

December 2021 - Survey Question 15

Do you have feedback regarding our Safe Return to In-Person Instruction and Continuity of Services? What specific input would you like AWBLA to consider as we continue to review and revise our Safe Return to In-Person Instruction and Continuity of Services Plan? We invite you to use the space provided below to share your ideas with us.

A phone call to let us know our students were in contact with someone who had COVID. Not just an email.
Allow parents on campus
Better learning environment
Bring back all the schools activities for the students. So that they enjoy school because we all been through a lot due to Covid-19
Consider virtual learning options
Doing more virtual meetings and trainings. Providing rapid testing for staff members weekly.
Ensure mask are being used and provided to children who don't have any
Ensure that students are wearing mask and following the 6ft apart protocol
Evanstia43@gmail.com
everyone needs to wear a mask at school
Everything you have gone over be keep in place while the students are in the classroom
Face mask requirements and getting vaccinated
for the students who arrive to school with masks on, please encourage the teachers to enforce those specific children to wear their masks when they're not eating.
How safe is in person I want my scholar and all scholars to learn and get the best educational experience however I don't want my child or any one else's exposed to this disease.
I feel it is very important to take into consideration the safeness of scholars and staff and return to virtual instruction. Covid is continuing to spread and is not under control. Many staff and students are testing positive daily and are spreading germs. Social distance is not being practice on our campus and we do not have PPE equipment to protect everyone. Our janitorial staff is also limited and all rooms are not cleaned daily. We MUST protect our scholars and staff and rethink being in person.
I love the new drive line number pick up procedure it had made pick up quicker.
I want there to be a virtual option for my scholar. I will most likely be transferring to another district that does offer it.
I would appreciate if you consider attendance dealing with COVID. Unfortunately, some students will and have caught it, and i don't think it's fair that they be retained or anything dealing with something that's out of our control
I would love to go virtual again honestly
If the school is open/ parents should be able to at least bring Pre-K 3-4 to classroom
Keep doing what you all are doing.
Less scholars in the classroom to help prevent Covid-19
Make sure kids don't have Covid
Mask mandate
MASK REQUIRED
More tutoring teachers that will respond back to parents
My personal opinion I feel that it good that the school is doing this because some students really go through but is so scared to come out an express their feelings
None
None

none
None
Not all parents can have kids at home for virtual learning because of work during
Not at this time
One morning my son left his lunch, I tried to bring it up to the school and was told he couldn't receive it, the next day he had an really bad allergic reaction. I understand covid but something different has to be done in situations like these
Positive covid results. A better feedback on the cases.
Positive covid results. A better feedback on the cases.
Provide mask, implement social distancing And proper nutrition for scholars
Provide plenty of PPE and monitor social distancing strictly to avoid further contamination.
Put praying every morning back in school to remove Covid-19 Racism and evil spirits...
Required Masks, Bottled Sanitizer, Lysol Spray, Instructional Supplies
Sadly as much as we would love COVID to go away it's here to stay and sadly I fear there will be students and staff attending school daily who may or may not know they are a carrier of the virus and spread it. That affects other family households. This matter needs to be taken more seriously.
Social distancing is lacking
Temperature checks
The holiday surge in Covid-19 cases makes me feel unsafe sending my Pre-K student back in person.
The school needs to find better ways to communicate with parents in all situations. I would prefer in-person because parents can wear a mask just as well as staff to help keep the lines of communication open.
To go back to having events. All other schools have started back activities except for A W Brown. The students still need a social life and enjoy coming to school. There was no picture day or Christmas program. Covid is here and we have to learn to live with it
We need to be virtual.
What Covid is and how to protect yourself.
Why there are no school buses?
With the numbers going up on children with the new form of covid I think virtual learning should be an option.
Writing her name
Yes
Yes my concern is A.W.Brown is going to take consideration in making sure kids and the staff taking Covid Testing.
