

Update of activities performed

- Bob Kitzan is very knowledgeable and a hard worker performing his janitorial duties.
- Made adjustments to the janitor hours during the day in order to have one here during practices.
- Set up bus drivers for away activity games/practices and determined the bus load/leave times needed from Glen Ullin.
- Bearing went out in Mrs. Christianson's room. Contacted HA Thompson to diagnose and get new bearing. They stated they are unable to find or get the needed bearing for the heater. I went to the heater in the kitchen, which is no longer in use, and removed the required bearing. HA Thompson installed bearing and heater now works.
- Studying for CDL during down time.
- Had both Bob and Sam get their DOT physicals to allow them to drive vehicles. Bob also has the required certification to drive the big bus.
