Unit Title: Political & Economic Contributions

OVERVIEW OF UNIT:

This unit shall include instruction on the political and economic contributions of persons with disabilities and lesbian, gay, bisexual, and transgender people, in an appropriate place in the curriculum.

Big Ideas

- Political contributions of persons with disabilities and lesbian, gay, bisexual, and transgender people
- Economic contributions of persons with disabilities and lesbian, gay, bisexual, and transgender people

Essential Questions

- What are the political contributions of persons with disabilities and lesbian, gay, bisexual, and transgender people?
- What are the economic contributions of persons with disabilities and lesbian, gay, bisexual, and transgender people?

Objectives

- Students will be able to identify the political contributions of persons with disabilities and lesbian, gay, bisexual, and transgender people.
- Students will be able to identify the economic contributions of persons with disabilities and lesbian, gay, bisexual, and transgender people.

Assessment

Formative Assessment:

- observation
- self-reflections
- teacher-student conferences

Summative Assessment:

- online quizzes & tests

Activities:

- LGTBQ History Timeline - In this lesson, students learn about important leaders and events throughout LGBTQ American history. They hear stories about Francis Bacon, a noted gay man who coined the term “masculine love”(1623), brilliant trans women of color, Marsha P. Johnson and Sylvia Rivera, who led the revolution at Stonewall (1969), and when Audre Lorde, a critically acclaimed novelist, poet, and fierce civil rights activist is named as the state poet of New York (1991). Students are each given a History Card with an important event from LGBTQ history and are asked to guess their place in chronological order. This activity allows for the sharing of these often untold stories and also facilitates a much-needed discussion about the erasure of LGBTQ history in what is considered American history, and the value of critical thinking in history classes. After examining the LGBTQ visibility (or invisibility) in their current history curriculum or textbooks, students proactively create newspaper articles using Google Apps to highlight the stories of LGBTQ leaders and bring them into the classroom. <https://www.glsen.org/activity/lgbtq-history-timeline-lesson>

Activities:

- **Challenging Assumptions** - This lesson provides students an opportunity to experience what it’s like to be labeled in a negative way, and as a result, develop empathy for those whom others label, even though those labels don’t fit. <https://www.glsen.org/activity/challenging-assumptions>

Standard	Student Learning Objectives
9.4.8.GCA.2	Demonstrate openness to diverse ideas and perspectives through active discussions to achieve a group goal.

Careers	
Activities: LGBTQ Supreme Court Case - Read and discuss articles related to the Supreme Court decision in regards to LGBTQ job discrimination. Then students will role-play scenarios from work situations to show how to make all feel more included in the work environment.	
Practice	Description
Act as a responsible and contributing community members and employee.	Students understand the obligations and responsibilities of being a member of a community, and they demonstrate this understanding every day through their interactions with others. They are conscientious of the impacts of their decisions on others and the environment around them. They think about the near-term and long-term consequences of their actions and seek to act in ways that contribute to the betterment of their teams, families, community and workplace. They are reliable and consistent in going beyond the minimum expectation and in participating in activities that serve the greater good
Model integrity, ethical leadership and effective management.	Students consistently act in ways that align personal and community-held ideals and principles while employing strategies to positively influence others in the workplace. They have a clear understanding of integrity and act on this understanding in every decision. They use a variety of means to positively impact the directions and actions of a team or organization, and they apply insights into human behavior to change others' action, attitudes and/or beliefs. They recognize the near-term and long-term effects that management's actions and attitudes can have on productivity, morals and organizational culture.
Plan education and career paths aligned to personal goals.	Students take personal ownership of their own education and career goals, and they regularly act on a plan to attain these goals. They understand their own career interests, preferences, goals, and requirements. They have perspective regarding the pathways available to them and the time, effort, experience and other requirements to pursue each, including a path of entrepreneurship. They recognize the value of each step in the education and experiential process, and they recognize that nearly all career paths require ongoing education and experience. They seek counselors, mentors, and other experts to assist in the planning and execution of career and personal goals.

Differentiation
Students with 504 plans
- Preferential seating - Guided notes - Extra time - Teacher check-ins - Use graphic organizers - Redirect attention - Prioritize tasks - Small group testing

- Provide modifications & accommodations per individual student's 504 plan

Special Education

- Provide modifications & accommodations as listed in the student's IEP
- Position the student near a helping peer or have quick access to the teacher
- Modify or reduce assignments/tasks
- Reduce the length of the assignment for different modes of delivery
- Increase one-to-one time
- Prioritize tasks
- Use graphic organizers
- Use online resources for skill-building
- Provide teacher notes

Standard	Standard Description
7.SP.A.1	Understand that statistics can be used to gain information about a population by examining a sample of the population; generalizations about a population from a sample are valid only if the sample is representative of that population. Understand that random sampling tends to produce representative samples and support valid inferences.
7.SP.A.2	Use data from a random sample to draw inferences about a population with an unknown characteristic of interest. Generate multiple samples (or simulated samples) of the same size to gauge the variation in estimates or predictions. For example, estimate the mean word length in a book by randomly sampling words from the book; predict the winner of a school election based on randomly sampled survey data. Gauge how far off the estimate or prediction might be.

Unit Title: LGBTQ History, including events & pioneers

OVERVIEW OF UNIT:

This unit shall include instruction on important LGBTQ historical events and about towering figures like two of New Jersey's own: Babs Siperstein, a transgender equality pioneer, and Marsha P. Johnson, who ignited the Stonewall Riots. Students will also learn about Harvey Milk, one of the first openly gay elected officials in America, and Bayard Rustin, Martin Luther King's closest adviser who organized the March on Washington - and many more.

Big Ideas

- Historical events
- Turning points in history
- Pioneers

Essential Questions

- How were LGBTQ people involved in important parts of American history?
- What events helped pave the way for LGBTQ people to have equal rights?
- Who were some of the pioneers leading the way in the struggle for equal rights for LGBTQ people?

Objectives

- Students will be able to explain how LGBTQ people were involved in important parts of American history.
- Students will be able to identify specific events that helped pave the way for equal rights for LGBTQ people.
- Students will be able to identify pioneers in the struggle for equal rights for the LGBTQ community.
