

HCS#3 BOARD REPORT

MONROE SCHOOL

11 February 2025

Here's what has happened in the last month and what's to come!

I am thrilled to share with you the latest developments at Monroe School and our efforts to make a positive impact in our community.

We are finally moving forward with our mural project! Students will be partnering with artist, Matteo Miles on two large murals on the walls of our courtyard with room in the middle for an outdoor movie screening space (see image above). Matteo is a multidisciplinary designer and muralist from Greenville, South Carolina. Additionally, Matteo has collaborated with Starbucks, Walmart, Marriott Hotels and many franchises to residential spaces. Many of his murals also specialize in local history of the Upstate and surrounding areas to celebrate the best elements of each town and major landmarks, designed to last a lifetime.

I speak for everyone at Monroe School, EOYCF, and OYA when I say, "We are all excited to see what he develops while collaborating with our students for the two 16 x 16' murals!" The design will envelope a dynamic celebration of community and motivating landscapes. Colorful pathways radiate outward representing the journey of self-discovery and highlight potential for the future. Playful elements like abstract shapes and expressive splashes of paint reflect creativity and the power of imagination.

You can see more of Matteo's work on Instagram @matteomilesmurals or website www.matteom.com.
