Kudos:

UC admit list is in and again has SMHS on top!! Below is a quote from our awesome EAOP Counselor Nancy Pacheco. Congratulations go to our guidance team, teachers and staff for this team effort.

"121 Seniors were admitted into at least one UC campus, new record! The number might go up after wait lists are worked on by campuses. Once again SMHS comes on top of our sister schools in the district and all the EAOP service schools in our region 🏆."

From the Principal: (Steve Campbell)

Good afternoon staff, as you know, tomorrow we return to school for our last stretch of the school year. It is hard to believe we are finishing this school year. These last weeks are always eventful with state testing, AP testing, building the master schedule, senioritis, and planning summer school; this year we have additional challenges in getting ready for our monster move into the new building.

Fortunately, we have routines in place to get us through the normal spring events. I also feel we have a good game plan for the moves that the majority of our staff will be making. Even with a good game plan, it is important to acknowledge that we are going to feel this move. There is just no way that a move of this magnitude is not going to have its challenges.

The key to us getting through this transition is to keep our eye on the work at hand, having a good testing season and finishing the school year with as many graduates/A-G completers as possible. If we maintain focus on these goals and do not let the move become a distraction, we will come through this in great shape.

We have already set a new SMHS record for UC applications and acceptances, we are on pace to see great improvements in our state testing scores. If we stay focused these next few weeks, we can record a great academic year and execute a move into a new facility that will be a source of pride for our students and the entire community. We got this! Welcome back and have a great week.

Sincerely,

(Steve Campbell, Principal SMHS)
