Books:

Book One: The Hobbit by JRR Tolkien

Assignment:

- The Hobbit by JRR Tolkien
 - **Choose one of the following prompts:** Essay should be typed 12 size font, times new roman, doubled spaced and **AT LEAST 3 PAGES LONG.**
- Prompt A:
 - Analyze the motif of the hero's journey in The Hobbit. In what ways does Bilbo Baggins experience the steps of an archetypal hero journey? Does Bilbo fit the description of an archetypal hero? Compare this story to another classical or modern quest narrative. How is Bilbo similar to other heroes in literature? How is he different?
- Prompt B:
 - Examine the treatment of race in The Hobbit. Is it fair to suggest that all members of a certain group (dwarves, trolls, goblins, elves, etc.) share the same characteristics? How does this treatment of ethnic groups reflect the cultural perspective of the first half of the twentieth century? How might the book be different if it were written today?
- Prompt C:
 - Elaborate on the themes that you noticed throughout the book and how the conclusion/ending of this story emphasized any of those themes. Why didn't Tolkien just end the book after the battle? What is the purpose of devoting two chapters to Bilbo's return? How do these chapters help develop the character and/or important themes?
- Prompt D:
 - Tolkien includes traditional creatures such as elves, dwarves, dragons, trolls, goblins, and wizards in his story. Choose one of these creatures and research its appearance in world myths, legends, and folktales. Compare your research to the book and give examples of where you think specific tales inspired Tolkien when he created his creatures. In what ways did he transform the source material (your research) of the traditional stories and legends? What characteristics of the creatures did Tolkien emphasize and what did he omit? What do his changes reveal about his values and his purpose in creating Middle-earth?
