1. PSEO students are considered regular college students and are required to do the same requirements for each course as stated on the course syllabus and follow all policies of Minnesota West. If there are concerns in a PSEO course, the PSEO student communicates with the professor and/or their MN West PSEO Advisor. The high school only receives the final grade earned in the PSEO course. All PSEO grades are calculated into the cumulative GPA.
2. PSEO students must access their student account, student email, and D2L site. For questions on these items, contact your MN West PSEO Advisor.
3. All textbooks and equipment provided to a pupil in the PSEO program must be returned undamaged within 10 business days of dropping a course to the MN West bookstore on the Worthington campus. Textbooks must be returned to the Jackson campus on set dates after the end of the college semester. Students return their own books. Books that are not returned by the deadline will be charged to your JCC High School account.

Comments:

Beginning with Spring Semester 2023 - 2024, PSEO Students are required to fill in the courses, course numbers and the college credit for the courses they are taking for secondary (high school) and postsecondary credit. If classes are dropped or changed, it is the responsibility of the student to update this form. All high school students must be full-time students. Consequences will be given if a PSEO student is found to be untruthful about the amount of college credits he/she/they are taking through the PSEO program.

The maximum for full-time PSEO is 16 total including college courses taken at the high school.

The minimum for full-time college is 12.
