

**Pampered Pets for Pre-K - 2nd
Needs Assessment for Parents/Students**

When you pamper someone, you give him or her extra attention. Our children sometimes need pampering because of difficulties they have faced or are currently facing. These difficulties could be within the child or the family. As a counselor, I can better understand your child's needs if you give me the information relevant to their needs. Being informed helps me understand the challenge the child is facing.

In giving me this information, you are not signing your child up for individual counseling. I provide guidance lessons each month for the classes as a whole. I will use this information to monitor your child and give them support in the areas needed. If individual counseling or a small group placement would be helpful, I will contact you.

Please put this in a sealed envelope for **confidentiality**. Address the envelope to me and the teacher will get it to me. **If there are no present needs, keep this form for future use if needed.**

Robyn Raven, PreK-2nd Counselor
