

DID YOU KNOW?

- Military children relocate every 1-4 years, three times more often than their civilian peers (Harvard University- Center for the Developing Child).
- The most common factor for children who develop resiliency is at least one stable and committed relationship with a supportive parent, caregiver, or other adult (Berg, 2008; Bradshaw, Sudhinaraset, Mmari, & Blum, 2010; & Hipps, 2011).
- Out of 1.85 million military children, 1.2 of them falls into the K-12 education range of 6-18 years of age (DOD, 2010).

ABOUT US

Anchored4Life has teamed up with the United States military to provide a comprehensive transition and resiliency Club for all youth. The peer-to-peer Club positively supports and encourages youth through the mastery of resiliency life skills. Anchored4Life serves schools, home school groups, and youth programs/teen centers.
