

Summer Reading Project

3rd Grade

Due Thursday, August 13, 2026

Tornado by Betsy Comer Byars

Students are to read Tornado over the summer. They will be required to take an AR test the first week of school over the book and we will do a book study for our first reading assignment in class.

BOOK REPORT IN A BAG

Students are also required to read another chapter book on their reading level. This is the book they have to do the project with.

1. Students need a grocery brown bag or any plain, large gift bag.
2. Outside of bag:
 - Decorate outside of bag: include pictures or artwork relevant to the book (pictures can be printed).
 - Include title and author of the book.

SUMMER MATH

Congratulations Parents, you now have a Third Grader!! I know you and your children are ready for some rest and relaxation. Since your children are growing and facing new challenges each year, I want to take up a small amount of your time this summer. The skills taught in third grade math can be difficult and fact fluency is the foundation for most of them. Continuous practice can make a tremendous difference in reducing their frustration level. We have access to a free online program called Xtra Math. The program allows students to begin practicing basic addition facts, then subtraction, followed by multiplication. Here are the details:

- Follow the directions on the enrollment information sheet to log your child on to Xtra Math. They will complete a short placement quiz.
- Log on to Xtra Math a couple of times each week to complete a practice session - it only takes 5 minutes!
- Use the attached Summer Math Tracker to mark each time your child logs on.
- If your child brings back his/her tracker on the first day of school with 2 log-ins per week for 8 weeks they will receive a math grade of **100** to start off the year. I will receive a report from Xtra Math each week showing your child's progress, so make sure you log in using the information I have given you.
- FINALLY, your child will take a timed addition test during the first week of school with 50 facts in 5 minutes.

Please feel free to email me at kivey@southlandacademy.org if you have any difficulties with the program.

Have a great summer!!

Mrs. Ivey
