WHAT IF I'M ABSENT?

If you are absent, it is YOUR responsibility to obtain and communicate with the teacher about makeup work. You MUST CHECK GOOGLE CLASSROOM before asking the teacher. You have 3 days to make up missing work.

ABOUT THE COURSE

Small Animal Science is an intermediate course in animal science and care for students interested in learning more about becoming a veterinarian, vet tech, vet assistant, or pursuing a variety of scientific, health, or agriculture professions. This course covers anatomy and physiological systems of different groups of small animals, as well as careers, leadership, and history of the industry. Upon completion of this course, proficient students will be prepared for more advanced coursework in veterinary and animal science.

GRUNDY COUNTY FFA CHAPTER

The National FFA Organization remains committed to the individual student, providing a path to achievement in premier leadership, personal growth and career success through agricultural education. FFA continues to help the next generation rise up to meet those challenges by helping its members to develop their own unique talents and explore their interests in a broad range of agricultural career pathways. We participate in competitions throughout the year, along with attending State Convention.

PICTURE & ANIMAL CLAUSE

From time to time we take pictures of the students working in class, on projects, and at FFA activities. Please make sure your media release is turned in to the office.

This course is part of the Veterinary and Animal Systems pathway within the Agricultural Education Cluster. We do have live animals within the classroom. Students may be interacting with live animals for portions of the class. Students are expected to be respectful of the animals and their habitats.
