

Ohlsen Foods is pleased to be back on campus offering school lunches for the new school year. We are a local business that has been providing Santa Cruz schools with delicious and nutritious lunches for twenty-two years. We have our own licensed commercial kitchen where we prepare lunches for each of the schools we serve.

At a request from the school, we are continuing to offer bag lunches this year. Tuesday we will still offer our heated Bean & Cheese Burrito (with house-made vegetarian refried beans). The other days will be a mix of cold sandwiches, pinwheels and heated entrees that have been prepared shortly before lunchtime and intended to be eaten by hand. When viewing the menu on your computer, you can hover the mouse over each main dish to get a description. All lunches include a vegetable and fruit side dish. When it is feasible, our fruit and vegetable side dishes will use organic produce. Meals will be prepared fresh daily and delivered to campus for distribution shortly before lunch.

Our program is managed directly between you (the customer) and ourselves, freeing school staff from most lunch responsibilities. If you have any questions, suggestions, or concerns, please feel free to contact us directly throughout the year. Each month, we will email a link for the menu to the address you provide us with. The menu can be filled out and submitted directly to us online.
