

# Quarantine & Isolation Decision Tree

**NOTE:** Isolation or quarantine are not extended because of the Omicron variant.

**DEFINITIONS:**

**Severe COVID-19 illness:** Hospitalized in an Intensive Care Unit with or without mechanical ventilation

**Severely immunosuppressed:** One or more of the following

- Currently on chemotherapy for cancer
- Untreated HIV infection with CD4 lymphocyte count < 200
- Combined primary immunodeficiency disorder
- Prednisone > 20 mg/day for more than 14 days

\*Unvaccinated students and staff who are close contacts are encouraged to participate in test to stay program and should follow guidance on page 5 of the Toolkit.
