

## Supplies for Calculus/Precalculus

---

- Textbook or E Book
- Large spiral notebook with pockets (at least 3 subjects)
- Pencils
- Scientific calculator (I will teach using the TI – 36X Pro). These calculators are ACT approved. You may purchase them online through Amazon.com for around \$20.
- **All Calculus and Precalculus students are required to purchase an access to the online homework that will be accessed through WebAssign.** Last year the cost of this was around \$50. I will tell the students the exact amount and set up their accounts once school begins. This site is what Auburn, Alabama, and Troy use in their math departments.
  
- **Precal** – please bring a roll of paper towels
- **Calculus** – please bring a box of tissues

## Supplies for Physics

---

- Spiral notebook with pockets
- Pencils
- Scientific calculator (I will teach using the TI – 36X Pro). These calculators are ACT approved. You may purchase them online through Amazon.com for around \$20.
