child succeed in reading proficiency.
- (3) Request for "good cause" exemptions for a student who demonstrates acceptable performance in reading through alternative standardized reading assessment, or through a student portfolio of Next Generation Sunshine State Standards mastery, shall adhere to the following guidelines:
  - a. Documentation shall be submitted from the student's teacher to the school principal indicating that the promotion of the student is appropriate and is based upon the student's academic record. In order to minimize paperwork requirements, such documentation shall consist only of the current AIP/IEP, report card, or student portfolio.
  - b. The school principal shall review and discuss the request with the teacher and make a determination as to whether the student should be promoted or retained. If the school principal determines that the student should be promoted, the school principal shall make such recommendation in writing to the district school Superintendent. The Superintendent shall accept or reject the school principal's recommendation in writing.

- c. In each case of promotion based on "good cause", the student's report card should indicate "grade placement by alternative assignment." Parents should be notified formally in writing that their child is being alternatively assigned to the next higher grade, the reason(s) for the assignment, and the name of the principal who approved the placement. A copy of this notification should be placed in the student's cumulative guidance record.
- (4) A Limited English Proficient (LEP) student is required to meet the same standards for promotion/graduation as non-LEP student unless the LEP student has been enrolled in the ESOL program less than 2 years. In such case the promotion requirements are waived. An LEP student must receive language arts/English instruction through ESOL (English for speakers of other languages). An LEP student may not be failed if instructional strategies, materials, and testing have not been appropriately modified and documented to meet his/her needs. A student cannot be retained based solely on English language proficiency or based on the results of any single assessment instrument. Promotion of an LEP student in any grade other than grade 3, who has not met district criteria for promotion, must be based on the recommendation of the AIP/LEP committee. An LEP student may be retained only through the action of an LEP committee.
- (5) The teacher and/or the student study team must carefully evaluate any student who appears to be having difficulty meeting course requirements for promotion. Any student who is retained should receive counseling services and be referred to the student study team for further evaluation by appropriately certificated specialists.
- (6) The school will annually report in writing, to the parent of each student, the progress being made by the student toward achieving state and district grade Level expectations for proficiency in reading, writing, science, social studies, and mathematics. The school will also report to the parent, the results of the student's performance on each state assessment test. The evaluation of each student's progress must be based upon the student's classroom work, observations, tests, district and state assessments, and other relevant information. Progress reporting must be provided to the parent in writing in a format adopted by the district School Board. The district School Board must annually publish in the local newspaper, and report in writing to the State Board of Education by September 1<sup>st</sup> of each year, the following information on the prior school year: 1. The provisions of this section relating to public school student progression and the district School Board's policies and procedures on student retention and promotion. 2. By grade, the number and percentage of all students in grades 3 through 10 performing at Levels 1 and 2 on the reading portion of the FCAT. 3. By grade the number and percentage of all students retained in grades 3 through 10. 4. Information on the total number of students who were promoted for "good cause", by each category of "good cause". 5. Any revisions to the district School Board's policy on student retention and promotion from the prior year.
- (7) Schools shall provide for the frequent monitoring of the student's progress in meeting the desired Levels of performance. This monitoring should take the form of daily, weekly or

chapter exams; teacher observations; or any district assessment. Parents or adult students will be notified in writing at any time during a grading period when it is apparent that the student may fail or is doing unsatisfactory work in any course or grade assignment. Parents or adult students will also be notified in writing at any time during the school year when it is apparent that the student may be retained. An acknowledgment of such notification should be obtained and retained by the school. The opportunity for a conference with the teacher, principal or other school official is available to any parent or adult student. Notification to the parent or adult student as specified herein shall be deemed to be directory only, and the failure to so notify the parent or adult student shall not negate or invalidate the action taken.

- (8) Students in grades 1 (one) through 10 (ten) are required to be assessed in reading and mathematics. Science and writing will be assessed at selected grade Levels. Based upon the results of statewide assessments, or teacher recommendation, a student who is substantially deficient in reading, writing, science, or mathematics skills will be provided an Academic Improvement Plan (AIP) and given intensive instruction following the identification of the deficiency. The student's deficiency will be reassessed at the beginning of the next school year, and, if any deficiency still exists, the student will be given additional intensive instruction until the deficiency has been remediated, graduates from high school, or is not subject to compulsory school attendance. Remedial instruction provided during high school may not be in lieu of English and mathematics credits required for graduation.
- (9) The school will develop the Academic Improvement Plan in consultation with the student's parent(s) immediately following the identification of the deficiency. The plan must implement improvements designed to assist the student in meeting state and district expectations for proficiency. If the student has been identified as having a deficiency in reading the academic improvement plan shall identify the student's specific areas of deficiency in phonemic awareness, phonics, fluency, comprehension, and vocabulary; the desired Levels of performance in these areas; the instructional and support services to be provided to meet the desired Levels of performance. The district School Board shall assist schools and teachers to implement research-based reading activities that have been shown to be successful in teaching reading to low-performing students. The parents will be notified of the student's progress in correcting the deficiency at the end of each semester until the deficiency has been corrected. Upon subsequent evaluation, if the documented deficiency has not been remediated in accordance with the academic improvement plan, the student may be retained.
- (10) It is the intent of the Gadsden County School District to implement full accountability in terms of student performance as specified in Florida Statutes. If state assessment results are not available by the first day of post-school planning, promotions will be determined based on the other promotional criteria as specified in this Student Progression Plan. These may include, but are not limited to, the student's portfolio, performance on classroom work, teacher observation, and student performance on teacher-made test and district assessments.

- (11) Teachers of courses in Language Arts, Reading, English, Mathematics, Science, or Social Studies for grade Levels one (1) through ten (10) are required to maintain an individual student portfolio that serves as official documentation that the student has or has not mastered Next Generation Sunshine State Standards for that specific course.
- (12) For each year in which a student scores at Level 1 on FCAT Reading, the student must be enrolled in and complete an intensive reading course the following year. Placement of Level 2 readers in either an intensive reading course or a content area course in which reading strategies are delivered shall be determined by diagnosis of reading needs.
- (13) For each year in which a student scores Level 1 or Level 2 on FCAT Mathematics, the student must receive remediation the following year. These courses may be taught through applied, integrated, or combined courses and are subject to approval by the Department for inclusion in the Course Code Directory.
- (14) Credit recovery courses shall be offered so that students can simultaneously earn an elective credit and the recovered credit.
- (15) Parents of students who have a cumulative grade point average (GPA) of less than .5 above the 2.0 cumulative GPA required for graduation (less than a 2.5) at the end of each semester in grades 9, 10, 11, and 12 shall be notified that the student is at risk of not meeting the graduation requirements. The notice shall contain an explanation of the policies the district has in place to assist the student in meeting the GPA requirement. **F.S.1003.43(5)(e)(2).** In addition, at the beginning of each school year, parents of students in or entering high school will be notified of the opportunity and benefits of Advanced Placement, , Dual Enrollment, and Florida Virtual School courses.

Florida students entering their first year of high school in the 2011–2012 school year and thereafter may choose from several options to earn a standard diploma. They are as follows:

- A 4-year, 24-credit program
- A 3-year, 18-credit college preparatory program
- A 3-year, 18-credit career preparatory program

And all students, regardless of graduation program, must still earn a 2.0 on a 4.0 scale and achieve passing scores on the Grade 10 Florida Comprehensive Assessment Test® 2.0 (FCAT) Reading and specific End-of-Course (EOC) assessments to graduate with a standard diploma.

For students who enter 9th grade, course credits required for the 3-year graduation program options listed above include the following:

# Graduation Requirements for Florida's Statewide Assessments Florida Department of Education/Office of Assessment September 2011 Publication

#### Overview

According to Florida law, students must meet all academic requirements in order to receive a standard high school diploma from a public school. This means that students must take required courses, earn the correct number of credits, maintain a passing grade point average, **and pass the required statewide assessments: FCAT, FCAT 2.0, and/or Florida End-of-Course (EOC) Assessments.** Students who meet these requirements but do not pass the required FCAT or FCAT 2.0 assessments will receive a Certificate of Completion, which is not equivalent to a standard high school diploma. Depending on the school year and grade Level, students who do not pass the required Florida EOC Assessments may not receive course credit. Passing scores for the statewide assessments are determined by the State Board of Education.

# **Graduation Requirements**

• FCAT—Students who entered grade 9 in the 2008-09 school year or prior and were originally scheduled to graduate between 2004 and 2012 must earn passing scores on the Grade 10 FCAT Reading and Mathematics assessments. The required passing scores are as follows:

| FCAT Reading                       | FCAT Mathematics                   |
|------------------------------------|------------------------------------|
| 1926 (scale score of 300) or above | 1889 (scale score of 300) or above |

• FCAT/FCAT 2.0—Students who entered grade 9 in the 2009-10 school year must earn passing scores on the Grade 10 FCAT 2.0 Reading and Grade 10 FCAT Mathematics assessments. The required passing scores are as follows:

| FCAT Reading                       | FCAT Mathematics                   |
|------------------------------------|------------------------------------|
| 1926 (scale score of 300) or above | 1889 (scale score of 300) or above |

• FCAT 2.0 and Florida EOC Assessments—Students who entered grade 9 in the 2010-11 school year and beyond must earn an Achievement Level 3 or higher in order to pass the Grade 10 FCAT 2.0 Reading assessment for graduation purposes. The State Board of Education is scheduled to set the Achievement Level standards for the FCAT 2.0 in December 2011. Once Achievement Levels are established for an EOC assessment, students must pass the EOC assessment by earning an Achievement Level 3 score or higher in order to

Student Progression Plan 2011-2012

earn course credit. The table below provides the school year when these requirements begin for students entering grade 9:

| Achievement Level 3 Requirement<br>Begins for Students Entering Grade 9 | Assessment                                          |

| 2010-11                                                                 | Grade 10 FCAT 2.0 Reading                           |
| 2011-12                                                                 | Algebra 1 EOC Assessment                            |

#### **Graduation Options**

• Retaking the Statewide Assessments—Students can retake the FCAT or FCAT 2.0 as many times as they like until they pass it and can enroll for a "free" 13th year of public education should they need additional instruction to successfully pass the assessment. Students currently have up to five opportunities to pass the assessments prior to their scheduled graduation. Students who do not pass the Grade 10 FCAT or FCAT 2.0 in the spring of their sophomore year may retest in fall and spring of their junior and senior years; however, it is important to note that the last administration of the FCAT Reading Retake assessment will occur in spring 2012, and the last administration of the FCAT Mathematics Retake assessment will occur in spring 2013. Students who have not passed the FCAT by its last administration will need to take and pass the FCAT 2.0 Reading assessment by earning the approved concordant passing scores that will be established, or by achieving a concordant score on the SAT or ACT, as described below.

In addition, if students do not pass the required Florida EOC Assessment, they will not earn course credit and must retake the assessment until they pass it.

• Concordant Scores Option—A senior can graduate by receiving a score comparable to the FCAT passing score on the ACT or SAT. The current, approved reading scores may also be used for the Grade 10 FCAT 2.0 Reading assessment for students scheduled to graduate in 2012-13. Students may satisfy the score requirements using various combinations of tests. See the chart below for the concordant scores that must be achieved by graduation year:

| Concordant Scores by Graduation Year |                     |                  |           |            |
|--------------------------------------|---------------------|------------------|-----------|------------|
|                                      | Reading Mathematics |                  |           |            |
|                                      | 2009-10             | 2010-11 to 2012- | 2009-10   | 2010-11    |
|                                      | and prior           | 2013             | and prior | and beyond |
| FCAT                                 | 1926                | 1926             | 1889      | 1889       |
| SAT                                  | 410                 | 420              | 370       | 340        |
| ACT                                  | 15                  | 18               | 15        | 15         |

The option of substituting a concordant passing score at any time became available to students who have not passed the FCAT on July 1, 2010. Prior to July 1, 2010, students were required to take the FCAT at least three times without passing in order to use the concordant scores.

- Community College—Seniors with a Certificate of Completion may enroll in any public community college in Florida by taking the Postsecondary Education Readiness Test (P.E.R.T.) or the Florida College Entry-Level Placement Test (CPT) to determine if they qualify to register for college-credit courses or must take remedial courses to continue their college-preparatory studies.
- Waiver of the FCAT and EOC Graduation Requirements for Students with Disabilities—Students with disabilities who are working toward a standard high school diploma are expected to participate in the FCAT and FCAT 2.0 assessments; however, legislation provides for a waiver of the FCAT and FCAT 2.0 as a requirement for graduation with a standard high school diploma for students with disabilities whose abilities cannot be accurately measured by the statewide assessments after attempting each required assessment at least once. The individual educational plan (IEP) team may request a waiver of the FCAT/FCAT 2.0 requirement for a standard high school diploma for those students with disabilities identified in the Enhanced New Needed Opportunity for Better Life and Education for Students with Disabilities Act (ENNOBLES) who also meet the requirements set forth in Sections 1003.43(11)(b) or 1003.428(8)(b), Florida Statutes. Students with disabilities with Section 504 plans are not eligible for a waiver.

#### STUDENT OPTIONS

Within the five graduation programs, students have multiple options in a variety of areas.

<u>HIGH SCHOOL COURSES IN MIDDLE SCHOOL</u> -Middle school students can take some high school courses for high school credit while in middle school. To encourage this practice, for middle school students who take any high school course for high school credit and earn a grade of "C," "D," or "F" or the equivalent of a grade of "C," "D," or "F," the district grade forgiveness policy must allow the replacement of the grade with a grade of "C" or higher, or the equivalent of a grade of "C" or higher, earned subsequently in the same or comparable course. Course offerings vary by district. For more information, contact your district or your middle school guidance counselor.

ACCELERATION PROGRAMS AND ADVANCED COURSEWORK -Studies show that students who complete a solid academic program in high school, including advanced courses, are more likely to be successful in college. Students in all graduation programs are encouraged to take advantage of advanced course offerings and acceleration programs such as dual enrollment, early admission, Advanced Placement courses, and courses from the Florida Virtual School. These courses are available to all qualified students, no matter which graduation program they choose. For more information, contact your child's school counselor.

<u>DUAL ENROLLMENT AND EARLY ADMISSION</u> -Dual enrollment allows eligible high school students to enroll in postsecondary courses. They earn credit toward high school graduation and, at the same time, earn credit toward a college degree or technical certificate. All 28 public community colleges and some of the state universities in Florida participate in dual enrollment. Students are permitted to take dual enrollment courses on a part-time basis during school hours, after school, or during the summer term. Dual enrollment students do not have to pay registration, matriculation, or laboratory fees. In addition, textbooks for dual enrollment are provided to students free of charge. Early admission is similar to dual enrollment, except that students enroll in college/university courses full time. They earn credits simultaneously toward a college degree and a high school diploma.

<u>ADVANCED PLACEMENT (AP) PROGRAM</u> -The College Board's AP Program is a nationwide program consisting of more than 30 college-Level courses and exams offered at participating high schools. Subjects range from art to statistics. Students who earn a qualifying grade of 3 or above on an AP exam can earn college credit or advanced placement or both, depending on the college or university in which the student enrolls. Students in Florida's public secondary schools enrolled in AP courses do not have to pay to take the exams. For information, visit <a href="https://www.collegeboard.com/student/testing/ap/about.html">www.collegeboard.com/student/testing/ap/about.html</a>.

**SPECIAL DIPLOMA** -Students who have been identified in accordance with State Board of Education rules as "educable, trainable, or profoundly handicapped," "deaf, hard-of-hearing, or dual sensory impaired," "specific learning disabled," "language impaired," "physically impaired with an orthopedic, other health impairment, or traumatic brain injury," "autism spectrum disorder," or "emotional/behavioral disabilities," are not required to meet all the requirements of a standard diploma. Requirements for special diplomas are established by district school boards.

However, the availability of a special diploma does not restrict the right of a student with a disability solely to a special diploma. There are two options available to special diploma students. Special Diploma Option 1 requires the student to:

- earn the minimum number of course credits determined by the local School Board; and
- show mastery of the standards for special diploma.

Special Diploma Option 2 requires the student to:

- be successfully employed for at least one semester, at or above minimum wage
- achieve all annual goals and short-term objectives or benchmarks related to employment and community competencies in the graduation training plan; and
- show mastery of competencies in his or her employment and community competencies training plan.

Students who graduate with a special diploma are entitled to a free appropriate public education (FAPE) until they reach age 22 or receive a standard diploma, whichever comes first. For more information about a special diploma and other graduation options for students with disabilities, contact your child's school counselor, exceptional student education teacher, or visit <a href="http://www.fldoe.org/ese/pdf/diploma.pdf">http://www.fldoe.org/ese/pdf/diploma.pdf</a>.

All students have the option of taking online courses from the Florida Virtual School. For information, visit www.flvs.net.

\_\_\_\_\_

<u>ADULT EDUCATION</u> -Many school districts let high school students take courses through the district's adult education program. Credits earned may be applied to requirements for high school graduation, subject to local School Board policies.

**GED EXIT OPTION MODEL** - GED preparation consists of adult education courses designed to prepare individuals at a ninth grade Level or above to successfully complete the five GED subject area tests leading to qualification for a state of Florida high school diploma. **F.S.1003.435(4)**, requires GED candidates to "be at least 18 years of age on the date of the examination, except that in extraordinary circumstances, as provided for in rules of the district School Board of the district in which the candidate resides or attends school, a candidate may take the examination after reaching the age of 16." A student's eligibility to take the GED test is based on the student not being enrolled in an accredited high school. Because waiting on GED test results implies that a student is seeking to complete their education by earning a GED, it would not be appropriate to reenroll the student into K–12 education. In addition, the diploma date noted on the GED is the actual GED test date. A student can re-enroll in high school as long as their intent is to pursue a high school diploma. A student who seeks to earn only a GED should not be re-enrolled or enrolled in high school.

The Performance-Based Exit Option (formerly GED Exit Option) is an alternative route to graduation for students who are at risk of not graduating on time with their cohort (class with whom the student entered kindergarten) due to credit deficiency, low grade point average, or being over-age for grade. Students who wish to pursue this graduation route must be:

- At least 16 years of age or older and enrolled in a K–12 program
- Enrolled in and attending courses that meet high school graduation requirements (Level 1 courses must be documented on an individual educational plan [IEP] otherwise they are not allowable; GED preparation courses are not permitted)
- In jeopardy of not graduating with their kindergarten cohort and
- Demonstrate evidence of academic ability (7<sup>th</sup> grade reading Level or higher at time of selection, 9<sup>th</sup> grade reading Level or higher at time of testing)

To participate in the Performance-Based Exit Option, it is a requirement that students be enrolled in PK-12. According to the GED Testing Service, participation in the Performance-Based Exit Option is the only allowable exception for a student to take the GED tests while enrolled in PK-12.

#### UNWEIGHTED GPA

The cumulative unweighted grade point average includes all courses taken for credit. It is calculated for high school graduation purposes with the exception of those courses retaken under the Grade Forgiveness Policy.

#### WEIGHTED GRADES/GPA

For the purposes of class ranking, high school may use a weighted grading system pursuant to **F.S. 1007.271**. A high school student may earn an additional quality point for a passing grade in any Advanced Placement or dual enrollment course. In addition, specific courses designated as Level III in the state's Course Code Directory and identified as honors courses in the high school program of study may also earn an additional quality point for a passing grade. These quality points increase the point value for credits earned, and when divided by the credits attempted may result in a higher GPA for a student enrolled in these more challenging courses. (**F.S. 1003.437**)

College Level dual enrollment courses must be weighted the same as honors and advanced placement courses. A student must have a 3.0 unweighted GPA in order to enroll in a college credit class, and a 2.0 unweighted GPA in order to enroll in a career certification program. There must be no discrimination against dual enrollment courses in the assigning of weighted grades or the calculation of cumulative grade point averages.

\_\_\_\_

The cumulative weighted grade point average includes additional weight for Dual Enrollment (DE), Advanced Placement (AP), courses as well as Level III (Advanced) high school courses.

**F.S. 1007.271** (16) requires that school districts must weight dual enrollment courses the same as Advanced Placement courses when grade point averages are calculated. Alternative grade calculation or weighting systems that discriminate against dual enrollment courses are prohibited.

| Grade | Dual Enrollment/<br>AP/IB/AICE Courses | Level III Courses |

#### HIGH SCHOOL GRADING SYSTEM - RANK-IN-CLASS

Rank-in class shall be for the purpose of college admissions and scholarship applications. The release of such individual student information shall be in accordance with School Board Policy 8330. Rank in class shall be computed on a cumulative unweighted GPA. State universities in Florida recalculate a student's grade point average for admissions purposes in accordance with Florida statute and rule.

Upon a student or parent request, for purposes of admissions to colleges and universities which are not a part of the Florida state system, and for certain scholarship applications, the rank-in-class procedure utilizing only academic subjects on a weighted basis shall be used.

A student selecting one of the three-year graduation options must be included in the overall class ranking for his/her graduation year based on the relative ranking of his/her cumulative GPA. These students are also eligible for consideration as Valedictorian, Salutatorian, and the Talented 20 Program. If the student meets all the requirements, he/she is also eligible for a National Merit Scholarship, a Bright Futures Scholarship, and participation in college athletics. (F.S.1003. 437)

#### HONOR GRADUATES

- Any student with a minimum of 3.50 cumulative weighted GPA at the end of the first semester during his/her graduation year shall be declared an honor graduate, provided that the student maintains a comparable Level of performance during the second semester.
- All high school course grades earned in grades 7-12 are to be included in the grade point average for determining honor graduates with the following exceptions:
   a. Adult education

- b. Pass/fail grades (transfer students)
- c. On-the-job
- d. Lowest grade for a course that is repeated
- The cumulative weighted grade point average as indicated in the chart above shall be utilized in computing a student's grade point average.

#### PROMOTION CRITERIA FOR STUDENTS IN GRADES 9-12

In order to be promoted from grade *9 to grade 10*, a student must have accumulated at least five (5) credits.

In order to be promoted from grade 10 to grade 11, a student must have accumulated at least eleven (11) credits.

In order to be promoted from grade 11 to grade 12, a student must have accumulated at least seventeen (17) credits.

In order to participate in the commencement/graduation exercises, which include Baccalaureate and Class Night, a student must have completed all graduation requirements; which include achieving a passing score on all applicable sections of the Florida Comprehensive Assessment Test, achieving an overall GPA of 2.00, and earning the required number of credits based on the diploma option selected.

#### Points to Remember When Choosing a Graduation Program

- High school credits awarded before grade nine can be counted toward the required credits for all graduation programs.
- Students who meet specified requirements for a comprehensive program of study in career education may be recognized with a career education certification on their high school diploma.
- Students who choose a three-year, 18-credit program may still qualify for acceleration programs (e.g., Advanced Placement dual enrollment, International Baccalaureate) and for a Florida Bright Futures Scholarship if they meet the eligibility and/or admissions requirements for those programs and scholarships.
- Students who choose a three-year, 18-credit program can participate in the National Merit Scholarship Program if they take the Preliminary SAT/National Merit Scholarship Qualifying Test (PSAT/NMSQT) in either the next-to-last year or the last year they are enrolled in high school. Those who take the PSAT/NMSQT in their last year of high school will be entering competition for awards to be offered as they are completing their first year of college.
- Students who choose a three-year, 18-credit program; complete the 18 credits; earn a specified, cumulative weighted GPA (with individual course credit GPA requirements); and pass the Grade 10 FCAT, must graduate at the end of the three years. Students cannot remain in school for a fourth year after graduating from high school.

- Students will lose a year of potential athletics eligibility by opting for a three-year program. Issues such as continued eligibility for high school athletics or other extracurricular activities should be taken into consideration when making the decision.
- Students who choose a three-year, 18-credit program will automatically be assigned to the 24-credit program if they do not earn 5 credits by the end of grade nine or 11 credits by the end of grade 10; do not achieve a score of three or higher on the Grade 10 FCAT Writing+ assessment; do not pass the Grade 10 FCAT; or do not meet credit or GPA requirements by the end of their third year. Passing the Grade 10 FCAT is mandatory.
- The three-year, 18 credit programs are only available to students who will receive a standard diploma.
- Selection of one of the three-year, 18-credit programs must be completed by the student prior to the end of grade nine, and the decision is exclusively up to the student and parent.
- Students who complete the three-year, 18 credit college preparatory program must still satisfy minimum academic core requirements for State University System admissions for admission to those institutions.
- Students who choose the three-year, 18-credit career preparatory program must take their electives in career or technical education courses.
- Students who plan to apply to an out-of-state or private in-state college or university and who are interested in one of the three-year, 18-credit programs should contact those institutions as early as possible for specific admissions requirements.
- Students who choose a three-year, 18-credit program must be treated equally in all ways with students who choose the 24-credit program, including eligibility for graduation honors, valedictorian or salutatorian ranking, the Talented 20 Program, and the Bright Futures Scholarship.

#### **Major Area of interest**

A major area of interest includes four (4) credits in a common area such as sequential courses in a career and technical program, fine and performing arts, or academic content area, selected by the student as part of the student's education plan. A student must earn a total of four (4) credits in a major area of interest. One (1) of these credits may be earned in a practicum, as described in the Course Code Directory. Major areas of interest will be proposed by school districts to the Commissioner of Education and, once approved, will be available for students to consider. When a student is selecting a major area of interest, it is important for educators providing academic advisement to review the student's transcript to advise the student and to help ensure that the student is on track to meet the requirements for the Florida Bright Futures Scholarship Program and the 18 units course distribution requirements for state university system (SUS) admission, if applicable, based on the student's desired postsecondary education goals.

The purposes of a major area of interest are to provide students:

- Opportunities to earn additional credit toward college or technical school, or industry certification in an occupation
- Opportunities to learn more in areas that students might be considering as future professions or lifetime skills

- Opportunities to receive credit and recognition for high Level accomplishments outside of the school day for a supervised activity directly related to the major area of interest
- Opportunities to increase the relevance of the high school experience through more in-depth study in an area students find engaging
- Opportunities to increase the value of "elective" classes
- Opportunities to increase the value of the high school diploma

#### FOREGIVENESS POLICY FOR HIGH SCHOOL COURSES

Forgiveness for required courses shall be limited to replacing a grade of "D" or "F" with a grade of "C" or higher earned subsequently in the same or comparable course. Forgiveness of elective courses shall be limited to replacing a grade of "D" or "F" with a grade of "C" or higher earned subsequently in another course. The only exception to these forgiveness policies shall be made for a student in the middle grades who takes any high school course for high school credit and earns a grade of "C", "D", or "F". In such case, the district forgiveness policy must allow the replacement of the grade with a grade of "C" or higher earned subsequently in the same or comparable course. In all cases of grade forgiveness, only the new grade shall be used in the calculation of the student's grade point average. Any course grade not replaced according to this forgiveness policy shall be included in the calculation of the cumulative grade point average required for graduation. **F.S. 1003.43(5)(e)**

#### FLORIDA BRIGHT FUTURES SCHOLARSHIP PROGRAM

This program consists of three types of merit-based scholarships for Florida resident high school graduates. Students are eligible to claim their scholarships for up to three years following graduation for either full-time or part-time study in Florida public and private post secondary institutions, including proprietary vocational schools. Beginning in the ninth grade year, guidance counselors, teachers, and school administrators will monitor each student's eligibility to participate in these scholarship programs. The scholarships are known by the following names:

- Florida Academic Scholars Award,
- Florida Merit Scholars Award, and
- Florida Gold Seal Vocational Scholars Award

The amount and type of scholarship award is based on the student's high school grade point average (GPA), the courses the student took in high school, the type of program in which the student enrolls, and the number of student credit hours in which the student enrolls. Participation in the Florida Bright Futures Scholarship Program is defined by s. 1009.53, F.S. The rules, policies, and procedures are followed as stated in the Florida Bright Futures High School Guide and the Florida Bright Futures Post-secondary Guide published by the Florida Department of Education. Details are also available at the Bright Futures website, <a href="http://www.MyFloridaEducation.com/brfuture">http://www.MyFloridaEducation.com/brfuture</a>.

# K-12 EXCEPTIONAL STUDENTS PROGRESSION PLAN

#### PROMOTION WITHIN GRADES K-12 FOR EXCEPTIONAL STUDENTS

Most students with a disability are required to meet regular standards with appropriate accommodations. Promotion of a student with a disability who has not met district criteria for promotion, requires a current IEP indicating that a disabling condition exists, and the disabling condition impacts his/her progress in the general curriculum to such an extent that special standards are being followed, and the student is therefore exempt from general promotion requirements. Students with disabilities may not be retained if appropriate accommodations, specified on the IEP, have not been provided.

A student who has been properly identified as intellectually disabled, hearing impaired, specific learning disabled, emotional behavioral disabled, physically impaired or language impaired may be exempt. The IEP must indicate that the disabling condition of the student impacts progress in the general curriculum to such an extent that special standards will be followed. A student who has been classified as gifted, hospital/homebound, visually impaired or speech impaired may not be exempt, except when dually enrolled in another exceptional program as described above.

#### (1) ACCOMMODATIONS AND MODIFICATIONS OF INSTRUCTION AND GRADING (PK-12)

The following modifications, if specified on the IEP, may be used in EITHER the regular classroom AND/OR the ESE classroom and will result in ESE grading and/or special credit leading to a special diploma:

- a. Lower the content Level to the student's performance Level, or
- b. Use special performance standards or ESE curriculum standards for instruction.

The following accommodations authorized by the Department of Education and specified in the student's IEP will not result in ESE grading on the report card or affect the type of credit earned for a standard diploma:

- a. An increase or decrease in the instructional time.
- b. Variations in instructional strategies such as:
  - 1. Change of presentation technique
  - 2. Decrease of assignment quantity, without lowering comprehension or difficulty, and/or

#### GRADUATION REQUIREMENTS FOR EXCEPTIONAL STUDENTS

#### (1) STANDARD DIPLOMA

Students with disabilities should not be limited to a special diploma or special certificate of completion. A student, after an appropriate request, referral and placement, may pursue a standard diploma or certificate of completion. In order to provide students with disabilities the opportunity to meet graduation requirements for a standard graduation option and standard diploma, schools may use one of the following strategies:

- Assignment of the exceptional student to an exceptional education class for instruction in a basic course with the same student performance standards as those required of non-exceptional students in the district school board student progression plan, or
- b. Assignment of the exceptional student to a basic education class where the student receives appropriate accommodations.

The strategies employed will be based upon an assessment of the student's needs and shall reflect the decision in the student's current Individual Educational Plan (IEP).

A student with a disability for whom the IEP committee determines that the FCAT cannot accurately measure the student's abilities taking into consideration all allowable accommodations, shall have the FCAT requirement waived for the purpose of receiving a standard high school diploma. This waiver can be granted after the student meets the following criteria:

- a. Be identified as a student with a disability, as defined in **F.S. 1007.02(2).**
- b. Have an individual educational plan (IEP)
- c. Have been provided with instruction to prepare students to demonstrate proficiency in the core content knowledge and skills necessary for grade-to-grade progression and high school graduation (F.S.1003.428(8)(a), F.S. 1003.43(11)(1), F.S. 1008.25(3)(c)(8).
- d. Have taken the Grade 10 FCAT with appropriate allowable accommodations at least twice, once in grade 10 and once in grade 11
- e. Be progressing toward meeting the state's credit/course and cumulative grade point average (GPA) requirements and any other district requirements for graduation with a standard diploma as described in **F.S.** 1003.428(1) or **F. S.** 1003.43(1).

In accordance with **F.S.** 1008.22(3)(c)(6). Student assessment program for public schools, students who have received instructional accommodations in the classroom that are non-allowable on the FCAT may be considered for the waiver from the FCAT graduation requirement if the student meets all of the criteria noted above.

Note: Parents of each exceptional student eligible to earn a special diploma shall be notified of

the options.

#### (2) SPECIAL DIPLOMA – Option I

The student must have been enrolled in the exceptional student education program and completed all requirements of federal and state guidelines governing placement in the exceptional student education program. A student with disabilities pursuing a special diploma must meet all the requirements set forth in the district's policies and procedures for students with disabilities. (F.S.1003.438)

A student will be required to meet the Sunshine State Access Standards for Special Diploma when they graduate. The requirements for a student identified as being intellectually disabled, hearing impaired, specific learning disabled, emotional behavioral disabled, physically impaired, or language impaired are:

- 1. Demonstration of proficiency at the independent, supported, or participatory Level of each Sunshine State Standard for Special Diploma prescribed in State Board Rule **6A-1.094019(1)(h)** as determined through the IEP process; and
  - 2. Completion of twenty four (24) course credits for a special diploma, for independent and supported Levels, and sixteen (16) credits for the participatory Level; and

#### 2. Eligibility and Admission Components.

- a. The Performance-Based Exit Option Model is not to be a preferred or accelerated means of completing high school. Students participating in the Performance-Based Exit Option Model may not graduate prior to their kindergarten cohort. Participation in this model is voluntary and requires parental notification and consent. Entry and exit policies must conform to state compulsory attendance requirements, as well as district daily attendance policies.
- b. Any eligible student currently enrolled in a PK-12 program, including special programs such as exceptional student education, dropout prevention, teenage parent, Department of Juvenile Justice, and English for Speakers of Other Languages (ESOL) may participate in the Performance-Based Exit Option Model. To be eligible to participate in the Performance-Based Exit Option Model, a student must, at a minimum, be:
  - i. At least sixteen (16) years old and currently enrolled in a PK-12 program;

- c. The student eligibility criteria articulated in this rule in paragraph (2) (b) are the minimum requirements to which each school district implementing the Performance-Based Exit Option Model must adhere.
- d. After the student's initial eligibility has been determined, a comprehensive review of student records by designated school personnel or a child study team, including, but not limited to grades, credits, attendance, behavior and education plans, must be completed to decide if the Performance-Based Exit Option Model is the most appropriate educational strategy.
- e. If the student is a minor, parents or guardian(s) must be informed and give written consent to a student's participation in the Performance-Based Exit Option Model. The student's record must include written notification of the student's eligibility, parents' or guardians' right to an administrative review of the proposed placement, and parental or guardian consent, in writing, for student's participation prior to utilizing this model. The student's parent or guardian must be informed of the results of the record review and provided clarification that the student's transcript will indicate an alternative graduation route.

Counseling and advisement services must be provided to both students and parents or guardians regarding the Performance-Based Exit Option Model and other graduation options prior to participation so that they can make an informed decision regarding placement.

Appropriate curriculum materials must be provided in adequate quantities and must be available when students need them. Instructional strategies that focus on individual student progress are strongly encouraged.
- d. Students are required to adhere to district attendance and code of conduct policies.
- e. Districts must administer the official GED Practice Tests administered under student testing conditions, prior to testing students for the GED. Districts must provide academic interventions to students who do not earn acceptable scores on the official GED Practice Tests.

#### **Adult General Education Programs:**

The purpose of the Gadsden Technical Institute Adult Education and General Educational Development (GED) Program is to enable adults to acquire basic skills necessary to attain (1) basic and functional literacy, (2) a high school education, or (3) an education that will enable them to become more employable, productive, and responsible citizens. Workforce literacy programs are intended to support economic development by increasing adult literacy and producing an educated workforce. These programs support the economic development of the state by ensuring that adults who lack basic reading and writing skills are prepared to work in today's workplace.

The Gadsden Technical Institute Adult Education and GED Program provides educational opportunities for adults, regardless of whether they possess a high school diploma or equivalency diploma, if their performance on standard assessments indicates that they lack the basic skills necessary to function effectively in everyday situations, to enter the job market, or to enter certificate career education instruction.

A variety of individuals participate in the adult education programs including high school students, disadvantaged and disabled adults, incarcerated adults and juvenile offenders, and non-English speakers

Gadsden Technical Institute's Adult education programs are provided by the school districts through out the district – Havana, St. John, Chattahoochee, and Greensboro. The programs below serve adult education students.

- Adult Basic Education improves students' employability through instruction in mathematics, reading, language, and workforce readiness skills at a grade level equivalency below the ninth grade level.
- General Educational Development (GED) Program/Pre-GED Program provides courses of instruction preparing students to successfully complete the five General Educational Development subject area tests (mathematics parts I-II, language arts writing, science, language arts reading, and social studies) leading to qualification for a Florida high school diploma. GED coursework is at the high school grade level, while pre-GED is applicable for students functioning at the 6.0-8.9 grade levels.
- **Applied Academics for Adult Education** provides students with instruction to attain academic and workforce readiness skills ranging from functional literacy through the eighth grade level or higher, so that students may pursue career and technical education leading to a certificate or higher-level career and technical education.
- Adult English for Speakers of Other Languages (ESOL)/Adult English as a Second Language (ESL) and related programs provide non-credit English language courses designed to improve students' employability by developing communication skills and cultural competencies that enhance the ability to read, write, speak, and listen in English. Specific English language programs also include English Literacy for Career and Technical Education (ELCATE) for the workplace.
- Workplace Readiness Skills Training for Limited English Proficient Students provides basic skills necessary to function in entry-level occupations or to receive training for technological advances in the workplace.
- Adults with Disabilities provides specialized services to disabled Adult General Education students. Areas of instruction include literacy, work-related behaviors, and daily living skills, with the goal of the student participating in home and community activities or obtaining employment. This program is solely funded through state legislative appropriations.
- Citizenship programs prepare adults for success in becoming naturalized citizens of the U.S. by passing the citizenship test. Content includes U.S. history, government, culture with specific emphasis on rights and responsibilities under the U.S. Constitution.

Grade levels are not emphasized in adult education in grades 1-8. Adult students are classified as ninth grade students on the basis of one or more of the following:

- a. Completion of eighth grade in another program, such as a regular school program.
- b. Completion of the requirements of grades 1-8, i.e., adult basic education program.
- c. A satisfactory score on a standardized test.
- d. Psychological reasons in the interest of students.
- e. Evaluation of student transcripts and other student records.

A minimum of one credit must be earned in residence with Adult Education before an adult high school diploma is granted.

#### **Alternatives to Normal Progression - Adult Education.**

- 1. Acceleration. Students progress at their own rates of speed and the earning of credit is based on mastery of course standards. Students are encouraged, therefore, to accelerate according to the best of their abilities.
- **2. General Educational Development Test** (**GED**). The GED is a national test that permits a person to receive a high school diploma upon successfully passing an examination. The diploma issued, by the Florida Department of Education, is the State of Florida High School Diploma. The GED is a battery of five tests that measure general educational development.
  - a. The five tests cover the areas of language arts/writing, social studies, science, language arts/reading and mathematics.
  - b. To take the test, a person must be eighteen years of age or older and reside in the State of Florida at the time of application. Minor persons sixteen or seventeen years of age may, with parent/guardian's permission, take the GED only under extraordinary circumstances. Persons 16 or 17 years old who have withdrawn from secondary school must participate in pre-and post-test career planning conferences through the adult education Student Services Department. **Extraordinary circumstances include:** 
    - i. Admission to college, junior/community college, or university
    - ii. Military enlistment
    - iii. Vocational training requirements
    - iv. Emotional, psychological, or serious social difficulty prohibiting the student from attending regular classes
    - v. Serious financial need, or
    - vi. Employment/promotion requiring a diploma
- **3. Co-Enrollment in High School and Adult Education.** Graduating juniors and/or seniors currently enrolled in a Gadsden County High School may enroll in Adult Education credit courses with prior written approval of their home school principal or his/her designee. The adult education program will determine the number of students to be accepted in adult education classes. Such students shall be subject to the rules of the adult education program for their enrollment and progression in that program.

### **Determination of Energy Savings**

#### Theory of Energy Management

The primary motivation behind most energy management projects is cost avoidance. Cost avoidance is defined as the avoided expense, in today's dollars, attributable to a retrofit or other energy management initiative. In order to determine if a project has yielded the expected level of cost avoidance, it is necessary to measure and verify the cost avoidance in the post-retrofit period. By comparing the pre-retrofit energy consumption and cost with post-retrofit data, the performance of the energy retrofit can be determined.

The Federal Energy Management Program (FEMP) of the U.S. Department of Energy and its Measurement and Verification Guidelines for Federal Energy Projects classify measurement and verification approaches as Option A, B, C and D, and are selected based on the complexity of the retrofit project energy conservation measures (ECMs) and their potential operating interaction with each other. The FEMP Guidelines, based on the International Performance Measurement and Verification Protocol (IPMVP), were originally developed for U.S. federal projects. The FEMP and IPMVP protocols have since become the de facto standards used to measure and verify performance contract energy management project results.

Option A: Verification techniques determine savings by measuring the performance of a system before and after a retrofit, either through physical measurement or the use of manufacturer data, and multiplying the difference by an agreed-upon or stipulated factor, such as hours of operation.

Option B: Verification techniques are designed for projects where long-term continuous measurement of performance is desired. Metering is conducted on an individual system level, and the measured performance is compared with a baseline to determine cost avoidance.

*Option C*: Verification techniques involve utility whole building meter analysis, reviewing overall energy use, and identifying the effects of energy projects on a facility. Energy use before and after a retrofit project is compared to determine cost avoidance.

Option D: Computer models are developed that use calibrated simulations of baseline and post-installation energy use to measure cost avoidance.

#### **Explanation of Adjustments**

If all things were equal, energy management results could be simply determined by subtracting current year energy use units from their base year equivalent (kilowatt-hours, cubic feet of gas, cubic feet of water, etc.) The costs avoided would then simply be the energy use units saved between the two measured periods multiplied by a given billing rate.

However, as all conditions are never equal between the current and base year periods of tracking, adjustments are required to assure an equivalent comparison in order to accurately calculate the energy cost avoidance. These adjustments are made to the base year period utility bill data in order to reflect energy usage that would have occurred during the base year period if all the conditions of the current year period had existed then. The result is referred to as the baseline. Baseline adjustments include, but are not limited to, differences in billing period days, weather, rate schedules, equipment that has been recommissioned, added or removed, increases or decreases in building square footage, changes in enrollment counts, etc. These are variables affecting consumption which warrant adjustment to the baseline.

Billing Days Adjustment - Typically, utility companies do not bill for the same number of days each month. The energy tracking/auditing software program used adjusts for differences in the number of days in the billing period between the base year and current year before calculating energy cost avoidance/savings.

Weather Adjustment - As energy consumption is often weather-related, a regression analysis is performed to identify the relationship between historic meter performance and weather, denoted by heating or cooling degree-day variables. The analysis results in a regression model utilized in calculating the baseline, adjusted for the weather difference between the pre- and post-installation period. The program adjusts for weather variation using weather data degree-days while also recognizing that not all energy consumption is weather sensitive.

Cost Adjustment - Utility company rate schedules are generally used to calculate the cost of energy consumption. These rates may change frequently. The applicable utility rate schedule as determined by the performance contract is used for cost calculation in the current review period. This schedule achieves an accurate comparison of the pre- and post-installation period cost of energy.

Runtime Adjustment - A building's hours of operation (runtime) typically vary and will affect energy usage. Set hours of operation are agreed upon on a building-by-building basis and documented in the contract. Review period runtime is tracked on a monthly basis and compared to the agreed upon operating hours. Adjustments can be made in the event actual hours of operation exceed agreed upon hours.

Miscellaneous Adjustments - A change in consumption will occur if the square footage or occupancy levels of the facility change or if the facility adds, deletes, or changes equipment that affects building load. Savings lost or gained by the change can be calculated by standard engineering formulas.

#### Methods Contained in This Report

Option A is used to calculate energy cost avoidance for all facilities. This method gives a truer picture of the cost avoidance achieved by a lighting retrofit, regardless of the operation of the other building systems, especially where controls were omitted from the scope of work.

The baseline adjustment is stipulated to be an escalation of 4% per year for the unit cost of electric utilities and 4% per year for gas utilities, and 4% per year for the unit cost of water used in the determination of cost avoidance each year.

The energy avoidance identified in the Post Installation/Guarantee Period 1 measurement and verfication activities will be stipulated as the achieved energy avoidance for years 2 through 14. The associated cost avoidance will be calculated using the stipulated utility unit avoidance times the agreed upon escalated utility unit costs.

Operational cost savings identified and described in the contract were deemed satisfied upon contract execution. Operational cost savings categorized as capital cost avoidance are part of, or are causally connected to scope of work specified in Attachment A and are documented by industry standard engineering methodologies acceptable to the Customer. The baseline adjustment is stipulated to be an escalation of 4% per year for operational costs used in the determination of operational cost avoidance each year.

### **Executive Summary**

In compliance with contract provisions, FEMP Option A methodology of Measurement & Verification, "Potential to Perform" was used to quantify energy cost avoidance and performance results reported herein. Every attempt has been made to generate the most accurate energy audit possible. Honeywell will follow Option A "Potential to Perform" methodology in Year 2 and through the rest of the guarantee period. On site verification by observations of operations and captured screen shots from EMS of the operating parameters will be completed.

#### Validation of ECM Savings

#### **Measurement & Verification Methods**

Measurement and Verification (M&V) is based on the Federal Energy Management Program's (FEMP) publication, "Measurement and Verification Guideline for Federal Energy Projects," (DOE/GO-102000-0960, September 2000). The M&V plan for this contract consists of the following:

Year One: Honeywell will follow FEMP Option "A" "Potential to Perform" (as scheduled in Attachment "G", Exhibit G-3 &G-4) for the Measurement and Verification to quantify the energy cost avoidance of Gadsden County Schools facilities. This option will be applied on an ECM specific basis and was selected for this determination to provide an accurate but economical reconciliation. Savings will be realized from both energy and operational improvements. Energy savings for the Facilities for such Guarantee Year will be quantified and summarized on an ECM basis as defined below. The energy savings will be multiplied by the applicable energy rate as defined in Attachment G section 1.1 to calculate the Energy cost avoidance.

Year Two and Remaining Guarantee Years (ongoing): Honeywell will follow FEMP Option "A" "Potential to Perform" (as scheduled in Exhibit G-3 & G-4). On-site verification by observation of operation and captured screen shots from the EMS of the operating parameters will be completed for the Measurement and Verification of the installed ECMs. The annual inspection of time schedules in the Energy Management System will be performed to quantify equipment runtimes and the energy cost avoidance of the customer's facility as stated in Exhibit "G1".

#### **Energy Conservation Measures (ECMs) Implemented**

#### **Applicable ECMs**

ECMs (and associated energy types) applicable to the project include:

- ECM #1 High Efficiency Lighting Upgrade (Electricity)
- ECM #2 High Efficiency HVAC Upgrades (Electricity & Gas)
- ECM #3 High Efficiency Plumbing Fixtures (Water)
- ECM #4 High Efficiency Marquee Sign (Electricity)
- ECM #5 Web Enabled HVAC Controls Upgrade (Electricity)
- ECM #6 Energy Awareness Program (Electricity)

#### **Projected Savings**

Attachment G, Section 1.1, Schedule of Savings in the contract, indicates that these ECM is to generate \$293,730 of energy savings/cost avoidance in year 1 of the performance contract, escalated 4% annually.

<u>Baseline</u> operating parameters are stipulated and agreed upon. See Energy Savings Calculations, attached hereto and incorporated herein for further information regarding stipulated baseline parameters.

<u>Guarantee Period</u> operating parameters are stipulated and agreed upon, and are displayed in the Energy Savings calculations.

### **Project Overview/Review Detail**

ECMS # 1 - 6 - Summary Listed in Table 1 (directly taken from attachment "G" in the contact). The energy consumption baseline for these ECMS was generated using the Engineering calculations in Exhibit G-2 in the contract based on the pre-retrofit HVAC equipment, the existing control system, applicable electric cost rates, and the operating parameters stipulated in the contract document. The post data was gathered and quantified after the installation of the new equipment and control systems using the post-installation operating parameters also stipulated in the contract document in Exhibit G-4. The comparison of these pre- and post-installation profiles validates the potential to achieve the projected cost avoidance for this ECM.

1.1 Energy Savings. The amount of energy savings for guarantee year 2 is the sum of the below listed ECMs. The schedule of savings does not include the absolute increase in energy use due to the implementation of measures to increase environmental comfort as directed by the customer, and other baseline adjustments (see 1.3.1.1). The Guaranteed savings are less than the projected savings, represented in Exhibit G-1. The Cost Avoidance is based on the listed Energy and Operational Cost Avoidance Guarantee Practices contained in Section 1.3 herein.

#### **OVERVIEW:**

The existing 5 ton, packaged units serving the building are aging and less efficient than newer equipment currently available. They will be replaced with a new High Efficiency packaged unit in the existing location. The savings calculation assumes an average cooling load over the period that the equipment is in operation. It also assumes that the savings will be based upon the current building loads, including ventilation

### **Energy Savings Tips**

#### The Goal

- > Eliminate wasted energy in buildings while ensuring a comfortable and safe learning environment for all students and staff.
- Educate every student and employee about contributing to energy efficiency so that every person will be an energy saver, as well as an energy user.

#### **General Energy Savings Tips**

- ➤ Be sure all automatic controls are in good working condition, calibrated properly and reviewed often.
- Monthly, review time schedules in the programmable thermostats. Make the most of your energy management system or programmable thermostats by turning heating/cooling systems off during unoccupied periods, including holidays, and maintaining energy-saving temperature setpoints. Start a shutdown list and hand out for use at each site during holidays and summertime. Did you know that:

Heating and cooling an average-sized elementary school is like heating and cooling 40 average-sized homes?

For every hour that an HVAC system operates at an average-sized elementary school when no one is there, it costs about \$15 to heat and \$14 to cool?

Every degree a thermostat is lowered during heating season or raised during cooling season decreases costs by 3-5%?

- Turn lights off in all areas, especially gyms, cafeterias, and auditoriums, when they are not occupied; instruct custodians to shut lights off as soon as classes end and turn them on again in an area only while cleaning it. (The average classroom can save \$25 a year by shutting off the lights for 2 additional hours each day.)
- > Use daylight (it's free) to enhance lighting and reduce the use of electric light.
- Turn off computers, copiers, and other office machines every night, and make sure they are set on "energy-saver" mode while in use.
- Install Vending Misers on canned/bottled drink and other vending machines to turn them off 12 hours a day. Permanently de-lamp vending machines and disconnect ballasts, and turn them off completely during months when school is not in session. (Note: The cost of operating vending machines can exceed the shared revenue provided by the vendor.)
- > Turn off exhaust fans in kitchens and bathrooms during unoccupied periods.
- ➤ Use equipment that consumes high amounts of electricity before noon whenever possible. This helps cut peak demand charges on a school's utility bill. This type of equipment includes kilns, electric ovens, sawdust collectors, and sports lights.
- ➤ Limit the use of small refrigerators in classrooms. Approximate annual cost is \$75 to \$90 per unit.

### **Energy Savings Tips**

#### **Prepare for Heating Season**

- Clean boilers, test all heating-related equipment, and check piping for steam leaks to be sure everything is in good working order before it is needed.
- ➤ Keep hot water temperatures to 120-130 degrees Fahrenheit for sinks and showers.
- Routinely inspect steam traps and repair those not operating properly. Avoid the domino effect of Steam trap failure = Loss of condensate = Increased make-up water = Increased use of costly treatment chemicals and Increased fuel consumption
- Insulate, caulk and repair or replace weather stripping around doors and windows to reduce heat loss.
- ➤ Be sure that building doors, as well as individual classroom and office doors, are closed when heating equipment is in operation. Repair gaps in doors.
- Space heaters use 1000 watts per hour. Flat leg or foot warmers may be substituted and use much less energy (approximately 100 watts per hour). These devices should be turned off at the end of the day.
- Negotiate fuel contracts whenever possible to avoid the unpredictable and frequent price spikes that occur each year.

#### **Cooling Season Tips**

- ➤ If your air conditioning systems have automatic temperature controls, make sure outside air dampers are closed during unoccupied times.
- ➤ Be sure that building doors, as well as individual classroom and office doors, are closed when air conditioning equipment is in operation. Repair gaps in doors.
- Where cross-ventilation is available during mild weather, shut down air conditioning equipment and open windows and doors.
- > Do not turn lights on unless needed, as they add heat to the building.

### **Glossary of Terms**

actual cost Actual energy cost taken directly from utility bill.

actual savings Savings derived through the Metrix TM program; baseline less

actual costs. Positive actual savings indicate utility costs have been reduced after adjusting for weather and other variables in

dollars.

balance point (HtgDD), the outdoor temperature below which space heating is

required or (ClgDD), the outdoor temperature above which

space cooling is required.

baseline The adjusted, tuned pre-retrofit bills (usually 1 year) used to

compare to post-installation usage in order to calculate savings.

baseline cost Cost calculated for the baseline using current rates.

billed dollars Amount billed from utility company.

bill matching Adjustment made by Metrix<sup>TM</sup> to account for differing number

of days in the billing period before calculating cost avoidance.

cost avoidance The difference between the baseline cost and the actual or

SimActual cost in dollars.

degree-day Unit representing one degree of difference between the balance

point selected and the average temperature during one day.

EER Energy Efficiency Ratio of cooling equipment defined as the

cooling effect in BTU's divided by the power use in watts

guarantee period Time period specified in contract for which Honeywell will

guarantee energy savings.

guarantee year Number identifying for which year the review is performed

based on the number of years the guarantee is in effect.

guaranteed savings Those savings Honeywell promises the customer through the

use of maintenance programs, retrofits, upgrades and energy

management systems.

HVAC Industry standard abbreviation for Heating, Ventilating and Air

Conditioning.

HtgDD/ClgDD HtgDD = Heating degree-days

ClgDD = Cooling degree-days

kW Kilowatt - a unit of electrical power, equal to 1000 watts.

kWh Kilowatt hours - a unit of electrical energy or work, equal to that

done by one kilowatt acting for one hour.

modification An allowance for changes in the facility which affect utility

usage that occur while tracking the performance of a meter. Modifications correct both the actual and baseline usage and

cost for meters.

pre-installation Time period (start month and stop month, typically one year's

time) that is used as a benchmark for comparison which consists

of all energy bills applicable to the retrofit.

R<sup>2</sup> A measure of how well the independent variable in a regression

can explain changes in the dependent variable. An  $R^2 = "1.0"$ 

indicates a perfect correlation.

rate tariff Actual amount the utility company charges per unit of energy or

demand; used by Metrix<sup>TM</sup> to calculate utility costs for the

Sim Actual & Baseline scenarios.

reference year The actual usage for designated baseline period.

review period Time period for which savings are reported.

runtime adjustment Adjustment made for those hours equipment has run beyond the

operating hours specified in the contract.

simactual The total cost for the billing period as calculated by Metrix<sup>TM</sup>.
