Instructions: Your Continuous Improvement Plan must include a mission statement and vision statement. Please provide them in this section.

Mission and Vision - REQUIRED

Mission Statement

Preparing Today's Students for the Challenges of Tomorrow

Vision Statement

Kendrick School District, in partnership with the parents, students and communities of Kendrick and Juliaetta, envisions that every student will grow to be a healthy, well-educated, and productive member of society

Instructions: Per statute, please describe how your school district or charter school considered input from the community in developing or revising your Continuous Improvement Plan.

Community Involvement in Plan Development - REQUIRED

Kendrick School District's Continuous Improvement Plan helps set our priorities and guide our energy toward common goals. The Strategic Plan is created by members of the Kendrick School District Leadership Team in collaboration with district stakeholders. The plan enables us to move forward in a consistent manner in pursuit of our primary mission, which is to prepare today's students for the challenges of tomorrow. In developing the plan, District Leadership Team Members begin the process by developing and expanding on each of the goal areas our district has. This process originally took one (1) year to lay out the foundation of this document. The District Leadership Team meets monthly. Once the first draft of the plan was created, it was sent out to a larger committee of staff and community members for review and feedback. This helped us go through the revision process further. At this point, our District Leadership Team continues to review the Plan at our monthly meetings and adjust as necessary. This year the plan will again be reviewed and revised as necessary by our District Leadership Team. From there, it will be presented at regular public board meeting for feedback and eventually approval.

Please proceed to the Continuous Improvement Plan Metrics – Template Part 2.

Performance Metrics Instructions:

Provide your report card link, Progress Report, and set Benchmarks (performance targets) using the **2023-24 Continuous Improvement Plan Metrics – Template Part 2**. The template includes two (2) tabs: Instructions and Examples and Metrics. Please review the Instructions and Examples tab before entering your data into the Metrics tab.

Section III: How LEA Measures Progress Towards Literacy Goals and Targets (required)

Instructions: To indicate how your LEA intends to measure your progress towards your literacy goals and targets, you may choose to complete either Section III.A or Section III.B. Section III.A allows you to identify at least one LEA Chosen Performance Metric (note that it must be distinctly different than the metrics listed in Sections I and II), which may be consistent with previously chosen LEA chosen metrics. Section III.B allows you to address your plan to measure progress through a short narrative.

Section III.A: Measuring Literacy Progress - LEA Chosen Performance Metrics (at least 1)

Performance Metric	2022-23 Performance Targets (From LEA's 2022-23 CIP)	SY 2022-23 RESULTS (if available)	2023-24 Performance Targets (LEA's Chosen Goals)
% of K-3 students who scored below proficient on the Fall IRI who gain at least one performance category on the Spring IRI.	70.0%	40.00%	45.0%

Section III.B: Narrative on Measuring Literacy Progress

Instructions: If you are choosing to use section III.B to address the Section III requirement, please use the box below to provide a brief narrative describing how your LEA is measuring your progress towards your LEA's literacy goals and targets. Please note that your description *must* include at least one clear performance metric that is measurable, has a performance target / goal for 2023-24, and is distinctly *different* from the required metrics in Sections I and II, above.

Section IV: How LEA Measures Progress Towards College & Career Advising & Mentoring Goals (required)

Instructions: To indicate how your LEA intends to measure your progress towards your college and career advising and mentoring goals and targets, you may choose to complete either Section IV.A or Section IV.B. Section V.A allows you to identify at least one LEA Chosen Performance Metric (note that it must be distinctly different than the metrics listed in Sections I and IV), which may be consistent with previously chosen LEA chosen metrics. Section IV.B allows you to address your plan to measure progress through a short narrative.

Section IV.B: Narrative on Measuring College and Career Advising and Mentoring Progress

Instructions: If you are choosing to use section IV.B to address the Section IV requirement, please use the box below to provide a brief narrative describing how your LEA is measuring your progress towards your LEA's college and career advising and mentoring goals and targets. Please note that your description must include at least one clear performance metric that is measurable, has a performance target / goal for 2023-24, and is distinctly *different* than those required in Section I, above.

Section V: Report of Progress Narrative (required)

Instructions: In the provided box, please address the progress your LEA made towards your 2022-2023 Performance Targets (as chosen for your 2022-2023 CIP and included in the sections above). We recommend your reflection include a) your successes in meeting performance targets; b) your areas of challenge (including those where previously set performance targets were not met); and c) any plans you have to build on your success and/or address challenges. You may expand the size of the box, if needed.

Successes: Standardized testing is an important tool for measuring student achievement and assessing the effectiveness of a school's academic programs. The purpose of this report is to outline the improvements made by our school in standardized test scores and discuss a better approach to testing.

Improvement in Standardized Test Scores:

Our school has made significant progress in improving standardized test scores over the past year, specifically our high school students in the area of Math. In the previous year, no grade outperformed the state of Idaho average. This year, however, every grade outperformed the state average for proficiency on the Math ISAT test. After implementing a comprehensive plan to address areas of weakness, our school's test scores have improved dramatically. These gains represent an almost 20% increase in proficiency rates in Math and is a testament to the hard work of our students, teachers, and administrators.

Performance Targets Met: 1. Graduation rates remained near or above annual performance target of 90%. 2. College & career advising continues to be an area of strength with most of our students completing the FAFSA in 22-23 and 100% of our students in grades 9-12 receiving college & career advising and continually monitoring their 4-year learning plan. We anticipated a lower than average FAFSA completion rate this past year, but managed to get 75% of our students to complete it. 3. Our secondary Math scores increased dramatically from the previous year. We didn't meet our 8th grade Math proficiency target, but we increased proficiency with each class tested.

Planned strategies to address areas of weakness: One of our areas of weakness in the 22-23 school year was low math and ELA proficiency scores at the elementary level as measured by the spring summative ISAT tests. This has been a lagging issue, but we're making a more conscience effort to address it. This is specifically true at the secondary level and we did make significant progress this year. After ISAT's were conducted a couple years ago, we conducted exit interviews with groups of students at each grade level to get a better sense of what we can do to better support our students on the ISAT. From those interviews, we gathered valuable information and used it in the 22-23 school year. This includes better utilizing the practice tests in the ISAT portal, hiring an additional math teacher to create smaller classes and offer more targeted support for students, purchasing new Math curriculum that better aligns with standards and is both more student and teacher friendly than our current curriculum. We also learned a great number of students give minimal effort on the ISAT. This is bad because performance suffers and we fail to get good feedback on where students are in terms of skill. To address this, teachers and staff have been making a focused effort at practicing for the ISAT test and working to get our students' best effort. We made huge gains this year, but need to do the same at the elementary level now.

Section VII: Staff Performance - Previous Year Results & Current Year Performance Targets

(Section VII is required; metrics should be aggregated by grade and subject, as appropriate)

Important Note: Data should only be provided in the 2022-23 RESULTS column for groups of teachers / staff of 5 or more who use the same assessment tool. If your teacher / staff group is fewer than 5, please enter "n size" in the 2022-23 RESULTS column.

Instructions: Identify the staff group using the Grade(s) and Subject(s) fields. Note that all staff in a group should use the same assessment tool, which you should identify. Provide the 2022-23 Performance Target for that group, as identified in your LEA's 2022-23 CIP. If you did not set a target for that group last year, enter "Not Available." Provide the 2022-23 Results for the group (provided the group is 5+). Then use the far right column to set a 2023-24 Performance Target (goal) for the % of students in that group who will meet their target in the 2023-24 school.
