- 6 Removal of storm damage/debris
(Please identify how your company will handle
this service and cost of such)

Gulf Coast Environmental Contractors - \$65.00/man hour for labor
Clean up crews will be dispatched within 72 hours.
Heavy equipment is available for use at the rate of \$150.00/hour

Invasive Management Services - We guarantee to be onsite within 24 hours with all necessary labor and equipment to clean and remove storm damage/debris at a rate of \$150.00 per hour

Rotolo Consultants - Over the years, RCI has provided clean-up efforts for various storm events throughout the southeast including after Hurricane Katrina, Hurricane Harvey and Hurricane Laura just to mention a few. RCI will gladly extend our services in these times of need in the unfortunate instance that this assistance might be needed. We will mobilize local crews as well as crews from our various locations throughout the Southeast in order to effectively and efficiently restore order. Please see the attached T & M pricing sheet for various labor & equipment rates that would apply for any extensive storm clean-up services that may be required. If any materials may be necessary as part of the clean-up effort, RCI will provide those costs to you at the time for your approval.

Williams Consultants - We will provide a 50% discount on storm debris if the storm is declared a FEMA disaster. We will move to right of way. Any other storm not FEMA the current price is confirm with hauling.
