Finally, the day has come when Henry will be judged for admission. While Eleanor, never a patient woman in life or afterlife, waits, three people, each of whom was close to Eleanor during a time of her life, join her. ♥ **A River Ran Wild**
An Environmental History

Lynne Cherry

Houghton Mifflin Harcourt (April 1, 2002)

Summary:

Beloved author of the classic *The Great Kapok Tree*, Lynne Cherry explores the true story of the Nashua River in Massachusetts in this nonfiction picture book about restoration, renewal, and environmental consciousness. Over 7,000 years ago Native Americans settled on the Nashua River, a beautiful and leafy valley. But the industrialization of nearby areas would lead to the deterioration of natural habitats. Each double spread examines brief periods of time when the river and surrounding areas teemed with wildlife. Lynne Cherry's contrasting illustrations of the lush valley and the eventual polluted river deliver an astonishing look at our dramatic need for conservation efforts. This pictorial history of the river, edging towards a hopeful scene of modern-day descendants of both Native Americans and European settlers who come together to combat pollution and restore the beauty of the river, is an intelligent tale that shows young readers how they can do their part in taking care of the world around them, one river at a time.

♥ **A Troubled Peace**

L. M. Elliott

HarperCollins (August 25, 2009)

Summary:

March 1945 World War II may be ending, but for nineteen-year-old pilot Henry Forester the conflict still rages. Shot down behind enemy lines in France, Henry endured a dangerous trek to freedom, relying on the heroism of civilians and Resistance fighters to stay alive. But back home in Virginia, Henry is still reliving air battles with Hitler's Luftwaffe and his torture by the Gestapo. Mostly, Henry can't stop worrying about the safety of those who helped him escape—especially one French boy, Pierre, who, because of Henry, may have lost everything. When Henry returns to France to find Pierre, he is stunned by the brutal after-math of combat: starvation, cities shattered by Allied bombing, and the shocking return of concentration camp survivors. Amid the rubble of war, Henry must begin a daring search for a lost boy—plus a fight to regain his own internal peace and the trust of the girl he loves. L. M. Elliott's sequel to *Under a War-Torn Sky* is an astonishing account of surviving the fallout from war.

This title has Common Core connections. Praise for *A Wrinkle in Time*: "One of America's most beloved stories." —Andrew Liptak in *Kirkus* "A coming of age fantasy story that sympathizes with typical teen girl awkwardness and insecurity, highlighting courage, resourcefulness and the importance of family ties as key to overcoming them." —Carol Platt Liebau, author, in the *New York Post* "An exhilarating experience." —*Kirkus Reviews* "This imaginative book will be read for a long time into the future." —*Children's Literature* "A *Wrinkle in Time* is one of my favorite books of all time. I've read it so often, I know it by heart. Meg Murry was my hero growing up. I wanted glasses and braces and my parents to stick me in an attic bedroom. And I so wanted to save Charles Wallace from IT." —Meg Cabot "A book that every young person should read, a book that provides a road map for seeking knowledge and compassion even at the worst of times, a book to make the world a better place." —Cory Doctorow "[L'Engle's] work is one of the things that made me a writer, a science fiction and fantasy fan, an avid reader. Hers were the first books I read that mixed math and magic, the quest and the quantum." —Scott Westerfeld "A *Wrinkle in Time* taught me that you can tackle even the deepest and most slippery concepts of physics and philosophy in fiction for young readers. Dawn Cusick

Imagine! Publishing (2014)

Summary:

"Cusick explores how gravity-defying flight, coiled and tubelike tongues, bite-proof armor and other surprising adaptations in animal bodies and behavior provide a competitive edge. This presentation of amazing animal facts is loosely organized into three sections: defense, foraging and anatomy. There's a short introduction for each section followed by a series of boxed explanations interspersed among a gallery of close-up photographs, mostly from the National Wildlife Federation archives. Some images are quite wonderful: a family of cygnets riding a swan's back, a porcupine chewing on a branch, an unidentified moth with a coiled tongue. Others are really too small to see details well. Some images are clearly labeled with the creature's name; others can be guessed from the nearby text, but some will be mysteries (perhaps better than the "great egret" caption for the snowy egret picture). Readers are asked some thought-provoking questions as well as offered cool facts. Scavenger-hunt challenges in the concluding section call for both inside and outside research. A companion volume, *Animals That Make Me Say OUCH!*, follows the same format, but its third section deals with adaptations for hostile environments. Both titles feature lively, colorful design. Best for browsers who like their facts fast" --

Candlewick Press (2000)

Summary:

The summer Opal and her father, the preacher, move to Naomi, Florida, Opal goes into the Winn-Dixie supermarket--and comes out with a dog. A big, ugly, suffering dog with a sterling sense of humor. A dog she dubs Winn-Dixie. Because of Winn-Dixie, the preacher tells Opal ten things about her absent mother, one for each year Opal has been alive. Winn-Dixie is better at making friends than anyone Opal has ever known, and together they meet the local librarian, Miss Franny Block, who once fought off a bear with a copy of WAR AND PEACE. They meet Gloria Dump, who is nearly blind but sees with her heart, and Otis, an ex-con who sets the animals in his pet shop loose after hours, then lulls them with his guitar. Opal spends all that sweet summer collecting stories about her new friends and thinking about her mother. But because of Winn-Dixie or perhaps because she has grown, Opal learns to let go, just a little, and that friendship-and forgiveness-can sneak up on you like a sudden summer storm.

♥ **Black Beauty**

Anna Sewell

Courier Corporation (June 23, 1999)

Summary:

Perhaps the most celebrated animal story of the nineteenth century, "Black Beauty" is the suspenseful and deeply moving account of a horse's experiences at the hands of many owners—some, sensitive riders who treated him gently; others, cruel drivers who thoughtlessly inflicted lasting damage. Written as the animal's autobiography, and as an appeal for the humane treatment of horses, Anna Sewell's beloved classic reveals as much about human conduct and the social ills of the time as it does about the treatment of animals. Scenes from the lives of both the landed gentry and the impoverished working class offer a subtle but well-rounded perspective of social conditions in England during the late 19th century. Animal lovers of all ages will cherish this memorable story, available in this unabridged, modestly priced edition. Unabridged Dover (1999) republication of a standard edition.

♥ **Blended**

Sharon M. Draper

Atheneum/Caitlyn Dlouhy Books (October 30, 2018)

Summary:

Eleven-year-old Isabella's blended family is more divided than ever in this thoughtful story about divorce and racial identity from the award-winning and New York Times bestselling author of *Out of My Mind*, Sharon M. Draper. Eleven-year-old Isabella's parents are divorced, so she has to switch lives every week: One week she's Isabella with her dad, his girlfriend Anastasia, and her son Darren living in a fancy house where they are one of the only black families in the neighborhood. The next week she's Izzy with her mom and her boyfriend John-Mark in a small, not-so-fancy house that she loves. Because of this, Isabella has always felt pulled between two worlds. And now that her parents are divorced, it seems their fights are even worse, and they're always about HER. Isabella feels even more stuck in the middle, split and divided between them than ever. And she's beginning to realize that being split between Mom and Dad is more than switching houses, switching nicknames, switching backpacks: it's also about switching identities. Her dad is black, her mom is white, and strangers are always commenting: "You're so exotic!" "You look so unusual." "But what are you really?" She knows what they're really saying: "You don't look like your parents." "You're different." "What race are you really?" And when her parents, who both get engaged at the same time, get in their biggest fight ever, Isabella doesn't just feel divided, she feels ripped in two. What does it mean to be half white or half black? To belong to half mom and half dad? And if you're only seen as half of this and half of that, how can you ever feel whole? It seems like nothing can bring Isabella's family together again—until the worst happens. Isabella and Darren are stopped by the police. A cell phone is mistaken for a gun. And shots are fired.

Captain Underpants and the Perilous Plot of Professor Poopyants

The Fourth Epic Novel

Dav Pilkey

Scholastic (2000)

Summary:

Young troublemakers George and Harold are back with Mr. Krupp, the Jerome Horowitz Elementary principal they previously transformed into the superhero Captain Underpants with their 3-D hypno ring. This comic adventure begins in New Swissland, where everyone has a silly name. ("Just ask their president, the Honorable Chuckles Jingleberry McMonkeyburger Jr. or his lovely wife, Stinky.") New Swissland, just southeast of Greenland, is the home of the inventor of the Shrinky-Pig 2000 and the Goosy-Grow 4000--Professor Pippy P. Poopyants. When the professor decides to pitch his inventions in the United States, he is laughed out of every institution of higher learning because of his unusual name. Frustrated, he decides to become an elementary school science teacher where the innocent children will, he assumes, be accepting and loving. This is where his world collides with George and Harold's, who are not accepting of his funny name, but instead explode with laughter and promptly craft a new comic book called "Captain Underpants and the Pied Pooper of Piqua." This hilarious book will crack Pilkey fans up with tiny toilets of truth, evil gerbils, and even Cher's greatest hits. (The children--not notoriously good spellers--note: "All animal cruelty was simulated. No actual girbles were forced to listen to Cher.") And what becomes of Professor Poopyants? He gets even, devising a method to convert all names into silly names. He creates a chart in which everyone has to use letters from their own first and last names to create a madcap moniker. In the end, George and Harold learn that it's not nice to make fun of people.

Cells for Kids Science Book for Children

Nishi Singh

CreateSpace Independent Publishing Platform (January 6, 2014)

Summary:

Cells are the building blocks of all living things. They are called "cells" because Robert Hooke, the person who discovered the cells when looking under the microscope thought that it looked like the "empty rooms" of a monastery where monks used to sleep in. Biology is the study of living organisms and the research of the science behind living things. Biology is the core that unites all other disciplines and sub-disciplines of biological science. This starts with the understanding of the cell. Hence, the study of biology is vital for our children. This book, "Cells For Kids" is a book designed for children with diagrams so that they can learn everything about animal and plant cells from the start. As parents, we must ingrain their minds and awaken their curiosity so that they can be ready for this complex and rapidly evolving subject area. Most biology books, be it for children or adults start with a chapter on the cell. It is here that all biological processes take place. Hence it is vital that we as parents, teach our children about the cell as early as possible. Some may be able to learn while some may not but at least it's a step in the right direction. I wrote this book for my own children and I can see that they are now curious about what a cell is and what exactly does it does? Half of my job is done; this will save me a lot of heartache later on when I am trying to trying to teach them biology. My ultimate aim would be to get them to study science when they grow up and this book would be one of their stepping stones. Study of biology will prepare children for a range of careers where they can make a difference in the world. Here's what's covered in this book about cells. I have included questions after some chapters for parents to ask to ensure kids are learning before moving on to the next chapter. There is a quiz at the end of the book. The chapters: 1. What is a cell? (This chapter defines what a cell is) 2. Who discovered the cell? (Describes exactly how Robert Hooke discovered the cell and what he saw under the microscope) 3. What are cells made of? (Describes what the cell is made of - organelles and cytoplasm) 4. Why cells are mostly made of water? (A good question and a difficult one to answer) 5. How big is a cell? ♥ Charlotte's Web

E. B. White and Kate DiCamillo

Harper Collins (May 15, 1974)

Summary:

Sixty years ago, on October 15, 1952, E.B. White's *Charlotte's Web* was published. It's gone on to become one of the most beloved children's books of all time. To celebrate this milestone, the renowned Newbery Medalist Kate DiCamillo has written a heartfelt and poignant tribute to the book that is itself a beautiful translation of White's own view of the world—of the joy he took in the change of seasons, in farm life, in the miracles of life and death, and, in short, the glory of everything. We are proud to include Kate DiCamillo's foreword in the 60th anniversary editions of this cherished classic. *Charlotte's Web* is the story of a little girl named Fern who loved a little pig named Wilbur—and of Wilbur's dear friend Charlotte A. Cavatica, a beautiful large grey spider who lived with Wilbur in the barn. With the help of Templeton, the rat who never did anything for anybody unless there was something in it for him, and by a wonderfully clever plan of her own, Charlotte saved the life of Wilbur, who by this time had grown up to quite a pig. How all this comes about is Mr. White's story. It is a story of the magic of childhood on the farm. The thousands of children who loved *Stuart Little*, the heroic little city mouse, will be entranced with Charlotte the spider, Wilbur the pig, and Fern, the little girl who understood their language. The forty-seven black-and-white drawings by Garth Williams have all the wonderful detail and warmhearted appeal that children love in his work. Incomparably matched to E.B. White's marvelous story, they speak to each new generation, softly and irresistibly.

♥ **Code Talker**
A Novel about the Navajo Marines of World War Two

Joseph Bruchac

Penguin (2006)

Summary:

"Readers who choose the book for the attraction of Navajo code talking and the heat of battle will come away with more than they ever expected to find."?Booklist, starred review Throughout World War II, in the conflict fought against Japan, Navajo code talkers were a crucial part of the U.S. effort, sending messages back and forth in an unbreakable code that used their native language. They braved some of the heaviest fighting of the war, and with their code, they saved countless American lives. Yet their story remained classified for more than twenty years. But now Joseph Bruchac brings their stories to life for young adults through the riveting fictional tale of Ned Begay, a sixteen-year-old Navajo boy who becomes a code talker. His grueling journey is eye-opening and inspiring. This deeply affecting novel honors all of those young men, like Ned, who dared to serve, and it honors the culture and language of the Navajo Indians. "Bruchac's gentle prose presents a clear historical picture of young men in wartime, island hopping across the Pacific, waging war in the hells of Guadalcanal, Bougainville, and Iwo Jima. Nonsensational and accurate, Bruchac's tale is quietly inspiring..."?School Library Journal

Avi

Hyperion Books For Children (2002)

Summary:

He is a 13-year-old boy living in 14th century England, a time when life was hard for most people. He's less than a serf, working the land for people who are his betters and totally dependent upon them. He's really a nothing. He doesn't know why, but he and his mother have always been outcasts in their little village, and everybody seems to hate them. In fact, he is so despised that he doesn't even have a name -- he's just "Asta's son." The village he lives in is owned entirely by Lord Furnival, who is always gone fighting wars for the king. So his steward, John Aycliffe, manages all Furnival's property, which includes the lives of everybody in the village. And Aycliffe seems to hate Asta's son even more than the villagers do. When Asta dies, her son's life becomes more unbearable than ever. Aycliffe declares that Asta's son must give his only ox to Lord Furnival's manor as a death tax for his mother. This means that the boy can't work the land for his meager livelihood. Then Aycliffe accuses Asta's son of stealing and declares him a wolf's head. This means that anybody who meets the boy may kill him on sight, since a wolf's head is not considered a human being.

Jeff Kinney

Harry N. Abrams (April 1, 2007)

Summary:

Boys don't keep diaries or do they? The launch of an exciting and innovatively illustrated new series narrated by an unforgettable kid every family can relate to starts a new school year, and Greg Heffley finds himself thrust into middle school, where undersized weaklings share the hallways with kids who are taller, meaner, and already shaving. The hazards of growing up before you're ready are uniquely revealed through words and drawings as Greg records them in his diary. In book one of this debut series, Greg is happy to have Rowley, his sidekick, along for the ride. But when Rowley's star starts to rise, Greg tries to use his best friend's newfound popularity to his own advantage, kicking off a chain of events that will test their friendship in hilarious fashion. Author/illustrator Jeff Kinney recalls the growing pains of school life and introduces a new kind of hero who epitomizes the challenges of being a kid. As Greg says in his diary, "Just don't expect me to be all Dear Diary' this and Dear Diary' that." Luckily for us, what Greg Heffley says he won't do and what he actually does are two very different things. Since its launch in May 2004 on Funbrain.com, the Web version of Diary of a Wimpy Kid has been viewed by 20 million unique online readers. This year, it is averaging 70,000 readers a day. ♥ Ereth's Birthday

Avi

Harper Collins (September 4, 2001)

Summary:

Erethizon Dorsatum—better known as Ereth, the self-centered, foul-tempered old porcupine—is having a birthday. And he fully expects his best friend Poppy, a deer mouse, to help him celebrate in a grand manner. But Poppy has gone off somewhere with her husband, Rye, and it appears she has forgotten all about it. "Belching Beavers," says Ereth, "I am not angry!" (Though, perhaps he is—and more than just a little.) Ereth knows his special occasion deserves a special treat—even if he has to get it for himself. And what treat could be more special than tasty salt? But the nearest salt is located deep in the forest, in a cabin occupied by fur hunters, who have set out traps to capture the Dimwood Forest animals. In one of the traps, Ereth finds Leaper the Fox—who, with her dying breath, begs the prickly porcupine to take care of her three boisterous young kits, Tumble, Nimble, and Flip. "Jellied walrus warts!" Ereth exclaims, but reluctantly agrees. Certainly this day is not going as he planned—and it's only just the beginning! Not only does Ereth suddenly have a rambunctious new family to take care of, but he's being stalked by Marty the Fisher, the one creature in Dimwood Forest who can do him harm. And Bounder, the father of the three little foxes, remembers all too well the nose full of quills he got a while back from the grumpy old animal who now fancies himself the leader of the den. He too sets out to show Ereth who's boss. Throw in an unexpected snowstorm, and all in all, it adds up to one birthday Ereth the porcupine is never going to forget, not even if he lives to be a hundred and twenty-two!

♥ **Farewell to Manzanar**

Jeanne Wakatsuki Houston and James D. Houston

Houghton Mifflin Harcourt (April 29, 2002)

Summary:

During World War II a community called Manzanar was hastily created in the high mountain desert country of California, east of the Sierras. Its purpose was to house thousands of Japanese American internees. One of the first families to arrive was the Wakatsukis, who were ordered to leave their fishing business in Long Beach and take with them only the belongings they could carry. For Jeanne Wakatsuki, a seven-year-old child, Manzanar became a way of life in which she struggled and adapted, observed and grew. For her father it was essentially the end of his life. At age thirty-seven, Jeanne Wakatsuki Houston recalls life at Manzanar through the eyes of the child she was. She tells of her fear, confusion, and bewilderment as well as the dignity and great resourcefulness of people in oppressive and demeaning circumstances. Written with her husband, Jeanne delivers a powerful first-person account that reveals her search for the meaning of Manzanar. *Farewell to Manzanar* has become a staple of curriculum in schools and on campuses across the country. Last year the San Francisco Chronicle named it one of the twentieth century's 100 best nonfiction books from west of the Rockies. First published in 1973, this new edition of the classic memoir of a devastating Japanese American experience includes an inspiring afterword by the authors.

♥ Forces of Change

A New View of Nature

Daniel B. Botkin and National Geographic Society (U.S.)

National Geographic Society (2000)

Summary:

Forces of Change takes readers on an unforgettable tour of truly global proportions. In this single volume, more than 20 of the world's most innovative and visionary scientists, writers, and scholars -- including Stephen Jay Gould, John McPhee, Lynn Margulis, Daniel Botkin, and David Quammen -- illuminate the forces that define and continue to profoundly transform our planet and all of its inhabitants. Taken together, these essays represent a dramatic range of new views and understandings about nature that have emerged over the last century. Developed by the Smithsonian Institution and the National Geographic Society, Forces of Change brings together for the first time the matchless resources of two world-renowned institutions in order to present a bold new vision of the world, which stresses the diversity, interrelatedness, and interdependence of all natural phenomena. In this vision the Earth can be viewed as a grand network of life-supporting forces operating within a single dynamic system. Powerfully punctuated by epic photographs, eloquent illustrations, and a wonderfully dynamic design, Forces of Change is at once highly accessible and deeply thought-provoking. Full of sidebars that lucidly unpack the latest field research, the essays take readers around the world -- from the peaks of the Himalaya to the mysterious depths of the sea, and from the Ladakh cultures of northern India to the A'ani and Assiniboine tribes of Montana. Published in conjunction with a new permanent exhibit program at the Smithsonian's National Museum of Natural History, Forces of Change is a timely and vitally important consideration of science and fate at the dawn of the 21st century.

♥ Freedom Riders

John Lewis and Jim Zwerg on the Front Lines of the Civil Rights Movement

Ann Bausum

National Geographic (2006)

Summary:

How did two youths—one raised in an all-black community in the deep South, the other brought up with only whites in the Midwest—become partners for freedom during the civil rights movement of the 1960s? *Freedom Riders* compares and contrasts the childhoods of John Lewis and James Zwerg in a way that helps young readers understand the segregated experience of our nation's past. It shows how a common interest in justice created the convergent path that enabled these young men to meet. This book introduces young readers (grade 5 and up) to the concept of nonviolent resistance as practiced by Zwerg, Lewis, and their classmates in Nashville, Tennessee. These students broke the color barrier at local movie theaters using this form of protest. *Freedom Riders* conveys the history of the Freedom Rides through the shared experiences of Lewis and Zwerg. No other book on the subject has used such a personal perspective. These two young men, empowered by their successes in Nashville, were among those who volunteered to continue the Freedom Rides after violence in Anniston, Alabama, left the original bus in flames with the riders injured and in retreat. Lewis and Zwerg joined the cause knowing their own fate could be equally harsh, if not worse, when the Freedom Ride penetrated deeper into the South. When these new participants arrived in Montgomery, Alabama, Zwerg and Lewis were singled out by a mob numbering in the hundreds armed with chains, bats, and hammers. The two youths were nearly beaten to death before police stepped forward to end the violence. The two surviving photographs from their experience provide testimony to the severity of their attacks. Release of these images along with accounts of the violence in Montgomery served to focus national attention on the Freedom Rides. Waves of volunteers came South to continue them. *Freedom Riders* summarizes the history of the subsequent rides and their success at ending discriminatory seating on Southern interstate bus service. It concludes by relating the divergent paths of Lewis and Zwerg. Lewis rose to prominence with continued participation in the civil rights movement. He became a U.S. Congress member in 1986. Zwerg, at the encouragement of Dr. Martin Luther King, Jr., took up the ministry, a career he continued for 20 years until turning to community service and business. The book is stunningly illustrated with 50 duotoned historical photos and detailed maps. It includes a resource guide of landmarks and references and a related chronology.

E.L. Konigsburg

Atheneum Books for Young Readers (April 1, 1998)

Summary:

Run away to the Metropolitan Museum of Art with E. L. Konigsburg's beloved classic and Newbery Medal-winning novel *From the Mixed-Up Files of Mrs. Basil E. Frankweiler!* When Claudia decided to run away, she planned very carefully. She would be gone just long enough to teach her parents a lesson in Claudia appreciation. And she would go in comfort—she would live at the Metropolitan Museum of Art. She saved her money, and she invited her brother Jamie to go, mostly because he was a miser and would have money. Claudia was a good organizer and Jamie had some ideas, too; so the two took up residence at the museum right on schedule. But once the fun of settling in was over, Claudia had two unexpected problems: She felt just the same, and she wanted to feel different; and she found a statue at the Museum so beautiful she could not go home until she had discovered its maker, a question that baffled the experts, too. The former owner of the statue was Mrs. Basil E. Frankweiler. Without her—well, without her, Claudia might never have found a way to go home.

Margi Preus

Harry N. Abrams (February 1, 2012)

**Summary:**

In 1841 a Japanese fishing vessel sinks. Its crew is forced to swim to a small, unknown island, where they are rescued by a passing American ship. Japan's borders remain closed to all Western nations, so the crew sets off to America, learning English on the way. Manjiro, a 14-year-old boy, is curious and eager to learn everything he can about this new culture. Eventually the captain adopts Manjiro and takes him to his home in New England. The boy lives there for some time and then heads to San Francisco to pan for gold. After many years, he makes it back to Japan, only to be imprisoned as an outsider. With his hard-won knowledge of the West, Manjiro is in a unique position to persuade the emperor to ease open the boundaries around Japan; he may even achieve his unlikely dream of becoming a samurai. Heart of a Samurai is a 2011 Newbery Honor Book. Accolades and Praise for Heart of a Samurai 2011 Newbery Honor Book New York Times Bestseller NPR Backseat Book Club pick "A terrific biographical novel by Margi Preus." -Wall Street Journal ***STARRED REVIEW*** "It's a classic fish-out-of-water story (although this fish goes into the water repeatedly), and it's precisely this classic structure that gives the novel the sturdy bones of a timeless tale. Bracketed by gritty seafaring episodes--salty and bloody enough to assure us that Preus has done her research--the book's heart is its middle section, in which Manjiro, allegedly the first Japanese to set foot in America, deals with the prejudice and promise of a new world. By Japanese tradition, Manjiro was destined to be no more than a humble fisherman, but when his 10-year saga ends, he has become so much more." --Booklist, starred review ***STARRED REVIEW*** "Illustrated with Manjiro's own pencil drawings in addition to other archival material and original art from Tamaki, this is a captivating fictionalized (although notably faithful) retelling of the boy's adventures. Capturing his wonder, remarkable willingness to learn, the prejudice he encountered and the way he eventually influenced officials in Japan to open the country, this highly entertaining page-turner."--Kirkus Reviews, starred review ***STARRED REVIEW*** "Stunning debut novel. Preus places readers in the young man's shoes, whether he is on a ship or in a Japanese prison. Her deftness in writing is evident in two poignant scenes, one in which Manjiro realizes the similarities between the Japanese and the Americans and the other when he reunites with his Japanese family." --School Library Journal, starred review ***STARRED REVIEW*** "Preus mixes fact with fiction in a tale that is at once adventurous, heartwarming, sprawling, and nerve-racking in its depictions of early anti-Asian sentiment. She succeeds in making readers feel every bit as "other" as Manjiro, while showing America at its best and worst through his eyes." --Publishers Weekly, starred review "First-time novelist Preus turns the true story of Manjiro into an action-packed boy's adventure tale." --Horn Book

♥ Island of the Blue Dolphins

Scott O'Dell

Houghton Mifflin Harcourt (1960)

Summary:

1961 Newbery Medal Winner Far off the coast of California looms a harsh rock known as the island of San Nicholas. Dolphins flash in the blue waters around it, sea otter play in the vast kep beds, and sea elephants loll on the stony beaches. Here, in the early 1800s, according to history, an Indian girl spent eighteen years alone, and this beautifully written novel is her story. It is a romantic adventure filled with drama and heartache, for not only was mere subsistence on so desolate a spot a near miracle, but Karana had to contend with the ferocious pack of wild dogs that had killed her younger brother, constantly guard against the Aleutian sea otter hunters, and maintain a precarious food supply. More than this, it is an adventure of the spirit that will haunt the reader long after the book has been put down. Karana's quiet courage, her Indian self-reliance and acceptance of fate, transform what to many would have been a devastating ordeal into an uplifting experience. From loneliness and terror come strength and serenity in this Newbery Medal-winning classic.

♥ **James and the Giant Peach**
A Children's Story

Roald Dahl

Penguin (1961)

Summary:

From the bestselling author of Charlie and the Chocolate Factory and The BFG! Roald Dahl was a champion of the underdog and all things little--in this case, an orphaned boy oppressed by two nasty, self-centered aunts. How James escapes his miserable life with the horrible aunts and becomes a hero is a Dahlicious fantasy of the highest order. You will never forget resourceful little James and his new family of magically overgrown insects--a ladybug, a spider, a grasshopper, a glowworm, a silkworm, and the chronic complainer, a centipede with a hundred gorgeous shoes. Their adventures aboard a luscious peach as large as a house take them across the Atlantic Ocean, through waters infested with peach-eating sharks and skies inhabited by malevolent Cloudmen, to a ticker-tape parade in New York City. This happily ever after contemporary fairy tale is a twentieth-century classic that every child deserves to know. And Lane Smith's endearingly funny illustrations are a perfect match for the text. All the gruesome imagery of old-fashioned fairy tales and a good measure of their breathtaking delight. --Kirkus Reviews A stunning book, to be cherished for its story, a superb fantasy. --The Chicago Tribune The most original fantasy that has been published in a long time...[it] may well become a classic. --San Francisco Chronicle

♥ Living on

Portraits of Tennessee Survivors and Liberators : a Project of the Tennessee Holocaust Commission

Tennessee Holocaust Commission

University of Tennessee Press (2008)

Summary:

Living On is a documentary project that includes portraits of survivors, liberators, U. S. Army witnesses, hidden children, and refugees from the Holocaust now living in Tennessee. These individuals lived through one of the most catastrophic periods in human history. They are witnesses to horrific events that have defied human imagination, then and now. Their stories, faces, and voices provide separate testimony into how the unthinkable happened and how its consequences created a lasting impact that has relevance today. Each of these courageous individuals was willing to revisit painful memories, telling his or her story in hopes that history might never repeat itself. Through the accounts of Holocaust survivors and liberators included in this book, readers become witnesses to an important and frightening period when government leaders persecuted and killed ordinary citizens because of who they were. Their stories of strength and courage serve as a permanent reminder that nothing can ever extinguish the light of the human spirit. Through the Living On project, the Tennessee Holocaust Commission created a traveling exhibition of photographs and stories that became the basis of this book. Living On gives voice to storytellers whose ability to testify may soon be lost through age and frailty. Living On also offers readers and viewers the opportunity to meet fellow citizens through the medium of photographic portrait and biographical sketch when physical encounters prove impossible. The book stands as a powerful testament to human resiliency in spite of the efforts, inspired by fanatical race hatred, to eliminate the very faces and voices it captures. Living On is a project of the Tennessee Holocaust Commission. For more information on the exhibit, please visit <http://www.tennesseeholocaustcommission.org>. Robert Heller is an associate professor in the School of Journalism and Electronic Media at the University of Tennessee. He teaches photojournalism and graphic design and is the author of More Than the Game: The Tennessee Football Experience.

Miles Morales: Spider-Man

Jason Reynolds

Marvel Press (October 2, 2018)

Summary:

"Everyone gets mad at hustlers, especially if you're on the victim side of the hustle. And Miles knew hustling was in his veins." Miles Morales is just your average teenager. Dinner every Sunday with his parents, chilling out playing old-school video games with his best friend, Ganke, crushing on brainy, beautiful poet Alicia. He's even got a scholarship spot at the prestigious Brooklyn Visions Academy. Oh yeah, and he's Spider Man. But lately, Miles's spidey-sense has been on the fritz. When a misunderstanding leads to his suspension from school, Miles begins to question his abilities. After all, his dad and uncle were Brooklyn jack-boys with criminal records. Maybe kids like Miles aren't meant to be superheroes. Maybe Miles should take his dad's advice and focus on saving himself. As Miles tries to get his school life back on track, he can't shake the vivid nightmares that continue to haunt him. Nor can he avoid the relentless buzz of his spidey-sense every day in history class, amidst his teacher's lectures on the historical benefits of slavery and the modern-day prison system. But after his scholarship is threatened, Miles uncovers a chilling plot, one that puts his friends, his neighborhood, and himself at risk. It's time for Miles to suit up.

Mine Eyes Have Seen

Bob Adelman and Charles Johnson

Liberty Street (November 20, 2007)

Summary:

This is a book about a time, a people - and a cause. It is a passionate chronicle of one of the epic undertakings in American history, the struggle during the second half of the twentieth century for civil rights. It is a story about a nation fighting to make itself whole. Bob Adelman witnessed that fight and recorded it with his camera. This is his testament. Growing up, Adelman knew that what was most un-American about America was its mistreatment of blacks. Stirred by the heroic students whose sit-ins were breaking the shackles of segregation, he felt called to join and lend his skills as a photographer to the cause. The Movement became his mission. Adelman was there: in Birmingham, in Selma, in Washington. He was by Martin Luther King Jr.'s side, at Malcolm X's speeches and funeral, in the trenches and in the marches. He was there, as well, in the Bed Stuy ghetto, on the streets of Newark during the riots, in Harlem schools, on Beale Street in Memphis, in the plantation fields and at the quilting bee in Gee's Bend, Alabama. He had a great calling and now looks back with this book. Mine Eyes Have Seen tells what life was like, why change was needed and how change was effected, sometimes in the face of violence. Adelman's commentary and reminiscences further illuminate his stunning documentary photography and portraiture. Essays by the National Book Award-winning novelist Charles Johnson explain why this man's photographs constitute a vital, definitive record of the quest for equality. "With compassion and courage - since taking photos in the Jim Crow South often put his own life at risk - Bob Adelman conjured the humanity, grace and dignity of his subjects," writes Johnson. "That quotidian humanity is everywhere evident in Mine Eyes Have Seen." Through his eyes, the Civil Rights Movement is presented as such a human story. To visit these pages is to be there. Bob Adelman's view was unique - and uniquely informed. His subjects knew which side he was on. And he stayed the course. He was there in the 1950s as the struggle was beginning and still present in 1998 when the last of these photographs was taken, Sen. Richard Shelby of Alabama shaking hands with Prince Arnold, the black sheriff of Wilcox County. Some of these iconic images seem like small miracles. Mine Eyes Have Seen is Adelman's testament to a time, a people and a cause that he believed in and believes in still.

Mississippi Bridge

Mildred D. Taylor

Random House Children's Books (June 1, 1992)

Summary:

Another powerful story in the Logan Family Saga and companion to Mildred D. Taylor's Newbery Award-winning *Roll of Thunder, Hear My Cry*. A day of conflict and tragedy. Jeremy Simms watches from the porch of the general store as the weekly bus from Jackson comes through his town. His neighbor Stacey Logan and Stacey's brothers and sister are there to see their grandmother off on a trip. Jeremy's friend Josias Williams is taking the bus to his new job. But Josias and the Logans are black, and in Mississippi in the 1930s, black people can't ride the bus if that means there won't be enough room for white people to ride. When several white passengers arrive at the last minute, the driver sends Josias and Stacey's grandmother off the bus. Then comes a terrifying moment that unites all the townspeople in a nightmare that will change their lives forever. "Well written and thought provoking, this book will haunt readers and generate much discussion."--School Library Journal

♥ Moon Over Manifest

Clare Vanderpool

Yearling (2011)

Summary:

Winner of the 2011 Newbery Award. The movement of the train rocked me like a lullaby. I closed my eyes to the dusty countryside and imagined the sign I'd seen only in Gideon's stories: Manifest—A Town with a rich past and a bright future. Abilene Tucker feels abandoned. Her father has put her on a train, sending her off to live with an old friend for the summer while he works a railroad job. Armed only with a few possessions and her list of universals, Abilene jumps off the train in Manifest, Kansas, aiming to learn about the boy her father once was. Having heard stories about Manifest, Abilene is disappointed to find that it's just a dried-up, worn-out old town. But her disappointment quickly turns to excitement when she discovers a hidden cigar box full of mementos, including some old letters that mention a spy known as the Rattler. These mysterious letters send Abilene and her new friends, Lettie and Ruthanne, on an honest-to-goodness spy hunt, even though they are warned to "Leave Well Enough Alone." Abilene throws all caution aside when she heads down the mysterious Path to Perdition to pay a debt to the reclusive Miss Sadie, a diviner who only tells stories from the past. It seems that Manifest's history is full of colorful and shadowy characters—and long-held secrets. The more Abilene hears, the more determined she is to learn just what role her father played in that history. And as Manifest's secrets are laid bare one by one, Abilene begins to weave her own story into the fabric of the town. Powerful in its simplicity and rich in historical detail, Clare Vanderpool's debut is a gripping story of loss and redemption. From the Hardcover edition.

Moses

When Harriet Tubman Led Her People to Freedom

Carole Boston Weatherford

Disney-Hyperion (August 8, 2006)

Summary:

A Caldecott Honor Book
A Coretta Scott King Award Winner
In this award-winning book, acclaimed author Carole Boston Weatherford and bestselling artist Kadir Nelson offer a resounding, reverent tribute to Harriet Tubman, the woman who earned the name Moses for her heroic role in the Underground Railroad. I set the North Star in the heavens and I mean for you to be free... Born into slavery, Harriet Tubman hears these words from God one summer night and decides to leave her husband and family behind and escape. Taking with her only her faith, she must creep through woods with hounds at her feet, sleep for days in a potato hole, and trust people who could have easily turned her in. But she was never alone. In lyrical text, Carole Boston Weatherford describes Tubman's spiritual journey as she hears the voice of God guiding her north to freedom on that very first trip to escape the brutal practice of forced servitude. Tubman would make nineteen subsequent trips back south, never being caught, but none as profound as this first one. Courageous, compassionate, and deeply religious, Harriet Tubman, with her bravery and relentless pursuit of freedom, is a testament to the resilience of the human spirit.

Neighborhood Sharks

Hunting with the Great Whites of California's Farallon Islands

Katherine Roy

Macmillan (September 30, 2014)

Summary:

A Robert F. Sibert Honor Book Winner of the John Burroughs Riverby Award for Young Readers Up close with the ocean's most fearsome and famous predator and the scientists who study them—just twenty-six miles from the Golden Gate Bridge! A few miles from San Francisco lives a population of the ocean's largest and most famous predators. Each fall, while the city's inhabitants dine on steaks, salads, and sandwiches, the great white sharks return to California's Farallon Islands to dine on their favorite meal: the seals that live on the island's rocky coasts. Massive, fast, and perfectly adapted to hunting after 11 million years of evolution, the great whites are among the planet's most fearsome, fascinating, and least understood animals. In the fall of 2012, Katherine Roy visited the Farallons with the scientists who study the islands' shark population. She witnessed seal attacks, observed sharks being tagged in the wild, and got an up-close look at the dramatic Farallons—a wildlife refuge that is strictly off-limits to all but the scientists who work there. *Neighborhood Sharks* is an intimate portrait of the life cycle, biology, and habitat of the great white shark, based on the latest research and an up-close visit with these amazing animals. This title has Common Core connections.

Dorothy B. Sutherland

Childrens Press (1995)

Summary:

This series succeeds dramatically in communicating the unique charm, the allure, and the cultures of other parts of the world. Here also are geography, history, economics, key attractions ... and so much more. The result is a delightful mix of enchantment that is as riveting as it is informative. From the start, readers are caught up in the crisp style of the series. Whether it's a description of bustling London, or an incredibly readable explanation of the decline of ancient Egypt, 5th-grade-and-up students are right there ... visualizing ... understanding ... and remembering! Best of all, little is overlooked that will contribute to the readers' total appreciation of a culture. Be it sagas of Vikings or folktales of trolls. Or even acknowledgment of modern Vikings like Thor Heyerdahl. There's mystery such as England's Stonehenge and Egypt's Great Pyramids ... plus nature's wonders -- like Australia's egg-laying platypus and China's gentle but rare pandas. Everything is there ... to be enjoyed, relished, and learned from. Each book also includes a chapter of brief biographies of important people. And each features an 8-10 page reference section of "quick facts", perfect for students' research, about such subjects as population, government, geographical data, currency, and historical chronology. Throughout, all the books are ablaze with a generous amount of beautiful full-color photographs. "Enchantment of the World" can be of equal importance in the library or social studies classroom. Either way, it's a series that students will go back to again and again.

♥ Old Yeller

Fred Gipson

Harper Collins (August 18, 2009)

Summary:

A timeless American classic and one of the most beloved children's books ever written, Old Yeller is a Newbery Honor Book that explores the poignant and unforgettable bond between a boy and the stray dog who becomes his loyal friend. When his father sets out on a cattle drive toward Kansas for the summer, fourteen-year-old Travis Coates is left to take care of his family and their farm. Living in Texas Hill Country during the 1860s, Travis comes to face new, unanticipated, and often perilous responsibilities in the frontier wilderness. A particular nuisance is a stray yellow dog that shows up one day and steals food from the family. But the big canine who Travis calls "Old Yeller" proves his worth by defending the family from danger. And Travis ultimately finds help and comfort in the courage and unwavering love of the dog who comes to be his very best friend. Fred Gipson's novel is an eloquently simple story that is both exciting and deeply moving. It stands alongside works like The Adventures of Huckleberry Finn, Where The Red Fern Grows, and Shiloh as a beloved and enduring classic of literature. Originally published in 1956 to instant acclaim, Old Yeller later inspired a hit film from Walt Disney. Just as Old Yeller inevitably makes his way into the Coates family's hearts, this book will find its own special place in readers' hearts.

HarperCollins (September 21, 1992)

Summary:

Our Solar System was born almost 5 billion years ago at the edge of the Milky Way galaxy. In over fifty dramatic, full-color photographs and an easy-to-read text, award-winning author Seymour Simon takes you on a fascinating tour of the nine planets, dozens of moons, and thousands of asteroids, meteoroids, and comets that travel around our sun. First, Simon explores the star at the center of our Solar System -- from the constant nuclear explosions at its core to the giant storms on its surface as geysers of flaming gas over a hundred thousand miles long rise and fall in just a few hours. You will also learn about the four rocky inner planets, from airless Mercury to fiery Venus, her sister planet, Earth, and mysterious Mars. Then join the thrilling Voyager missions to explore the four gaseous outer planets: gigantic Jupiter, ringed Saturn, tilted Uranus -- the planet "lying on its side" -- and windy Neptune. You will finish your journey at distant Pluto, then visit the asteroid belt and examine comets, the "dirty snowballs" in space. A companion volume to Simon's landmark series of individual books about each of the planets, the sun, stars, and other space sights, Our Solar System will introduce you to some of the most amazing mysteries in the universe.

**Summary:**

Boston Globe-Horn Book Award Winner * ALA Notable Book * ALA Booklist Editors' Choice * School Library Journal Best Book In the second book in the Tales of Dimwood Forest by Newbery Medal-winning author Avi, a tiny deer mouse named Poppy dares to stand up to a tyrannical owl. The story is accompanied by inviting illustrations from Caldecott Medal-winning artist Brian Floca. "This exciting story is richly visual. The underlying messages, to challenge unjust authority and to rely on logic and belief in oneself, are palatably blended with action and suspense." — School Library Journal Poppy knew she was taking a risk following her beloved Ragweed to Bannock Hill, but a night of dancing with the handsome golden mouse was just too tempting. So when Ragweed is scooped up by the sinister owl, Mr. Ocax, who rules over Dimwood forest, she's devastated. Her whole life she was warned of Mr. Ocax's evil ways...how could she have been so foolish to put herself and Ragweed at risk? To make matters worse, when Poppy attempts to move with her family to a different part of the woods where the food supply is richer, Mr. Ocax refuses to let them go. Despite what she's been led to believe for years, Mr. Ocax is not as strong as he wants the mice to think he is. Armed with the bravery, gumption, and wit of a hero, Poppy embarks on a dangerous quest—joined by the irascible but lovable porcupine, Ereth—to defeat Mr. Ocax and lead her family to a better home. A perennially popular story of courage and determination, Poppy is a fixture on state award lists and in classrooms across the country.

Lori Marie Carlson

Macmillan (March 15, 1998)

Summary:

The 14 poems in this bilingual (English-Spanish) collection were written or selected by Carlson, the editor of "Cool Salsa: Bilingual Poems on Growing Up Latino in the United States". The poetry is plain and prosaic--simple strings of images describing family and the activities that fill a Latino child's day from sunup to sundown, or "sol a sol". Lisker's colorful, ebullient, and bold acrylic illustrations add much-needed punch and spark. This is picture-book poetry for larger collections or those with great demand for Latino literature.

Being the Story of the Enlistment and Due Service of the Boy Charley Goddard in the First Minnesota Volunteers :a Novel of the Civil War

Gary Paulsen

Dell Laurel-Leaf (2000)

Summary:

In June 1861, when the Civil War began, Charley Goddard enlisted in the First Minnesota Volunteers. He was 15. He didn't know what a "shooting war" meant or what he was fighting for. But he didn't want to miss out on a great adventure. The "shooting war" turned out to be the horror of combat and the wild luck of survival; how it feels to cross a field toward the enemy, waiting for fire. When he entered the service he was a boy. When he came back he was different; he was only 19, but he was a man with "soldier's heart," later known as "battle fatigue."

Summary:

Strange things are happening at Dunwiddle Magic School -- and the Upside-Down Magic class is getting blamed! Yes, Marigold did shrink Lacey Clench to the size of a gerbil. But that was an accident. And, yes, most people weren't prepared for Nory to transform into a squippy (that's half squid, half puppy) -- but it's not like Nory meant to mix up paws and tentacles. And while Bax does have the unfortunate magical condition of turning into a stone, he swears he has nothing to do with the rocky magic that's been happening in Dunwiddle's halls. When things get messy, it's easy to point your finger at the kids with the messiest magic. But the Upside-Down Magic students aren't going to let themselves get in trouble. Instead, they're going to find out what's really going on -- and get their school back on track before something really wacky happens.

♥ Summer's Bloodiest Days The Battle of Gettysburg as Told from All Sides

Jennifer L. Weber

National Geographic (2010)

Summary:

Timed for the Civil War anniversary in 2011, this book powerfully illustrates a true turning point in American history. Gettysburg expert Jennifer Weber tells the story of the momentous battle through the voices of those who were there, a unique approach that makes this title stand out from all others. Gripping eyewitness accounts, archival photographs, and dramatic artwork combine with the latest research to portray the Battle of Gettysburg from all sides--Yankees and Rebels, officers and foot soldiers, men and women, townspeople and outside observers. Through their eyes, today's students get a real sense of how a chance meeting on a dusty road exploded into three days of intense combat. Maps specially created by National Geographic cartographers help us follow all the action of the vicious and complex battle, during which more than 50,000 people were killed, wounded, or taken prisoner. Names such as Little Round Top, the Peach Orchard, and Pickett's Charge take on new meaning as young readers learn about the incredible sacrifices made--often by people still in their teens. ♥ Tennesseans and Their History

Paul H. Bergerson, Jeanette Keith, and Stephen V. Ash

Univ. of Tennessee Press (1999)

Summary:

The history of Tennessee is full of dramatic episodes and colorful characters that give the Volunteer State a major place in the American saga. From the bloody battle of Shiloh in 1862 to the Dayton "monkey trial" of 1925 to the assassination of Martin Luther King in Memphis in 1968, Tennessee has been the locale for many of America's most important events. This new book presents a synthesis of Tennessee history from earliest times to the present. Striking a balance of social, economic, and political perspectives, it moves from frontier times to early statehood, antebellum society through the Civil War to Reconstruction, then establishes Tennessee's place in the New South and in modern times. Full coverage is devoted to the Civil Rights era and to events in the later years of this century, including environmental issues. The text deals honestly with slavery and segregation and also corrects shortcomings of previous works by placing the state's history in the context of national issues and events within the South. The authors introduce readers to famous personages like Andrew Jackson and Austin Peay, often using quotations to give them voice. They also tell stories of ordinary people and their lives to show how they are an integral part of history. Sidebars throughout the text highlight stories of particular interest, and reading lists at the end of chapters further enhance the text's utility. *Tennesseans and Their History* was written for students needing a basic introduction to state history and to general readers looking for a lively introduction to Tennessee's past. Written to be entertaining as well as instructive, it makes the state's history relevant to a new generation of Tennesseans. The Authors: Paul H. Bergerson is professor of history at the University of Tennessee and the editor of *The Papers of Andrew Johnson*. Stephen V. Ash is associate professor of history at the University of Tennessee and author of *Middle Tennessee Transformed, 1860-1870: War and Peace in the Upper South*. Jeanette Keith is associate professor of history at Bloomsburg University and the author of *Country People in the New South: Tennessee's Upper Cumberland*.

♥ Tennessee Post Office Murals

Howard Hull

The Overmountain Press (1996)

Summary:

The United States government got into the art business when it instituted a series of programs to keep artists working during the Depression years. Tennessee received its fair share, and most of the original thirty are still in existence. A few have been moved to different locations, but the author notes that most of the murals “are still on that same wall in the same small post office in that same small town where they were placed so long ago.” Unfortunately, many people are not aware of these murals—even in the areas where they are located. Written for the purpose of enhancing the knowledge of Tennesseans about the murals found in their post offices, this book will be of interest to artists and historians as well. Hull has included numerous photographs along with his descriptions of each mural and its composition, the mural’s relation to history, and a biographical sketch of each artist.

♥ Tentacles

Roland Smith

Scholastic Press (2009)

Summary:

Thirteen-year-old twins Marty and Grace O'Hara's globe-trotting parents disappeared while on assignment for a nature magazine, and now they're living with their uncle Wolfe, a scientist fascinated by cryptids -- creatures that appear in myths and folktales but haven't been proven to exist, like Sasquatch and the Loch Ness Monster. Uncle Wolfe is planning an expedition to New Zealand, and he doesn't really have room for two kids on his crew, despite the fact that he's rented a huge (and possibly haunted) freighter for the trip. But Marty and Grace will do anything to see the Kraken, the gigantic squid that has terrified sailors for centuries! Unfortunately, someone on board the ship is determined to sabotage their mission and if they're not careful, Marty and Grace just might become the saboteur's next victims. Roland Smith brings his trademark flair for action, adventure, and exciting storytelling to his Scholastic debut and it's sure to leave young readers clamoring for more!

♥ **The Autobiography of Benjamin Franklin**

Benjamin Franklin

Courier Corporation (June 7, 1996)

Summary:

Blessed with enormous talents and the energy and ambition to go with them, Franklin was a statesman, author, inventor, printer, and scientist. He helped draft the Declaration of Independence and later was involved in negotiating the peace treaty with Britain that ended the Revolutionary War. He also invented bifocals, a stove that is still manufactured, a water-harmonica, and the lightning rod. Franklin's extraordinary range of interests and accomplishments are brilliantly recorded in his Autobiography, considered one of the classics of the genre. Covering his life up to his prewar stay in London as representative of the Pennsylvania Assembly, this charming self-portrait recalls Franklin's boyhood, his determination to achieve high moral standards, his work as a printer, experiments with electricity, political career, experiences during the French and Indian War, and more. Related in an honest, open, unaffected style, this highly readable account offers a wonderfully intimate glimpse of the Founding Father sometimes called "the wisest American."

♥ **The Birchbark House**

Louise Erdrich

HyperionBooks for Children (1999)

Summary:

Omakayas, a seven-year-old Native American girl of the Ojibwa tribe, lives through the joys of summer and the perils of winter on an island in Lake Superior in 1847. For as long as Omakayas can remember, she and her family have lived on the land her people call the Island of the Golden-Breasted Woodpecker. Although the chimookoman, white people, encroach more and more on their land, life continues much as it always has. Every summer the family builds a new birchbark house; every fall they go to ricing camp to harvest and feast; they move to the cedar log house before the first snows arrive, and celebrate the end of the long, cold winters at maple-sugaring camp. In between, Omakayas fights with her annoying little brother, Pinch, plays with the adorable baby, Neewo, and tries to be grown-up like her beautiful older sister, Angeline. But the satisfying rhythms of their lives are shattered when a visitor comes to their lodge one winter night, bringing with him an invisible enemy that will change things forever. Set on an island in Lake Superior in 1847, and filled with fascinating details of traditional Ojibwa life, *The Birchbark House* is a breathtaking novel by one of America's most gifted and original writers.

♥ The Dream Bearer

Walter Dean Myers

HarperCollins (June 1, 2003)

Summary:

I wonder what kind of dreams Reuben has. When I thought about him dreaming, I thought of him having a storm in his head, with lightning and far-off thunder and the wind blowing big raindrops and a bigger storm coming just down the street, just around the corner, like a monster waiting for you. I thought Reuben dreamed of monsters that scared him. They scared me too. David doesn't know what to make of his father, Reuben. His older brother, Tyrone, says Reuben is crazy. But Tyrone is acting like someone David doesn't know anymore. Then David meets Mr. Moses, a mysterious man who tells him that dreams might be the only things we have that are real. And it is Mr. Moses' gift of dreams that gives David a new way to see inside his father's heart. Printz Award winner Walter Dean Myers deftly draws a compassionate portrait of a boy's odyssey of self-discovery and the acceptance and empathy for others he learns along the way.

♥ **The House Baba Built**
An Artist's Childhood in China

Ed Young

Little, Brown Books for Young Readers (October 3, 2011)

Summary:

I knew nothing could happen to us within those walls, in the house Baba built. In Ed Young's childhood home in Shanghai, all was not as it seemed: a rocking chair became a horse; a roof became a roller rink; an empty swimming pool became a place for riding scooters and bikes. The house his father built transformed as needed into a place to play hide-and-seek, to eat bamboo shoots, and to be safe. For outside the home's walls, China was at war. Soon the house held not only Ed and his four siblings but also friends, relatives, and even strangers who became family. The war grew closer, and Ed watched as planes flew overhead and friends joined the Chinese air force. But through it all, Ed's childhood remained full of joy and imagination. This powerful, poignant, and exquisitely illustrated memoir is the story of one of our most beloved children's illustrators and the house his baba built.

To save the camp, Percy needs the help of his best friend, Grover, who has been taken prisoner by the Cyclops Polyphemus on an island somewhere in the Sea of Monsters, the dangerous waters Greek heroes have sailed for millennia—only today, the Sea of Monsters goes by a new name...the Bermuda Triangle. Now Percy and his friends—Grover, Annabeth, and Tyson—must retrieve the Golden Fleece from the Island of the Cyclopes by the end of the summer or Camp Half-Blood will be destroyed. ♥ The View from Saturday

E.L. Konigsburg

Atheneum Books for Young Readers (February 1, 1998)

Summary:

HOW HAD MRS. OLINSKI CHOSEN her sixth-grade Academic Bowl team? She had a number of answers. But were any of them true? How had she really chosen Noah and Nadia and Ethan and Julian? And why did they make such a good team? It was a surprise to a lot of people when Mrs. Olinski's team won the sixth-grade Academic Bowl contest at Epiphany Middle School. It was an even bigger surprise when they beat the seventh grade and the eighth grade, too. And when they went on to even greater victories, everyone began to ask: How did it happen? It happened at least partly because Noah had been the best man (quite by accident) at the wedding of Ethan's grandmother and Nadia's grandfather. It happened because Nadia discovered that she could not let a lot of baby turtles die. It happened when Ethan could not let Julian face disaster alone. And it happened because Julian valued something important in himself and saw in the other three something he also valued. Mrs. Olinski, returning to teaching after having been injured in an automobile accident, found that her Academic Bowl team became her answer to finding confidence and success. What she did not know, at least at first, was that her team knew more than she did the answer to why they had been chosen. This is a tale about a team, a class, a school, a series of contests and, set in the midst of this, four jewel-like short stories -- one for each of the team members -- that ask questions and demonstrate surprising answers.

The War to End All Wars

World War I

Russell Freedman

Clarion Books (2010)

**Summary:**

Nonfiction master Russell Freedman illuminates for young readers the complex and rarely discussed subject of World War I. The tangled relationships and alliances of many nations, the introduction of modern weaponry, and top-level military decisions that resulted in thousands upon thousands of casualties all contributed to the "great war," which people hoped and believed would be the only conflict of its kind. In this clear and authoritative account, the Newbery Medal-winning author shows the ways in which the seeds of a second world war were sown in the first. Numerous archival photographs give the often disturbing subject matter a moving visual counterpart. Includes source notes, a bibliography, and an index.

Summary:

"A stunning graphic memoir recounting actor/author/activist George Takei's childhood imprisoned within American concentration camps during World War II. Experience the forces that shaped an American icon -- and America itself -- in this gripping tale of courage, country, loyalty, and love. George Takei has captured hearts and minds worldwide with his captivating stage presence and outspoken commitment to equal rights. But long before he braved new frontiers in Star Trek, he woke up as a four-year-old boy to find his own birth country at war with his father's -- and their entire family forced from their home into an uncertain future. In 1942, at the order of President Franklin D. Roosevelt, every person of Japanese descent on the west coast was rounded up and shipped to one of ten 'relocation centers', hundreds or thousands of miles from home, where they would be held for years under armed guard. They Called Us Enemy is Takei's firsthand account of those years behind barbed wire, the joys and terrors of growing up under legalized racism, his mother's hard choices, his father's faith in democracy, and the way those experiences planted the seeds for his astonishing future. What is American? Who gets to decide? When the world is against you, what can one person do?"--

♥ We Are the Ship The Story of Negro League Baseball

Kadir Nelson

Hyperion Book CH (January 8, 2008)

Summary:

"We are the ship; all else the sea."—Rube Foster, founder of the Negro National League The story of Negro League baseball is the story of gifted athletes and determined owners; of racial discrimination and international sportsmanship; of fortunes won and lost; of triumphs and defeats on and off the field. It is a perfect mirror for the social and political history of black America in the first half of the twentieth century. But most of all, the story of the Negro Leagues is about hundreds of unsung heroes who overcame segregation, hatred, terrible conditions, and low pay to do the one thing they loved more than anything else in the world: play ball. Using an "Everyman" player as his narrator, Kadir Nelson tells the story of Negro League baseball from its beginnings in the 1920s through its decline after Jackie Robinson crossed over to the majors in 1947. The voice is so authentic, you will feel as if you are sitting on dusty bleachers listening intently to the memories of a man who has known the great ballplayers of that time and shared their experiences. But what makes this book so outstanding are the dozens of full-page and double-page oil paintings—breathtaking in their perspectives, rich in emotion, and created with understanding and affection for these lost heroes of our national game. We Are the Ship is a tour de force for baseball lovers of all ages.

♥ **Witnesses to War** **Eight True-life Stories of Nazi Persecution**

Michael Leapman

Viking (1998)

Summary:

Joseph Steiner and his sister were eight and eleven when the Jews were rounded-up from the Warsaw ghetto. For weeks they hid in abandoned warehouses, escaping only hours before the ghetto was obliterated. When Alexander Michelowski was ten, he was taken from his home in Poland by the Gestapo and sent away for "Germanization", and later to a Hitler Youth Camp. Beata Siegel was sent from Germany to England on the Kindertransporte. It was to be nine years before she saw her mother again. Witnesses to War tells the story of how these children and others from across Europe endured persecution at the hands of the Nazis. Award-winning journalist Michael Leapman provides valuable background and insight into their histories, but it is the stories themselves -- vivid, unembellished and utterly compelling -- that stand as the finest testimony to the courage of the children of the Second World War.

♥ **Zlata's Diary**
A Child's Life in Sarajevo

Zlata Filipović

Viking (1994)

Filip

Summary:

In a voice both innocent and wise, touchingly reminiscent of Anne Frank's, Zlata Filipovic's diary has awoken the conscience of the world. Now thirteen years old, Zlata began her diary just before her eleventh birthday, when there was peace in Sarajevo and her life was that of a bright, intelligent, carefree young girl. Her early entries describe her friends, her new skis, her family, her grades at school, her interest in joining the Madonna Fan Club. And then, on television, she sees the bombs falling on Dubrovnik. Though repelled by the sight, Zlata cannot conceive of the same thing happening in Sarajevo. When it does, the whole tone of her diary changes. Early on, she starts an entry to "Dear Mimmy" (named after her dead goldfish): "SLAUGHTERHOUSE! MASSACRE! HORROR! CRIMES! BLOOD! SCREAMS! DESPAIR!" We see the world of a child increasingly circumscribed by the violence outside. Zlata is confined to her family's apartment, spending the nights, as the shells rain down mercilessly, in a neighbor's cellar. And the danger outside steadily invades her life. No more school. Living without water and electricity. Food in short supply. The onslaught destroys the pieces she loves, kills or injures her friends, visibly ages her parents. In one entry Zlata cries out, "War has nothing to do with humanity. War is something inhuman." In another, she thinks about killing herself. Yet, with indomitable courage and a clarity of mind well beyond her years, Zlata preserves what she can of her former existence, continuing to study piano, to find books to read, to celebrate special occasions - recording it all in the pages of this extraordinary diary.
